Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Springfield, Missouri, marketing area shall be in conformity to and in compliance with the following terms and conditions:

DEFINITIONS

§ 921.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 921.2 *Secretary.* "Secretary" means the Secretary of Agriculture or other officer or employee of the United States authorized to exercise the powers or to perform the duties, pursuant to the act of the Secretary of Agriculture.

§ 921.3 *Department.* "Department" means the United States Department of Agriculture or such other Federal agency as is authorized to perform the price reporting functions specified herein.

§ 921.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 921.5 *Delivery period.* "Delivery period" means a calendar month during which this order or any amendment thereto is in effect.

§ 921.6 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines (a) to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act", (b) to have full authority in the sale of milk of its members, and (c) to be engaged in making collective sales or marketing milk or its products for its members.

§ 921.7 *Springfield, Missouri, marketing area.* "Springfield, Missouri, marketing area," hereinafter called the marketing area, means all of the territory within the limits of the city of Springfield, Missouri.

§ 921.8 *Producer.* "Producer" means any person other than a producer-handler who produces milk under a dairy farm permit or rating issued by the appropriate health authority of the City of Springfield, Missouri, for the production of milk intended for consumption as Grade A milk in the marketing area, which milk is received at an approved plant directly from the farm at which produced, or is caused to be diverted by a handler from an approved plant to an unapproved plant. Milk so diverted shall be deemed to have been received at an approved plant by the handler who caused it to be diverted. This definition shall not include a person defined as a producer under another Federal milk marketing order with respect to milk produced by him which is received at a plant operated by a handler who is subject to regulation with respect to such milk under such other order and who is partially exempt from the provisions of this order pursuant to § 921.62.

§ 921.9 *Handler.* "Handler" means:

(a) Any person in his capacity as the operator of an approved plant; or

(b) Any cooperative association with respect to the milk of any producer which is diverted from an approved plant to an unapproved plant by such cooperative association for its account.

§ 921.10 *Approved plant.* "Approved plant" means any milk plant or portion thereof which is approved by the appropriate health authority of the City of Springfield, Missouri, for the handling of milk in the marketing area, and from which Class I milk is disposed of in the marketing area on wholesale or retail routes (including plant stores and routes operated by vendors.)

§ 921.11 *Unapproved plant.* "Unapproved plant" means any milk processing, distributing, or manufacturing plant which is not an approved plant.

§ 921.12 *Producer milk.* "Producer milk" means all skim milk and butterfat produced by a producer, which is received by a handler either directly from such producers or from other handlers.

§ 921.13 *Other source milk.* "Other source milk" means all skim milk and butterfat other than that contained in producer milk.

§ 921.14 *Producer-handler.* "Producer-handler" means any person who produces milk and operates an approved plant, but who receives no milk from producers.

MARKET ADMINISTRATOR

§ 921.20 *Designation.* The agency for the administration hereof shall be a market administrator, selected by the Secretary who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 921.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violation;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 921.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to the following:

(a) Within 45 days following the date upon which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Cause to be paid out of the funds provided by § 921.87 the cost of his bond and those of his employees, his own compensation, and all other expenses (except those incurred under § 921.86) necessarily incurred by him in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for herein and upon request by the Secretary surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as the Secretary may request;

(g) Audit all reports and payments of each handler by inspection of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends;

(h) Publicly disclose at his discretion unless otherwise directed by the Secretary, the name of any person who, within 15 days after the date upon which he is required to perform such acts, has not made (1) reports pursuant to §§ 921.30 through 921.32, or (2) payments pursuant to §§ 921.80 through 921.87.

(i) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate the prices and butterfat differentials determined for each delivery period as follows:

(1) On or before the 6th day after the end of each delivery period, the prices and butterfat differentials for each class of milk computed pursuant to §§ 921.51 and 921.52; and

(2) On or before the 12th day after the end of such delivery period, the uniform price computed pursuant to § 921.71 and the butterfat differential computed pursuant to § 921.82; and

(j) Prepare and disseminate publicly such statistics and information as he deems advisable and as do not reveal confidential information.

REPORTS, RECORDS AND FACILITIES

§ 921.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each delivery period, each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator:

(a) The quantities of skim milk and butterfat contained in all receipts at each of his approved plants within such delivery period.

(1) Of milk from producers (including his own farm production),

(2) From other handlers, and

(3) Of other source milk (except nonfluid Class II products disposed of in the form in which received without further processing or packaging by the handler),

(b) The utilization of all skim milk and butterfat required to be reported pursuant to paragraph (a) of this section, including a separate statement of the disposition of Class I milk on routes wholly outside of the marketing area;

(c) The name and address of each producer from whom milk was received for the first time, and the date on which such milk was first received;

(d) The name and address of each producer who discontinued deliveries of milk, and the date on which delivery ceased; and

(e) Such other information with respect to receipts and utilization as the market administrator may prescribe.

§ 921.31 *Reports of payments to producers.* On or before the 20th day after the end of each delivery period, each handler who purchased or received milk from producers shall submit to the market administrator his producer payroll for such delivery period which shall show for each producer:

(a) The total pounds of milk received and the average butterfat content thereof,

(b) The amount of payment to each producer or cooperative association, with the prices, deductions, and charges involved.

§ 921.32 *Reports of producer-handlers.* Each producer-handler shall make report to the market administrator

at such time and in such manner as the market administrator may prescribe.

§ 921.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business, such accounts and records of his operations, and such facilities, as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of all receipts of producer milk and other source milk;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and milk products handled;

(c) Payments to producers and cooperative associations; and

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and each milk product on hand at the beginning and end of each delivery period.

§ 921.34 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if within such three year period, the market administrator notifies the handler in writing that the retention of such books and records or of specified books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records or specified books and records until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the books and records are no longer necessary in connection therewith.

CLASSIFICATION

§ 921.40 *Basis of classification.* All skim milk and butterfat received within the delivery period by a handler at his approved plant(s) which is required to be reported pursuant to § 921.30 shall be classified by the market administrator pursuant to the provisions of §§ 921.41 to 921.46.

§ 921.41 *Classes of utilization.* Subject to the conditions set forth in §§ 921.43 and 921.44, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk and butterfat disposed of in fluid form as milk, skim milk, buttermilk, milk drinks (plain or flavored), cream (fresh or sour) and products required by the health authority of the City of Springfield, Missouri, to be made from approved butterfat and skim milk; and all skim milk and butterfat not specifically accounted for under paragraph (b) of this section.

(b) Class II milk shall be all skim milk and butterfat, (1) used to produce any product other than those specified in paragraph (a) of this section, (2) in inventory variation of milk, skim milk, cream, or any Class I product, (3) in shrinkage allocated to receipts of milk from producers, but not in excess of 2 percent of such receipts of skim milk and butterfat, respectively, and (4) in shrinkage allocated to receipts of other source milk.

§ 921.42 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat respectively for each handler; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat in producer milk and in other source milk.

§ 921.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 921.44 *Transfers.* Skim milk or butterfat disposed of by a handler either by transfer or diversion shall be classified:

(a) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to the approved plant of another handler (except a producer-handler) unless utilization in Class II is mutually indicated in writing to the market administrator by both handlers on or before the seventh day after the end of the delivery period within which such transaction occurred: *Provided,* That the skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II in the plant of the transferee handler after the subtraction of other source milk pursuant to § 921.46 and any additional amounts of such skim milk or butterfat shall be assigned to Class I milk: *And provided further,* That if either or both handlers have received other source milk, the skim milk or butterfat so transferred or diverted shall be classified at both plants so as to allocate the greatest possible Class I utilization to producer milk;

(b) As Class I milk if transferred to a producer-handler in the form of milk, skim milk, or cream;

(c) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to an unapproved plant located 125 miles or more by shortest highway distance, as determined by the market administrator, from the City Hall in Springfield, Missouri;

(d) As Class I milk if transferred or diverted in the form of milk, skim milk or cream to an unapproved plant located less than 125 miles from the City Hall in Springfield, Missouri, unless:

(1) The handler claims Class II on the basis of utilization mutually indicated in writing to the market administrator by both buyer and seller on or before the seventh day after the end of the delivery period within which such transaction occurred;

(2) The buyer maintains books and records showing the utilization of all skim milk and butterfat at his plant which are made available if requested by the market administrator for the purpose of verification; and

(3) Not less than an equivalent amount of skim milk and butterfat was actually used as Class II milk in such buyer's plant.

§ 921.45 *Computation of skim milk and butterfat in each class.* For each delivery period the market administrator shall correct mathematical and other obvious errors in the report of receipts and utilization submitted by each handler, and shall compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk, for such handler.

§ 921.46 *Allocation of skim milk and butterfat classified.* After computing the classification of all skim milk and butterfat received by a handler pursuant to § 921.45, the market administrator shall determine the classification of milk received from producers as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk determined pursuant to § 921.41 (b) (3);

(2) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk contained in other source milk;

(3) Subtract from the pounds of skim milk remaining in each class the skim milk received from other handlers according to its classification pursuant to § 921.44 (a);

(4) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph;

(5) If the pounds of skim milk remaining in both classes exceed the pounds of skim milk received in milk from producers, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be known as "overage."

(b) Determine the pounds of butterfat in each class to be allocated to milk received from producers in the same manner prescribed for skim milk in paragraph (a) of this section.

(c) Add the pounds of skim milk and the pounds of butterfat allocated to milk received from producers in each class, respectively, as computed pursuant to paragraphs (a) and (b) of this section and determine the weighted average butterfat content of the milk in each class.

MINIMUM PRICES

§ 921.50 *Basic formula price.* The basic formula price per hundredweight to be used in determining the prices set forth in § 921.51 shall be the higher of the prices per hundredweight for milk of 3.5 percent butterfat content computed pursuant to paragraphs (a) and (b) of this section.

(a) Determine the arithmetic average of the basic or field prices to be paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the delivery period at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture:

Present Operator and Location

Carnation Co., Ava, Mo.
Carnation Co., Seymour, Mo.

White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed as follows: Multiply by 3.5 the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the Department during the delivery period, add 20 percent thereof, and add or subtract, as the case may be, to such sum 3½ cents for each full ½ cent that the weighted average of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding delivery period through the 25th day of the current delivery period by the Department, is above 5½ cents.

§ 921.51 *Class prices.* Subject to the differentials set forth in § 921.52, the minimum prices per hundredweight to be paid by each handler for milk received at his plant from producers during the delivery period shall be as follows:

(a) *Class I milk.* The price for Class I milk shall be the basic formula price plus the following amounts: $1.08 for the delivery periods of July through December; 83 cents for the delivery periods of January through March; and 63 cents for the delivery periods of April through June: *Provided,* That if, after this order shall have been effective for 12 months, during the 12 months prior to the month immediately preceding each of the following delivery period groups, the total volume of milk received from producers by all handlers was more or less than 115 percent of the total Class I milk disposed of by all handlers (other than producer-handlers, and those partially exempt from this part pursuant to § 921.62) during such 12 months period the following adjustments shall be made to the price for Class I milk for the respective groups of delivery periods:

Delivery period group	For each percentage point that receipts from producers as a percent of class 1 milk is	
	Below 115 percent (add)	Above 115 percent (subtract)
	Cents	*Cents*
January through March	1	2
April through June	0	2
July through December	2	2

And provided further, That for all delivery periods other than April, May and June from the effective date of this part until the date at which any adjustment, if required, could be effective under the proviso immediately preceding, the Class I price shall be increased 15 cents per hundredweight.

(b) *Class II milk.* The price for Class II milk shall be the basic formula price, except that for the delivery periods of April, May, June and July 1951 the price for Class II milk shall be such basic formula price less 15 cents.

§ 921.52 *Butterfat differentials to handlers.* If the weighted average butterfat content of the milk received from producers classified respectively, in Class I milk or Class II milk for a handler is more or less than 3.5 percent, there shall be added to, or subtracted from, the respective class price computed pursuant to § 921.51 for each one-tenth of one percent that such weighted average butterfat content is above or below 3.5 percent, a butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the Department during the delivery period by the applicable factor listed below and dividing the result by 10:

(a) *Class I milk.* Multiply by 1.25:
(b) *Class II milk.* Multiply by 1.20.

APPLICATION OF PROVISIONS

§ 921.60 *Producer-handlers.* The provisions of §§ 921.40 through 921.46, 921.50 through 921.52, 921.61, 921.70 and 921.71, 921.80 through 921.88, shall not apply to a producer-handler.

§ 921.61 *Interhandler transfers.* Milk which is caused to be diverted by a handler directly from producers' farms to an approved plant of another handler for not more than 15 days during any delivery period shall be considered as having been received by the handler who caused the milk to be diverted; milk received at an approved plant for more than 15 days during any delivery period shall be considered to have been received by the handler who operates such approved plant.

§ 921.62 *Milk priced under other Federal orders.* In case skim milk or butterfat which is priced under another Federal milk marketing agreement or order issued pursuant to the act is disposed of as Class I milk in the marketing area on a route operated by or for a handler who is subject to regulation as a handler as defined in such other agreement or order, the provisions of this part shall not apply except as follows:

(a) The handler shall, with respect to his total receipts and utilization of milk, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(b) If the price which such handler is required to pay under the other Federal order to which he is subject for milk which would be classified as Class I milk under this part, is less than the price provided by this part, such handler shall pay to the market administrator for deposit into the producer-settlement fund (with respect to all milk disposed of as Class I milk within the marketing area) an amount equal to the difference between the value of such milk as computed pursuant to this order and its value as determined pursuant to the other order to which he is subject.

DETERMINATION OF UNIFORM PRICE

§ 921.70 *Computation of value of milk.* The value of milk received during each delivery period by each handler from producers shall be the sum of money computed by the market administrator by multiplying the pounds of such milk in each class by the applicable class prices, and adding together the resulting amounts: *Provided,* That if the handler had overage of either skim milk or butterfat, there shall be added an amount computed by multiplying the pounds of overage deducted from each class pursuant to § 921.46 by the applicable class prices.

§ 921.71 *Computation of uniform price.* For each delivery period the market administrator shall compute the uniform price per hundredweight for milk of 3.5 percent butterfat content received from producers as follows:

(a) Combine into one total the values computed pursuant to § 921.70 of all handlers who made the reports prescribed in § 921.30 and who made the payments prescribed in §§ 921.80 through 921.83 for the previous delivery period;

(b) Add the unobligated balance in the producer-settlement fund;

(c) Subtract, if the weighted average butterfat content of the milk included in these computations is greater than 3.5 percent, or add, if such average butterfat content is less than 3.5 percent, an amount computed by multiplying the amount by which the butterfat content of such milk varies from 3.5 percent by the butterfat differential computed pursuant to § 921.81, and multiplying the resulting figure by the total hundredweight of such milk;

(d) Divide the resulting amount by the total hundredweight of milk included in these computations; and

(e) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (d) of this section. The resulting figure shall be the uniform price for milk of 3.5 percent butterfat content received from producers.

PAYMENTS

§ 921.80 *Time and method of payment.* Each handler shall make payments as follows:

(a) On or before the 15th day after the end of each delivery period, to each producer for whom payment is not received from the handler by a cooperative association pursuant to paragraph (c) of this section, at not less than the uniform price computed pursuant to § 921.71 adjusted by the butterfat differential computed pursuant to § 921.81 and less the amount of (1) the payment made pursuant to paragraph (b) of this section, (2) marketing service deductions pursuant to § 921.88 and (3) deductions authorized by the producer: *Provided,* That if by such date such handler has not received full payment for such delivery period pursuant to § 921.84, he may reduce his total payments to all producers uniformly by not more than the amount of the reduction in payments from the market administrator; and the handler shall, however, complete such payments not later than the date for making payments pursuant to this paragraph next following after receipt of the balance from the market administrator.

(b) On or before the 28th day of each delivery period, to each producer for whom payment is not received from the handler by a cooperative association pursuant to paragraph (c) of this section, for milk received from him during the first 15 days of the delivery period at not less than the Class II price for the preceding delivery period.

(c) On or before the 13th day after the end of each delivery period, and on or before the 26th day of the delivery period, in lieu of payments pursuant to paragraphs (a) and (b), respectively, of this section, to a cooperative association which so requests, with respect to producers for whose milk such cooperative association is authorized to collect payment, an amount equal to the sum of the individual payments otherwise payable to such producers.

(d) In making payments to producers pursuant to paragraph (a) of this section each handler shall furnish each producer with a supporting statement in such form that it may be retained by the producer which shall show:

(1) The delivery period and the identity of the handler and of the producer;

(2) The total pounds of milk delivered by the producer, and the average butterfat test thereof, and the pounds per shipment, if such information is not furnished to the producer each day;

(3) The minimum rate or rates at which payment to the producer is required under the provisions of this section;

(4) The rate which is used in making the payment if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deduction claimed under paragraph (b) of this section and § 921.86 together with a description of the respective deductions; and

(6) The net amount of payment to the producer.

In making payment to a cooperative association pursuant to paragraph (c) of this section, each handler shall furnish the above information to the cooperative association with respect to each producer for whom such payment is made.

(e) Nothing in this section shall abrogate the right of a cooperative association to make payment to its member producers in accordance with the payment plan of such cooperative association.

§ 921.81 *Producer butterfat differential.* In making payments pursuant to § 921.80 (a) each handler shall add to or subtract from the uniform price for each one-tenth of 1 percent that the average butterfat content of the milk received from the producer is above or below 3.5 percent an amount computed by multiplying by 1.2 the simple average as computed by the market administrator of the daily wholesale prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the Department during the delivery period, dividing the resulting sum by 10, and rounding to the nearest one-tenth of a cent.

§ 921.82 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 921.83 and 921.62 (b), and all appropriate payments pursuant to § 921.85 and out of which he shall make all payments to handlers pursuant to § 921.84 and appropriate payments pursuant to § 921.85: *Provided,* That payment due to any handler shall be offset by payments due from such handler.

§ 921.83 *Payments to the producer-settlement fund.* On or before the 13th day after the end of each delivery period, each handler shall pay to the market administrator the amount, if any, by which the value of the milk received by such handler from producers, as determined pursuant to § 921.70, is greater than an amount computed by multiplying the hundredweight of such milk by the uniform price adjusted by the producer butterfat differential.

§ 921.84 *Payments out of the producer-settlement fund.* On or before the 14th day after the end of each delivery period, the market administrator shall pay to each handler the amount, if any, by which the value of the milk received by such handler from producers, as determined pursuant to §921.70 is less than an amount computed by multiplying the hundredweight of such milk by the uniform price adjusted by the producer butterfat differential: *Provided,* That if at such time the balance in the producer-settlement fund is insufficient to make payment pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 921.85 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books,

records, or accounts discloses errors resulting in moneys due (a) the market administrator from such handler, (b) such handler from the market administrator, or (c) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred.

§ 921.86 *Marketing services*—(a) *Deductions.* Except as set forth in paragraph (b) of this section, each handler in making payments to producers (other than himself) pursuant to § 921.80 shall deduct 5 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to all milk received by such handler from producers during the delivery period and shall pay such deductions to the market administrator on or before the 15th day after the end of such delivery period. Such moneys shall be used by the market administrator to verify weights, samples and tests of milk received from, and to provide market information to such producers.

(b) *Deductions with respect to members of a producers' cooperative association.* In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from the payments to be made directly to producers pursuant to § 921.80 (a) as are authorized by the membership agreement or marketing contract between such cooperative association and such producers, and on or before the 15th day after the end of such delivery period, pay over such deductions to the cooperative association rendering such services.

§ 921.87 *Expense of administration.* As his pro rata share of the expense of administration hereof each handler shall pay to the market administrator, on or before the 15th day after the end of the delivery period, 5 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to all receipts within the delivery period of producer milk (including such handler's own production) and other source milk required to be reported.

§ 921.88 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The delivery period during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producer or cooperative association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part to make available to the market administrator all books and records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section notify the handler in writing of such failure or refusal. If the market administrator so notified a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the delivery period during which all such books and records pertaining to such obligation are made available to the market administrator.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 921.90 *Effective time.* The provisons of this part or any amendment to this part shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 921.91.

§ 921.91 *Suspension or termination.* The Secretary may suspend or terminate any or all of the provisions of this part, whenever he finds that they obstruct or do not tend to effectuate the declared policy of the act. This part shall terminate, in any event, whenever the provisions of the act authorizing it cease to be in effect.

§ 921.92 *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all provisions hereof there are any obligations arising under this part the final accrual or ascertainment of which require further acts by any person (including the market administrator) such further acts shall be performed notwithstanding such suspension or termination.

§ 921.93 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part, except this section, the market administrator, or such liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 921.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 921.101 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision and of the remaining provisions of this part to other persons or circumstances shall not be affected thereby.

HANDLING OF MILK IN SPRINGFIELD, MO., MARKETING AREA

ORDER OF SECRETARY DIRECTING THAT REFERENDUM BE CONDUCTED AMONG PRODUCERS; DETERMINATION OF REPRESENTATIVE PERIOD; AND DESIGNATION OF AGENT TO CONDUCT SUCH REFERENDUM

Pursuant to section 8c (19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted among the producers (as defined in the proposed order regulating the handling of milk in the Springfield, Missouri, marketing area), who, during the month of October 1950, were engaged in the production of milk for sale in the marketing area specified in the aforesaid order to determine whether such producers favor the issuance of such order, which is filed simultaneously herewith.[1]

[1] See F. R. Doc. 51-843, *supra*.

The month of October 1950 is hereby determined to be the representative period for the conduct of such referendum.

Wendell M. Costello is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for conducting of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177), such referendum to be completed on or before the 20th day from the date this referendum order is issued.

Done at Washington, D. C., this 15th day of January 1951.

[SEAL] CHARLES F. BRANNAN, *Secretary of Agriculture.*

EXEMPTION OF GINNING OF COTTON AS AN INDUSTRY OF SEASONAL NATURE

PRELIMINARY DETERMINATION

An application has been filed by the Texas Cotton Ginners Association for a determination that the industry engaged in the ginning of cotton constitutes an industry of a seasonal nature, under section 7 (b) (3) of the Fair Labor Standards Act of 1938 (Sec. 7 (b) (3), 52 Stat. 1063; 29 U. S. C. 207 (b) (3)) and the regulations contained in this part.

It appears from the foregoing application that:

1. Cotton is harvested and sent to gins during the fall months.

2. Cotton must be ginned within a relatively short period after harvesting in order to prevent deterioration and to protect the maximum value of the cotton. Most gins are active for only about four months out of the year and 80 to 90 per cent of their cotton is ginned in less than three months.

3. Cotton gins engage in the ginning and baling of cotton during a regularly annually recurring period of the year and cease operations except for maintenance, repair, clerical and sales work during the remainder of the year, because the material processed, owing to climatic or other natural conditions, is not available in the form in which it is processed.

Accordingly, upon consideration of the facts stated in said application, the Administrator hereby determines, pursuant to § 526.5 (b) (2), that a prima facie case has been shown for finding that the industry engaged in cotton ginning constitutes an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938 and § 526.3 (a).

For purposes of this determination, the term "industry engaged in cotton ginning" includes the following operations, when performed during the period or periods when cotton is being received for ginning: The receiving of seed cotton at the gin, the handling, cleaning, ginning and baling of the cotton, the handling of the baled cotton and cottonseed, and any operations or services necessary or incident to the foregoing, including the placing of the cotton and cottonseed in storage or transportation facilities on or near the premises.

If no objections and request for hearing is received within 15 days following the publication of this preliminary determination, the Administrator pursuant to § 526.5 (b) (2), will make a finding upon the prima facie case. Objections and request for hearing from any interested person should be submitted in writing to the Wage and Hour Division, Department of Labor Building, 14th Street and Constitution Avenue, NW., Washington 25, D. C. The application for exemption may be examined in Room 5422 at this address.

Signed at Washington, D. C., this 15th day of January 1951.

WM. R. MCCOMB, *Administrator, Wage and Hour Division.*

[Order No. 2508, Amdt. 1]

BUREAU OF INDIAN AFFAIRS

DELEGATION OF AUTHORITY

1. The following is added to section 10, *Health and welfare matters:*

(g) The negotiation and execution of contracts with states or territories, or political subdivisions thereof, or with any other appropriate state agency or institution, for agricultural assistance, authorized by the act of June 4, 1936 (49 Stat. 1458; 25 U. S. C. secs. 452-454).

2. The following are added to section 11, *Funds and fiscal matters:*

(l) The investment of restricted trust funds of individual Indians, and of group investment of funds held in the accounts of Indian Bureau Special Disbursing Agents, for individual Indians, Indian Associations and Indian Tribes in any public debt of the United States and in bonds, notes, or other obligations which are unconditionally guaranteed as to both principal and interest by the United States, as provided for by the act of June 24, 1938 (52 Stat. 1037), and the investment of funds of Osage Indians as provided by section 4 of the act of March 3, 1921 (41 Stat. 1250) and section 1 of the act of February 27, 1925 (43 Stat. 1008-1009).

(m) The approval of expenditures or advances of tribal funds to the respective tribes for the purposes set forth and as prescribed in the acts of June 7, 1944 (58 Stat. 271); June 20, 1936 (49 Stat. 1543); June 24, 1946 (60 Stat. 302); sec. 3, May 19, 1947 (61 Stat. 102); sec. 7, April 19, 1950 (Pub. Law 474, 81st Cong., 2d Sess.); including supplements or amendments thereto, and under all other acts which may authorize the expenditure or advance of tribal funds to tribes for like purposes.

3. Section 12, *Education,* (a) is amended to read as follows:

(a) The negotiation and execution of contracts with any State or territory, or political subdivisions thereof, or with any State university, college, or school, or with any appropriate State or private corporation, agency, or institution, as authorized by the act of June 4, 1936 (25 U. S. C. sec. 452-454).

4. Section 13 (a), *Lands and minerals,* is amended to read as follows:

(a) The approval of leases for oil, gas and other mining purposes covering restricted tribal and allotted Indian lands pursuant to provisions of 25 CFR Parts 183, 186, 189, 195 and 201. The authority conferred by this paragraph extends to and includes the approval of, or other appropriate administrative action required on, all assignments of mineral leases now or hereafter in force on restricted tribal and allotted Indian lands, bonds and other instruments required in connection with such leases or assignments thereof, unit and communitization agreements, well-spacing orders of the Oklahoma Corporation Commission submitted for approval under authority of section 11 of the act of August 4, 1947 (61 Stat. 731), the acceptance of voluntary surrender of such leases by the

lessees, cancellation of leases for violation of terms thereof, and approval of agreements for settlement of claims for damages to Indian lands resulting from oil and gas or other mineral operations.

5. Section 14 (a), *Oil leases; Osage Indian Agency,* is amended to read as follows:

(a) Approve oil leases made by the Osage Tribal Council only after the approval by the Commissioner of Indian Affairs of the schedule of bids covering the particular sale, and resolutions of the Council extending the prescribed periods for drilling of oil wells within the terms of oil leases.

6. The following is added to section 15, *Irrigation matters:*

(d) The approval of the annual and any supplemental apportionment of water each year for the irrigable lands of the San Carlos Indian Irrigation Project, Arizona.

7. Section 25, *Subdelegation,* is amended to read as follows:

SEC. 25 *Subdelegation.* The authority conferred upon the Commissioner in this order may be subdelegated by him to the Associate Commissioner, Assistant Commissioners, Executive Officer, Chief Counsel, Associate Chief Counsel, Assistant Chief Counsel, Branch Chiefs, Area Directors, Superintendents of detached field offices and of agencies, and such other officers of the Bureau of Indian Affairs as are designated by him. The Commissioner may also subdelegate to such officials the authority conferred upon him by the general regulations appearing in 25 CFR, insofar as such authority relates to action in individual cases. Appeal from an action taken by the Superintendent or other officer of an agency pursuant to a subdelegation of authority under this section shall be taken to the Area Director and thence to the Commissioner. Appeal from an action taken by any other officer of the Bureau of Indian Affairs pursuant to a subdelegation of authority under this section shall be taken to the Commissioner. Appeals from the Commissioner shall be taken to the Secretary of the Interior.

(5 U. S. C. sec. 22; 25 U. S. C. secs. 1a, 2, 2a; sec. 2, Reorg. Plan No. 3 of 1950, 15 F. R. 3174).

8. Sections 20, 21 and 22 of the order of January 11, 1949, 14 F. R. 258-260, are hereby repealed.

OSCAR L. CHAPMAN,
Secretary of the Interior.

TARIFF CLASSIFICATION

NOTICE OF PROSPECTIVE CLASSIFICATION OF FUR FELT BERETS AS HATS IN CHIEF VALUE OF ANIMAL FUR

JANUARY 12, 1951.

It appears probable that a correct interpretation of paragraph 1526 (a) requires that fur felt berets be classified thereunder at a rate of duty higher than that heretofore assessed under an established and uniform practice.

Pursuant to § 16.10a (d), Customs Regulations of 1943, notice is hereby given that the existing uniform practice of classifying such mercahndise under paragraph 1519, Tariff Act of 1930, as modified, as articles in chief value of fur, is under review in the Bureau of Customs.

Consideration will be given to any relevant data, views, or arguments pertaining to the correct tariff classification of this merchandise which are submitted to the Bureau of Customs, Washington 25, D. C., in writing. To assure consideration, such communications must be received in the Bureau not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER. No hearings will be held.

ARKANSAS LOUISIANA GAS CO.

NOTICE OF APPLICATION

JANUARY 12, 1951.

Take notice that Arkansas Louisiana Gas Company (Applicant), a Delaware corporation of Shreveport, Louisiana, filed on December 20, 1950, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain transmission pipeline facilities hereinafter described.

Applicant proposes to construct:

(1) Approximately 8 miles of 14-inch pipeline to parallel Applicant's Existing Line AM-45 in Miller County, Arkansas.

(2) Approximately 5.16 miles of 10 -inch pipeline and 4.63 miles of 8⅝-inch pipeline to replace 9.79 miles of smaller sized pipeline on Applicant's Line CM-14 in Bowie County, Texas.

(3) Miscellaneous short sections of pipeline to extend from Line CM-14 to points within Red River Arsenal, Bowie County, Texas, together with appurtenant metering and regulating facilities.

The proposed facilities are necessary to serve the increased firm requirements of the Red River Arsenal and the domestic and commercial customers in that area. The proposed facilities are estimated to increase the delivery capacity from 1,550 Mcf per hour to 2,050 Mcf per hour with a terminal pressure of 25 pounds.

The estimated cost of the proposed facilities is $331,659 (book cost of facilities to be retired is $40,370), to be financed out of cash reserves.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 31st day of January 1951. The application is on file with the Commission for public inspection.

MISSISSIPPI POWER & LIGHT CO.

NOTICE OF APPLICATION

JANUARY 12, 1951.

Take notice that Mississippi Power & Light Company (Applicant), a Florida corporation with its principal place of business at Jackson, Mississippi, filed on December 21, 1950, an application requesting that it be found not to be a natural-gas company within the meaning of the Natural Gas Act, as amended, and in the alternative for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the lease and operation of certain natural-gas distribution facilities hereinafter described and as more fully described in the application.

Applicant proposes to lease approximately 68,000 feet of 4-inch natural-gas transmission pipe line and appurtenant facilities extending westward from a metering station on the 26-inch pipe line of Texas Gas Transmission Corporation at Pace, Mississippi, to Rosedale, Mississippi; and related distribution facilities in communities along the line through which Applicant proposes to distribute natural gas. Such facilities are owned by the Bolivar Natural Gas District, a municipality in the State of Mississippi.

Applicant also proposes to lease approximately 112,000 feet of 4-inch natural-gas transmission pipeline extending southward from a metering station on the 26-inch pipeline of Texas Gas Transmission Corporation north of Coldwater, to Horn Lake, Nesbit, Hernando and Coldwater, all in Mississippi, and appurtenant facilities and distribution lines in said communities through which Applicant proposes to distribute natural gas. Such facilities are owned by the DeSota Natural Gas District, a municipality of the State of Mississippi.

Protests or petitions to intervene should be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) before the 2d day of February 1951. The application is on file with the Commission for public inspection.

TEXAS GAS TRANSMISSION CORP.

NOTICE OF APPLICATION

JANUARY 12, 1951.

Take notice that on January 3, 1951, Texas Gas Transmission Corporation (Applicant), a Delaware corporation with its principal place of business at Owensboro, Kentucky, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of:

(a) A natural-gas transmission pipeline approximately 195 miles in length (consisting of 160 miles of 26-inch pipeline and 35 miles of 24-inch pipeline) extending from a point in the North Tepetate Field in Acadia Parish, Louisiana, in a northeasterly direction to a point near Applicant's Guthrie, Louisiana, compressor station, and thence in a northeasterly direction to Applicant's Bastrop, Louisiana, compressor station located in Morehouse Parish, Louisiana.

(b) 369 miles of 26-inch loop pipeline, and 2 submarine river crossings under the Mississippi River, adjacent to portions of the Applicant's existing 26-inch pipeline system.

(c) 10½ miles of 8-inch lateral pipeline extending from Applicant's 26-inch main line near Louisville, Kentucky, to the Ohio River; two 8-inch line river crossings under the Ohio River, each approximately 5,600 feet in length; approximately 100 feet of 8-inch lateral pipeline extending northward from the Ohio River to a point near New Albany, Indiana; and a sales meter at that point interconnecting with the lines of Indiana Gas & Water Company near Jeffersonville, Indiana.

(d) A compressor station near Madison, Indiana, with an aggregate horsepower of 4,400.

(e) Additional compressor capacity in certain of Applicant's compressor stations as follows:

3,520 horsepower, Bastrop (Louisiana).
1,320 horsepower, Slaughters (Kentucky).
3,000 horsepower, Hardinsburg (Kentucky).
1,500 horsepower, Jeffersontown (Kentucky).

Applicant proposes to serve through the requested facilities the increasing demands of its full requirements customers, an additional 20,000 Mcf of natural gas per day to the Louisville Gas and Electric Company, and an additional 95,000 Mcf of natural gas per day to the Ohio Fuel Gas Company.

It is stated that by February of 1951 daily firm deliveries of natural gas to Applicant's customers will reach the full capacity of Applicant's presently authorized pipeline facilities, and that without the addition of facilities for which a certificate is here requested Applicant will be unable to supply the increased demands of its customers. The Applicant states that it proposes to obtain a major portion of the additional supply of natural gas to be transported through the proposed new facilities by purchase from Applicant's wholly-owned subsidiary companies, Louisiana Natural Gas Corporation and Texas Northern Gas Corporation. The balance of the gas required for the proposed facilities is proposed to be obtained under long-term contracts, which, it is said, are now being negotiated with other suppliers.

The estimated total over-all capital cost of the proposed facilities is $42,310,000. Applicant proposes to finance the construction of the proposed facilities from proceeds to be received from the sale of First Mortgage bonds and such other securities as may be more advantageously sold and from cash on hand. It is stated that a detailed plan for financing will be furnished to the Commission at a later date.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.10) on or before the 31st day of January 1951. The application is on file with the Commission for public inspection.

SECURITIES AND EXCHANGE COMMISSION

[File No. 31-576]

NORTHERN NATURAL GAS CO. AND PEOPLES NATURAL GAS CO.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION AND NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 11th day of January 1951.

Notice is hereby given that Northern Natural Gas Company ("Northern"), a registered holding company, and its public-utility subsidiary, Peoples Natural Gas Company ("Peoples"), have filed with this Commission a joint application pursuant to section 3 (a) (3) of the Public Utility Holding Company Act of 1935 ("act"), and the rules and regulations promulgated thereunder, requesting that the Commission issue an order exempting Northern and Peoples as a holding company and a subsidiary respectively, from any or all of the provisions of the act.

All interested persons are referred to said joint application, which is on file in the offices of this Commission, for a statement of the allegations therein contained, which are summarized as follows:

Northern, a Delaware corporation, is engaged in the purchase, production, transmission and sale of natural gas, both for resale and for consumptive use, in interstate commerce. Its main transmission line extends northeast from Texas through Oklahoma, Kansas, Nebraska, Iowa, Minnesota, and South Dakota. Among others, it sells natural gas to municipalities and gas utility companies (including Peoples) through town-border connections along its pipeline. Its principal office is in Omaha, Nebraska. It has only one subsidiary, Peoples, a wholly owned gas utility company. As of July 31, 1950, Northern's gross gas plant, on a consolidated basis, was carried on its books at $139,742,611 and its net gas plant at $107,833,214. For the twelve months' period ending July 31, 1950, Northern's gross revenues, on a consolidated basis, amounted to $31,053,018 and its net operating income amounted to $7,554,265, after elimination of inter-company transactions. During this period its gas sales amounted to $27,091,675, of which $20,242,272 represented sales to gas utilities other than its subsidiary and $2,767,674 represented sales to its subsidiary. The balance of such sales was made to industrial users, grantors of right-of-way, and others.

Peoples, also a Delaware corporation, is a gas utility company as defined by section 2 (a) (4) of act. Its principal office is located in Omaha, Nebraska. As such it conducts a retail gas distribution business exclusively in the States of Kansas, Nebraska, Iowa and Minnesota, serving approximately 44,438 customers in 88 communities in those states. It receives all of its natural gas supply from Northern. As of July 31, 1950, Peoples' gross gas plant was carried on its books at $5,951,341 and its net gas plant was carried at $4,122,709. For the twelve months period ending July 31, 1950, Peoples had gross revenues from gas sales of $5,579,634 representing approximately 17.97 percent of consolidated gross operating revenues of Northern and net operating income of $945,417, representing approximately 12.52 percent of consolidated net operating income of Northern for the same period. Peoples has no subsidiary company.

The application, among other things, states that Northern is a non-utility company and is only incidentally a holding company, being primarily engaged or interested in one or more businesses other than the business of a public-utility company, and that it owns all of the outstanding securities of Peoples.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said joint application and that said joint application shall not be granted except pursuant to further order of the Commission:

It is ordered, That a hearing with respect to said joint application, pursuant to the applicable provisions of the act and rules and regulations promulgated thereunder, be held on March 12, 1951, at 10:00 a. m., e. s. t., at the offices of the Commission, 425 Second Street NW., Washington 25, D. C. On such date the hearing room clerk in Room 193 will advise as to the room in which such hearing will be held. Any person desiring to be heard or otherwise wishing to participate in this proceeding should file with the Secretary of the Commission, on or before March 9, 1951, a written request with respect thereto as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That William W. Swift, or any other officer or officers of this Commission designated by it for that purpose, shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Public Utilities of the Commission having advised the Commission that it has made a preliminary examination of the said joint application and that, upon the basis thereof, the following matters and questions are presented for consideration, without prejudice however, to the specification of additional matters or questions upon further examination:

(1) Whether the joint application meets the requirements of section 3 (a) (3) of the act, and particularly, whether Northern "is only incidentally a holding company, being primarily engaged or interested in one or more businesses other than the business of a public-utility company";

(2) Whether, in the event Northern is "only incidentally a holding company" within the meaning of section 3 (a) (3) of the act, the granting of the requested exemption to Northern and/or Peoples from any or all provisions of the act would be detrimental to the public interest or to the interest of investors or consumers;

(3) Whether Northern is a gas utility company as defined in section 2 (a) (4) of the act; and

(4) Generally, whether the application meets the requirements of the applicable provisions of the act and the rules and regulations promulgated thereunder;

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission shall serve a copy of this notice and order by registered mail on Northern and Peoples, the Federal Power Commission, the Kansas State Corporation Commission, the State Railway Commission of Nebraska, the Railroad Commission of Texas, The Oklahoma Corporation Commission, the Iowa Executive Council, and to all other interested persons by a general release of this Commission which shall be distributed to the press and mailed to all persons on the mailing list for releases issued under the Public Utility Holding Company Act of 1935 and by the publication of this notice and order in the FEDERAL REGISTER.

By the Commission.

LEE MOOR

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 12th day of January A. D. 1951.

Notice is hereby given that an application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Lee Moor. Applicant has designated sections 9 (a) (2) and 10 of the act as applicable to the proposed transaction.

Notice is further given that any interested person may, not later than January 26, 1951, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after January 26, 1951, said application, as filed, or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transaction therein proposed, which is summarized as follows:

Applicant states that he is an affiliate of Southern Union Gas Company ("Southern"), as that term is defined in section 2 (a) (11) (A) of the act, by reason of his ownership of 219,900 shares or 14.61 percent of Southern's outstanding voting securities, including 99,708 shares held as trustee for Betty Lee Moor McGuire and 1,803 shares held as trustee for Bess Waskey. Applicant states that he is also an affiliate of Arkansas Western Gas Company by reason of his ownership of 48,517 shares, or 16.53 percent, of the outstanding voting securities of that company. Applicant proposes to acquire, directly or indirectly, warrants entitling him to subscribe, directly or indirectly, for not to exceed 21,990 shares, including 10,151.1 shares as trustee of additional common stock to be issued by Southern pro rata to its stockholders, and through the exercise of such warrants to acquire, directly or indirectly, 21,990 shares of such additional common stock, including 10,151 shares as trustee, at $16.00 per share. Applicant also proposes to acquire, directly or indirectly, additional shares, if any, which the warrants authorize to be subscribed, subject to allotment and which are in fact allotted thereunder. Applicant states that, if desirable, he proposes to acquire as trustee for Betty Lee Moor McGuire all or any part of the warrants issuable to him in his individual capacity pursuant to warrant offering by Southern, or the common stock subject to subscription pursuant to such warrants, or both such warrants and common stock.

By the Commission.

CLAY INVESTMENT CO.

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 12th day of January 1951.

In the matter of Lum Clay, dba Clay Investment Company, 240 Key Building, Oklahoma City, Oklahoma.

I. The Commission's public official files disclose that Lum Clay, doing business as Clay Investment Company, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to sec-

tion 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1943, 1944, 1945, 1946, 1947, 1948, or 1949 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statements set forth in paragraph II hereof are true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in paragraph IV hereof on the 15th day of February 1951 at the main office of the Securities and Exchange Commission located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 101, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before February 8th, 1951. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to February 15th, 1951.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

W. H. CARRAHER

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 12th day of January 1951.

In the matter of W. H. Carraher, 218 East Third Street, Wichita, Kansas.

I. The Commission's public official files disclose that W. H. Carraher, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1943, 1944, 1945, 1946, 1947, 1948, or 1949 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statements set forth in paragraph II hereof are true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in paragraph IV hereof on the 15th day of February 1951 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 101, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before February 8th, 1951. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to February 15th, 1951.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

JOHN C. MCKEEL

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 12th day of January 1951.

In the matter of John C. McKeel, 625 NW. 18th Street, Oklahoma City, Oklahoma.

I. The Commission's public official files disclose that John C. McKeel, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1943, 1944, 1945, 1946, 1947, 1948 or 1949 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

[1] Filed as part of the original document.

III. The information reported to the Commission by its Records Officer as set forth in paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statements set forth in paragraph II hereof are true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in paragraph IV hereof on the 15th day of February 1951 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 101, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before February 8th, 1951. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to February 15th, 1951.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

FLOYD S. NELSON & CO.

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 12th day of January 1951.

In the matter of Floyd S. Nelson & Company, 606 Southwestern Life Building, Dallas, Texas.

I. The Commission's public official files disclose that Floyd S. Nelson & Company, a sole proprietorship, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1943, 1944, 1945, 1946, 1947, 1948, or 1949 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statements set forth in paragraph II hereof are true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in paragraph IV hereof on the 15th day of February 1951 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 101, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before February 8th, 1951. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to February 15th, 1951.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

[Amdt. 1]

PART 920—HANDLING OF IRISH POTATOES GROWN IN MASSACHUSETTS, RHODE ISLAND, CONNECTICUT, NEW HAMPSHIRE AND VERMONT

LIMITATION OF SHIPMENTS

(a) *Findings.* (1) Pursuant to Order No. 20 (15 F. R. 7349), regulating the handling of Irish potatoes grown in the States of Massachusetts, Rhode Island, Connecticut, New Hampshire, and Vermont, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the New England Potato Committee, established pursuant to said order, and upon other available information, it is hereby found that the amended limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule making procedure (5 U. S. C. 1001 et seq.) in that the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restrictions on the handling of Irish potatoes grown in the area regulated by Order No. 20.

(b) *Order, as amended.* The provisions of paragraph (b) (2) of § 920.301 (15 F. R. 9220) are hereby amended to read as follows:

(2) The aforesaid grade, quality, and size limitation shall not apply to shipments of potatoes for the following purposes: (i) seed, (ii) export, (iii) distribution by the Federal Government,

Subchapter B—Immigration Regulations

PART 110—PRIMARY INSPECTION AND DETENTION

DESIGNATION OF LANCASTER, MINN., AS A CLASS A PORT OF ENTRY FOR ALIENS

JANUARY 10, 1951.

Effective as of November 15, 1950, § 110.1, *Designated ports of entry except by aircraft*, of Chapter I, Title 8 of the Code of Federal Regulations, is amended by inserting "Lancaster, Minn." between "International Falls, Minn." and "Noyes, Minn." in the list of Class A ports of entry under District No. 9—Chicago, Illinois.

Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) as to notice of proposed rule making and delayed effective date is unnecessary because the rule prescribed by the order relieves restrictions and is clearly advantageous to persons affected thereby.

(Sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37, 54 Stat. 675; 8 U. S. C. 102, 222, 458. Interprets or applies sec. 19, 39 Stat. 889, sec. 20, 54 Stat. 671; 8 U. S. C. 155)

PART 225—RESIDENTIAL REAL ESTATE CREDIT

INTERPRETATIONS

Sec.
225.120 Loan values computed on family unit basis.
225.121 Commodity Credit Corporation loans.

AUTHORITY: §§ 225.120 and 225.121 issued under sec. 704, Pub. Law 774, 81st Cong., E. O. 10161, Sept. 9, 1950, 15 F. R. 6105. Interpret or apply sec. 602, Pub. Law 774, 81st Cong.

§ 225.120 *Loan values computed on family unit basis.* The maximum loan values set out in the right hand column in each of the two tables in § 225.7 as amended January 12, 1951, are maximum loan values per family unit and should be computed on the basis of value per family unit. In the case of a property containing more than one family unit the maximum loan value for the entire property should be computed by multiplying the maximum loan value per family unit by the number of family units.

§ 225.121 *Commodity Credit Corporation loans.* An inquiry has been received concerning the application of this part to loans which are made by banks and other lending agencies pursuant to commodity loan programs of the Commodity Credit Corporation and which the Commodity Credit Corporation is committed to purchase. It is the Board's view that such loans should be regarded for this purpose as loans guaranteed by a wholly owned Government corporation and that, therefore, they do not constitute real estate construction credit as defined in § 225.2 (e) and are not subject to this part.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Larry M. Deeter doing business as Educational Surveys, Docket 5703, Nov. 9, 1950]

In the Matter of Larry M. Deeter Doing Business as Educational Surveys

This proceeding was heard by Frank Hier, trial examiner theretofore designated by the Federal Trade Commission for that purpose, upon the complaint of the Commission, the answer of the respondent, and testimony and other evidence in support of and in opposition to the allegations of the complaint, introduced before the above-named trial examiner, which were duly recorded and filed in the office of the Commission.

Thereafter the proceeding regularly came on for final consideration by said trial examiner on the complaint, the answer thereto, testimony and other evidence, and proposed findings as to the facts and conclusions presented by all counsel; and said trial examiner, having duly considered the record in said cause, and having found that said proceeding was in the interest of the public, made his initial decision, comprising certain findings as to the facts, and conclusions drawn therefrom, and order to cease and desist.

No appeal having been filed from said initial decision of said trial examiner as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII, became the decision of the Commission on November 9, 1950.

The said order to cease and desist is as follows:

It is ordered, That Larry M. Deeter, his employees, representatives or agents, trading under the name Educational Surveys, or under any other name, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of books or other publications of whatever nature, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing, directly or by implication:

1. That respondent's combination offer of the New Standard Encyclopedia and the supplements thereto, published for the purpose of keeping the encyclopedia current, is an introductory offer or a special offer for advertising purposes.

2. That such offer is at a reduced or special price substantially lower than the usual or regular selling price or is at a price substantially lower than will be charged when the encyclopedia is subsequently placed on the market.

3. That such offer is made only to selected persons in a particular community or area.

4. That respondent is engaged in making surveys for various purposes.

5. That respondent is not selling the encyclopedia, but is selling the supplements thereto and if the latter are subscribed for or purchased, the encyclopedia will be given as a gratuity.

6. That any books are given free or as a bonus without cost when the purchase price is fully paid up.

By "Decision of the Commission and Order to File Report of Compliance", Docket 5703, November 9, 1950, which announced fruition of said initial decision, report of compliance with the order was required as follows:

It is ordered, That the respondent, Larry M. Deeter, shall within sixty (60) days after service upon him of this order file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with the order to cease and desist.

Issued: November 9, 1950.

By the Commission.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 7, Amdt. 63]

PART 60—AIR TRAFFIC RULES

DANGER AREA ALTERATIONS

The danger area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required. Title 14, § 60.13–1 is amended as follows:

1. The Camp Chaffee, Arkansas, area, published on November 18, 1950, in 15 F. R. 7872, is amended by changing the "Description by Geographical Coordinates" column to read: "Beginning at lat. 35°16'00'' N, long. 94°01'30'' W; due S to lat. 35°11'30'' N; due W to long. 94°10'00'' W; due N to lat. 35°14'00'' N; due W to long. 94°15'00'' W; NW to lat. 35°14'45'' N, long. 94°16'30'' W; northerly to lat. 35°18'15'' N, long. 94°17'00'' W; ESE to lat. 35°16'00'' N, long. 94°01'30'' W, point of beginning".

2. A Hunter-Liggett, California, area is added to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
HUNTER-LIGGETT (San Francisco Chart).	Beginning at lat. 36°03'30'' N, long. 121°16'30'' W; SE to lat. 35°54'45'' N, long. 121°05'00'' W; SW to lat. 35°51'45'' N, long. 121°07'45'' W; WSW to lat. 35°49'45'' N, long. 121°21'00'' W; NW to lat. 35°53'00'' N, long. 121°24'45'' W; due N to lat. 36°01'00'' N; ENE to lat. 36°03'30'' N, long. 121°16'30'' W, point of beginning.	Surface to 10,000 feet.	Continuous...	6th Army, Camp Roberts, Calif.

3. A Juan De Fuca, Washington, area is added to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
JUAN DE FUCA (Bellingham chart).	N boundary: United States-Canadian border; E boundary: long. 123°42'00'' W; S boundary: ½ mile N of and parallel to the shoreline of Washington; W boundary: long. 124°25'00'' W.	Surface to 5000 feet.	Continuous...	Fleet Air Wing Four, Whidbey Island NAS, Wash.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on January 19, 1951.

PART 60—AIR TRAFFIC RULES

INSTRUMENT APPROACH PROCEDURE

The following interpretations and policies are hereby adopted:

§ 60.46–3 *Radio range procedures determination (CAA policies which apply to § 60.46)*—(a) *General.* The policies set forth in this section will be used by the Civil Aeronautics Administration in formulating and approving all radio range procedures including those prescribed in §§ 60.46–4 and 60.46–5.

(1) *Deviations.* The criteria outlined in this section will normally be adhered to in all procedures; however, if any deviation is necessary a note will be included on the procedure outlining such deviation.

(2) *Number of procedures established.* More than one radio range procedure may be established for a particular airport when a different direction of approach is involved. An instrument approach procedure may be established when a fan marker, compass locator or intersection is situated within seven miles of the airport and located on (i) a continuation of the course which passes over or is adjacent to the airport, or (ii) a range course other than the one serving for the approach from over the range station. The additional procedures will be established in the same manner as a procedure from over the radio range station and will be complete in all details including procedure turn, direction, and approach altitudes. To be usable for a final approach fix an intersection may consist of a radio bearing or range course. The station forming the fix, however, must be located within

25 miles of the intersection and the angle of intersection must be at least 45 degrees.

When additional procedures are established, these procedures will be numbered in accordance with the number of radio range procedures approved for the airport.

Example. Stapleton Airport, Denver, Colorado, has two radio range procedures. Procedure No. 1 uses the North course of the Denver range for final approach, and Procedure No. 2 uses the South course of the Denver range and the Aurora FM for final.

(b) *Initial approach procedure.* The initial approach to the radio range station will normally be made from a primary fix (radio range, reliable intersections—including bearings or "H" type radio beacon) located on a course and more than 25 miles from the radio range station to be used for the approach.

(1) *Altitudes.* Initial approach altitudes are the minimum en route cruising altitudes authorized between the last radio fix and the range station. These clearances are based solely on clearances above terrain and obstructions. They will normally comply with established altitudes where such altitudes have been published as minimum en route altitudes along a designated course. Where adequate radio fixes exist, altitudes will be established for all range courses, either on or off the airways, and where no radio fix exists the term "minimum en route altitude" will be used to specify the altitude for the direction involved. Where there is no published en route altitude along a course, the altitude will be based on the same criteriia as used in determining minimum en route altitudes providing at least 1,000 feet clearance above all terrain and obstructions, except in those areas designated as mountainous areas. Normally, initial approach altitudes in mountainous areas will provide a clearance of at least 2,000 feet above terrain and obstructions. All altitudes will be computed to the nearest 100 feet (i. e., 1,150 feet will be indicated as 1,100 feet, 1,151 feet will be indicated as 1,200 feet, etc.) and will provide the above altitude clearance in an area five miles on each side of the course from the last primary fix to the station providing that no maneuvering is contemplated on this course. Where it is anticipated that maneuvering will be necessary, either for holding purposes or otherwise, a minimum lateral clearance of ten miles from the center line of the range course will normally be provided for the maneuvering side and five miles for the opposite side.

Initial approaches to a radio range station will be shown only along the range course associated with the facility.

Example. Madison, Wisconsin, has no courses along any airway although the west course of Milwaukee lies along the center line of an airway and across Madison range. The initial approaches will not be shown along airways from Milwaukee but only along courses of Madison. The direction from Milwaukee is covered by published minimum en route altitudes.

(ii) *Secondary fixes.* Fixes and fan markers located less than 25 miles from the range station will be shown as secondary fixes. These fixes may provide for lower altitudes than from primary fixes on the same course. Reductions may be made even in mountainous country, provided that a minimum obstruction clearance of 1,000 feet is provided from these fixes to the station.

(c) *Shuttle.* Where necessary, a shuttle between two fixes or within a specified distance of the range station will be prescribed to allow for descent to a lower altitude after initial approach and prior to commencement of the final approach. Horizontal and lateral clearance will be provided as in the case of initial approach.

(d) *Procedure turn.* Procedure turns are established and specified in radio range procedures for use in a return to final approach course (inbound) when dictated by direction of approach. Direction of the turn will be specified as north, south, east, or west side of final approach course. Normally, a procedure turn involves an initial left turn through the range course, followed by a turn to the right in a return to the final approach course. This type of procedure turn will be standard whenever terrain, obstructions, and traffic will permit. The degree at which the turns will be made is left to the discretion of the pilot, but the maneuver will be completed within that area and at the altitude established to provide the required obstruction clearance.

(1) *Altitudes.* A minimum altitude will be established for a procedure turn within a distance of ten miles from the radio range station and will normally provide terrain and obstruction clearance of 1,000 feet for ten miles from the center line of the range course on the maneuvering side and for five miles on the opposite side of the range course. Altitudes based on above criteria will also be established for procedure turns at distances of 15, 20, and 25 miles from the range station and will be included in the procedure as an advisory item in the event it is necessary or advisable to go beyond the normal ten-mile limit. Where procedure turns at distances of 15, 20, and 25 miles are not desired the term "Not Authorized" (NA) will be used.

(2) *Deviations.* Deviations from the standard procedure turn will be made in the following order: When a turn cannot be made on the left side of the course due to unusually high obstructions, such as the mountain ranges on the west side of the Denver, Colorado, radio range, the turn will be made on the right side of the course and an explanatory note will be included in the procedure as, "all turns will be made on the east side of the north course, high terrain west side of north course."

(e) *Final approach.* The term "final approach" as used in radio range procedures is defined as beginning at the point where the procedure turn is completed, the aircraft headed back toward the range station, and ending at the point where missed approach commences. There will be only one final approach in any one procedure.

(1) *Altitudes.* The altitude over the radio range station on final approach will be based on an assumption that the procedure turn will be made within ten miles from the radio range station. The established altitude will be at least 500 feet above all terrain and obstructions between the point where the procedure turn is completed and the range station, and normally will provide this clearance for an area of five miles on either side of the center line of the radio range course. The final approach, if commenced more than ten miles from the radio station, will provide for at least 1,000 feet clearance above terrain and obstructions and be reduced to 500 feet only when within ten miles. These altitudes will be shown to the nearest 20 foot interval (i. e., 510 feet will be indicated 500 feet, 511 feet will be indicated as 520 feet, etc.).

(i) *Facility to airport.* For that part of the final approach which lies between the range station and the nearest usable portion of the field, a minimum clearance of at least 300 feet above obstructions will be provided for an approach area two miles either side of the center line provided the facility is located within seven miles of the airport.

Where the terrain features are ideal and flight from the range station to the airport would not be over thickly populated areas nor hazardous obstructions, an instrument approach procedure may be established and approved for an airport located at a distance in excess of seven miles. When there is need for establishing an instrument approach procedure to an airport located in excess of seven miles, consideration will be given to the following policy:

(*a*) *Seven to ten miles.* When located seven to ten miles, obstruction clearance of 500 feet will be provided for an area two miles each side of the center line of the proposed course.

(*b*) *Ten to twelve miles.* When located from ten to 12 miles, obstruction clearance of 700 feet will be provided for an area two miles each side of the center line of the proposed course.

(*c*) *Twelve miles or more.* When located 12 miles or more, operations will be conducted in accordance with visual flight rules from the radio facility.

(2) *Final approach from a fan marker or other radio aid.* For each procedure there may be one direction from which the initial approach may become the final approach with the resulting elimination of a procedure turn. This may be accomplished only if such an approach is from a fan marker or other radio aid so situated on a final radio course and close enough to the range station that it may be reasonably considered as assisting the final approach in its true sense. The distance of this facility from the range station will not normally exceed ten miles. The altitude up to this final marker will provide 1,000 feet clearance to the marker and will provide at least 500 feet from such fix or marker to the range station.

(3) *Magnetic bearing from range station to airport.* The bearing from the range station is normally the magnetic bearing from the range station to the nearest usable runway or landing area of the airport.

(4) *Distance from range station to airport.* The distance from the range station to the airport is normally measured on a straight line from the radio

range station to the nearest usable runway or landing area of the airport.

(f) *Missed approaches.* The point at which the instrument approach will be discontinued and the missed approach started will be either at the range station, or within a specified distance of the radio range station not to extend beyond the nearest usable portion of the airport expressed in miles. Time limitations will not be used due to the variations in the approach speed of different types of aircraft. In the establishment of a missed approach procedure, careful consideration will be given to obstructions to flight in the missed approach area. Normally, the recovery will be made on the range course whose outbound bearing most nearly approximates a continuation of the final approach. Deviations from this standard will be permitted when terrain, obstructions, or hazards to flight exist, which precludes the establishment of a missed approach procedure in accordance with the above instructions.

(1) *Altitudes.* The altitude to which the flight will proceed in execution of a missed approach will not be less than that established for initial approach altitude, and will normally be specified to within 25 miles of the range station.

(2) *Alternate missed approach procedures.* Consideration will be given to the establishment of an alternate missed approach procedure only when such a procedure will facilitate the handling of air traffic.

§ 60.46–6 *Automatic direction finding procedures determination (CAA policies which apply to § 60.46)*—(a) *General.* The policies set forth in this section will be used by the Civil Aeronautics Administration in formulating and approving all automatic direction finding procedures including those prescribed in § 60.46–7.

(1) *Deviations.* The criteria outlined in this section will normally be adhered to in all procedures; however, if any deviation is necessary a note will be included on the procedure outlining such deviation.

(2) *Number of procedures established.* There may be more than one ADF procedure approved for an airport depending upon the number of facilities available for ADF approaches or directions of approach. These procedures will be numbered in accordance with the number of ADF procedures approved for the airport.

Example. Chicago Midway Airport has two ADF procedures. Procedure No. 1 is based on a compass locator on the back course of the ILS localizer; frequency 248 kcs, identification IH. The procedure approved for the compass locator at the ILS outer marker, frequency 219 kcs, identification CH, is assigned number 2.

(b) *Initial approach to radio facility.* The initial approach to the radio facility will normally be made from a primary fix (primary fixes will be either radio stations or reliable intersections—including bearings available from range stations).

(1) *Magnetic headings.* Magnetic headings used in ADF procedures will always be computed using the isogonic line nearest the radio facility for which the procedure is being formulated.

(2) *Altitude.* Initial approach altitudes are the minimum en route cruising altitudes authorized between the last radio fix and the facility. These clearances are based solely on clearance above terrain and obstructions. They will normally comply with established altitudes where such altitudes have been published as minimum en route altitudes along a designated track. Where there is no published en route altitude along a track the altitude will be based on the same criteria as used in determining minimum en route altitudes providing at least 1,000 feet clearance above all terrain and obstructions, except in those areas designated as mountainous areas. Normally, initial approach altitudes in mountainous areas will provide a clearance of at least 2,000 feet above obstructions. All altitudes will be computed to the nearest 100 feet (i. e., 1,150 feet will be indicated as 1,100 feet, 1,151 feet will be indicated as 1,200 feet, etc.) and will provide the above altitude clearance in an area five miles on each side of the track from the last primary fix to the station providing that no maneuvering is contemplated on this track. Where it is anticipated that maneuvering will be necessary, either for holding purposes or otherwise, a minimum lateral clearance of ten miles from the center line of the track will normally be provided for the maneuvering side and five miles for the opposite side.

(i) *Secondary fixes.* Fan markers, compass locators, and "H" type radio beacon facilities or intersections close in, including bearings, will be utilized where a lower altitude can be authorized than is provided for by the use of primary radio fixes.

(c) *Shuttle.* Where necessary, a shuttle between two fixes or within a specified distance of the station will be prescribed to allow for descent to a lower altitude after initial approach and prior to commencement of the final approach. Horizontal and lateral clearance will be provided as in the case of initial approach.

(d) *Procedure turn.* Procedure turns are established and specified in ADF procedures for use in a return to final approach course (inbound) when dictated by direction of approach. Direction of the turn will be specified as north, south, east, or west side of final approach track. Normally, a procedure turn involves an initial left turn through the outbound track, followed by a turn to the right in a return to the final inbound track. This type of procedure turn will be standard whenever terrain, obstructions, and traffic will permit. The degree at which the turns will be made is left to the discretion of the pilot, but the maneuver will be completed within that area and at the altitude established to provide the required obstruction clearance.

(1) *Altitudes.* A minimum altitude will be established for a procedure turn within a distance of ten miles from the facility and will normally provide terrain and obstruction clearance of 1000 feet for ten miles from the center line of the track on the maneuvering side and for five miles on the opposite side. Altitudes based on the above criteria will also be established for procedure turns at distances of 15, 20, and 25 miles from the facility and will be included in the procedure as an advisory item in the event it is necessary or advisable to go beyond the normal ten-mile limit. Where procedure turns at distances of 15, 20, and 25 miles are not desired the term "Not Authorized" (NA) will be used.

(2) *Deviations.* Deviations from the standard procedure turn will be made in the following order: When a turn cannot be made on the left side of the track due to unusually high obstructions the procedure turn will be made on the right side of the track and an explanatory note will be included in the procedure.

(e) *Final approach.* The term "final approach" as used in ADF procedures is defined as beginning at the point where the procedure turn is completed, the aircraft headed back toward the station, and ending at the point where missed approach commences. It is normally the track having a bearing which most nearly approximates the magnetic track from the station to the airport. Specific tracks both outbound and inbound in degrees magnetic will be indicated in the instrument approach procedure to avoid any confusion. There will be only one final approach in any one procedure.

(1) *Altitudes.* The altitude over the station on final approach will be based on an assumption that the procedure turn will be made within ten miles from the facility. The established altitude will be at least 500 feet above all terrain and obstructions between the point where the procedure turn is completed and the station, and normally will provide this clearance for an area of five miles on either side of the center line of the track. The final approach, if commenced more than ten miles from the station, will provide for at least 1,000 feet clearance above terrain obstructions and be reduced to 500 feet only when within ten miles. These altitudes will be shown to the nearest 20 foot interval (i. e., 510 feet will be indicated 500 feet, 511 feet will be indicated as 520 feet, etc.).

(f) *Facility to airport.* For that part of the final approach which lies between the station and the nearest usable portion of the field, a minimum clearance of at least 300 feet above obstructions will be provided for an approach area two miles either side of the center line provided the facility is located within seven miles of the airport.

Where the terrain features are ideal and flight from the station to the airport would not be over thickly populated areas nor hazardous obstructions, an instrument approach procedure may be established and approved for an airport located at a distance in excess of seven miles. When there is need for establishing an instrument approach procedure to an airport located in excess of seven miles, consideration will be given to the following policy:

(a) *Seven to ten miles.* When located seven to ten miles, obstruction clearance of 500 feet will be provided for an area two miles each side of the center line of the proposed track.

(b) *Ten to twelve miles.* When located from 10 to 12 miles, obstruction clearance of 700 feet will be provided for an area two miles each side of the center line of the proposed track.

(c) *Twelve miles or more.* When located 12 miles or more, operations will be conducted in accordance with visual flight rules from the radio facility.

(2) *Magnetic track from station to airport.* The track from the facility is normally the magnetic bearing from the station to the nearest usable runway or landing area of the airport.

(3) *Distance from facility to airport.* The distance from the station to the airport is normally measured on a straight line from the facility to the nearest usable runway or landing area of the airport.

(f) *Missed approaches.* The point at which the instrument approach will be discontinued and the missed approach started will be either at the station, or within a specified distance of the station not to extend beyond the nearest usable portion of the airport expressed in miles. Time limitations will not be used due to the variations in the approach speed of different types of aircraft.

In the establishment of a missed approach procedure, careful consideration will be given to obstructions to flight in the missed approach area. Normally, the recovery should be made on the track whose outbound bearing most nearly approximates a continuation of the final approach. Deviations from this standard will be permitted when terrain, obstructions, or hazards to flight exist, which precludes the establishment of a missed approach procedure in accordance with the above instructions.

(1) *Altitudes.* The altitude to which the flight will proceed in execution of a missed approach will normally not be less than that established for en route flight, and will normally be specified to within 25 miles of the station.

(2) *Alternate missed approach procedures.* Consideration will be given to the establishment of an alternate missed approach procedure only when such a procedure will facilitate the handling of air traffic.

PART 61—SCHEDULED AIR CARRIER RULES

POWERPLANT FAILURE OR PRECAUTIONARY STOPPAGE

The following interpretation and policy is hereby adopted:

§ 61.294–1 *Powerplant failure or precautionary stoppage (CAA policies and interpretations which apply to § 61.294).* As the failure or precautionary stoppage of an engine may involve the safety of a flight, in all cases when an engine of an aircraft fails in flight or when the rotation of an engine is stopped in flight for any reason, a landing shall be made at the nearest suitable airport in point of time where a safe landing can be effected. In the event of such an occurrence, the pilot should immediately notify the appropriate company ground station(s) of this fact and of his intended course of action. He should thereafter continue to keep the appropriate company ground station(s) informed as to the progress of the flight.

The pilot may exercise his emergency authority under § 61.310 and select an airport other than the nearest suitable airport in point of time at which a safe landing could be effected if he finds after a consideration of all factors and circumstances which might affect the safety of the flight that a landing at the airport of his selection would be as safe a procedure. In all such cases the written report required by § 61.310 shall be submitted as required therein, setting forth the reasons why the pilot considered this to be as safe a procedure.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 604, 605, 52 Stat. 1007, 1010; 49 U. S. C. 551, 554, 555)

This interpretation and policy shall become effective upon publication in the FEDERAL REGISTER.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 269—FORMS PRESCRIBED UNDER THE TRUST INDENTURE ACT OF 1939

FORM FOR APPLICATIONS FOR QUALIFICATION OF INDENTURES

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Trust Indenture Act of 1939, particularly sections 307 and 319 thereof, and finding such action necessary and appropriate in the public interest and for the protection of investors and necessary to carry out the provisions of the act, hereby amends Form T–3 (17 CFR 269.3) by adding to the instructions as to exhibits an additional paragraph reading as follows:

Exhibit T3E. A copy of every prospectus, notice, circular, letter, or other written communication which is to be sent or given to security holders in connection with the issuance or distribution of the indenture securities. Copies of replies to inquiries from security holders, however, need not be filed.

(Sec. 319, 53 Stat. 1173; 15 U. S. C. 77SSS)

The foregoing amendment shall become effective February 12, 1951.

PART 270—GENERAL RULES AND REGULATIONS INVESTMENT COMPANY ACT OF 1940

BONDING OF OFFICERS AND EMPLOYEES OF REGISTERED MANAGEMENT INVESTMENT COMPANIES

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Investment Company Act of 1940, particularly sections 17 (g) and 38 (a) thereof, and finding such action necessary or appropriate to the exercise of the powers conferred upon the Commission by the act, hereby amends § 270.17g–1 (Rule N-17G–1) by adding at the end of such rule a new paragraph reading as follows:

§ 270.17g–1 *Bonding of officers and employees of registered management investment companies.* * * *

(d) Where the investment company is an unincorporated company managed by a depositor or investment adviser, the terms "officer" and "employee" shall include, for the purposes of this section, the depositor or investment adviser and its officers and employees.

The foregoing action shall become effective February 12, 1951.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

[Controlled Housing Rent Reg. Amdt. 343]

[Controlled Rooms in Rooming Houses and Other Establishments, Rent Reg. Amdt. 339]

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

CERTAIN STATES

Amendment 343 to the Controlled Housing Rent Regulation (§§ 825.1 to 825.12) and Amendment 339 to the Rent Regulation for Controlled Rooms in

Rooming Houses and Other Establishments (§§ 825.81 to 825.92). Said Regulations are amended in the following respects:

A. The following new Items are incorporated in Schedule C:

Name of Defense-Rental Area, State, and Localities affected by declarations for continuation of rent control after March 31, 1951

(38) San Francisco Bay, California; the City and County of San Francisco; in San Mateo County, all unincorporated localities; in Sonoma County (exclusive of (i) the Judicial Townships of Redwood and Sonoma and (ii) that portion of Analy Judicial Township lying west of the Monte Rio-Valley Ford Highway and lying between Redwood Judicial Township on the north and the northern line of Marin County on the South) all unincorporated localities, if any.

(46) Pueblo, Colorado; in Pueblo County, the City of Pueblo.

(102) Gary-Hammond, Indiana; in Lake County; the City of Gary.

(197) Roswell, New Mexico; in Otero County, the City of Alamogordo.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART A—REGISTRATION AND RESEARCH

A new § 21.190 is added as follows:

§ 21.190 *Extension of vocational rehabilitation under Public Law 16, 78th Congress, as amended, to veterans having service on and after June 27, 1950.* (a) Existing conditions, provisions, and limitations of Public Law 16, 78th Congress, as amended, and applicable regulations and policies are valid for administering Public Law 894, 81st Congress, and will be for application in affording benefits to veterans under that law, except as otherwise provided in Public Law 894 with regard to the following:

(1) In lieu of active service between September 16, 1940, and July 25, 1947, active service is required to have been on or after June 27, 1950, and prior to a date to be subsequently fixed as provided by law.

(2) The incurrence of a disability on or after June 27, 1950, for which compensation at wartime rates is payable (or would be except for receipt of retirement pay or because the person is hospitalized pending final discharge from the service) under subparagraph I (c), Part II, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12), is a prerequisite to basic entitlement.

(3) The delimiting date of July 25, 1956, is not applicable.

(4) A person who was not a citizen of the United States at the time of active

service on or after June 27, 1950, shall be afforded vocational rehabilitation training under Public Law 894 only in a State, Territory, or possession of the United States, or in the District of Columbia. A person who was a citizen of the United States at the time of active service on or after June 27, 1950, shall be afforded vocational rehabilitation training under Public Law 894 only in a State, Territory, or possession of the United States, or in the District of Columbia: *Provided*, That rehabilitation training under Public Law 16 in an approved educational institution in a foreign country may be afforded, subject to central office approval, if adequate training for the employment objective is not available in the United States and if the training can be pursued under the direct supervision of the Veterans' Administration: *And provided further*, That training in the Republic of the Philippines may be afforded to a United States citizen who is a resident thereof and is otherwise eligible for training.

(b) Notwithstanding the fact that vocational rehabilitation training may have been afforded under Public Law 16 or that education or training may have been afforded under Public Law 346, 78th Congress, as amended prior to the incurrence of disability meeting requirements of Public Law 894, the veteran who has basic entitlement under Public Law 894 will, upon claim therefor, be provided vocational rehabilitation training to the extent necessary to restore employability lost by reason of the handicap due to such disability incurred in or aggravated by active service on or after June 27, 1950: *Provided:*

(1) That the additional period of training afforded under Public Law 894 will be limited otherwise as provided by applicable law (sec. 1, Pub. Law 16, as amended, or par. 7, Pub. Law 346; and regulations issued pursuant thereto), and

(2) That in the case of any such veteran who previously pursued training under Public Law 16 or Public Law 346, in determining whether the veteran has need for vocational rehabilitation, and, if so, in selecting an employment objective and prescribing the course therefor, the records of the veteran's previous advisement and training and the current medical data will be carefully and fully considered to the end that the previous training will be capitalized to the fullest extent found practicable and will not be duplicated unless essential to accomplish employability, and

(3) That where any such veteran interrupted training under Public Law 16 to reenter the Armed Forces, the veteran's previous advisement and training records and the medical records showing the veteran's current disability status will be considered in advisement and guidance procedures for the purpose of determining whether the employment objective for which the veteran was pursuing training at the time of interruption still is suitable to accomplish vocational rehabilitation and unless it is determined that the objective is no longer suitable reentrance into training will be effected without change of employment objective.

(c) A veteran who has basic eligibility under Public Law 894 and who, after notice of basic eligibility, enters training or continues in training under Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12 note) will be held to have exercised the election to pursue training under Part VIII.

NOTE: A presumption of basic eligibility will be established when a Veterans' Administration claims activity has determined that compensation is or would be payable under the provisions of subparagraph I (c) of Part II, Veterans Regulation 1 (a), as amended, and the veteran has been notified to that effect. The presumption may be rebutted upon the filing of a VA Form 7–1900 and a determination that the veteran is not in need of training. In any such case, if the veteran thereafter desires training under Part VII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12 note) the affording of such training will be subject to the limitations contained in the instructions governing the pursuit of a combination of courses under Parts VII and VIII. Conversely, a veteran who is eligible for benefits under Part VII and Part VIII, who enters or reenters vocational rehabilitation training under Part VII, and who at a later date requests training under Part VIII, may be afforded education or training under that part subject to the statutory limitations, and the limitations contained in instructions governing pursuit of a combination of courses under both parts.

(d) Any claim for benefits under Public Law 894 will require a new formal application on VA Form 7–1900. (Instruction 1, Pub. Law 894, 81st Cong.)

(Sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 2, 57 Stat. 43, as amended, sec. 400, 58 Stat. 287, as amended; 38 U. S. C. and Sup. 11a, 701, 707, ch. 12 note. Interprets or applies secs. 3, 4, 57 Stat. 43, as amended, secs. 300, 1500–1504, 1506, 1507, 58 Stat. 286, 300, as amended, Pub. Law 894, 81st Cong.; 38 U. S. C. and Sup. 693g, 697–697d, 697f, g, ch. 12 note)

This regulation effective January 19, 1951.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 961]

[Docket No. AO–160 All Rol]

HANDLING OF MILK IN THE PHILADELPHIA, PA., MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENT TO TENTATIVE MARKETING AGREEMENT, AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business the 10th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing on the record of which the proposed amendment to the tentative marketing agreement and to the order, as amended, was formulated, was conducted at Philadelphia, Pennsylvania on January 25, 26, and 27, 1950, pursuant to notice thereof which was issued January 18, 1950 (15 F. R. 366), on April 19, 20, and 21, 1950, pursuant to notice thereof which was issued on April 12, 1950 (15 F. R. 2146), on May 10, 11, and 12, 1950, pursuant to notice thereof issued on May 3, 1950 (15 F. R. 2687), and on November 21, 1950, pursuant to notice thereof issued on October 20, 1950 (15 F. R. 7139).

The material issues of record related to:

1. A formula method of establishing Class I prices based upon the report of the Philadelphia Class I Milk Price Committee;

2. Other issues which were the subject of decisions issued by the Secretary on March 20, 1950 (15 F. R. 1633) and on June 21, 1950 (15 F. R. 4114).

Findings and conclusions. The findings and conclusions with respect to the aforesaid issue numbered 1, all of which are based upon the evidence introduced at the hearing and the record thereof, are as follows:

A formula method of establishing Class I prices for this market based upon (1) a composite index of (a) wholesale commodity prices in the United States; (b) prices paid by Pennsylvania farmers for mixed dairy feed; (c) prices received by Pennsylvania farmers for products other than milk; (d) prices paid by Midwest condenseries; (e) Class I sales by Philadelphia handlers; and (2) an automatic adjustment to be made when supplies appear out of line with sales, should be adopted. The formula would comprise:

(1) A consolidated index which is a simple average of the five component indexes (1936–40=100).

(2) A rate of change of 2.57 cents in prices for each point change in the formula index.

(3) A seasonal adjustment of 40 cents down in April, May, and June, and 40 cents up in October, November, and December from monthly average annual prices as determined by the formula index.

(4) A bracketing of the formula index so as to result in 20-cent changes in Class I prices with an arrangement of brackets that leaves between them about 4 index values through which the index must move before a price change occurs.

(5) Adjustments of the basic level of the price at the beginning of each calendar quarter.

(6) Price adjustment based on changes in utilization.

Producers urged the adoption of a Class I price formula which has been developed by the Philadelphia Class I Milk Price Committee, a group of economists and dairy experts appointed by the Dairy Branch of the Production and Marketing Administration in December 1947 to study the problem of establishing minimum Class I prices in this market. The Class I price formula herein recommended is patterned closely after the formula developed by the committee and endorsed by producers. The prices would be related to the formula index, in accordance with the Committee's recommendation, by considering the levels of the index and the price in a recent period to be equivalent, and changes from this level would be at the same rate per unit change in the formula index as occurred between the average for the period 1936–1940 and the recent period in which the price and index are equated.

It appears that a formula method of establishing Class I prices for this market would have certain advantages over prices established for a relatively few months following a hearing. Because of the time required to follow out the procedure of amending an order, a formula based on economic indexes would give quicker recognition to certain conditions affecting the supply of and demand for milk in the marketing area. The adoption of a formula which relates the price to measurable economic conditions, in effect, gives notice to all interested persons as to how the price will be affected by economic changes. It is readily recognized that the type of formula proposed would not always react to certain temporary and unpredictable conditions which would need to be dealt with through the hearing method. The use of a formula for establishing prices does not prevent or hinder any interested party from petitioning for a change in the prices thereby established or in the formula itself.

Components of the formula index. In general, the basis for the Philadelphia Class I Milk Price Committee's recommendation of the various indexes to be included in the formula was that these indexes are measures of conditions which affect the supply of and demand for milk, and taken together, would furnish a useful guide for the level of Class I prices.

Although any one of the individual indexes proposed for use in the formula might not be by itself a basis for establishing Class I milk prices, each reflects economic conditions which affect the price of milk. The monthly index of wholesale commodity prices compiled and published by the Bureau of Labor Statistics of the United States Department of Labor is a general measure of the level of prices of all commodities, and thus reflects changes in the cost of many items which enter into the cost of milk production as well as changes in demand for all commodities. This index is commonly regarded as a reflector of general business conditions that affect milk prices.

The wholesale commodity price index for each month is made available by the Bureau of Labor Statistics near the end of the succeeding month. It is desirable, however, that the Class I milk price be announced somewhat earlier in the month. The Bureau of Labor Statistics also complies and publishes a weekly index of wholesale commodity prices which is available three days after the seven-day period to which it applies. The weekly index is based upon an abbreviated sample of about one-eighth as many commodities as the monthly index. Examination of the weekly and monthly series shows that the two indexes have been close enough in each month so that one might be substituted for the other in the proposed formula index. By averaging the four latest weekly index figures available, an average commodity price index would be obtained covering about the same period as the latest available data for other components of the proposed formula index. For these reasons it appears advisable to use an average of the four latest weekly wholesale commodity price indexes in preference to the monthly index. Because of the close correspondence of the weekly and monthly series, the weekly index as published by the Bureau of Labor Statistics may be converted to a 1936–1940 base period, as recommended by the Committee, by multiplying by 100 and dividing by the average of the monthly indexes in the years 1936 through 1940. That average is 80.28.

Changes in the price of mixed dairy feed concentrates measure changes in the most important direct production cost incurred by dairy farmers in this area. Prices paid by farmers for mixed dairy feed as of the 15th of each month are obtained from feed dealers in Pennsylvania by the Pennsylvania Federal-State Crop Reporting Service and the state averages are published monthly for various mixtures. These prices are based upon a considerably larger sample than the feed prices used by the Committee in their report, but this series was started only in 1946. Based upon periods when both series are available, 1946–1949, the price published by the Federal-State Crop Reporting Service for 20 percent dairy ration is most nearly comparable to the series used by the Committee and is equivalent to 102.4 percent of the prices used by the Committee. It is advisable to use the price with the broader coverage, and it appears that this price may be expressed as an index, comparable to the other component indexes of the proposed formula by multiplying by 100 and dividing by 102.4 percent of the average of the feed price series used by the Committee for the years 1936–1940. This adjusted 1936–1940 average is $1.776 per hundredweight of feed. It appears that this index would be a reliable measure of changing milk supply conditions in this area.

Other farm enterprises besides milk production are of considerable importance in the Philadelphia milkshed. Changes in prices received by farmers for other farm products are a measure of changes in the alternative opportunities for dairy farmers in use of their labor and other resources investment. Since dairy farmers do, in large measure, govern their production by their judgment of the relative profitableness of competing farm enterprises, it is desirable in order to maintain stable marketing conditions that the returns for the dairy enterprise be kept reasonably well in line with returns from alternative enterprises. Indexes of prices received by Pennsylvania farmers for all farm products and for dairy products have been published for many years by the Pennsylvania Federal-State Crop Reporting Service. Although an index has not been published until recently for prices received for products other than dairy products, such an index may be derived from the all farm products and the dairy products indexes, and the index so computed for the period January 1936–October 1950 was introduced on the record. The dairy products component is weighted 40.4 percent in the all products index.

Official notice is hereby taken of the current publication, subsequent to the hearing, of an index of prices received by Pennsylvania farmers for all farm products except dairy products. This index appears to be the best available measure of the relative attractiveness of alternative enterprises. The 1936–1940 average index is 109.15.

Prices paid by Midwest condenseries for milk are generally considered to reflect the effects of supply and demand for milk and milk products on a national scale. While dairy farmers who are fluid milk producers in this area do not generally consider selling milk to a condensery as an alternative outlet, except in Maryland's eastern shore and northwest Pennsylvania, changes in condensery prices and the conditions which bring these changes about affect directly or indirectly the opportunity of Philadelphia producers to sell their milk at a given price. The series of condensery pay prices recommended by the Committee for use in the proposed formula was the average of 20 condenseries listed in the Federal order for the New York Metropolitan marketing area prior to the amendment of said order on April 1, 1949, but this is not now a regularly published series. It appears that it would make little difference whether

this series of condensery prices or the similar series published by the Bureau of Agricultural Economics for 18 Midwest condenseries is used, inasmuch as prices for the same condenseries are in each series, excepting two condenseries at Coldwater and Delta, Ohio. The average prices of both series generally have been nearly the same. It is recommended that the monthly average paying price of 18 Midwest condenseries, which is now regularly released early in the month following in the daily Philadelphia dairy markets report of the United States Department of Agriculture, be used in the formula, except that for periods prior to 1941 when the current 18 condensery price series was not published, that the condensery price series set forth in the Committee report be used. That is the same average condensery price which is used for establishing Class prices under the order regulating the handling of milk in the Chicago marketing area, and is available a few days after the month for which the prices are reported. The average price thus applicable for the 1936–1940 period is $1.3945.

The average daily volume of total Class I sales by Philadelphia handlers was recommended by the Committee as a measure of demand for Class I milk in this area. This figure would include sales outside the marketing area as well as sales inside the area. An examination of the data indicates that sales outside the area are relatively erratic compared to sales in the area. It appears that in-area sales would be a more reliable measure of the demand for milk in the market. This series is compiled by the market administrator from data submitted by all reporting handlers. The estimated average for the 1936–1940 period is 14,960 hundredweight per day.

Seasonal correction of component indexes. In the notice of the reopened hearing issued October 20, 1950, adjustment of the various component indexes to correct for seasonal variation was considered but not recommended. At the reopened hearing producer and handler representatives urged that seasonal corrections should be applied to some of the indexes. As pointed out in the tentative findings, the amount of seasonal variation in Class I sales, the index of prices received for farm products other than dairy, and during 1949 and 1950 in condensery prices, is relatively small. No seasonal adjustment was proposed for the wholesale price index or feed prices. From further study of the record, it is concluded that certain seasonal adjustments may be applied to the indexes of Class I sales, condensery prices, and prices received for farm products other than dairy. These adjustments would be based upon the seasonal variation of the Class I sales index during the period July 1946–June 1950; the condensery price index during the period September 1949 through August 1950; and the index of prices of other farm products during the period July 1946–September 1950. In the case of the index of prices for farm products other than dairy the pattern of seasonal variation is less distinct than for the other two series, but a reliable seasonal adjustment appears possible, at least from the point of view of not being excessive, if the monthly seasonal indexes are averaged by calendar quarters and rounded to the nearest whole number. These indexes, which are set forth in the recommended amendment to the order, appear sufficiently conservative so that they should not result in excessive correction for seasonal variation.

These indexes for seasonal correction may need to be reviewed from time to time and modified if a marked change in the seasonality of some of the component indexes appears. Since the market is already accustomed to a definite seasonal differential in Class I prices, it is important to remove as much seasonal effect in the indexes as possible. From 1946 on, the Philadelphia market has become habituated to a Class I price 40 cents less than the annual average in the spring quarter and 40 cents more than the average price in the fall quarter. This system of seasonal differentials should be continued.

Relationship of formula index to Class I price. The combined index of these five statistical series is adopted as one of the factors to guide Philadelphia Class I prices. Each of the individual series is converted to a component index, with a 1936–1940 base, by dividing by the average monthly figure of the base period, or the calculated equivalent, as explained above. The five indexes are combined by adding the index values for each month and dividing the total by five.

The period 1936–1940 was recommended by the Committee as a base period for the various indexes, since it was comparatively free from instability, and that in the period, as a whole, there was good enough balance between production and the needs of the market to indicate that the average price of the period represents a reasonable level. When this average price, which is $2.97, is equated with the average index value (100), and monthly index prices are determined by applying respective monthly index values to this average price, such index prices, it appears, would have been appropriate market prices in this base period. A post-war base period was not recommended because of the relatively unstable market conditions.

Had normal market conditions prevailed in years following the base period, it is possible that prices determined in this same relationship to index values would have been suitable market prices. But war economy conditions intervened to change the pattern, and the base period relationship between the index and prices clearly is not appropriate since the war years. The base period relationship is 2.97 cents change in price to one point change in the index. From examination of the course of prices and index values since the base period it is evident that something less than this amount of price change should be associated with one point change in the index in order to yield reasonable formula prices. If the pre-war base period relationship between Class I prices and the index were projected into the years since the war, the resulting Class I prices would appear to be clearly out of line with market conditions during that period. In this connection, the Committee recommended that the price-index relationship be adjusted in line with marketing conditions in some recent period. Such a procedure appears reasonable since the short-time fluctuations in the formula index appear to be generally well timed and reasonable in extent. The method of adjustment recommended was to take the difference between the average price of some period in recent years—when production and market requirements were well balanced—and the base period price and then to relate the difference to the change in the index between the two periods. It seems clear that the recent period chosen as a point of reference for adjusting the rate of price change in relation to change in the index should have these characteristics: (1) It must not be, as a period, persistently short or long in supply. While there may be decided changes in the relation between production and market requirements, these should balance out so that on the average these relations may be said to be in balance. (2) It must have a pattern of prices in relation to changing supply and demand conditions that makes the average monthly price representative of the level from which the monthly prices varied or should have varied in accordance with changing relations between market production and disposition.

With this method of determining a ratio of change, judged on the basis of the resulting prices produced, the ratio of 2.57 cents per point change in the index would seem to be a suitable ratio. The proposed formula index with this ratio of change to prices and with the proposed bracketing and seasonal price adjustments would have given prices that, from careful examination, appear to be reasonable in relation to the prevailing and changing market conditions of the whole postwar period. Although the formula prices generally would have differed somewhat from the actual prices, these differences do not indicate lack of merit in the formula if they appear reasonable upon reviewing marketing conditions at the time. Comparing the larger movements of the formula prices and actual prices, the changes were in the same direction, although generally at a different level. They would have moved up to their peak in the last quarter of 1948 in much the same manner as did actual prices. They would have risen rapidly in late 1946 when markets were freed from wartime restrictions, settled back the first half of 1947 and recovered by the end of the year. During 1948 formula prices would have been higher than actual prices. During this period eastern and southern markets were still short of supplies and demand was unabated. Near the end of 1948 when it could be clearly observed that market conditions were beginning to reverse themselves this formula price would have fallen sharply and continued downward during the forepart of 1949 as production conditions continued favorable. At the beginning of 1950 the formula price would have been slightly lower than the price which prevailed and would have continued so through the first half of the year.

From this appraisal this particular price-index relationship seems to be satisfactory for the proposed formula index. This particular figure of 2.57 cents per unit change in the index is determined in the manner suggested by the Committee. From the average Class I price of the 3-year period January 1947 through December 1949 the average price of the base period was subtracted. The difference in the average prices of these two periods was divided by the average index value of the 3-year post-war period less 100. This particular 3-year period was taken because (i) its average price seemed to be representative of post-war levels and (ii) its average price appears to have been a reasonable general level with reference to the market conditions during the period. Since the end of the war period the level of Philadelphia Class I prices has constantly shifted. It appears necesary to take a period as long as 3 years in order to have a price truly representative of the post-war price level. Three full years compensate for relations and conditions peculiar to any one year. Prices during this period moved generally in a cycle which began after the market was free from the war-time price regulations. Until late 1948, markets were short and prices moved upward to a peak in the fall of that year. From there, with increasing supplies and some slackening of demand, the downward movement commenced and continued through 1949. On the whole, the pattern of actual prices in relation to changing conditions during this period appears reasonable enough at least to lend credence to the average price as a reasonable level for the period.

It is not to be expected, however, that the ratio of change of prices, in relation to the index, derived through use of this three-year period (1947–1949) is precisely the most desirable ratio, since the final test is the reasonableness of the resulting prices. The calculated ratio of change, using this three-year period, is 2.52 cents per point of index. This is a change from 2.48 cents in the tentative findings resulting from corrections and adjustments of the component indexes introduced in the reopened hearing. Application of this ratio of change in the manner set forth in the tentative findings, while correcting certain of the component indexes, for seasonal variation as described herein, results in prices which, although generally reasonable, are in a few recent periods lower than is considered appropriate in view of market conditions at the time. In this connection, examination of the position of the monthly index values in relation to bracket limits during the most recent twelve months for which data is available suggests that the relationship of the formula price to the index is slightly lower than desirable during current periods.

Accordingly, the relationship of the price to the index herein recommended is slightly higher than that which would result based entirely upon the relationships of actual prices and the index during the base period and the post-war period 1947–1949. The ratio of change of 2.57 cents of price per point of index multiplied by the monthly value of the composite index less 100, plus the base price of $2.97, results in the applicable formula price, subject to the system of brackets described herein. Inasmuch as the determination of this ratio of change was not made solely upon the basis of the average of actual prices producers have received during certain periods, but primarily upon the basis of the reasonableness of the resulting formula prices in the post-war period, it is not necessary to deduct the 6 cents per hundredweight from the schedule of formula prices, as was recommended in the tentative findings to account for a recent change in the Class I butterfat differential. In appraising the prices which would have been produced by the formula throughout the post-war period, however, the comparability of prices in different periods is affected by the changing value of the butterfat differential.

Producers testimony in the record was directed towards justification of a higher ratio of change based in the first instance upon a more recent period. This position was modified in a proposed conclusion that the proper ratio seemed to lie somewhere between that derived from the period recommended herein and the period 1949–1950 proposed by producers. The ratio of change recommended herein is a little less than midway between those which would result from using the 1947–1949 period and the 1949–1950 period for determination thereof.

The proposed formula index, with the price-index relationship recommended herein, appears to give reasonable prices in relation to supply and demand conditions during the post-war period. Although the formula price would have been at times at considerable variance from the price that prevailed, actual prices, viewed in retrospect, appear at times to have moved sluggishly in relation to changing market conditions, and it would appear that the formula would have kept prices in a closer relation to market conditions.

Price adjustments based upon relationship of supply and sales. An examination of data in the record shows a considerable range in the relationship of producer deliveries to Class I sales during the history of the Federal order in this market. Deliveries as a percentage of Class I sales during periods of 12 consecutive months varied from a low of about 102 percent in the twelve months ending July 1946 to a high of about 133 percent in the twelve months ending March 1950. The increase in these percentages was considerable since the most recent data in the Committee Report, and this increase coincides with increases in production per day per producer and the increase in milk production in the State of Pennsylvania. Since the New York City milkshed overlaps the Philadelphia milkshed, it may be expected that there would be some correlation of the amount of supplies available to handlers in the two markets. It is noted that the New York blend price declined considerably in relation to the Class I–A price during the period of April 1948 to April 1950, and that during the same period there was considerable change in the percentage relationship of Philadelphia producer deliveries to Class I sales.

One of the most important factors to consider in establishing milk prices is the relationship of available supplies to Class I sales. The relationship of producer deliveries to Class I sales in the Philadelphia market does appear to change in line with changes in available supplies. It appears that this relationship would be a useful factor as part of the proposed formula in establishing Class I prices in this market. Although the formula index generally may be expected to bring about price changes which will avoid maladjustments between supplies and sales, a statistical measure of the relationship of available supplies to the level of Class I sales would provide an added safeguard. As stated in the Committee report, important changes in utilization might require deviation from the price determined by the proposed formula.

Two important considerations in judging the adequacy of the amount of milk supplied by producers are the amount of reserve over Class I sales in the short supply season, and the amount of excess over sales in the flush season. November is generally the month of shortest production, and May is generally the month of highest production in this milkshed. The desirable goal is an adequate reserve in the short season, and not excessive supplies in the spring months. A relatively small amount of seasonal variation in production would facilitate achievement of this goal; while on the other hand, a relatively large seasonal variation in production would tend to result in excessive supplies in spring months if supplies in the previous fall had been adequate.

Seasonal variation in producer deliveries during the 12-month period ending in April 1950 was somewhat less than in previous years. During this period receipts were about 133 percent of Class I sales. November receipts were about 115 percent of sales, and May receipts were about 147 percent of Class I sales. Supplies during this period were generally considered more than adequate in this and other Northeastern markets. If, however, the pattern of seasonal variation of production had been somewhat wider, the same 12-month ratio of receipts to Class I sales would correspond to a smaller amount of reserve in the fall and a larger surplus in the spring. The likelihood of some changes from time to time in the seasonal pattern of production suggests that it would be necessary to take a percentage of sales somewhat higher than 133 percent if this factor is to be used as the measure of excessive supplies.

A figure of 135 percent of sales was recommended in the tentative findings as indicating the dividing line between normal and surplus supply conditions. Assuming the same seasonal patterns of receipts and sales as occurred during the May 1949–April 1950 period, the percentage of 135 percent for 12 months would correspond to receipts in November

about 117 percent of sales, which is higher than in any November since the issuance of the order. With a wider seasonal range in receipts, as in 1947 for example, the corresponding November percentage would be about 107 percent of sales.

A pattern of seasonal production somewhere between these two, when 12 months' receipts are 135 percent of sales, would result in about 12 percent excess over sales in November. Accordingly, it must be recognized that a 12-months total of receipts over 135 percent of sales does not result in a mathematical certainty of a surplus supply situation in some fall months. It is also recognized that handlers in this market do not ordinarily rely entirely upon regular producer sources for their fall supplies. Unless the character of handlers' operations in this market changes considerably, it seems reasonable to expect, based on previous experience, that when handlers are accepting a volume of milk which during 12 months is more than 135 percent of sales, a surplus supply condition exists. It is accordingly concluded that the formula price should be adjusted downward in this case.

Producers pointed out the possibility that some handler might deliberately bring a plant under the order for the purpose of bringing about a price reduction through this device of adjusting the price on the basis of average market utilization. The ability of a handler or handlers to so reduce the 12-months average of market-wide utilization would be generally an indication of a liberal supply situation. The possibility of manipulation of the supply-sales ratio does not appear at this time to be a serious threat to the practicality of this device as a basis for price adjustment, and, at least, it does appear reasonable to include this device in the formula until some experience is gained in its operation.

A similar analysis of levels of receipts and sales, likely to result in fall shortages, assuming seasonal changes similar to those in recent years, indicates that when producer receipts for 12 months are less than 120 percent of Class I sales, that the total amount of producer milk received in the short season by Philadelphia handlers is only slightly more than Class I sales or may be even less than Class I sales. In the tentative findings it was recommended that when receipts exceeded Class I sales by less than 120 percent in 12 months, that the formula price should be adjusted upward. Further consideration leads to the conclusion that some allowance should be made for the practice of handlers to rely upon nonproducer sources for some of their short-season supply. Accordingly, it is recommended that a somewhat lower level of receipts be taken as an indication of a shortness of available supply. The figure of 115 percent of sales during twelve months is recommended as the dividing line and it is concluded that an upward price adjustment should be made if the percentage is less than 115.

The amount of price adjustment made to correct an excessive or short supply should be substantial enough to encourage a change in production. It is recommended that an upward price adjustment of 40 cents per hundredweight apply if the supply of producer milk is inadequate, and a 40 cents per hundredweight downward adjustment apply if supplies are excessive. These adjustments would be made from the level of price indicated by the formula index. However, because of the possibility that the formula index might indicate a price adjustment which in itself would tend to correct the supply situation and obviate the need for further adjustment, it is recommended that the price adjustment based on the relationship of receipts to sales should not result in a total change in the price from the price in the same month a year previous of more than 80 cents.

A producer representative pointed out at the hearing that if the proposed price adjustment based on utilization had been added on to the formula index price in all cases where the applicable percentage of receipts to sales was less than 120 percent, that the resulting prices in some periods would have been unreasonably high. It is not possible to form a proper appraisal of this device on such a basis, since if the formula index prices had been in effect during these earlier periods it is quite possible that a better adjustment of supplies in relation to requirements would have occurred.

It is further recommended that this price adjustment based on ratio of receipts to sales not operate until the other parts of the formula have been in effect for a full twelve months. This will allow time for the formula prices to affect the supply situation during most of the months used in the 12-month totals of receipts and sales.

If the formula price for a month is to be announced on the 15th of the previous month, the latest available data on receipts and sales for 12 months would be for the period ending with the second month preceding the month for which the price is announced.

Incidental formula features. The formula proposal of producers contains certain incidental provisions which should be adopted as proposed. One such is the seasonal Class I price adjustment. The pattern of seasonal adjustment of Class I prices at the beginning of each calendar quarter which has been used in recent years should be continued. This pattern of seasonal pricing has been accepted by producers as a means for encouraging more even production. The effectuation of this seasonal pattern is accomplished by adding 40 cents per hundredweight during the months of October, November and December to the prices the formula would otherwise produce for these months, and deducting 40 cents per hundredweight for the months of April, May and June.

Another feature is the 20-cent interval of price change. It has been customary in recent years to adjust the annual level of the price by 20- and 40-cent intervals. This method of adjusting the level of the Class I price coordinates this operation with the seasonal changes by making all changes in 20- and 40-cent intervals.

Still another feature is a bracketing of the index so that price changes will occur only after substantial changes in the index. In order to prevent erratic price changes which might be caused by slight changes in the index, it is recommended that an interval be left between the formula index brackets so that once the index has moved into one bracket a reversal would not immediately return it to the bracket in which it was previously. Since in the formula recommendation made herein a 20-cent price change is equivalent to about 7.8 index points, an interval between index brackets of 3.8 index points would appear to provide a desirable safeguard against erratic changes.

The location of the mid-points of the brackets should be determined so that changes from the price in effect prior to operation of the formula will be in 20-cent intervals. This will be in line with the accepted custom in this market of making most price changes in terms of 20-cent intervals.

Producers and handlers argued that the formula price changes should be made only at the beginning of each calendar quarter. This, it was argued, would be less disturbing to the market than more frequent price changes, and would facilitate coordination of the State orders and Federal order in this area. A producer representative pointed out that except for the period from the fall of 1948 through the winter of 1949, formula price changes during calendar quarters would have been generally limited to 20-cent changes, and that during many quarters no price changes were indicated. The market has been accustomed to having changes in the basic price level take place at the beginning of calendar quarters at the same time as seasonal changes. Examination of the changing level of formula prices in past years shows that generally a quarterly pricing system would not have resulted in serious maladjustment within a quarter excepting possibly in a few periods when conditions were changing rapidly. Based on experience in previous periods, such occasions would be seldom enough that they should not be considered a serious disadvantage to formula pricing. It is recommended that this feature of quarterly price changes be adopted as requested by producers and handlers.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the marketing area and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of producers and handlers. The briefs contained statements of fact, proposed findings and conclusions, and arguments with respect to the provisions of the proposed amendments. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in this recommended decision.

RECOMMENDED MARKETING AGREEMENT AND AMENDMENT TO THE ORDER

The following amendment to the order is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the order, as amended, and as hereby proposed to be further amended.

Delete § 961.4 (a) (1) and substitute the following:

(1) *Class I milk.* The market administrator shall compute and announce on the 15th day of each month (or on the next business day if the 15th is a holiday) from the latest available data the index values computed pursuant to subdivisions (i) through (vi) of this subparagraph, the Class I price, and the utilization percentages computed pursuant to subdivisions (vii) and (viii) of this subparagraph.

(i) Compute an index of wholesale commodity prices by averaging the four latest weekly index figures of wholesale commodity prices published by the Bureau of Labor Statistics, United States Department of Labor, and convert the result to a 1936–1940 base period by dividing by 0.8028.

(ii) Compute an index of prices paid by Pennsylvania farmers per hundredweight for 20 percent protein mixed dairy feed, using a 1936–1940 base period, by dividing by 0.01776 the monthly price for such feed published by the Pennsylvania Federal-State Crop Reporting Service.

(iii) Compute an index of prices received by Pennsylvania farmers for farm products except dairy on a 1936–1940 base period by dividing the monthly index published by the Pennsylvania Federal-State Crop Reporting Service on a 1910–1914 base by 1.0915 and adjust the result for seasonal variation by dividing by the applicable figure indicated below for each month:

January–February–March	0.96
April–May–June	1.00
July–August–September	1.04
October–November–December	1.00

(iv) Compute an index of prices paid for milk by 18 Midwest condenseries, using a 1936–1940 base period, by dividing by .013945 the monthly average price paid at 18 Midwest condenseries as reported by the United States Department of Agriculture, and adjust the result for seasonal variation by dividing by the applicable figure indicated below for each month:

January	1.02	July	0.97
February	1.02	August	1.00
March	1.01	September	1.00
April	.99	October	1.00
May	.98	November	1.02
June	.96	December	1.03

(v) Compute an index of the average daily pounds of Class I milk sold by all handlers during the previous month on all routes from which any milk is disposed of in the marketing area, using a 1936–1940 base period, by dividing the monthly figure by 14,960, and adjust the result for seasonal variation by dividing by the applicable figure indicated below for each month:

January	1.00	July	0.94
February	1.00	August	.95
March	1.02	September	1.02
April	1.02	October	1.04
May	1.00	November	1.01
June	1.00	December	1.00

(vi) Divide the sum of the indexes calculated in subdivisions (i) through (v) by 5. This figure shall be the formula index, and shall determine the Class I price for each calendar quarter in accordance with the following table, subject to the provisions of subdivisions (vii) and (viii) of this subparagraph. The price for each calendar quarter shall be determined by the index value calculated and announced in the month preceding the calendar quarter, in accordance with the bracket shown in the following table in which such index value is included, or if such index value is not within a bracket, the price for the calendar quarter shall be determined by the adjacent index bracket which is the same as or nearest to the bracket equivalent to the price in the previous quarter.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR, Part 240]

EXEMPTION OF CERTAIN ACQUISITIONS OF SECURITIES UNDER STOCK BONUS OR SIMILIAR PLANS

PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal for the amendment of § 240.16b-3 (Rule X-16B-3) under section 16 (b) of the Securities Exchange Act of 1934. This rule provides an exemption from section 16 (b) of the act with respect to certain acquisitions of securities by a director or officer under a stock bonus or similar plan approved by security holders of the issuer. The purpose of the amendment is to broaden the rule so as to exempt acquisitions under certain types of plans not presently within the purview of the rule.

The section referred to provides in general that where any director, officer or principal holder of a registered equity security has realized a profit from any purchase and sale, or sale and purchase, of any equity security of the issuer within any period of less than six months, such profit may be recovered by the issuer. The section authorizes the Commission to exempt therefrom any transaction or transactions not comprehended within the purpose of the section.

It should be noted that the amended rule, like Rule X-16B-3 as presently in effect, would exempt only certain acquisitions of securities under plans of the type specified. Sales of securities so acquired are not exempted by the rule and would, therefore, be within the purview of section 16 (b) of the act if within six months before or after such sales the director or officer has had other acquisitions which could be matched against them.

The text of the proposed rule is as follows:

§ 240.16b-3 *Exemption from section 16 (b) of certain acquisitions of securities under stock bonus or similar plans.* Any acquisition of shares of stock (other than convertible stock or stock acquired pursuant to an option, warrant or right) by a director or officer of the issuer of such stock shall be exempt from the operation of section 16 (b) of the act if the stock was acquired pursuant to a stock bonus or similar plan meeting all of the following conditions:

(a) The plan has been approved specifically, or through the approval of a charter amendment authorizing stock for issuance pursuant to the plan, by the security holders of the issuer at a meeting for which proxies were solicited in accordance with such rules and regulations, if any, as were then in effect under section 14 (a) of the act.

(b) If the selection of the persons who may acquire securities pursuant to the plan or the determination of the amount of securities which may be so acquired by any such person is subject to the discretion of any person, such discretion shall be exercised by a committee of three or more directors or other persons having full and final authority in the matter who are not entitled to participate in the plan or in any other similar plan provided by the issuer or any of its affiliates.

(c) The plan effectively limits the aggregate amount of securities which may be distributed pursuant to the plan, either by limiting the maximum amount which may be acquired by each participant in the plan or by limiting the maximum amount which may be so acquired by all such participants.

(d) The acquisition of the securities pursuant to the plan does not involve the payment of any cash, directly or indirectly, to the issuer or any of its affiliates.

All interested persons are invited to submit data, views and comments on the proposed rule, in writing, to the Securities and Exchange Commission at its principal office, 425 Second Street NW., Washington 25, D. C., on or before February 15, 1951.

By the Commission.

Secretary.

WITHDRAWAL OF APPROVAL NO. 160.007/75/0 FOR BUOYANT CUSHION

MERCHANT MARINE COUNCIL HEARING

1. The certificate of Approval No. 160.007/75/0 for a standard kapok buoyant cushion manufactured by the Hirsch-Weiss Canvas Products Co., Portland, Oregon, was suspended November 7, 1950, for noncompliance with requirements of Coast Guard regulations and the company was ordered to terminate the production of buoyant cushions under that approval number immediately, and the company was requested to state what action would be taken for recalling and withdrawing from service those buoyant cushions which were on the market and which might be of doubtful buoyant quality. The Hirsch-Weiss Canvas Products Co. indicated no action would be taken for removing from the market buoyant cushions which may be of unreliable buoyant quality and not manufactured in accordance with Coast Guard requirements. The standard kapok buoyant cushion manufactured under Approval No. 160.007/75/0 was approved for use on motorboats of Classes A, 1, or 2, not carrying passengers for hire in ac-

cordance with the Motorboat Act of April 25, 1940 (46 U. S. C. 526e), and 46 CFR 25.4–1 and 160.007. Since the buoyant cushions manufactured under certificate of Approval No. 160.007/75/0 were manufactured with kapok filler having doubtful buoyant qualities, it is necessary for safety of life at sea that certificate of Approval No. 160.007/75/0 be withdrawn from use and, therefore, all such buoyant cushions shall be removed from and not used on motorboats of Classes A, 1, or 2 as lifesaving devices.

2. *It is therefore ordered*, That Approval No. 160.007/75/0 shall be withdrawn effective November 7, 1950, and it is further ordered that all buoyant cushions bearing Approval No. 160.007/75/0 shall not be used as a lifesaving device on board motorboats of Classes A, 1, or 2, not carrying passengers for hire: *Provided, however*, That owners or operators of motorboats shall have until May 1, 1951, to replace such cushions with others of an approved type before being subject to any of the penalties of the Motorboat Act of 1940 (46 U. S. C. 526o).

3. Any person aggrieved by the withdrawal of Approval No. 160.007/75/0 may submit a written brief setting forth all pertinent facts and may request a hearing to the Commandant (CMC), U. S. Coast Guard, Washington 25, D. C., prior to January 30, 1951, so that a hearing, if requested, may be scheduled for the Merchant Marine Council on January 30 or 31, 1951.

Dated: January 15, 1951.

[SEAL] MERLIN O'NEILL,
Vice Admiral, U. S. Coast Guard, Commandant.

[CGFR 51–2]

TERMINATION OF APPROVALS FOR BUOYANT CUSHIONS FILLED WITH TYPHA (PROCESSED CATTAIL FLOSS)

MERCHANT MARINE COUNCIL PUBLIC HEARING

1. The Merchant Marine Council will hold a public hearing on January 30, 1951, commencing at 2: 00 p. m. in Room 4120, Coast Guard Headquarters, Thirteenth and E Streets NW., Washington, D. C., to consider the termination of outstanding approvals for buoyant cushions filled with typha (processed cattail floss), authorized to be used as lifesaving equipment on motorboats of Classes A, 1, or 2, not carrying passengers for hire by the Motorboat Act of April 25, 1940 (46 U. S. C. 526e) and 46 CFR 25.4–1 and 160.007.

2. The typha-filled buoyant cushions were originally approved during World War II due to the fact that under War Production Order No. M–85 kapok was restricted to use in lifesaving devices for vessels engaged in the war effort and there was no kapok available for use in buoyant cushions for pleasure motorboats. Since typha is inferior to kapok with respect to both buoyant qualities and durability, these approvals were intended to remain in effect only until such time as kapok was removed from the critical list of materials and would be available for use in buoyant cushions. The War Production Order No. M–85 has been rescinded and kapok is available for use in the manufacture of buoyant cushions.

3. All the approvals of buoyant cushions filled with typha (processed cattail floss) are to be terminated with the understanding that those buoyant cushions manufactured before the effective termination date may be continued in use so long as in good and serviceable condition.

4. All holders of approvals of buoyant cushions filled with typha (processed cattail floss) who may desire to appeal the termination of approvals for their specific cushions as well as others who may be affected by such actions, shall submit to the Commandant (CMC), United States Coast Guard, Washington 25, D. C., on or before January 29, 1951, letters setting forth the reasons why the action to terminate these approvals should not be taken, together with any supporting data. All persons interested in or affected by the termination of approval of buoyant cushions filled with typha (processed cattail floss) may appear at the public hearing and supplement their appeals or comments by oral arguments.

Dated: January 15, 1951.

CALIFORNIA

NOTICE OF FILING OF PLAT OF SURVEY

JANUARY 15, 1951.

Notice is given that the plat of original survey and dependent resurvey of the following described lands, accepted December 19, 1942, will be officially filed in the Land Office, Sacramento, California, effective at 10:00 a. m. on the 35th day after the date of this notice:

MOUNT DIABLO MERIDIAN

T. 26 S., R. 38 E.,
All of secs. 4, 5, 6, 7, 8, 9;
Sec. 10, Lots 1 to 9 inclusive, W½NW¼, SW¼SW¼;
Sec. 15, Lots 1 to 9 inclusive, NW¼NW¼, W½SW¼;
All of secs. 16, 17, 18, 19, 20, 21;
Sec. 28, N½, Lots 1, 2, 3, 4;
All secs. 29, 30, 31;
Sec. 32, Lots 1 to 10 inclusive, W½NW¼.

The areas described aggregate 12,022.98 acres.

Portions of secs. 10 and 15 were withdrawn by Executive order of December 12, 1917, and placed in Power Site Reserve No. 671. All of those portions of secs. 10 and 15 lying within 50 feet of the transmission line right-of-way of the City of Los Angeles were reserved February 14, 1922, and included in Federal Power Project No. 134. All or parts of secs. 4, 5, 8, 9, 10, 15, 16, 17, 20, 21, 28, 29, 31 and 32 were withdrawn January 21, 1933, for Stock Driveway No. 235, California No. 17.

No applications for any of these lands may be allowed under the homestead, desert land, small tract, or any other non-mineral public land laws, unless the land has already been classified as valuable or suitable for such type of application or shall be so classified upon consideration of an application.

At the hour and date specified above the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this notice shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this notice shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this notice, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this notice, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office, Sacramento, California, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land Office, Sacramento, California.

WILLIAM ZIMMERMAN, Jr.,
Assistant Director.

DEPARTMENT OF COMMERCE

Bureau of the Census

ANNUAL SURVEYS OF SPECIFIED MANUFACTURED PRODUCTS

NOTICE OF DETERMINATIONS

In conformity with the act of Congress approved June 19, 1948, 62 Stat. 478, and due notice of consideration having been published (15 F. R. 8789, December 12, 1950) pursuant to said act, I have determined that annual data relating to the products listed below are needed to aid the efficient performance of essential governmental functions and have significant application to the needs of the public and industry and are not publicly available from nongovernmental or other governmental sources.

The commodities listed below are significant in the food, apparel, leather, chemicals, wood products, basic metals, and fabricated metal products areas of manufacturing. The establishments in these industries directly employ more

than a million persons and, indirectly, through their demands upon other industries for materials and services, provide jobs for many more than that number. Information on the output of these industries is necessary to an adequate measurement of total industrial production. Government agencies need data on the production of these industries. Manufacturers in the industries involved, as well as their suppliers and customers and the general public, have all requested such data in the interest of business efficiency and stability.

The content of these annual reports will be identical with that of monthly, quarterly, or semi-annual reports conducted by the Bureau of the Census on the same group of products. However, there will be no duplication inasmuch as establishments that file the monthly, quarterly, or semi-annual reports during the year covered by the annual report will not need to submit annual reports on these products.

Information will be collected annually, beginning in 1951, covering each preceding calendar year from establishments engaged in the production of the following products:

Flour milling products.
Confectionery.
Men's and boys' apparel.
Shoes and slippers.
Chemicals and gases.
Sulfuric acid.
Superphosphates.
Softwood plywood.
Mechanical stokers.
Construction machinery.
Plumbing fixtures.
Wrought magnesium products.
Wrought aluminum products.
Steel shipping barrels, drums, and pails.
Metal cans.
Commercial closures.
Complete aircraft.
Aircraft engines.
Aircraft propellers.

The report form will require information on production and/or shipments from the selected establishments. In addition, for flour milling products, superphosphates, softwood plywood, plumbing fixtures, and steel barrels, drums, and pails, data on stocks will be obtained. Data on consumption of raw materials will be required of the producers of softwood plywood and commercial closures. Producers of wrought aluminum and wrought magnesium products will be required to report their receipts of basic shapes for further processing. Producers of steel shipping barrels, drums, and pails; complete aircraft; aircraft engines; and aircraft propellers will also be required to report their unfilled orders (backlog). For the aircraft surveys (complete aircraft, aircraft engines, and aircraft propellers), figures on December 15 employment will be collected.

The above information will be required of establishments of the types described above and the report forms will be sent each year to companies operating such establishments. Blank copies of the forms to be used are available to the producers of the listed commodities on request to the Director of the Census, Washington 25, D. C.

I have, therefore, directed that annual surveys be conducted for the purpose of collecting the data hereinabove described.

Dated: January 15, 1951.

[SEAL] ROY V. PEEL,
Director.

Approved:

CHARLES SAWYER,
Secretary of Commerce.

ANNUAL SURVEYS IN CHEMICAL AND MACHINERY AREAS OF MANUFACTURING

NOTICE OF DETERMINATIONS

In conformity with the act of Congress approved June 19, 1948, 62 Stat. 478, and due notice of consideration having been published (15 F. R. 8788, December 12, 1950) pursuant to said act, I have determined that annual data relating to the products listed below are needed to aid the efficient performance of essential governmental functions and have significant application to the needs of the public and industry and are not publicly available from nongovernmental or other governmental sources.

The industries listed below are significant in the chemicals and machinery areas of manufacturing. The establishments in these industries directly employ about 200,000 persons and, indirectly, through their demands upon other industries for materials and services, provide jobs for many more than that number. Information on the output of these industries is necessary to an adequate measurement of total industrial production. Government agencies need data on the production of these industries. Manufacturers in the industries involved, as well as their suppliers and customers and the general public, have all requested such data in the interest of business efficiency and stability.

Information will be collected annually, beginning in 1951, covering each preceding calendar year from all establishments engaged in the production of the following products:

Inorganic chemicals and gases.
Internal combustion engines.
Metalworking machinery.

Information on production and/or shipments will be required of all establishments engaged in the production of the specified items. Report forms will be sent each year to companies operating such establishments. Blank copies of the forms to be used are available to the producers of the listed commodities on request to the Director of the Census, Washington 25, D. C.

I have, therefore, directed that annual surveys be conducted for the purpose of collecting the data hereinabove described.

FEDERAL POWER COMMISSION

[Docket No. G-1583]

NEW YORK STATE NATURAL GAS CORP.

NOTICE OF APPLICATION

JANUARY 15, 1951.

Take notice that on January 8, 1951, New York State Natural Gas Corporation (Applicant) a New York corporation, 30 Rockefeller Plaza, New York, New York, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the installation of a meter, recording pressure and volume gauge, regulator, and incidental equipment at a point in its main transmission system near Freeville, Tompkins County, New York. Applicant proposes by these facilities to sell and deliver natural gas to New York State Electric and Gas Corporation for resale and distribution in the Village of Freeville and the Town of Dryden, Tompkins County, New York. These communities have no gas utility service at present.

Through the proposed facilities, Applicant has contracted to deliver a maximum of 20,000 Mcf per year with a daily maximum of 125 Mcf of natural gas. The cost of these facilities is estimated to be $11,848, which will be paid from general funds of Applicant.

Applicant requests that its application be heard under the shortened procedure pursuant to § 1.32 (b) of the rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 5th day of February, 1951. The application is on file with the Commission for public inspection.

EL PASO NATURAL GAS CO.

NOTICE OF APPLICATION

JANUARY 15, 1951.

Take notice that El Paso Natural Gas Company (Applicant), a Delaware corporation, address 1010 Bassett Tower, El Paso, Texas, filed on January 4, 1951, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain transmission pipe line facilities hereinafter described.

Applicant proposes to transport for resale an additional 150,000,000 cubic feet of natural gas per day jointly to Southern California Gas Company and Southern Counties Gas Company of California at a point on the Arizona-California border near Blyth, California; an additional 150,000,000 cubic feet of natural gas per day to Pacific Gas and Electric Company at a point on the Arizona-California border near Topock, Arizona;

and an additional 100,000,000 cubic feet of natural gas to other customers located along and adjacent to its existing pipe line system in the States of Arizona, New Mexico, and Texas. Applicant proposes to obtain the above volumes of natural gas by transporting 300,000,000 cubic feet per day from the Permian Basin in southeastern New Mexico and West Texas, and 100,000,000 cubic feet per day from the San Juan Basin in northern New Mexico and southern Colorado by means of additional facilities to be constructed and operated in conjunction with its existing pipe line system.

The estimated cost of the proposed undertaking, including facilities and additional funds required, is $83,000,000. Applicant proposed to obtain the funds required from the sale of $62,500,000 of 15 year 3¼ percent first mortgage bonds, $15,000,000 of preferred stock with dividend rate of 4.25 percent and $5,500,000 from the sale of common stock.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 5th day of February 1951. The application is on file with the Commission for public inspection.

JORDAPHONE CORP. OF AMERICA ET AL.

ORDER CONTINUING HEARING

Jordaphone Corporation of America et al., complainants, Docket No. 9383; v. American Telephone and Telegraph Company et al., defendants, Docket No. 9701. In the matter of use of telephone answering devices in connection with interstate and foreign telephone service.

The Commission having under consideration a motion filed January 5, 1951, by the Chief, Common Carrier Bureau, Federal Communications Commission, requesting a continuance of the above-entitled hearing from January 15, 1951, to a date not later than January 29, 1951; and

It appearing that the reason for the requested continuance is due to the fact that various telephone answering devices which were to be supplied by various parties herein were not supplied as soon as had been anticipated and that the installation of the field test units were not completed by the parties to the proceeding until the first week in December 1950, and as a result, it has not been possible for the Commission's Engineering Staff to complete the necessary studies in connection with the field tests and to prepare data with respect thereto for submission in evidence by January 15, 1951; and

It appearing that the defendants, American Telephone and Telegraph Company, et al., by a Statement of Position filed January 10, 1951, do not oppose the requested continuance but affirmatively assert that in no instance has an installation been delayed in any manner by the defendants and that they are now ready to proceed on the presently scheduled hearing date or on such other date as may be fixed if the pending motion is granted; and

It appearing from statement of Commission Counsel that the requested continuance is agreeable to the several complainants herein; and good cause having been shown that the motion for the requested continuance should be granted;

It is ordered, This the 12th day of January 1951, that the motion of the Chief, Common Carrier Bureau for postponement of the hearing date in the hearing in the above-entitled proceeding is granted and the hearing now scheduled to begin January 15, 1951, is continued to January 29, 1951, beginning at 10:00 a. m., in the offices of the Commission at Washington, D. C.

In re application of Tri-State Broadcasting Company (WCPM), Middlesboro, Kentucky, for modification of construction permit; Docket No. 9417, File No. BMP-4581.

1. The Commission has under consideration the petition of its General Counsel to reopen the record of hearing upon the above-entitled application, which seeks authority to change the operating facilities of Station WCPM, Middlesboro, Kentucky, from 560 kilocycles, 500 watts, daytime hours only, to 560 kilocycles, 500 watts during the day and 100 watts at night, unlimited time. The proposal contemplates the assignment of a Class IV station to a regional channel. The hearing in this matter was concluded on January 6, 1950.

2. Under the Commission's rules and the Standards of Good Engineering Practice, the assignment requested herein is permissible upon condition, among others, that a local channel is not available for use in the area in which operation is sought.[1] While the hearing upon this application was in progress, Middlesboro, Kentucky, had one other standard broadcast facility, namely, Station WMIK, which was licensed for unlimited time operation on the 1490 kilocycle channel, with power output of 250 watts, and the evidence showed that there was no other local channel assignment then available for use in Middlesboro. Subsequent to the close of the record, however, and on May 17, 1950, the license of Station WMIK for operation on 1490 kilocycles was surrendered to the Commission.

3. In his petition, the General Counsel of the Commission alleges that the record of the proceeding herein should be reopened to show the availability of the 1490 kilocycle channel for use in Middlesboro, Kentucky; and that the evidence of such availability is newly discovered, within the meaning of the Commission's rules and regulations, inasmuch as the transaction involving the channel occurred after the close of the record of the hearing.

4. The petition herein states good cause and there is no opposition thereto. The circumstances recited above are such as to require the reopening of the record for the purpose indicated.

It is ordered, This 10th day of January 1951, that the instant petition be, and it is hereby, granted; the record in the above entitled proceeding is reopened for further hearing and for the sole purpose of receiving evidence with respect to the availability of a Class IV channel for use in the City of Middlesboro, Kentucky; and the said further hearing will be conducted in the offices of the Commission in Washington, D. C., beginning at 9:30 a. m., January 23, 1951.

PACIFIC COAST BROADCASTING CO. (KXLA)

ORDER CONTINUING HEARING

In re application of Pacific Coast Broadcasting Company (KXLA), Pasadena, California, Docket No. 9594, File No. BML-1328, for modification of licenses; in re order to show cause directed to Pacific Coast Broadcasting Company (KXLA), Pasadena, California, Docket No. 9595, File No. BS-1189.

The Commission having under consideration a petition filed on January 5, 1951, by Pacific Coast Broadcasting Company (KXLA), requesting that the hearing herein be continued from January 15 to March 1, 1951; and an opposition thereto filed on January 8, 1951, on behalf of KFAB Broadcasting Company, respondent herein; and

It appearing, that the General Counsel of the Commission has waived the four-day requirement of § 1.745 of the Commission's rules and regulations, so as to permit immediate consideration of said petition; and

It further appearing, that by order dated November 27, 1950, the hearing herein was continued until January 15, 1951, upon a petition of the applicant alleging, in part, that the Southern California Edison Company had undertaken the construction of a power line within 800 feet of the southwest tower of the KXLA antenna system; that the Southern California Edison Company had not yet fulfilled its promise to insulate six of the towers of said power line and to supply them with tuning units in order to most effectively isolate the towers; that the installation of said tuning units were expected to be completed in the early part of December 1950; and that until this work on the towers has been completed, Station KXLA was unable to determine the extent to which the presence of these towers might alter the adjustment of the KXLA array; and

It further appearing, That the order of November 27, 1950, granting the continuance: *Further provided*, That: "Prior to January 15, 1951, Pacific Coast Broadcasting Company may file another petition herein requesting a further continuance of the hearing to February 15, 1951: *Provided*, That said petition contains an affirmative showing that the work on the power line of the Southern California Edison Company has been completed and the applicant has undertaken engineering studies to determine the effect, if any, of said power line upon the KXLA antenna array"; and

It further appearing that the instant petition alleges that, as of January 8, 1951, the work on the towers and power line would be complete, and that on that date, applicant's consulting engineer would leave Washington, D. C. for California, to commence taking measurements to determine the effect, if any, of the power line on the adjustment of applicant's antenna array, and that a minimum of forty-five days will be required to assemble the necessary data and make it ready for presentation at the hearing; and

It further appearing that the public interest would be served by granting a further continuance of the hearing herein, so as to permit the applicant to gather the necessary measurements and other engineering data necessary for the presentation of its case in this proceeding;

It is ordered, This 10th day of January 1951, that the petition of Pacific Coast Broadcasting Company (KXLA), is hereby granted, and the hearing herein, is hereby continued, to March 1, 1951.

ALLEN B. DU MONT LABORATORIES, INC. ET AL.

ORDER POSTPONING HEARINGS

Allen B. Du Mont Laboratories, Inc., complainant, Docket No. 9806, v. American Telephone and Telegraph Company, et al., defendants; in the matter of American Telephone and Telegraph Company, et al., Docket No. 9816; allocation of usage of intercity video transmission facilities.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 10th day of January 1951;

The Commission, having under consideration the proceedings in the above-entitled matters;

It appearing that Allen B. Du Mont Laboratories, Inc., American Broadcasting Company, Columbia Broadcasting System and National Broadcasting Company, parties in the above proceedings, have agreed upon certain procedures voluntarily to be followed by them to resolve their conflicting requirements for usage of intercity video transmission facilities of American Telephone and Telegraph Company and all other Bell System companies, which procedures may obviate the necessity for allocation by the Telephone Company of usage of such facilities among these networks;

It further appearing that the above-mentioned procedures will be applicable to the last three calendar quarters for the year 1951;

It further appearing that it will best conduce to the proper dispatch of the above proceedings to postpone the date for hearings for an indefinite period in order to observe the usage of intercity video transmission facilities of the Bell System Companies resulting from the above-mentioned agreement among the networks;

It is ordered, That hearings herein currently scheduled to begin January 15, 1951, are postponed until further order of the Commission.

ARK-VALLEY BROADCASTING CO., INC. (KGAR) ET AL.

ORDER ENLARGING ISSUES

In re applications of Ark-Valley Broadcasting Company, Inc. (KGAR), Garden City, Kansas, Docket No. 9811, File No. BP-7704; the Southeast Colorado Broadcasting Company (KLMR), Lamar, Colorado, Docket No. 9812, File No. BP-7783; Capital Broadcasting Company (KFNF), Lincoln, Nebraska, Docket No. 9813, File No. BP-7805; George Basil Anderson (KJSK), Columbus, Nebraska, Docket No. 9874, File No. BP-7932; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 10th day of January 1951;

The Commission having under consideration its order of October 6, 1950, designating the above-entitled matter for hearing, and the Commission's order of December 27, 1950, amending the latter order to include the above-entitled application of George Basil Anderson (KJSK); and

It appearing that the application of Capital Broadcasting Company seeks to move Station KFNF from Shenandoah, Iowa, to Lincoln, Nebraska; that in order to determine whether or not the public interest requires a grant of the application it is essential that the Commission be apprised of the comparative needs of the areas that will lose and gain service as the result of a grant of this application; and that, therefore, the issues in this proceeding should be enlarged to provide for such a comparison;

It is ordered, That the Commission's order of October 6, 1950, as amended by its order of December 27, 1950, is amended to include as Issue No. 8 the following:

8. To determine the comparative needs of the areas now served by Station KFNF including the city of Shenandoah, Iowa, and the areas to be served by Station KFNF operating as proposed including Lincoln, Nebraska, for broadcast service and, in view thereof, whether a grant of this application would be in accordance with section 307 (b) of the Communications Act of 1934, as amended.

SECURITIES AND EXCHANGE COMMISSION

BURLEY & CO.

MEMORANDUM OPINION AND ORDER PERMITTING APPLICATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 12th day of January A. D. 1951.

In the matter of Burley & Co., 120 Broadway, New York, New York.

This is a proceeding pursuant to section 15 (b) of the Securities Exchange Act of 1934 ("the act") to determine whether it is in the public interest to grant the application of Burley & Co. ("registrant"), a registered partnership composed of Chester C. Burley, Sr. ("Burley") and Albert W. Burley, that it be permitted to conduct its business as a broker and dealer without the restrictions set forth in our orders of June 21, 1948, and August 24, 1949.

Registrant filed a brief in support of its application. By stipulation our Division of Trading and Exchanges stated that it does not oppose the application and registrant waived a hearing, a trial examiner's recommended decision, and oral argument. Upon an independent review of the record we make the following findings.

On August 5, 1946, we revoked the broker-dealer registration of registrant's predecessor, also known as Burley & Company.[1] This revocation was based primarily upon our finding that Burley had willfully violated the anti-fraud provisions of the act in that he took secret profits in transactions with customers.[2]

Registrant subsequently filed an application for registration as a broker and dealer, stating that its dealer activities would be restricted to selling securities under a prospectus and to transactions for its own account effected exclusively with other dealers. In view of the restricted nature of the proposed business and other considerations in the public interest, we permitted registration to become effective on June 21, 1948.[3]

In 1949 registrant filed an application seeking a limited expansion of its activities so as to permit it to act as a dealer in the following types of transactions: "(1) in selling securities under a Securities Act prospectus; (2) in selling securities exempt from registration under the provisions of section 3 of the Securities Act of 1933, where an offering circular disclosing the purposes and terms of the offering is used; (3) in buying securities from and selling securities to institutional clients such as banks, insurance companies, investment trusts, estates, and municipal and state authorities and funds that possess analytical and trading facilities comparable to those of an average broker-dealer where the confirmations delivered to such clients shall bear upon the face of each a disclosure of the current professional bid and asked market pertaining to the security or securities involved; (4) in buying securities from and selling securities to brokers and dealers; (5) in making tenders of securities to the corporate issuers thereof, or to their fiscal agents, and (6) in selling securities which are the subject of non-registered secondary offerings where a disclosure of the dealer's discount in dollars and cents is customarily made to the buyer."

We could find no reason in the public interest for denying registrant's application and therefore granted it on August 24, 1949.[4]

In support of its present application registrant claims that the existing restrictions constitute "insurmountable obstacles" in competing for business with other broker-dealer firms of a similar size and character; that a number of prospective customers are reluctant to deal with a firm operating under restrictions; that registrant has been unable to induce salesmen to work for it because of the restrictions; and that certain municipal and state funds and certain small banks and trust companies with whom registrant presently may not transact business on a dealer basis insist upon their transactions being handled on a principal basis. Registrant further avers that it has faithfully and strictly complied with all our rules and regulations; that, "having during the past four years suffered the consequences of a prior indifference to the public interest, [it] is now firmly committed to the policy of treating that public interest as an inviolable trust"; and that it will continue to employ competent legal and technical advisers to assist it in operating its business.

In considering the public interest when we permitted registrant's registration to become effective in 1948, we took into account a number of factors, including the lapse of time since the revocation of the registration of the predecessor firm, the effect of such revocation on Burley's activities and income, Burley's previous good reputation, and his satisfactory conduct as a securities salesman subsequent to the revocation, as well as the proposal of registrant to restrict its business primarily to broker transactions. Two and a half more years have now elapsed since the firm's registration became effective in June 1948, and from the record before us it does not appear that registrant, during this period, has conducted its business outside the limits of the restrictions it assumed or in an improper manner. During this time, moreover, it has engaged legal and technical counsel to assist it and undertakes to continue to do so in order to insure, insofar as possible, compliance with its duties and responsibilities as a broker and dealer.

In view of the foregoing, we can find no valid reason in the public interest for denying registrant's application.

It is ordered, therefore, That the application of Burley & Co., a partnership composed of Chester C. Burley, Sr., and Albert W. Burley, that it be permitted to conduct its business as a broker and dealer without the restrictions set forth in the Commission's orders of June 21, 1948, and August 24, 1949, be, and it hereby is, granted.

By the Commission.

COSMOPOLITAN HOTEL CO. OF DALLAS, INC.

NOTICE OF APPLICATION

At a regular session of the Securities and Exchange Commission held at its offices in the city of Washington, D. C., on the 15th day of January, A. D. 1951.

Notice is hereby given that Cosmopolitan Hotel Company of Dallas, Inc., registered under section 8 (a) of the Investment Company Act of 1940 as a non-diversified closed-end management company, has filed an application pursuant to section 6 (c) of the Investment Company Act of 1940 for an order exempting the applicant from all provisions of the act.

In support of its application Cosmopolitan Hotel of Dallas, Inc. states that it is a corporation formed by a committee of the Dallas Chamber of Commerce. The purpose of the committee was, and the purpose of the corporation is stated to be, to assure that Dallas has adequate hotel facilities. Negotiations to accomplish this objective culminated in a contract with Statler Dallas Co., Inc., whereby the applicant will purchase and hold a specified amount of debentures issued by Statler Dallas Co., Inc. Cosmopolitan Hotel Company of Dallas, Inc., will issue a corresponding amount of its own debentures having the same interest rate and maturity date and has filed a registration statement under the Securities Act of 1933 pertaining to these securities. The application states that Cosmopolitan Hotel Company of Dallas, Inc., was not organized to deal with Statler Dallas Co., Inc., alone, and was not organized to purchase Statler securities or the securities of other corporations. The application further states that the applicant is a mere alter ego for the committee of the Dallas Chamber of Commerce; that the purpose of the applicant's activities is to obtain a hotel of distinction for Dallas, and that the applicant is engaged in a civic venture. It is asserted that the applicant is a civic entity, being a part of and an incorporated committee of the Dallas Chamber of Commerce, which is a non-profit, non-stock corporation, and that the applicant is equally a non-profit corporation, all of the stock of which was acquired for the purpose of aiding this Chamber of Commerce activity and for the account of said Chamber of Commerce and as a contribution, and no part of the net earnings of which, were there ever any net earnings, would ever inure to the benefit of any private shareholder or individual.

For a more detailed statement of the matters of fact and law asserted, all interested persons are referred to said application which is on file in the offices of the Commission in Washington, D. C.

Notice is further given that an order granting the application, in whole or in part and upon such conditions as the Commission may deem necessary or appropriate, may be issued by the Commission at any time on or after February 2, 1951, unless prior thereto a hearing upon the application is ordered by the Commission, as provided in Rule N-5 of the

rules and regulations promulgated under the act. Any interested person may, not later than January 31, 1951, at 5:30 p. m., submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

WAR CLAIMS COMMISSION

SPECIAL ADVISORY COMMITTEE

DESCRIPTION OF ORGANIZATION

Section 4 (14 F. R. 7820; 15 F. R. 6648) is amended by adding the following:

(d) *Special Advisory Committee.* There is established a voluntary committee to act in an advisory capacity to the War Claims Commission to be known as the Special Advisory Committee. The Committee shall consist of individuals who are expert in the fields of international law, international trade, and medicine; organizations representing veterans, civilian internees, domestic and international trade, labor, and religious groups; foundations representing various scientific, humanitarian, and economic interests; and such other individuals, organizations, and foundations as the Commission may from time to time designate.

It shall be the general function of the Committee to advise the Commission relative to matters in their respective fields in the conduct of the Commission's present duties and the formulation of future policies, programs, and procedures, both with respect to claims presently compensable under the War Claims Act of 1948, as amended, as well as those war claims arising out of World War II, concerning which the Commission has been directed by law to inquire.

The General Counsel, as Chairman, is authorized to: (1) Designate Vice-Chairmen to act for him as necessary; (2) establish such subcommittees and working groups subsidiary to the Committee as he may determine to be necessary; and (3) establish internal rules and regulations governing the procedures and operations of the Committee and its subgroups.

Approved: January 11, 1951.

YENHACHI KOMOTO

In re: Rights of Yenhachi Komoto under insurance contract. File No. F-39-1870-H-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Yenhachi Komoto, whose last known address is Japan, is a resident of Japan and a national of a designated enemy country (Japan);

2. That the net proceeds due or to become due under a contract of insurance evidenced by policy No. 295,789, issued by The Manufacturers Life Insurance Company, Toronto, Canada, to Yenhachi Komoto, together with the right to demand, receive and collect said net proceeds (including without limitation the right to proceed for collection against branch offices and legal reserves maintained in the United States,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Japan);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

SHIGEO OTSUKI ET AL.

In re: Real property, fire insurance policy and claim owned by Shigeo Otsuki, also known as Shugio Otsuki, and others and stock owned by Jujiro Jero Otsuki. D-39-11634-B-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Shigeo Otsuki, also known as Shugio Otsuki, Isamu Otsuki, Miyoko Otsuki, Midori Otsuki, Jujiro Jero Otsuki and Hisa Ikeda Otsuki, each of whose last known address is Fukushima, Japan, are residents of Japan and nationals of a designated enemy country (Japan);

2. That the personal representatives, heirs, next of kin, legatees and distributees of Hatsuo Otsuki, deceased, who there is reasonable cause to believe are residents of Japan, are nationals of a designated enemy country (Japan);

3. That the property described as follows:

a. Real property situated in the City of Oxnard, County of Ventura, State of California, particularly described in Exhibit A, attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments, arising from the ownership of such property,

b. All right, title, interest and claim of the persons named in subparagraph 1 hereof and of the persons referred to in subparagraph 2 hereof, in and to Fire Insurance Policy No. D-10-98-76, in the amount of $2,500, issued by the Granite State Fire Insurance Company, 206 Sansome Street, San Francisco, California, which expires October 9, 1953, which policy insures the improvements on the real property described in subparagraph 3-a hereof, and

c. That certain debt or other obligation owing to the persons named in subparagraph 1 hereof, and to the persons referred to in subparagraph 2 hereof, by J. E. Shillington, 228 Fourth Street, Oxnard, California, in the amount of $265.26, as of July 1, 1950, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Japan);

4. That the property described as follows: Twelve (12) shares of $100.00 par value common capital stock of The Japanese Hospital of Los Angeles, Inc., 101 South Fickett Street, Los Angeles 33, California, a corporation organized under the laws of the State of California, evidenced by certificates numbered 76 and 294, registered in the name of Jujiro Otsuki, together with all declared and unpaid dividends thereon,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Jujiro Jero Otsuki, the aforesaid national of a designated enemy country (Japan);

and it is hereby determined:

5. That to the extent that the persons named in subparagraph 1 hereof and referred to in subparagraph 2 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 3-a hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, and

There is hereby vested in the Attorney General of the United States the property described in subparagraphs 3-b, 3-c and 4 hereof,

All such property so vested to be held, used, administered, liquidated, sold, or otherwise dealt with in the interest of and for the benefit of the United States.

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10206

PROVIDING FOR SUPPORT OF UNITED NATIONS' ACTIVITIES DIRECTED TO THE PEACEFUL SETTLEMENT OF DISPUTES

By virtue of the authority vested in me by the Constitution and the statutes, including the United Nations Participation Act of 1945 (59 Stat. 619), as amended, hereinafter referred to as the Act, and the act of August 8, 1950 (Public Law 673, 81st Congress), and as President of the United States, it is hereby ordered as follows:

1. The Secretary of State, upon the request by the United Nations for cooperative action, and to the extent that he finds that it is consistent with the national interest to comply with such request, is authorized, in support of such activities of the United Nations as are specifically directed to the peaceful settlement of disputes and not involving the employment of armed forces contemplated by Chapter VII of the United Nations Charter, to request the Secretary of Defense to detail personnel of the armed forces to the United Nations, and to furnish facilities, services, or other assistance and to loan supplies and equipment to the United Nations in an agreed fair share of the United States under such terms and conditions as the Secretary of State and the Secretary of Defense shall jointly determine and in accordance with and subject to the provisions of paragraphs (1), (2), and (3) of section 7 (a) of the Act, and the Secretary of Defense is authorized to comply with the request of the Secretary of State, giving due regard to the requirements of the national defense.

2. The Secretary of State, in accordance with and subject to the provisions of section 7 (b) of the Act, shall require reimbursement from the United Nations for the expense thereby incurred by the United States whenever personnel or assistance is made available to the United Nations, except that in exceptional circumstances, or when the Secretary of State finds it to be in the national interest, he may, after consultation with the Secretary of Defense, waive, in whole or in part, the requirement of such reimbursement.

3. The Secretary of Defense, in accordance with and subject to the provisions of section 7 (a) (1) of the Act, may authorize personnel of the armed forces detailed to the United Nations to accept directly from the United Nations (a) any or all of the allowances or perquisites to which they are entitled under the first proviso of section 7 (a) (1) of the Act, and (b) extraordinary expenses and perquisites incident to such detail.

cient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than January 22, 1951. Shipments of oranges, grown in the State of Florida, have been subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, since September 11, 1950, and will so continue until January 22, 1951; the recommendation and supporting information for continued regulation subsequent to January 21 was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on January 16; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of oranges; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., January 22, 1951, and ending at 12:01 a. m., e. s. t., January 29, 1951, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in Regulation Area I which grade U. S. No. 2 Bright, U. S. No. 2, U. S. No. 2, Russet, U. S. No. 3, or lower than U. S. No. 3 grade;

(ii) Any oranges, except Temple oranges, grown in Regulation Area II which grade U. S. No. 2 Russett, U. S. No. 3, or lower than U. S. No. 3 grade;

(iii) Any oranges, except Temple oranges, grown in Regulation Area II which grade U. S. No. 2 or U. S. No. 2 Bright unless such oranges (*a*) are in the same container with oranges which grade at least U. S. No. 1 Russet and (*b*) are not in excess of 50 percent, by count, of the number of all oranges in such container;

(iv) Any oranges, except Temple oranges, grown in Regulation Area I or Regulation Area II which are of a size smaller than 2$^{8}/_{16}$ inches in diameter, measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of oranges smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the revised United States Standards for Oranges (7 CFR 51.192): *Provided*, That in determining the percentage of oranges in any lot which are smaller than 2$^{8}/_{16}$ inches in diameter, such percentage shall be based only on those oranges in such lot which are of a size 2$^{10}/_{16}$ inches in diameter and smaller sizes; or

(v) Any Temple oranges, grown in Regulation Area I or Regulation Area II, which grade U. S. No. 2 Russet, U. S. No. 3, or lower than U. S. No. 3 grade.

(2) As used in this section, the terms "handler," "ship," "Regulation Area I," "Regulation Area II," and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 1 Russet," "U. S. No. 2 Bright," "U. S. No. 2," "U. S. No. 2 Russet," "U. S. No. 3," "standard pack," "container," and "standard mailed box" shall each have the same meaning as when used in the revised United States Standards for Oranges (7 CFR 51.192).

[Grapefruit Reg. 135]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.506 *Grapefruit Regulation 135*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as

hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237: 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than January 22, 1951. Shipments of grapefruit grown in the State of Florida, have been subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, since September 11, 1950, and will so continue until January 22, 1951; the recommendation and supporting information for continued regulation subsequent to January 21 was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on January 16; such meeting was held to consider recommendations for regulating, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time thereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., January 22, 1951, and ending at 12:01 a. m., e. s. t., February 5, 1951, no handler shall ship:

(i) Any grapefruit of any variety, grown in Regulation Area I, which do not grade at least U. S. No. 2;

(ii) Any white seeded grapefruit, grown in Regulation Area I, which are of a size smaller than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(iii) Any white seedless grapefruit, grown in Regulation Area I, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(iv) Any pink seeded grapefruit, grown in Regulation Area I, which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(v) Any pink seedless grapefruit, grown in Regulation Area I, which are of a size smaller than a size that will pack 126 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(vi) Any grapefruit of any variety, grown in Regulation Area II, which grade U. S. No. 3 or lower than U. S. No. 3 Grade;

(vii) Any white seeded grapefruit, grown in Regulation Area II, which grade U. S. No. 2, U. S. No. 2 Bright, or U. S. No. 2 Russet, unless such grapefruit are of a size not smaller than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(viii) Any white seeded grapefruit, grown in Regulation Area II, which grade at least U. S. No. 1 Russet, unless such grapefruit are not smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(ix) Any white seedless grapefruit, grown in Regulation Area II, which grade U. S. No. 2 Russet, unless such grapefruit are not smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(x) Any white seedless grapefruit, grown in Regulation Area II, which grade at least U. S. No. 2, unless such grapefruit are of a size not smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(xi) Any pink seeded grapefruit, grown in Regulation Area II, unless such grapefruit grade at least U. S. No. 2 Russet and are of a size not smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(xii) Any pink seedless grapefruit, grown in Regulation Area II, which grade U. S. No. 2 Russet, unless such grapefruit are not smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(xiii) Any pink seedless grapefruit, grown in Regulation Area II, which grade at least U. S. No. 2, unless such grapefruit are of a size not smaller than a size that will pack 126 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) As used in this section "Regulation Area I" "Regulation Area II" "handler," "variety," "ship," and "Growers Administrative Committee," shall have the same meaning as when used in said amended marketing agreement and order; and "U. S. No. 1 Russet," "U. S. No. 2," "U. S. No. 2 Russet," "U. S. No. 3," "standard pack," and "standard nailed box" shall have the same meaning as when used in the revised United States Standards for Grapefruit (7 CFR 51.191).

Shipments of tangerines, grown in the State of Florida, have been subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, since October 23, 1950, and will so continue until January 22, 1951; the recommendation and supporting information for continued regulation subsequent to January 21 was promptly submitted to the Department after an open meeting of the Growers' Administrative Committee on January 16; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were offered an opportunity to submit their views at this meeting; the provisions of this section, including the effective time thereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such tangerines; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of tangerines; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., January 22, 1951, and ending at 12:01 a. m., e. s. t., January 29, 1951, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, that do not grade at least U. S. No. 1 Bronze; or

(ii) Any tangerines, grown in the State of Florida, which are of a size smaller than the size that will pack 176 tangerines, packed in accordance with the requirements of a standard pack, in a half-standard box (inside dimensions 9½ x 9½ x 19⅛ inches; capacity 1,726 cubic inches).

(2) As used in this section, "handler," "ship," and "Growers Administrative Committee" shall have the same meaning as when used in said amended marketing agreement and order; and "U. S. No. 1 Bronze" and "standard pack" shall have the same meaning as when used in the United States Standards for Tangerines (7 CFR 51.416).

[Lemon Reg. 366]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.473 *Lemon Regulation 366*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on January 17, 1951, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., January 21, 1951, and ending at 12:01 a. m., P. s. t., January 28, 1951, is hereby fixed as follows:

(i) District 1: 30 carloads;

(ii) District 2: 245 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation No. 365 (16 F. R. 341), and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

[Orange Reg. 355]

PART 966—ORANGES GROWN IN CALIFORNIA OR IN ARIZONA

LIMITATION OF SHIPMENTS

§ 966.501 *Orange Regulation 355*—(a) *Findings.* (1) Pursuant to the provisions of Order No. 66, as amended (7 CFR Part 966; 14 F. R. 3614), regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said amended order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Orange Administrative Committee on January 18, 1951, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisons of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) Subject to the size requirements in Orange Regulation 347 (7 CFR 966.493, 15 F. R. 8153), the quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., January 21, 1951, and ending at 12:01 a. m., P. s. t.,

January 28, 1951, is hereby fixed as follows:

(i) *Valencia oranges.* (*a*) Prorate District No. 1: No movement;

(*b*) Prorate District No. 2: Unlimited movement;

(*c*) Prorate District No. 3: No movement;

(*d*) Prorate District No. 4: No movement.

(ii) *Oranges other than Valencia oranges.* (*a*) Prorate District No. 1: 500 carloads;

(*b*) Prorate District No. 2: 500 carloads;

(*c*) Prorate District No. 3: Unlimited movement;

(*d*) Prorate District No. 4: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "varieties," "carloads," and "prorate base" shall have the same meaning as when used in the said amended order; and the terms "Prorate District No. 1," "Prorate District No. 2," "Prorate District No. 3," and "Prorate District No. 4" shall each have the same meaning as given to the respective terms in § 966.107, as amended (15 F. R. 8712), of the current rules and regulations (7 CFR 966.103 et seq.), as amended (15 F. R. 8712).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

TITLE 8—ALIENS AND NATIONALITY

Chapter II—Office of Alien Property, Department of Justice

PART 511—BLOCKED ASSETS: REGULATIONS ORIGINALLY ISSUED BY THE TREASURY DEPARTMENT

PROHIBITIONS WITH RESPECT TO FOREIGN AND DOMESTIC SCHEDULED SECURITIES

Part 511 is hereby amended by the amendment of § 511.187 (General License No. 87) to read as set forth below, by the amendment of § 511.205 (General Ruling No. 5) to read as set forth below, and by the addition of § 511.205b (General Ruling No. 5B) as set forth below:

§ 511.187 *General License No. 87.* A general license is hereby granted exempting all transactions from the provisions of section 2A (2) of the order, except transactions with respect to foreign scheduled securities as defined in § 511.205 (General Ruling No. 5) and domestic scheduled securities as defined in § 511.205b (General Ruling No. 5B).

§ 511.205 *General Ruling No. 5*—(a) *Prohibitions with respect to foreign scheduled securities.* Except as authorized by license or other authorization specifically referring to this section from the Director, Office of Alien Property, Department of Justice, or as required or authorized by paragraph (e) of this section, any transfer of, dealing in, or other transaction by a person within the United States or a person subject to the jurisdiction of the United States with respect to a foreign scheduled security or any obligation, interest, or claim of which such security is evidence, is prohibited.

(b) *Definition.* As used in this section, the term "foreign scheduled securities" shall include all securities wherever located which appear on the list in paragraph (g) of this section, entitled "Foreign Scheduled Securities," including coupons appertaining thereto.

(c) *Notice.* The provisions of this section shall apply whether the parties to any act with respect to foreign scheduled securities prohibited by this section, or persons subject to the requirements with respect to foreign scheduled securities imposed by this section, do or do not have actual notice or knowledge that such securities are foreign scheduled securities.

(d) *Effect of a prohibited transaction.* Any transaction in violation of the prohibitions contained in paragraph (a) of this section shall be null and void.

(e) *Duty of persons bringing, receiving, or holding foreign scheduled securities.* (1) Foreign scheduled securities brought from a foreign country to the United States by any person shall be forwarded by such person within five (5) days after his arrival in the United States to the Federal Reserve Bank of New York together with a statement in triplicate setting forth the following:

(i) His name and address;

(ii) A complete description of the securities;

(iii) The name and address of the person from whom he received the securities and the date of receipt; and

(iv) The circumstances under which the securities were received.

(2) Foreign scheduled securities mailed or otherwise sent from a foreign country to any person within the United States shall be forwarded by such person within five (5) days after receipt thereof to the Federal Reserve Bank of New York together with the above-specified statement in triplicate.

(3) Foreign scheduled securities held on January 20, 1951, by any person within the United States (whether for himself or for any other person) shall within thirty days thereafter be forwarded by such person to the Federal Reserve Bank of New York together with the above-specified statement in triplicate. Any such person who on January 20, 1951, held foreign scheduled securities as security for an obligation owing to him shall not be required to forward the securities to the Federal Reserve Bank of New York, but shall be required to file the above-specified statement in triplicate with the Office of Alien Property, 120 Broadway, New York 5, New York, together with a statement of the circumstances under which the securities are being held.

(4) Foreign scheduled securities received by any person within the United States (whether for himself or for any other person) shall be forwarded by such person within five (5) days after receipt thereof to the Federal Reserve Bank of New York together with the above-specified statement in triplicate.

(5) Any person required by the provisions of subparagraph (3) or (4) of this paragraph to forward securities to the Federal Reserve Bank of New York may, instead, return such securities to the person from whom he received them, if the latter is within the United States. The person initiating such return shall file a report with the Office of Alien Property, 120 Broadway, New York 5, New York, giving the name and address of the person to whom he makes such return and he shall advise such person that they are foreign scheduled securities which should be deposited with the Federal Reserve Bank of New York pursuant to this ruling unless they are returned with a similar notice to the person in the United States from whom they were received. The last person in the United States to whom such securities are returned under this subparagraph shall forward them to the Federal Reserve Bank of New York, together with the above-specified statement in triplicate with respect to his original receipt of the securities. In case securities are returned under the rules of a securities exchange, an association of securities dealers, or a similar organization, the last member of an exchange or similar organization or dealer to whom such securities are returned under such procedure, if he is not the last person to whom such securities are returned hereunder, shall file with the Office of Alien Property, 120 Broadway, New York 5, New York, the above-specified statement

in triplicate with respect to his original receipt of the securities together with the date on which he returned such securities to the person from whom he received them.

(6) Foreign scheduled securities held by any person not within the United States may be deposited with the Federal Reserve Bank of New York together with the statement specified in subparagraph (1) of this paragraph on or before July 31, 1951.

(7) Acts or transactions required or authorized by the provisions of this paragraph are licensed to the extent, and only to the extent, of permitting compliance therewith.

(f) *Disposition of securities delivered to Federal Reserve Bank of New York.* The Federal Reserve Bank of New York shall act only as fiscal agent of the United States under this section, and shall receive and hold securities delivered to it pursuant to this section as such fiscal agent, subject to the further order of the Director, Office of Alien Property. Applications for release of securities so held may be filed with the Office of Alien Property, 120 Broadway, New York 5, New York.

NOTE: For interpretation of § 511.205, see § 511.340 (Public Circular No. 40).

§ 511.205b. *General Ruling No. 5B*—(a) *Prohibitions with respect to domestic scheduled securities.* Except as authorized by license or other authorization specifically referring to this section from the Director, Office of Alien Property, Department of Justice, or as required or authorized by paragraph (e) of this section, any transfer of, dealing in, or other transaction with respect to, a domestic scheduled security or any obligation, interest, or claim of which such security is evidence, is prohibited.

(b) *Definition.* As used in this section, the term "domestic scheduled securities" shall include all securities wherever located which appear on the list in paragraph (g) of this section, entitled "Domestic Scheduled Securities," including coupons appertaining thereto.

(c) *Notice.* The provisions of this section shall apply whether the parties to any act with respect to domestic scheduled securities prohibited by this section, or persons subject to the requirements with respect to domestic scheduled securities imposed by this section, do or do not have actual notice or knowledge that such securities are domestic scheduled securities.

(d) *Effect of a prohibited transaction.* Any transaction in violation of the prohibitions contained in paragraph (a) of this section shall be null and void.

(e) *Duty of persons bringing, receiving, or holding domestic scheduled securities.* (1) Domestic scheduled securities brought from a foreign country to the United States by any person shall be forwarded by such person within five (5) days after his arrival in the United States to the Federal Reserve Bank of New York together with a statement in triplicate setting forth the following:

(i) His name and address;

(ii) A complete description of the securities;

(iii) The name and address of the person from whom he received the securities and the date of receipt; and

(iv) The circumstances under which the securities were received.

(2) Domestic scheduled securities mailed or otherwise sent from a foreign country to any person within the United States shall be forwarded by such person within five (5) days after receipt thereof to the Federal Reserve Bank of New York together with the above-specified statement in triplicate.

(3) Domestic scheduled securities held on January 20, 1951, by any person within the United States (whether for himself or for any such person) shall within thirty days thereafter be forwarded by such person to the Federal Reserve Bank

of New York together with the above-specified statement in triplicate. Any such person who on January 20, 1951, held domestic scheduled securities as security for an obligation owing to him shall not be required to forward the securities to the Federal Reserve Bank of New York, but shall be required to file the above-specified statement in triplicate with the Office of Alien Property, 120 Broadway, New York 5, New York, together with a statement of the circumstances under which the securities are being held.

(4) Domestic scheduled securities received by any person within the United States (whether for himself or for any other person) shall be forwarded by such person within five (5) days after receipt thereof to the Federal Reserve Bank of New York together with the above-specified statement in triplicate.

(5) Any person required by the provisions of subparagraphs (3) or (4) of this paragraph to forward securities to the Federal Reserve Bank of New York may, instead, return such securities to the person from whom he received them, if the latter is within the United States. The person initiating such return shall file a report with the Office of Alien Property, 120 Broadway, New York 5, New York, giving the name and address of the person to whom he makes such return and he shall advise such person that they are domestic scheduled securities which should be deposited with the Federal Reserve Bank of New York pursuant to this ruling unless they are returned with a similar notice to the person in the United States from whom they were received. The last person in the United States to whom such securities are returned under this subparagraph shall forward them to the Federal Reserve Bank of New York, together with the above-specified statement in triplicate with respect to his original receipt of the securities. In case securities are returned under the rules of a securities exchange, an association of securities dealers, or a similar organization, the last member of an exchange or similar organization or dealer to whom such securities are returned under such procedure, if he is not the last person to whom such securities are returned hereunder, shall file with the Office of Alien Property, 120 Broadway, New York 5, New York, the above-specified statement in triplicate with respect to his original receipt of the securities together with the date on which he returned such securities to the person from whom he received them.

(6) Domestic scheduled securities held by any person not within the United States shall be deposited with the Federal Reserve Bank of New York together with the statement specified in subparagraph (1) of this paragraph on or before July 31, 1951.

(7) Acts or transactions required or authorized by the provisions of this paragraph are licensed to the extent, and only to the extent, of permitting compliance therewith.

(f) *Disposition of securities delivered to Federal Reserve Bank of New York.* The Federal Reserve Bank of New York shall act only as fiscal agent of the United States under this section, and shall receive and hold securities delivered to it pursuant to this section as such fiscal agent, subject to the further order of the Director, Office of Alien Property. Applications for release of securities so held may be filed with the Office of Alien Property, 120 Broadway, New York 5, New York.

NOTE: For interpretation of § 511.205b, see § 511.340 (Public Circular No. 40).

PART 511—BLOCKED ASSETS; REGULATIONS ORIGINALLY ISSUED BY THE TREASURY DEPARTMENT

EFFECT OF PROHIBITIONS WITH RESPECT TO DOMESTIC AND FOREIGN SCHEDULED SECURITIES

Part 511 is hereby amended by the addition of § 511.340 (Public Circular No. 40) as set forth below:

§ 511.340 *Public Circular No. 40; Effect of prohibitions with respect to domestic and foreign scheduled securities.* (a) Reference is made to §§ 511.205 and 511.205b with respect to which an inquiry has been received as to whether a contract which calls for delivery of a security of a particular issue without reference to any particular certificate number is null and void if a domestic or foreign scheduled security (as defined in the aforementioned sections) is delivered pursuant to it. It was pointed out that ordinarily if delivery is made of a security which is defective another security of the same issue is required to be substituted. The question is directed to whether §§ 511.205 and 511.205b alter any of the obligations arising out of such a contract.

(b) Unless such a contract creates an obligation to deliver a domestic or foreign scheduled security, a contract for the sale and purchase of securities is not rendered null and void by §§ 511.205 and 511.205b by reason of the delivery of a domestic or foreign scheduled security in purported compliance with the contract. Sections 511.205 and 511.205b do not in any way invalidate any rights of the parties to such a contract to enforce its terms, such as requiring delivery of another security of the same issue. Such a contract does not, however, transfer title to or create any interest in or claim to a domestic or foreign scheduled security.

(Sec. 5, 40 Stat. 415, as amended; 50 U. S. C., App. 5, E. O. 8389, Apr. 10, 1940, 5 F. R. 1400, as amended by E. O. 8785, June 14, 1941, 6 F. R. 2897, E. O. 8832, July 26, 1941, 6 F. R. 3715, E. Executed at Washington, D. C., this 18th day of January 1951.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

PART 6—ROTORCRAFT AIRWORTHINESS

Correction

In Federal Register Document 50-11710, appearing at page 8905 of the issue for Friday, December 15, 1950, the following corrections are made:

1. In § 6.1 (a) (3) the last sentence should read: "The propulsion is independent of the rotor system and usually consists of conventional propellers."

2. Section 6.1 (c) (5) should read: "VH. The maximum speed obtainable in level flight with rated r. p. m. and power."

3. In § 6.114 (b), "rotocraft," appearing in the last line, should be changed to "rotorcraft."

4. In the first paragraph of § 6.250, "assembles" should be changed to "assemblies."

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

Subchapter C—Office of International Trade

[5th Gen. Rev. of Export Regs., Amdt. 38][1]

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

MISCELLANEOUS AMENDMENTS

1. Section 373.1 *Export licensing general policy* is amended in the following particulars:

Paragraph (h) *Commodities subject to this export licensing policy*, subparagraph (2) is amended by adding thereto the following commodities:

Raw cotton, except linters	*Schedule B Nos.* 300005 through 300312

2. Part 373 is amended by adding thereto a new § 373.18 to read as follows:

§ 373.18 *Special provisions for raw cotton.* Raw cotton, Schedule B Nos. 300005 through 300312, will be licensed for export in accordance with the licensing policy set forth in § 373.1 and the following special provisions:

(a) *Additional information on license applications.* All applications for licenses to export raw cotton (including pending applications) must be supplemented by the following information:

(1) The date of the contract between the applicant and the foreign purchaser; (i. e., date of the acceptance of the order) (enter in item 9 (b) of Form IT-419).

(2) The import authorization number, or reference to other import authorization of the importing country (Ministry of International Trade and Industry (MITI) number for exports to Japan), or the ECA subauthorization number, if financed by the Economic Cooperation Administration; and

(3) The net number of pounds of cotton covered by the contract. (Enter in item 9 (a) if applicable, or 9 (b) of Form IT-419.)

When submitting such information with regard to pending applications, applicants shall show the pertinent OIT case number, if known, and the applicant's reference number.

(b) *Requests for amendments or extensions.* All requests for extension of the validity period and requests for amendments to change the ultimate consignee shall be submitted on Form IT-763 and shall comply with the requirements of Part 380 of this chapter, and in addition thereto must include the following:

(1) True copies of the exchange of cables or other documents which constitute the contract (accepted order);

(2) The import authorization number, or reference to other import authorization of the importing country (MITI

[1] This amendment was published in Current Export Bulletin No. 601 dated January 11, 1951.

number for exports to Japan), or the ECA sub-authorization number, if financed by the Economic Cooperation Administration; and

(3) In the case of requests for amendments to change the ultimate consignee, licensees must submit true copies of the exchange of cables or other documents constituting the contract (i) between the licensee and the original consignee, and (ii) between the licensee and the new ultimate consignee. The licensee must also submit true copies of any other documents which show why the licensee desires an amendment of consignee.

If, for any reason, this information has been previously submitted to the Department of Commerce, it need not be resubmitted.

NOTE: Where a licensee will not use the full amount of a license, he should submit a request for amendment to reduce the quantity of cotton covered by the license to the amount he actually intends to export, provided the reduction would amount to as much as 10 bales. Where an exporter has received a license and it is known that none of the cotton covered by the license will be exported, he shall return the license for cancellation to the Department of Commerce, with a covering letter explaining the reason for such return, in order that the allocation to the importing country may be credited.

3. Section 373.8 *Special provisions for certain petroleum products*, paragraph (a) *Application requirements* is amended by adding thereto a new subparagraph (4) to read as follows:

(4) Applications for licenses to export petroleum products. Schedule B Nos. 501400 through 505900, to Burma, Ceylon, Formosa, French Indochina, Hong Kong, India, Macao, Malay States, Netherlands East Indies (Indonesia), Pakistan, Philippine Islands, Singapore, or Thailand, shall be accompanied by a statement attached to the application, setting forth the following information:

(i) The quantity of stock the ultimate consignee has on hand (in units of quantity as shown on the Positive List) as of the time the order was placed for each commodity covered by the application;

(ii) The date such order was placed;

(iii) Quantity of such commodities the ultimate consignee expects to receive from all sources other than the license applicant within 90 days after such order was placed; and

(iv) The monthly rate of consumption, including resale, by the ultimate consignee of the commodities covered by the application.

(Sec. 3, 63 Stat. 7; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.)

Parts 1 and 2 of this amendment shall become effective as of January 11, 1951 and Part 3 as of February 10, 1951.

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

1. The following commodities are added to the Positive List:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
379800	Silk and manufactures: Silk noils and waste	Lb.	TEXT	100	RO

713500	Jet ejectors, all types, under 4 stages, accessories, and parts (report jet ejectors, all types, 4 stages and over, accessories, and parts in 770880).		GIEQ	None	R

2. The following revisions are made in commodity descriptions and Schedule B numbers. The changes in Schedule B numbers conform with Census Bulletin P. B. 176 B–I and II issued by the Bureau of the Census December 20, 1950. No change in validated license control, except for some GLV dollar-value limit changes, is effected by the revisions for tractor engines.

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
	Engines, turbines and parts, n. e. s.:

[1] Formerly 714300.

[2] By this amendment, the processing code for tractor engines is changed from FARM to GIEQ, and the GLV dollar-value limit is changed from None to $200.

[3] Formerly 714400.

[4] By this amendment, the processing code for tractor engines is changed from FARM to GIEQ, and the GLV dollar-value limit is changed from None to $250.

[5] Formerly 714700.

[6] By this amendment, the processing code for tractor engines is changed from FARM to GIEQ, and GLV dollar-value limit for the engines formerly in 714700 is changed from $750 to None.

[7] Formerly 714800.

[8] By this amendment, the processing code for tractor engines is changed from FARM to GIEQ.

[9] By this amendment, for tractor engine accessories and parts, the GLV dollar-value limit for track-laying tractor engine accessories and parts (formerly classified in 788901) is changed from $100 to $250; and the GLV dollar-value limit for wheel-type tractor engine accessories and parts (formerly classified in 788905) is changed from $500 to $250. The processing code and related commodity group for these commodities is changed from FARM to GIEQ.

[10] The effect of these amendments is (a) to delete from the Positive List mechanical vacuum pumps not capable of producing a vacuum of 2 millimeters or less mercury pressure absolute, all types, including those fabricated of or lined with any corrosion-resistant materials as defined in the "General Notes to Appendix A" (report mercury pressure absolute which pump is capable of producing) (formerly in 770810 and 770830), and (b) to change from GLV to RO control certain vacuum pumps included in the group of entry on the Positive List for Schedule B No. 770830.

[11] Formerly in 770830.

[12] Export authorization for diffusion vacuum pumps, 12 inches and larger in diameter, classified under Schedule B number 770870, is unaffected by the revision of the Positive List for mechanical vacuum pumps, Schedule B No. 770820, as stated above. The word entry is substituted for the present two entries on the Positive List for jet ejectors, Schedule B No. 770880. This amendment clarifies the commodity description without making substantive change.

[13] Formerly 775096.

[14] The effect of this amendment is to add to the Positive List under this Schedule B number accessories for mechanical vacuum pumps and diffusion vacuum pumps which are included in the entry for mechanical vacuum pumps and diffusion vacuum pumps not specifically described on the Positive List.

[15] By this amendment the parenthetical description (worsted type) in the entry for clothing wool is transferred to the entry for combing wool, and the parenthetical description (woolen type) in the entry for clothing wool is transferred to the entry for carding wool. See Census Bulletin P. B. 138 B-I and II.

[1] This amendment was published in Current Export Bulletin No. 601 dated January 11, 1951.

This amendment shall become effective as of January 11, 1951.

Chapter VIII—Office of Housing Expediter

[Controlled Housing Rent Reg., Amdt. 344]

[Controlled Rooms in Rooming Houses and Other Establishments Rent Reg., Amdt. 340]

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947, AS AMENDED

CALIFORNIA, MICHIGAN AND SOUTH CAROLINA

Amendment 344 to the Controlled Housing Rent Regulation (§§ 825.1 to 825.12) and Amendment 340 to the Rent Regulation for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.81 to 825.92). Said Regulations are amended in the following respects:

1. Schedule A, Item 38, is amended to describe the counties in the Defense-Rental Area as follows:

San Francisco County; San Mateo County, except the Cities of Burlingame, Menlo Park, Millbrae, Redwood City, San Bruno and South San Francisco, and the Town of Atherton; and Sonoma County, except (1) the Cities of Healdsburg and Santa Rosa, (ii) the Judicial Townships of Redwood and Sonoma (including the City of Sonoma) and (iii) that portion of Analy Judicial Township lying west of the Monte Rio-Valley Ford Highway and lying between Redwood Judicial Township on the north and the northern line of Marin County on the south.

This decontrols the City of Redwood City in San Mateo County, California, a portion of the San Francisco Bay, California, Defense-Rental Area.

2. Schedule A, Item 40a, is amended to describe the counties in the Defense-Rental Area as follows:

Ventura County, except the Cities of Fillmore, San Buenaventura and Santa Paula, and all unincorporated localities.

This decontrols the City of Fillmore in Ventura County, California, and all un-

5. The dollar value limits in the column headed "GLV dollar value limits" set forth opposite each of the commodities listed below are amended to read as follows:

Shipments of any commodities removed from general license to Country Group R or Country Group O destinations, or whose GLV dollar-value limits were reduced, as a result of changes set forth in Parts 1 through 5 of this amendment, which were on dock, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to actual orders for export prior to the effective date of this amendment, may be exported under the previous general license provisions up to and including February 12, 1951. Any such shipment not laden aboard the exporting carrier on or before February 12, 1951, requires a validated license for export. This saving clause is not applicable to any such shipments to Subgroup A destinations, Hong Kong, and Macao.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5827]

PART 323—SPECIAL TAXES WITH RESPECT TO COIN-OPERATED AMUSEMENT AND GAMING DEVICES, BOWLING ALLEYS, BILLIARD TABLES, AND POOL TABLES

INCREASE IN RATE OF TAX ON COIN-OPERATED GAMING DEVICES, AND LIABILITY OF FEDERAL AGENCIES OR INSTRUMENTALITIES

In order to conform Regulations 59 (26 CFR Part 323), relating to special taxes with respect to coin-operated amusement and gaming devices, bowling alleys, billiard tables and pool tables, to the Revenue Act of 1950 (Pub. Law 814, 81st Cong., 2d Sess.), approved September 23, 1950, such regulations are hereby amended as follows:

PARAGRAPH 1. Section 323.0 is amended as follows:

(A) By striking out in paragraph (a) "(such part being added by section 555 of the Revenue Act of 1941)," and inserting in lieu thereof the following: ", as amended,".

(B) By striking out in paragraph (b) "(such part being added by section 556 of the Revenue Act of 1941)," and inserting in lieu thereof the following: ", as amended,".

PAR. 2. Immediately preceding § 323.20 there is inserted the following:

SEC. 603. TAX ON COIN-OPERATED GAMING DEVICES [REVENUE ACT OF 1950 (PUB. LAW 814, 81ST CONG., 2D SESS.), APPROVED SEPTEMBER 23, 1950].

(a) *Increase in tax on slot machines.* Section 3267 (a) (relating to rate of tax) is hereby amended by striking out "$100" wherever appearing therein and inserting in lieu thereof "$150".

(b) *Effective date.* The amendment made by this section shall take effect on the first day of the first month which begins more than ten days after the date of enactment of this act.

SEC. 604. FEDERAL AGENCIES OR INSTRUMENTALITIES [REVENUE ACT OF 1950 (PUB. LAW 814, 81ST CONG., 2D SESS.), APPROVED SEPTEMBER 23, 1950].

Subchapter B of chapter 27 (relating to occupational taxes) is hereby amended by adding at the end thereof the following new section:

SEC. 3283. FEDERAL AGENCIES OR INSTRUMENTALITIES.

Any tax imposed by this chapter shall apply to any agency or instrumentality of the United States unless such agency or instrumentality is granted by statute a specific exemption from such tax.

PAR. 3. Section 323.20, as amended by Treasury Decision 5203, approved December 22, 1942, is further amended by striking out so much of such section as precedes paragraph (b) and inserting in lieu thereof the following:

§ 323.20 *Effective dates of tax.* The effective dates of the rates of tax with respect to coin-operated amusement and gaming devices imposed by section 3267, added to the Internal Revenue Code by section 555 of the Revenue Act of 1941, including changes made in such rates by section 617 of the Revenue Act of 1942 and section 603 of the Revenue Act of 1950, are as follows:

(a) Except as indicated by paragraph (c) of this section, the rates of tax applicable with respect to gaming devices operated by means of the insertion of a coin, token, or similar object are:

(1) October 1, 1941, through June 30, 1943, $50 per annum;

(2) July 1, 1943, through October 31, 1950, $100 per annum;

(3) On and after November 1, 1950, $150 per annum.

PAR. 4. Immediately preceding § 323.30 there is inserted the following:

SEC. 604. FEDERAL AGENCIES OR INSTRUMENTALITIES [REVENUE ACT OF 1950 (PUB. LAW 814, 81ST CONG., 2D SESS.), APPROVED SEPTEMBER 23, 1950].

Subchapter B of chapter 27 (relating to occupational taxes) is hereby amended by adding at the end thereof the following new section:

SEC. 3283. FEDERAL AGENCIES OR INSTRUMENTALITIES.

Any tax imposed by this chapter shall apply to any agency or instrumentality of the United States unless such agency or instrumentality is granted by statute a specific exemption from such tax.

PAR. 5. Section 323.21 is amended, and § 323.31, as amended by Treasury Decision 5344, approved March 14, 1944, is further amended, by adding at the end of each the following: "Any agency or instrumentality of the United States, such as an Army exchange, Navy exchange, etc., is liable to such special tax unless granted by statute a specific exemption therefrom."

PAR. 6. Section 323.22, as amended by Treasury Decision 5203, is further amended—

(A) By striking out so much of the paragraph designated (d) as precedes "In the case of" and inserting in lieu thereof the following:

(d) Effective October 1, 1941, through June 30, 1943, $50, effective July 1, 1943, through October 31, 1950, $100, and effective on and after November 1, 1950, $150, per year

(B) By adding after the third paragraph beginning with "As the tax became effective on October 1, 1941," the following:

Those persons who prior to November 1, 1950, paid or incurred the special tax liability at the rate of $100 per year for gaming devices and continued to maintain for use such devices on November 1, 1950, are liable for additional tax for the period November 1, 1950, through June 30, 1951, at the increased rate of $50 per annum. The additional tax liability for the 8-month period from November 1, 1950, through June 30, 1951, shall be computed on the basis of 8/12ths of $50, or $33.34, for each device.

Because this Treasury decision makes technical amendments to the regulations, it is found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of said act.

(53 Stat. 467; 26 U. S. C. 3791)

PART 213—DEPOSIT WITH FEDERAL RESERVE BANKS AND DEPOSITARY BANKS OF EMPLOYER AND EMPLOYEE TAXES UNDER THE FEDERAL INSURANCE CONTRIBUTIONS ACT AND OF INCOME TAX WITHHELD ON WAGES UNDER SECTION 1622 OF THE INTERNAL REVENUE CODE

PROCEDURE TO BE FOLLOWED BY DEPOSITARIES FOR FEDERAL TAXES

Part 213, Subchapter A, Chapter II, Title 31 of the Code of Federal Regulations of the United States of America (appearing also as Treasury Department Circular No. 848, dated November 10, 1949, as amended) is hereby further amended effective January 1, 1951, in the following respects:

1. By deleting paragraph (a) of § 213.6 and inserting in lieu thereof the following:

§ 213.6 *Procedure to be followed by depositaries for Federal taxes.* • • •

(a) Depositaries shall accept from employers, who desire to make deposits with such depositaries, remittances in the form of check, postal money order, etc., covering the amount of Federal taxes, accompanied by a "Federal Depositary Receipt" (Form No. 450—Revised) on which the employer has inscribed, in ink or typewriter, his name, address, employer's identification number, and total taxes (combined amount of withheld income tax and F. I. C. A. employment taxes). Depositaries will not be required to accept from employers funds which are not immediately available to the depositary at the time of deposit. Treasury Savings Notes or other public debt securities of the United States shall not be accepted by depositaries as deposits of Federal taxes under this circular. Depositaries shall not accept from employers any form of receipt accompanying their remittances other than the prescribed receipt, Form 450 (Revised): *Provided, however,* That depositaries shall continue to accept the depositary receipt, Form 450, in use prior to revision of the form.

2. By deleting the last sentence of paragraph (c) of § 213.6.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—National Production Authority, Department of Commerce

[NPA Order M-1, Supp. 1, as Amended Jan. 17, 1951]

PART 20—STEEL

U. S. FREIGHT CAR PROGRAM

This amendment is found necessary and appropriate to promote the National Defense, and is issued pursuant to authority granted by section 101 of the Defense Production Act of 1950. In the formulation of this amendment, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

This amendment affects Supplement 1 to NPA Order M-1, as follows: It amends § 20.101 and § 20.102. In addition, the letters U. S. are inserted throughout in all references to the Freight Car Program.

Supp. 1 to M-1, as amended, now reads as follows:

Sec.
20.100 Directives to be issued.
20.101 Certified orders and authorizations therefor.
20.102 Form of certifications.
20.103 Use of steel so obtained.
20.104 Rejection of certified orders.
20.105 Effect of directives.
20.106 NPA assistance in placing orders under §§ 20.100 to 20.106.

AUTHORITY: §§ 20.100 to 20.106 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong.; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105.

§ 20.100 *Directives to be issued.* Directives will be issued by NPA to direct certain steel producers to accept certified orders for the production and delivery of steel for the construction and repair of freight cars, as a part of the U. S. Freight Car Program. The directives will specify the tonnage of each steel product to be shipped in the months referred to therein. "The U. S. Freight Car Program" means the construction of domestic railroad freight cars and the repair of railroad freight cars used on common carrier railroads within the United States.

§ 20.101 *Certified orders and authorizations therefor.* Persons engaged in the repair or construction of freight cars or of their component parts may place certified orders pursuant to this program, for specific tonnages, of specific steel products, for shipment in specific periods, only if authorized by the National Production Authority by the issuance by it of DTA Form 3 to evidence such authority: *Provided,* That the total amounts of any steel products covered by such certified orders must not exceed:

(a) The amounts indicated by NPA on Form DTA 3; and

(b) The amount required for the manufacture of product or products covered by firm purchase orders or contracts accepted prior to the time such order or orders for steel are certified.

§ 20.102 *Form of certifications.* In order to place a certified order under the U. S. Freight Car Program a manufacturer or repairer of freight cars or components therefor shall place either of the following certifications, whichever is appropriate, on his purchase orders or on a separate piece of paper attached thereto:

(a)

Certified that the material called for in this order conforms with an authorization received from NPA, and is to be used only in connection with the manufacture of new freight cars or components therefor in the U. S. Freight Car Program under NPA Supplement 1, as amended, of Order M-1, as amended.

(b)

Certified that the material called for in this order conforms with an authorization received from NPA and is to be used only in connection with the repair of freight cars in the U. S. Freight Car Program under NPA Supplement 1, as amended, of Order M-1, as amended.

Such certifications shall be signed by an authorized representative of the purchaser.

§ 20.103 *Use of steel so obtained.* Steel obtained under the U. S. Freight Car Program pursuant to the certifications provided for in §§ 20.100 to 20.106 shall be used only for the repair or construction of such railroad freight cars or of their component parts. Nothing contained in §§ 20.100 to 20.106 shall prevent railroads, private car companies or common carriers from making their own repairs or construction of freight cars. All materials or components obtained, pursuant to §§ 20.100 to 20.106 shall be subject to the inventory control provisions of Part 10 of this chapter (NPA Reg. 1).

§ 20.104 *Rejection of certified orders.* A producer of steel need not accept a certified order under the U. S. Freight Car Program which is received less than 45 days prior to the first day of the month in which shipment is requested, unless specifically directed to accept the order by NPA.

§ 20.105 *Effect of directives.* When steel production has been scheduled pursuant to directives issued under §§ 20.100 to 20.106, such schedules shall be maintained by the steel producers unless otherwise directed by NPA. Steel delivered under directives issued pursuant to §§ 20.100 to 20.106 shall not be considered produced under rated orders for the purpose of determining producers' obligations under §§ 20.5 and 20.6.

§ 20.106 *NPA assistance in placing orders under §§ 20.100 to 20.106.* Any person who is unable to place a certified order for steel pursuant to §§ 20.100 to 20.106 should apply to the NPA, Iron and Steel Division, Ref: Supp. 1 to order M-1, specifying the producers who refused to accept this order. The NPA will arrange to assist him in locating sources of supply.

This amendment to Supp. 1 of Order M-1 as amended, shall apply to all orders calling for shipment under this Program certified and accepted after January 17, 1951. It may also apply to certain orders calling for shipment under this Program in the months of February and March 1951, when specifically directed by NPA.

PART 35—LEATHER

This order is found necessary and appropriate to promote the National Defense and is issued pursuant to the authority granted by section 101 of the Defense Production Act of 1950. In the formulation of this order, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

Sec.
35.1 What this part does.
35.2 Definitions.
35.3 Leather to which this part applies.

Sec.
35.4 Required shipment dates.
35.5 Rejection of rated orders.
35.6 Limitations for acceptance of rated orders.
35.7 NPA assistance in placing rated orders.
35.8 Adjustments and exceptions.
35.9 Communications.
35.10 Records, audit, inspection and reports.
35.11 Violations.

AUTHORITY: §§ 35.1 to 35.11 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong.; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105.

§ 35.1 *What this part does.* This part applies particularly to producers of leather of certain types and provides rules for placing, accepting, and scheduling rated orders for leather. Its purpose is to provide equitable distribution of rated orders among all producers of leather in order to make possible maximum production of leather and to reduce to a minimum disruption of its normal distribution. This part supplements Part 11 of this Chapter (NPA Reg. 2) but only those provisions of NPA Reg. 2 which are inconsistent with this part are superseded and all other provisions of Reg. 2 continue to apply to the leather industry.

§ 35.2 *Definitions.* As used in this part:

(a) "Person" means any individual, corporation, partnership, association or any other organized group of persons and includes agencies of the United States or any other government.

(b) "Producer" means any person engaged in the business of tanning, currying or finishing leather for his own account, for sale or for fabrication into leather products, or engaged in the business of cutting sole leather for sale, whether any such processes are performed by him or for him under contract with another person.

(c) "NPA" means National Production Authority in the Department of Commerce.

§ 35.3 *Leather to which this part applies.* This part applies only to the types of leather listed in § 35.6.

§ 35.4 *Required shipment dates.* A rated order for leather of the types described in § 35.6 must specify shipment on a particular date or in a particular month which in no case may be earlier than required by the person placing the order. The producer must schedule the order for shipment within the requested month as close to the requested delivery date as is practicable considering the need for maximum production.

§ 35.5 *Rejection of rated orders.* A producer need not accept a rated order which is received less than 30 days prior to the first day of the month in which shipment is requested unless specifically directed to accept the order by NPA.

§ 35.6 *Limitations for acceptance of rated orders.* Unless specifically directed by NPA, no producer shall be required to accept rated orders for the types of leather listed below for shipment in any one month in excess of the following respective percentages of his average monthly production of such types during the period from January 1, 1950, through October 31, 1950:

Types of leather	*Percent*
Calf, including whole kip	20
Goat and kid	10
Bag, case, strap, and harness	20
Sheep and lamb, excluding shearlings	15
Shearlings	25
Cabretta, other than shoe	20

§ 35.7 *NPA assistance in placing rated orders.* Any person who is unable to place a rated order for leather due to the limitations imposed by § 35.6 should apply to NPA, Washington 25, D. C., Ref. Order M-28, specifying the producers who refused to accept the order. NPA will arrange to assist him in locating sources of supply.

§ 35.8 *Adjustments and exceptions.* Any person affected by any provision of this part may file with NPA a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry or that its enforcement against him would not be in the interest of the national defense or in the public interest. In considering requests for adjustment claiming that the public interest is prejudiced by the application of any provision of this part, consideration will be given to the requirements of public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each such request shall be in writing and shall set forth all pertinent facts, and the nature of the relief sought and the justification therefor.

§ 35.9 *Communications.* All communications concerning this part shall be addressed to National Production Authority, Washington 25, D. C., Ref. M-28.

§ 35.10 *Records, audit, inspection and reports.* (a) Each person participating in any transaction covered by this part shall retain in his possession for at least two years records of receipts, deliveries, inventories and use, in sufficient detail to permit an audit that determines for each transaction whether the provisions of this part have been met. This does not specify any particular accounting method and does not require alteration of the system of records customarily maintained, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

(b) All records required by this part shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of NPA.

(c) Persons subject to this part shall make such records and submit such reports to NPA as it shall require, subject to the terms of the Federal Reports Act (Pub. Law 831, 77th Cong., 5 U. S. C. 139–139F).

§ 35.11 *Violations.* Any person who wilfully violates any provision of this part or any other order or regulation of NPA or wilfully conceals a material fact or furnishes false information in the course of operation under this part is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this part have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This part shall take effect on January 17, 1951.

PART 76—HORSEHIDE FRONTS AND DEERSKINS

This order is found necessary and appropriate to promote the national defense and is issued pursuant to the authority granted by Section 101 of the Defense Production Act of 1950. In the formulation of this order, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

Sec.
76.1 What this part does.
76.2 Definitions.
76.3 Restrictions on tanning of horsehide fronts.
76.4 Restrictions on tanning or dressing of deerskins.
76.5 Restrictions on sale and use of horsehide front leather and deerskin leather.
76.6 Exception.
76.7 Adjustments and exceptions.
76.8 Records, audit, inspection and reports.
76.9 Communications.
76.10 Violations.

AUTHORITY: §§ 76.1 to 76.10 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong.; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105.

§ 76.1 *What this part does.* This part applies to tanners of horsehide fronts, to tanners and dressers of deerskins, and to persons who sell and commercially use leather made from these hides and skins. In view of the fact that horsehide fronts and deerskins are in extremely short supply, it is essential that the leather produced therefrom be limited in so far as possible to DO rated orders. This part prohibits the tanning of horsehide fronts and the dressing or tanning of deerskins except for the purpose of producing military leather if such skins are suitable for the production of military leather. It also forbids any person to sell, deliver, accept delivery of, or use commercially leather made from horsehide fronts or deerskins for other than DO rated orders if such leather is capable of being used to fill such orders.

§ 76.2 *Definitions.* As used in this part:

(a) "Person" means any individual, corporation, partnership, association or any other organized group of persons and includes any agency of the United States or any other government.

(b) "Tanner" or "dresser" means a person engaged in the business of tanning, dressing, or similarly processing hides or skins.

(c) "Converter" means a person engaged in the business of causing hides or skins to be tanned or dressed for his account in any tannery not owned or controlled by him.

(d) "Horsehide front" means the forepart of the hide or skin of a horse, colt, mule, ass, donkey, or pony, commercially known in the trade as a "front", whether or not still attached to other parts of the hide or skin.

(e) "Deerskin" means the skin of any domestic or foreign deer, and includes the skin of the elk, moose, and caribou.

(f) "Military leather" means leather meeting any military specifications in force at the time.

(g) "DO rated order" means an order for leather bearing a DO rating issued pursuant to Part 11 of this chapter. (NPA Reg. 2)

(h) "NPA" means National Production Authority in the Department of Commerce.

§ 76.3 *Restrictions on tanning of horsehide fronts.* Unless specifically directed by NPA, no tanner shall put into process or continue to process, and no converter shall cause to be put into process, any horsehide front except for the purpose of processing it into military leather: *Provided, however,* That this restriction shall not apply to any horsehide front which is not capable of being processed into military leather.

§ 76.4 *Restrictions on tanning or dressing of deerskins.* Unless specifically directed by NPA, no tanner or dresser shall put into process, or continue to process, and no converter shall cause to be put into process, any deerskin except for the purpose of processing it into military leather: *Provided, however,* That this restriction shall not apply to any deerskin which is not capable of being processed into milltary leather.

§ 76.5 *Restrictions on sale and use of horsehide front leather and deerskin leather.* Unless specifically directed by NPA, no person shall sell, deliver, accept delivery of or incorporate into any product for commercial purpose, except for DO rated orders, any horsehide front leather or deerskin leather suitable for military leather.

§ 76.6 *Exception.* This part shall not prohibit the completion of the production and delivery of materials or products containing horsehide front leather or deerskin leather in any form previously ordered and accepted, which by reason of the condition or nature of the materials or products cannot without excessive loss of yield be used in connection with DO rated orders.

§ 76.7 *Adjustments and exceptions.* Any person affected by any provision of this part may file with NPA a request for adjustment or exception upon the ground that such provision works an exceptional hardship upon him not suffered generally by others in the same trade or industry or that its enforcement against him would not be in the interest of national defense or in the public interest. In considering requests for adjustment which claim that the public interest is prejudiced by the application of any provision of this part, consideration will be given to the requirements of public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each such request shall be in writing and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

§ 76.8 *Records, audit, inspection and reports.* (a) Each person participating in any transaction covered by this part shall retain in his possession for at least two years records of receipts, deliveries, inventories, and use, in sufficient detail to permit an audit that determines for each transaction that the provisions of this part have been met. This does not specify any particular accounting method and does not require alteration of the system of records customarily maintained, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

(b) All records required by this part shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of NPA.

(c) Persons subject to this part shall make such records and submit such reports to NPA as it shall require, subject to the terms of the Federal Reports Act. (Pub. Law 831, 77th Cong., 5 U. S. C. 139–139F).

• § 76.9 *Communications.* All communications concerning this part shall be addressed to National Production Authority, Washington 25, D. C., Ref. M-29.

§ 76.10 *Violations.* Any person who willfully violates any provision of this part or any other order or regulation of NPA or willfully conceals a material fact or furnishes false information in the course of operation under this part is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against such person to suspend his privileges of making or receiving further deliveries of materials or using facilities under priority or allocation control and deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this part have been approved by the Bureau of Budget in accordance with the Federal Reports Act of 1942.

This order shall take effect on January 17, 1951.

[SEAL] W. H. HARRISON,
Administrator.

Chapter I—Post Office Department

PART 36—UNMAILABLE MATTER

FIREARMS

In § 36.7 *Postmaster not to give opinion on questionable matter* (39 CFR 36.7) amend paragraph (b) to read as follows:

(b) *Firearms.* (1) Where there is doubt as to the mailability under § 36.12 of unloaded firearms proposed to be mailed by postal patrons, the question, with a complete statement of the facts, shall be submitted to the Solicitor for the Post Office Department for instructions.

(2) Where domestic parcels containing firearms are found in the mails in violation of § 36.12, the facts shall be reported to the Inspector in Charge of the division in which the office of mailing is located, and the firearms retained pending receipt of instructions issued by the Inspector in Charge as to their disposition. In cases where such parcels were mailed outside the United States, the report shall be made to the Inspector in Charge of the division within which the parcel is found in the mails.

TITLE 46—SHIPPING

Chapter II—Federal Maritime Board, Maritime Administration, Department of Commerce

Subchapter F—Merchant Ship Sales Act of 1946

[Gen. Order 60, Amdt. 1 to Supp. 21]

PART 299—RULES AND REGULATIONS, FORMS, AND CITIZENSHIP REQUIREMENTS

SUBPART C—CHARTER OF WAR-BUILT VESSELS TO CITIZENS

NET VOYAGE PROFIT

Procedure to be followed by charterers in the rendition to the Commission (now Maritime Administration, Department of Commerce) of final accountings under WARSHIPDEMISEOUT 203 and SHIPSALESDEMISE 303 bare-boat charter agreements.

It is ordered, That § 299.37–4 *Net voyage profit* in subpart C of this chapter (General Order 60, Supplement 21) published in the FEDERAL REGISTER issue of March 30, 1950 (15 F. R. 1792) is hereby amended by adding at the end thereof two additional paragraphs which read as follows:

(d) *Adjustments in absence of physical inventories.* Except in instances where physical inventories satisfactory to the Owner were taken at the end of each accounting period with respect to which a separate determination of additional charter hire is required to be made,

(1) The value of the inventory of subsistence stores, consumable stores,

fuel, water, and slop chest items on board at the time of delivery of the vessel to the Charterer shall be charged in Account 060—Stores, Supplies and Equipment Aboard Vessels—and the value of the inventory of subsistence stores, consumable stores, fuel, water, and slop chest items on board at the time of redelivery of the vessel to the Owner shall be credited in the same account, and

(2) The difference between the value of such delivery inventory and the value of such redelivery inventory shall be distributed proportionately on a daily basis over the entire period commencing with the date of delivery of the vessel to the Charterer and ending with the date of its redelivery to the Owner,

Provided, That, if in any instance the application of this procedure produces a disproportionate result with respect to expenses chargeable to the first voyage following delivery of a vessel to the Charterer or the last voyage preceding its redelivery to the Owner, the Maritime Administration will determine in each such instance the fair and reasonable basis for the allocation of the difference between the delivery and redelivery inventory.

For the purpose of this section, (i) the value of the delivery inventory shall be the price at which such inventory was purchased by the Charterer from the Owner, on delivery, and (ii) the value of the redelivery inventory shall be computed at the market price current at the port and the time of redelivery, unless the vessel is redelivered at a port other than the port of original redelivery pursuant to the terms of the addendum permitting the Owner, at its option, to require redelivery at a port other than the port of delivery, in which case the redelivery inventory shall be priced on the basis of the market price current at the original port of redelivery as at the time redelivery at such port would have been effected if the Owner had not exercised its option to change the port of redelivery. If, prior to redelivery, the Charterer notifies the Owner of its intention to dispose thereof, the value of the redelivery inventory shall be deemed to be the net proceeds realized from the disposition of such inventory in accordance with Operations Regulation No. 127.

(e) *Adjustment of priced differences between delivery and redelivery inventory lists; expendable equipment.* The value of priced differences between the itemized lists of expendable equipment upon delivery and redelivery shall be distributed proportionately on a daily basis over the entire period commencing with the date of delivery of the vessel to the Charterer and ending with the date of its redelivery to the Owner.

HANDLING OF FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Department is considering a proposed revision, as hereinafter set forth, of the rules and regulations (7 CFR 936.100 et seq. Subpart—Rules and Regulations; 15 F. R. 236, 3250) currently in effect pursuant to the amended marketing agreement and Order No. 36 (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

All persons who desire to submit written data, views, or arguments for consideration in connection with such proposed revision of the rules and regulations should do so by forwarding the same to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, Room 2077, South Building, Washington 25, D. C., not later than the fifteenth day after the publication of this notice in the FEDERAL REGISTER.

The proposed revision of the rules and regulations has been recommended by the Control Committee, established pursuant to the provisions of the aforesaid amended marketing agreement and order and would:

a. Require each handler, upon request, to report to the manager of the Control Committee the quantity of his storage holdings of Bartlett pears; and

b. Amend the reporting requirements with respect to plums held in storage.

The proposed revision is as follows:

Amend the provisions of paragraphs (a) *Bartlett pears* and (b) *Plums* of § 936.109 *Reports* (7 CFR 936.109; 15 F. R. 3250) to read as follows:

§ 936.109 *Reports*—(a) *Bartlett pears*—(1) *Report of daily shipments.* Each shipper who ships Bartlett pears shall furnish, or authorize any or all railroad companies and transportation companies to furnish, to the manager of the Control Committee complete daily information stating: (i) The time of departure of each shipment of Bartlett pears from specified railroad points, (ii) the time of shipment of each car of Bartlett pears, (iii) the name of the shipper, (iv) the car number, (v) the number of packages of such pears (or the equivalent thereof in weight) by grades and sizes in each shipment, (vi) the point of origin, and (vii) the destination. The foregoing information is to be reported promptly and substantiated by a copy of the manifest covering the shipment or a recapitulation of the manifest. The daily information shall also include any diversion of the shipment of any carload of Bartlett pears made through any or all agencies as soon as possible after filing such diversion with any common carrier. In the event any such shipment includes Bartlett pears for which exemption certificates have been issued, information concerning the name of the grower for whom such exempted fruit has been shipped shall be included either on the aforesaid manifest or on separate reports.

(2) *Report of Bartlett pears held in storage.* Each shipper who has Bartlett pears under refrigeration in a storage warehouse shall, upon request, file with the manager of the Control Committee within the time specified in the request an accurate report containing the following information:

(i) The name and address of the shipper;

(ii) The total quantity, as of the date specified in the request, of such Bartlett pears in storage outside the State of California, and in storage in the State of California for a period in excess of 5 days.

(b) *Plums*—(1) *Report of daily shipments.* Each shipper who ships plums shall furnish, or authorize any or all railroad companies and transportation companies to furnish, to the manager of the Control Committee complete daily information stating: (i) The name of the shipper, (ii) the car number, (iii) the number of packages by variety and size (or the equivalent thereof), (iv) the weight of each shipment, (v) the point of origin, and (vi) the destination. The foregoing information is to be reported promptly and substantiated by a copy of the manifest covering the shipment or a recapitulation of the manifest. The daily information shall include any diversion of the shipment of any carload of plums made through any or all agencies as soon as possible after filing such diversion with any common carrier. In the event the shipment includes plums for which exemption certificates have been issued, information concerning the name of the grower for whom such exempted fruit has been shipped shall be included either on the manifest or on separate reports.

(2) *Report of plums held in storage.* Each shipper who has plums under refrigeration in a storage warehouse shall, upon request, file with the manager of the Control Committee within the time specified in the request, an accurate report contafning the following information:

(i) The name and address of the shipper;

(ii) The total quantity, as of the date specified in the request, of each variety of such plums in storage in the State of California, and the portion of such quantity which has been in such storage for a period less than 60 hours; and

(iii) The total quantity of each variety of such plums in storage outside of the State of California as of such date.

Issued this 17th day of January 1951.

TARIFF-RATE QUOTA

JANUARY 16, 1951.

The tariff-rate quota for the calendar year 1951 on certain fish dutiable under paragraph 717 (b), Tariff Act of 1930, as modified pursuant to the General Agreement on Tariffs and Trade (T. D. 51802).

In accordance with the proviso to item 717 (b) of Part I, Schedule XX, of the General Agreement on Tariffs and Trade (T. D. 51802), it has been ascertained that the average aggregate apparent annual consumption in the United States of fish, fresh or frozen (whether or not packed in ice), filleted, skinned, boned, sliced, or divided into portions, not specially provided for: Cod, haddock, hake, pollock, cusk, and rosefish, in the 3 years preceding 1951, calculated in the manner provided for in the cited agreement, was 194,932,053 pounds. The quantity of such fish that may be imported for consumption during the calendar year 1951 at the reduced rate of duty established pursuant to that agreement is, therefore, 29,239,808 pounds.

AMERICAN-EGYPTIAN COTTON

NOTICE OF PRICE SUPPORT FOR 1951

Notice is hereby given that the price of 1951-crop Amsak and Pima 32 varieties of American-Egyptian cotton will be supported in order to increase the production of such American-Egyptian cotton in the interest of national security. It appears that price support at a level higher than 90 percent of the parity price of American-Egyptian cotton as of the beginning of the marketing year will be necessary in order to obtain the desired production. On the basis of the latest facts and information available to the Department, it is believed that a support level of approximately $1.04 per pound for Grade No. 2, 1½ inches in length, with appropriate differentials for other grades and staples, will be necessary.

As provided in section 402 of the Agricultural Act of 1949, notice is hereby given that a public hearing will be held at the Adams Hotel, Phoenix, Arizona, at 10 a. m. on January 25, 1951. The purpose of the hearing is to receive oral or written evidence with respect to the level of support necessary to obtain the increase of production of the above-mentioned varieties of American-Egyptian cotton needed for national security. All written evidence and exhibits introduced at the hearing should be submitted in duplicate.

The Administrator, Production and Marketing Administration, is hereby authorized to designate the officer or officers to preside at the hearing.

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended.

Agreement No. 7655–1, between the carriers comprising the Fern Line Joint Service, amends approved Joint Service Agreement No. 7655 by changing the trade names under which the joint service shall be maintained in certain of the trades in which it operates. Agreement 7655 covers the trades between U. S. Atlantic, Gulf and Pacific ports and ports in the Far East; between U. S. Atlantic and Gulf ports and Portugal, Spain, Morocco, and ports on the Gulf of Taranto and on the Mediterranean, Adriatic, Aegean, and Black Seas; and between Canadian Atlantic and St. Lawrence ports, U. S. Atlantic and Gulf ports, and West African ports and islands adjacent thereto.

Agreement No. 7745–1, between Farrell Lines Incorporated (feeder service operator) and Mississippi Shipping Company, Inc. (ocean service operator), changes the basis for division of the through freight between said operators under agreement 7745 which covers transportation of cargo under through bills of lading between Harbel, Liberia, and United States Gulf ports, with transshipment at Monrovia, Liberia.

Agreement No. 7746–1, between Farrell Lines Incorporated (feeder service operator) and Elder Dempster Lines, Ltd. (ocean service operator), changes the basis for division of the through freight between said operators under agreement 7746 which covers transportation of cargo under through bills of lading between Harbel, Liberia, and United States Atlantic ports, with transshipment at Monrovia, Liberia.

Agreement No. 7747–1, between Farrell Lines Incorporated (feeder service operator) and the carriers comprising the Barber-West African Line joint service (ocean service operator), changes the basis for division of the through freight between said operators under agreement 7747 which covers transportation of cargo under through bills of lading between Harbel, Liberia, and United States Atlantic ports, with transshipment at Monrovia, Liberia.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to any of the agreements and their position as to approval, disapproval, or modification together with request for hearing should such hearing be desired.

Dated: January 17, 1951.

ECONOMIC STABILIZATION AGENCY

IRON AND STEEL MILL INDUSTRY

REQUEST FOR STABILIZATION OF PRICES

Pursuant to sections 402 and 708 of the Defense Production Act of 1950 (Pub. Law 774, 81st Congress) and sections 401 and 701 of Executive Order 10161 (15 F. R. 6105), consultations have been had with representatives of the iron and steel mill industry who have voluntarily agreed to a program of price stabilization in that industry; the Attorney General and the Chairman of the Federal Trade Commission have been consulted in this matter and the approval of the Attorney General has been obtained. The Economic Stabilization Administrator hereby finds that the establishment of such program will be in the public interest as contributing to the national defense. Accordingly, the following request for the establishment of such program is hereby issued and published:

The Economic Stabilization Administrator and the Director of Price Stabilization hereby request that, until further notice from the Economic Stabilization Agency and while the Defense Production Act of 1950 is in effect, the members of the iron and steel mill industry make no increase in the price of the following materials over the price in effect on January 15, 1951, without first giving notice to the Economic Stabilization Agency twenty days in advance of the effective date of such increase:

1. The following carbon, stainless and other alloy steel products:
   - Ingots, blooms, billets, slab tube rounds, die blocks, sheet and tin bars.
   - Structural shapes and piling.
   - Plates (universal and sheared) including skelp.
   - Rails and truck accessories.
   - Hot rolled bars—except concrete reinforcing bars but including forged, galvanized, and wrought iron bars.
   - Concrete reinforcing bars (unfabricated).
   - Cold finished bars.
   - Sheet and strip, hot rolled.
   - Sheet and strip, cold reduced.
   - Tin mill black plates, tin plate and terne plate.
   - Sheets and strip, all other.
   - Welded tubing.
   - Seamless tubing.
   - Tool steel, including drill rod.
   - Wire rope and strand.
2. The following carbon and alloy steel products: Standard and line pipe, water well tubular products, and couplings (includes steel and wrought iron pipe):
   - Oil country casing, tubing, drill pipe, and couplings.
   - Galvanized, lead coated, or painted sheet and strip (including galvanized flat sheets purchased for the manufacture of roofing and siding) formed roofing and siding (painted, black, galvanized, or lead coated) valley, ridge roll, and flashing, prime scheduled rolling only.
   - Nails (cut and wire), fence and netting staples.

The price in effect means the highest price for the same material sold by the selling mill during the period of one month immediately preceding January 15, 1951, or, if the material was not sold during that period, then the last price at which the material was offered for sale during that period.

In determining the price in effect, the selling mill is requested not to change its customary business practices (such as price differentials for different classes of purchasers, customary allowances, terms and conditions of sale, and other settled business practices) in such a way as to increase the net return to the selling mill.

FEDERAL POWER COMMISSION

[Docket No. G-1570]

TEXAS GAS TRANSMISSION CORP.

NOTICE OF APPLICATION

JANUARY 16, 1951.

Take notice that Texas Gas Transmission Corporation (Applicant), a Delaware corporation of Owensboro, Kentucky, filed on December 26, 1950, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of a new 3960 hp. compressor station to be located on Applicant's main 20-inch pipeline near Shreveport, Louisiana.

The proposed facilities will increase the quantity of natural gas that can be pumped through Applicant's main 20-inch pipeline from the Carthage field, Texas, from approximately 190,000 Mcf per day to 238,000 Mcf per day. Applicant proposes to use the increased capacity for peak day requirements and interruptible sales.

The estimated cost of construction is $1,046,000, to be financed from funds on hand and short term bank loans.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 5th of February 1951. The application is on file with the Commission for public inspection.

[Docket No. G-1499]

EL PASO NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

On September 29, 1950, El Paso Natural Gas Company (Applicant), a Delaware corporation having its principal place of business at El Paso, Texas, filed an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural gas facilities and the sale of natural gas, subject to the jurisdiction of the Commission, as described in the application on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for non-contested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on October 14, 1950 (15 F. R. 6922).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a hearing be held on February 6, 1951, at 9:45 a. m., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: January 16, 1951.

[Docket No. G-1553]

CANADIAN RIVER GAS CO.

ORDER FIXING DATE OF HEARING

On December 11, 1950, Canadian River Gas Company (Applicant), a Delaware Corporation with its principal place of business at Amarillo, Texas, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the continued use and operation of certain facilities, subject to the jurisdiction of the Commission, as are fully described in such application on file with the Commission and open to public inspection.

Applicant has requested that this application be heard under the shortened procedure provided for by § 1.32 (b) of the Commission's rules of practice and procedure; no request to be heard or protest has been filed subsequent to giving of due notice of the filing of the application, including publication in the

FEDERAL REGISTER on December 30, 1950 (15 F. R. 9538).

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32) of the Commission's rules of practice and procedure.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a hearing be held on February 2, 1951, at 9:30 o'clock a. m. (e. s. t.), in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: January 16, 1951.

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 15th day of January 1951.

In the matter of Thomas E. Wood, dba, Ross-Wood Company, 90 State Street, Albany, New York.

The Commission having by order dated November 27, 1950, instituted proceedings pursuant to section 15 (b) of the Securities Exchange Act of 1934 to determine whether to revoke the broker-dealer registration of Thomas E. Wood, doing business as Ross-Wood Company, which order provided an opportunity for hearing on December 15, 1950, with respect to the question of revocation; and

Said order having been published in the December 2, 1950, issue of the FEDERAL REGISTER, at page 8255, Volume 15,

It is ordered, That said order of November 27, 1950, be and it is hereby incorporated herein by reference; and

It is further ordered, That the date for hearing be changed to February 15, 1951, and that this order be served on the registrant personally or by registered mail forthwith and published in the FEDERAL REGISTER not later than fifteen (15) days prior to February 15, 1951.

By the Commission.

SOUTHERN NATURAL GAS CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 16th day of January A. D. 1951.

Southern Natural Gas Company ("Southern"), a registered holding company, having filed a declaration and amendments thereto pursuant to section 7 of the Public Utility Holding Company Act of 1935 and Rules U-42 and U-50 promulgated thereunder, with respect to the following proposed transactions:

Southern proposes to issue and sell at competitive bidding, pursuant to Rule U-50, $17,500,000 principal amount of its First Mortgage Pipe Line Sinking Fund Bonds __ percent Series due 1970 ("New Bonds"). The coupon rate per annum for the New Bonds (to be a multiple of ⅛ of 1 percent) and the price, exclusive of accrued interest, to be received by Southern for the New Bonds (to be not less than 100 percent nor more than 102¾ percent of the principal amount of such New Bonds) are to be determined by the competitive bidding. It is proposed to issue the New Bonds under Southern's Indenture of Mortgage dated as of June 1, 1948, as modified by supplemental indentures including a proposed Supplemental Indenture to be dated as of December 1, 1950.

Southern further proposes to issue and sell without underwriting 155,546 additional shares of its common stock with a par value of $7.50 per share ("New Stock") upon the exercise of transferable subscription warrants to be issued pro rata to Southern's stockholders in the ratio of one share of New Stock for each ten shares of present common stock held of record on January 30, 1951, at a price to be fixed by the Board of Directors of Southern. Such warrants will expire on February 16, 1951. Each warrant will also give the holder the additional privilege of subscribing, at the same price, for additional shares of New Stock, subject to allotment, out of the shares, if any, not taken for subscription on the basis described above.

Southern proposes to use the proceeds from the sale of the New Bonds and New Stock to prepay, at the principal amount plus accrued interest, its 2 percent notes due July 1, 1951, presently outstanding in the principal amount of $20,000,000 (the previous sale of said notes having constituted temporary financing of Southern's construction program) and to provide additional construction funds.

The said declaration having been filed on November 1, 1950, and amendments thereto having been subsequently filed, and notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission having received no request for a hearing with respect to said declaration, as amended, within the period specified in said notice, and not having ordered a hearing thereon; and

The Commission finding with respect to the proposed transactions that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration, as amended, be permitted to become effective, subject to the terms and conditions specified below; and the Commission further deeming it appropriate to grant the request of the declarant that the Commission shorten the period provided by Rule U-50 for invitation of bids for the New Bonds so that bids may be opened on January 23, 1951, and that the order herein become effective forthwith;

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that the declaration, as amended, be, and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed by Rule U-24 and to the further condition that the proposed issue and sale of New Bonds by Southern shall not be consummated until the results of competitive bidding, pursuant to Rule U-50, have been made a matter of record in these proceedings and a further order shall have been entered by the Commission in the light of the record so completed, which order shall contain such further terms and conditions as may then be deemed appropriate, jurisdiction being reserved for such purpose.

It is further ordered, That the ten-day notice period provided by Rule U-50, for invitation of bids, be, and the same hereby is, shortened to a period of not less than six days.

It is further ordered, That jurisdiction be, and the same hereby is, reserved with respect to the payment of fees and expenses incurred or to be incurred in connection with the proposed transactions.

By the Commission.

CENTRAL ILLINOIS PUBLIC SERVICE CO. ET AL.

INTERIM ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 15th day of January 1951.

In the matter of Central Illinois Public Service Company, Illinois Power Company, Kentucky Utilities Company, Middle South Utilities, Inc., Union Electric Company of Missouri, File No. 70-2540.

Central Illinois Public Service Company ("Central"), a public utility company, Illinois Power Company ("Illinois"), a registered holding company and a public utility company, Kentucky Utilities Company ("Kentucky"), a registered holding company and a public utility company, Middle South Utilities, Inc. ("Middle South"), a registered holding company, and Union Electric

Company of Missouri ("Union"), a registered holding company and a public utility subsidiary of The North American Company, also a registered holding company, have filed a joint application with amendments thereto, pursuant to sections 9 (a) and 10 of the Public Utility Holding Company Act of 1935 ("act"), regarding the acquisition of 35,000 shares of the common stock of Electric Energy, Inc. ("Electric Energy"), an Illinois corporation which the applicants have caused to be organized as a public utility company for the purpose of supplying in part, the electric energy requirements of a project to be constructed by the Atomic Energy Commission.

The aggregate cash consideration for said shares is to be $3,500,000 and said shares will be divided among the applicants in the following respective amounts: Central 7,000 shares, Illinois 7,000 shares, Kentucky 3,500 shares, Middle South 3,500 shares and Union 14,000 shares.

Central, Illinois and Kentucky have also applied, pursuant to section 2 (a) (7) of the act, for an order declaring them not to be holding companies with respect to Electric Energy.

Said joint application, as amended, having been duly filed and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act and the Commission not having received a request for hearing with respect to said joint application, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission having considered the record in the matter and having filed this day its memorandum opinion herein and subject to the conditions and reservations of jurisdiction hereinafter set forth:

It is ordered, Pursuant to Rule U-23 and said memorandum opinion that the joint application, as amended, pursuant to sections 9 and 10 of the act be and it is hereby granted, as to all applicants other than Central, and dismissed as to Central, all subject to the conditions contained in Rule U-24 and to the following additional terms and conditions:

(A) That this order and the findings supporting it are made in the light of the present urgent problems of national defense which gave rise to the application; that the Commission therefore reserves jurisdiction to reopen these proceedings upon notice to the applicants and to reexamine its findings under section 10 when in its opinion such reexamination shall be appropriate; and that this order is without prejudice to any order which may be entered upon such reexamination;

(B) That upon the giving of such notice the applicants shall amend their joint application so as to bring before the Commission the facts as they then exist; that in such reopened proceedings the applicants shall not make any argument to the effect that the Commission, by making findings in the present setting of urgent demands of national defense, has decided the issues under section 10 which may be presented in the reopened proceedings, but will nevertheless be free to present evidence and to make arguments with respect to the facts as they then exist; and that if the Commission after such further proceedings shall order any one or more of the applicants to dispose of its or their stock of Electric Energy, such applicant or applicants will proceed forthwith to take such steps as may be appropriate to dispose of its or their holdings of common stock of Electric Energy within such time and in such manner as shall be provided in the final order of the Commission, without prejudice to its or their right to seek review of such order.

It is further ordered, That jurisdiction be and it is hereby reserved to consider the applications of Central, Illinois, and Kentucky pursuant to section 2 (a) (7) of the act.

By the Commission.

PENNROAD CORP.

NOTICE OF APPLICATION TO AMEND ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 16th day of January A. D. 1951.

Notice is hereby given that The Pennroad Corporation, a registered investment company under the Investment Company Act of 1940 has filed an amended application pursuant to Rule N-17D-1 of the rules and regulations promulgated under the act regarding the amendment of the bonus plan covering all full time, regular, salaried officers and employees of the company meeting certain requirements as to age and service.

The only change by the amendment to the bonus plan is the reduction of the minimum age qualification from 30 years of age to 21 years of age which will increase the number of persons eligible thereunder from 15 to 19, however, other persons may become subject to the plan in the future upon meeting the eligibility requirements. The bonus plan as amended will cover all full time, regular, salaried officers and employees of the applicant who are at least 21 years of age, who were employed by the applicant prior to age 58 and who have completed two years of service by the end of the bonus year. The bonus plan provides bonuses based upon the increase in net asset value of the company after provision for minimum accomplishment objectives which accumulate.

All interested persons are referred to said amended application which is on file in the Washington, D. C., office of this Commission for a detailed statement of the matters of fact and law therein asserted.

Notice is further given that an order granting the said amended application may be issued by the Commission at any time after the 29th day of January 1951, unless prior thereto a hearing upon the application is ordered by the Commission, as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than the 26th day of January 1951 at 5:30 p. m., submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by such application which he desires to controvert.

By the Commission.

MALDEN AND MELROSE GAS LIGHT CO. ET AL.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 18th day of January A. D. 1951.

In the matter of Malden and Melrose Gas Light Company, New England Power Company, Southern Berkshire Power & Electric Company, File No. 70-2547.

Notice is hereby given that Malden and Melrose Gas Light Company ("Malden and Melrose"), New England Power Company ("NEPCO") and Southern Berkshire Power & Electric Company ("Southern Berkshire"), all subsidiaries of New England Electric System ("NEES"), a registered holding company, have filed with this Commission separate declarations under section 7 of the Public Utility Holding Company Act of 1935.

Notice is further given that any interested person may, not later than January 29, 1951, at 12:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said declarations proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after January 29, 1951, said declarations, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said declarations which are on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

The three declarant companies propose during the three months ending March 31, 1951, to issue to certain banks, pursuant to bank letter agreements, notes in the aggregate amounts shown in the following table. The table also shows, among other things, the maximum amounts of notes which may be outstanding at any one time under the bank letter agreements and the amounts of such notes outstanding at January 1, 1951.

	Amounts proposed to be issued up to Mar. 31, 1951	Outstanding Jan. 1, 1951	Maximum amounts which may be outstanding at any one time	Estimated amounts	
				To be retired by Mar. 31, 1951	To be outstanding Mar. 31, 1951
NEPCO	[1] $5,500,000	$7,500,000	$10,500,000	$10,500,000	[1] $2,500,000
Malden and Melrose	100,000	850,000	1,000,000		950,000
Southern Berkshire	50,000	350,000	500,000		400,000

[1] NEPCO states that borrowings by that company would be reduced by $1,500,000 in the event of a bond issue of $12,000,000 principal amount, and the balance at Mar. 31, 1951, of notes payable would thereby be reduced to $1,000,000.

Under the bank letter agreements (see Holding Company Act Releases Nos. 8253, 9527 and 10182), the notes proposed to be issued by NEPCO, like its notes presently outstanding, would bear interest at a rate of 2¼ percent and mature May 31, 1951, and the notes proposed to be issued by Malden and Melrose and by Southern Berkshire, like the notes of these two companies presently outstanding, would bear interest at a rate of 2½ percent and mature May 31, 1951. NEPCO states that it has entered into a supplemental agreement extending its prior bank letter agreement from December 31, 1950, to March 31, 1951. The existing agreements of Malden and Melrose and of Southern Berkshire extend to May 31, 1951. Under each of the three agreements the commitment fee is ½ of 1 percent per annum of the average daily unborrowed balance of the commitment.

Each of the declarant companies proposes that if any permanent financing is done before the maturity of the notes issued under bank letter agreements, exclusive of permanent financing which replaces indebtedness to NEES, it will apply the proceeds therefrom in reduction of, or in total payment of, notes then outstanding, and the balance of such notes then unissued, if any, pursuant to the declarations herein, or to any order of this Commission with reference thereto, will be reduced by the amount, if any, by which such permanent financing exceeds the notes at the time outstanding. NEPCO states that it plans to issue $12,000,000 of bonds, the proceeds of which it assumes will be realized early in March 1951, and it estimates that $10,500,000 of such proceeds will be used to pay off its total bank debt then outstanding. NEPCO states that the balance of the proceeds, $1,500,000 will be used to pay construction costs in March 1951 but, as it is estimated that a total of $2,500,000 will be needed in that month, it will be necessary to borrow the balance of $1,000,000.

The three declarant companies state that the proposed transactions have as their purpose the temporary financing of construction through March 31, 1951, or until such earlier time as permanent financing is arranged, and to replenish any depletion of working capital occasioned by construction of property already in progress. In connection with the system program for financing the construction requirements of the subsidiaries of NEES, including, among other things, the maintenance by NEES of a reasonable equity base for the required senior financing, the declaration contains the same statement quoted in the order of this Commission dated October 27, 1950, in Beverly Gas and Electric Company et al., Holding Company Act Release No. 10182.

Expenses in connection with the proposed transactions, consisting of payments to be made to New England Power Service Company, an affiliated service company, for services to be performed at cost, are estimated by declarants as $600 for NEPCO and $200 each for Malden and Melrose and for Southern Berkshire. In addition NEPCO proposes to reimburse The First National Bank of Boston, as agent under the bank letter agreement for out-of-pocket expenses, including counsel fees, incurred in connection with the supplemental agreement, estimated to be $200 and miscellaneous expenses, including printing, estimated to be $100.

Declarants request that the Commission's orders herein become effective upon issuance.

By the Commission.

WEYMOUTH LIGHT AND POWER CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 18th day of January A. D. 1951.

Notice is hereby given that Weymouth Light and Power Company ("Weymouth"), a subsidiary of New England Electric System ("NEES"), a registered holding company, has filed with this Commission a declaration under section 7 of the Public Utility Holding Company Act of 1935.

Notice is further given that any interested person may, not later than January 29, 1951, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after January 29, 1951, said declaration as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said declaration which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Weymouth proposes to issue, up to and including March 31, 1951, notes due six months after the date of issue, as follows:

Granite Trust Co., Quincy, Mass.	$75,000
The First National Bank of Boston, Mass.	75,000
	150,000

It is proposed that the notes bear interest at the rate of 2½ percent per annum and that, should the interest rate on any of the notes exceed such amount, Weymouth will file an amendment, stating the name of the bank, the amount of the note and the rate of interest, at least five days prior to the execution of said note, and unless the Commission notifies Weymouth to the contrary within said five days, the amendment will become effective at the end of such period.

Weymouth proposes to use such borrowings to reimburse its treasury for past construction expenditures and to pay for additional estimated construction to March 31, 1951. The declaration states that Weymouth contemplates the proposed borrowings as temporary in character pending the issuance of permanent securities to finance such expenditures. It is further stated that the notes proposed to be issued will constitute Weymouth's only indebtedness other than current indebtedness incurred in the ordinary course of business. In connection with the system program for financing the construction requirements of the subsidiaries of NEES, including, among other things, the maintenance by NEES of a reasonable equity base for the required senior financing, the declaration contains the same statement quoted in the order of this Commission dated October 27, 1950, in Beverly Gas and Electric Company et al., Holding Company Act Release No. 10182.

Expenses in connection with the proposed transactions, consisting of payments to be made to New England Power Service Company, an affiliated service company, for services to be performed at cost, are estimated by Weymouth not to exceed $600.

The declaration states that no state commission has jurisdiction over the proposed transactions.

Weymouth requests that the Commission's order herein become effective upon its issuance.

By the Commission.

Secretary.

TITLE 12—BANKS AND BANKING

Chapter II—Federal Reserve System

Subchapter A—Board of Governors of the Federal Reserve System

[Reg. D]

PART 204—RESERVES OF MEMBER BANKS

PRESENTATION OF SAVINGS ACCOUNTS PASSBOOKS

§ 204.103 *Presentation of savings accounts passbooks.* The Board has been requested to pass upon the propriety of a practice proposed to be followed by a member bank under which the bank would accept, in the case of savings accounts, deposits by mail without presentation of the passbook.

It is understood that the member bank proposes to include in its passbooks relating to savings deposits provisions to the effect that deposits may be made by mail and that the depositor at any subsequent time may present his passbook so as to permit the existing balance, as affected by such deposits, to be reflected by entries therein and that every six months following the last such presentation (in the event a period of such length should occur), the bank will mail a statement to the depositor showing the existing status of his account. It is also understood that the bank has advised that all provisions of this part and Part 217 concerning withdrawals from savings deposits will be observed.

While the definitions of the term "savings deposit" contained in this part and Part 217 of this chapter require presentation of the passbook upon withdrawals by any person other than the depositor himself, it is not required that the passbook be presented when deposits are made in a savings account. Also, while it is required that withdrawals made upon presentation of the passbook shall be entered at the time of the withdrawal and that any other withdrawal shall be entered as soon as practicable thereafter, there is no comparable provision with respect to entries of deposits in the passbook. This part and Part 217 of this chapter provide that a savings deposit shall be "evidenced" by a passbook and contemplate that deposits, as well as withdrawals, will be entered in the passbook in due course. However, on the basis of the facts stated and with the understanding that the requirements of this part and Part 217 of this chapter with respect to withdrawals of savings deposits will be observed, it is the Board's view that deposits with respect to which the proposed practice is followed by a member bank may properly be regarded as savings deposits under this part and Part 217.

PART 217—PAYMENT OF INTEREST ON DEPOSITS

Sec.
217.102 Transfers of time deposits.
217.103 Presentation of savings accounts passbooks.

AUTHORITY: §§ 217.102 and 217.103 issued under sec. 11, 38 Stat. 262; 12 U. S. C. 248. Interpret or apply secs. 19, 24, 38 Stat. 270, 273, as amended, sec. 8, 48 Stat. 168, as amended; 12 U. S. C. 264, 371, 371a, 371b, 461.

§ 217.102 *Transfers of time deposits.* It is the practice of certain member banks to amend agreements as to time deposit accounts, now subject to withdrawal upon 30 days' notice and bearing interest at 1 percent, so as to provide for 90 days' notice of withdrawal and interest at 1¼ percent. Since such an amendment makes the deposits subject to more severe restriction as to withdrawal and does not result in payment to the depositor, the Board feels that this practice does not constitute payment before maturity in violation of this part and interest may properly be paid from the date of amendment at a rate permitted by § 217.6 for deposits payable upon written notice of less than 6 months and not less than 90 days.

§ 217.103 *Presentation of savings accounts passbooks.* For text of this interpretation, see § 204.103 of this chapter.

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,

Secretary.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 36—SERVICEMEN'S READJUSTMENT ACT OF 1944

SUBPART A—TITLE III, LOAN GUARANTEE

1. In § 36.4343 (g), the text immediately preceding the schedule is amended as follows:

§ 36.4343 *Loans which may not be processed automatically.* • • •

(g) Except for loans in the Territory of Alaska, the Panama Canal Zone, or any territory or possession outside the continental United States, no loan to be made for the purchase or construction of residential property will be approved pursuant to this section unless each veteran participant makes a down payment in cash or its equivalent in accordance with the following schedule:

• • • • • •

2. In § 36.4356 (e), subparagraph (5) is amended to read as follows:

§ 36.4356 *Credit restrictions.* • • •

(e) • • •

(5) Loans made in connection with residential property in the Territory of Alaska, the Panama Canal Zone, or any territory or possession outside the continental United States.

• • • • • •

3. In § 36.4504, paragraph (e) is amended to read as follows:

§ 36.4504 *Loan closing expenses.* • • •

(e) The veteran will be required to make a down payment in cash or its equivalent of an amount which when related to the purchase price or cost of construction or to the improvement of a farmhouse will not be less than that specified in the following schedule:

Transaction price	*Minimum down payment*
$5,000 or less	5 percent of value.
More than $5,000 but not more than $6,000	$250.
More than $6,000 but not more than $9,000	$250 plus 25 percent of excess of value over $6,000.
More than $9,000 but not more than $12,000	$1,000 plus 30 percent of excess of value over $9,000.
More than $12,000 but not more than $15,000	$1,900 plus 55 percent of excess of value over $12,000.
More than $15,000 but not more than $20,000	$3,550 plus 75 percent of excess of value over $15,000.
More than $20,000 but not more than $24,250	$7,300 plus 85 percent of excess of value over $20,000.
Over $24,250	45 percent of value.

With respect to construction loans in cases where land is owned by the veteran, the down payment will relate to the cost of construction plus the reasonable value of the land: *Provided*, That in the case of construction of a farmhouse the amount determined to be the reasonable value of the land so owned by the veteran shall be deemed, for the purposes of this paragraph, to be 5 percent of the cost of construction. For the purpose of computing the amount of down payment required, the estimated costs of closing the loan or financing the purchase shall be added to the purchase price of the property or cost of the construction or improvements to a farmhouse, and the down payment may be used to pay such costs: *Provided*, That the pro rata portion of the current year's taxes, ground rents, hazard insurance premiums, and other prepaid items normally involved in financing a purchase will not be added to the purchase price of the property or cost of the construction or improvements to a farmhouse and must be paid by the veteran in addition to the down payment otherwise required: *And provided further*, That this paragraph shall not be applicable with respect to loans made in the Territory of Alaska, the Panama Canal Zone, or any territory or possession outside the continental United States, nor shall the provisions be applicable in connection with loans for the improvement of a farmhouse made solely for the replacement, reconstruction, or repair of such a farmhouse destroyed or substantially damaged by flood, fire or other similar casualty. With respect to construction loans, the fair market value of the lot, if owned by the veteran, may be considered pro tanto as satisfying the down payment requirement: *Provided*, That in connection with such loans the veteran, in addition to the required down payment, will deposit with Veterans' Administration or in an escrow satisfactory to Veterans' Administration 10 percent of the estimated cost of construction or such alternative sum, in cash or its equivalent, as Veterans' Administration may determine to be necessary, in order to afford adequate assurance that sufficient funds will be available, from the proceeds of the loan or from other sources, to assure completion of the construction in accordance with the plans and specifications upon which Veterans' Administration based its loan commitment.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 695]

CALIFORNIA

WITHDRAWING CERTAIN PUBLIC LANDS WITHIN LOS PADRES NATIONAL FOREST FOR USE AS A CONDOR SANCTUARY

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Subject to valid existing rights and to existing withdrawals for power purposes, all public lands within the following-described areas in the Los Padres National Forest, California, are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining laws and, except as hereinafter provided, the mineral-leasing laws, and reserved as a condor sanctuary, under the jurisdiction of the Forest Service, Department of Agriculture:

SAN BERNARDINO MERIDIAN

T. 5 N., R. 19 W., partly unsurveyed
Secs. 1 to 6 inclusive;
Secs. 9 to 16 inclusive;
Secs. 22 to 27 inclusive;
Secs. 34, 35, and 36.
T. 5 N., R. 20 W., unsurveyed
Secs. 1 to 24 inclusive;
Secs. 26 to 30 inclusive;
Secs. 33, 34, and 35.

The areas described, including both public and non-public lands, aggregate approximately 35,200 acres.

This order shall take precedence over but not otherwise affect the Proclamation of March 2, 1898, as amended, creating a national forest, so far as such proclamation affects the above-described lands.

The oil and gas deposits in the public lands in the W½ sec. 3, secs. 4, 9, 10, S½ sec. 11, S½ sec. 13, secs. 14, 15, E½ sec. 16, secs. 22 to 27 inclusive, secs. 34, 35, and 36, T. 5 N., R. 19 W., shall be subject to development and extraction under the mineral-leasing laws subject to the condition that no lessee shall use or invade the surface of such lands for any purpose. The oil and gas deposits in the public lands in the remaining areas of the condor sanctuary shall be subject to development and extraction under the mineral-leasing laws subject to the condition that no lessee shall use or invade, for any purpose, the surface of any such lands within one-half mile of a condor nest active within 3 years, without specific authorization by the United States Forest Service. Leases affecting any of the lands shall be subject to any special stipulations found necessary by the Secretary of Agriculture, with the concurrence of the Secretary of the Interior, to preserve the usefulness as a condor sanctuary of the lands reserved by this order.

OSCAR L. CHAPMAN,
Secretary of the Interior.

[Public Land Order 696]

ALASKA

EXCLUDING CERTAIN TRACTS OF LAND FROM CHUGACH AND TONGASS NATIONAL FORESTS AND RESTORING THEM FOR PURCHASE AS HOMESITES OR AS TRADE AND MANUFACTURING SITES

By virtue of the authority vested in the President by the act of June 4, 1897 (30 Stat. 11, 36; 16 U. S. C. 473), and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

The following-described tracts of public land in Alaska, occupied as homesites or as trade and manufacturing sites, and identified by surveys of which plats and field notes are on file in the Bureau of Land Management, Washington, D. C., are hereby excluded from the Chugach and Tongass National Forests, as hereinafter indicated, and restored, subject to valid existing rights, for purchase as homesites or as trade and manufacturing sites under section 10 of the act of May 14, 1898, as amended by the act of May 26, 1934 (48 Stat. 809; 48 U. PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR, Part 192]

OIL AND GAS LEASE BONDS; FORM

NOTICE OF PROPOSED RULE MAKING

Pursuant to the authority vested in the Secretary of the Interior by section 32 of the Mineral Leasing Act of February 25, 1920 (41 Stat. 450; 30 U. S. C. sec. 189), and section 10 of the Mineral Leasing Act for Acquired Lands of August 7, 1947 (61 Stat. 915; 30 U. S. C. sec. 359), notice is hereby given that the Department of the Interior is giving consideration to the adoption of a new oil and gas lease bond form designed to cover all leases held or operated by the principal in one or more States and related amendments to §§ 192.100 and 192.101 of Title 43, Code of Federal Regulations. A tentative draft of the proposed form is set out as Appendix A, and a tentative draft of the proposed amendments is set out as Appendix B. The proposed new bond form and amendments are under consideration for use in connection with oil and gas leases under the Mineral Leasing Act, and the Mineral Leasing Act for Acquired Lands.

Interested persons may submit written comments, suggestions, or objections with respect to the proposed new bond form and the amendments to the Director of the Bureau of Land Management, Washington 25, D. C., within 30 days from the date of publication of this notice.

The purpose of the new bond form and of the amendments is to simplify the administration of oil and gas leases for both the public and the Department. The proposed blanket bond, if adopted, could be used, at the option of a lessee or operator, in place of individual bonds on each lease held or operated by the principal. It would lessen considerably the amount of paper work and record keeping which is now required of the

principals, the sureties, and the Department of the Interior. The rates tentatively set are believed to be adequate to protect the interest of the Government and of the surface owners where the surface has been patented with a reservation of the oil and gas deposits.

Upon receiving the recommendation of the Director of the Bureau of Land Management, together with all responses received pursuant to this notice, the Secretary of the Interior will determine whether the proposed bond form and amendments to 43 CFR 192.100 and 192.101 should be adopted, with or without further change. If the Secretary determines that such form and amendments should be adopted, they will be published in the FEDERAL REGISTER.

, DALE E. DOTY,
Assistant Secretary of the Interior.

APPENDIX A

Form No. 4–
(Edition of _____, 19____)

OIL AND GAS LEASE BOND FOR USE IN CONNECTION WITH THE ACT OF FEBRUARY 25, 1920 (41 STAT. 437; 30 U. S. C. SEC. 181) OR THE ACT OF AUGUST 7, 1947 (61 STAT. 913; 30 U. S. C. SEC. 351), OR BOTH ACTS

Know all men by these presents, That we, _____, _____
(address)
as principal, and _____, as
(address)
surety, are held and firmly bound unto the United States of America, in the sum of _____ dollars ($_____), lawful money of the United States, which sum may be increased or decreased by a rider hereto executed in the same manner as this bond, for the use and benefit of (1) the United States, (2) any owner of a portion of the land subject to the coverage of this bond, who has a statutory right to compensation in connection with a reservation of the oil and gas deposits to the United States, and (3) any lessee or permittee under a lease or permit issued by the United States prior to the issuance of an oil and gas lease for the same land subject to this bond, covering the use of the surface or the prospecting for, or development of, other mineral deposits in any portion of such land, to be paid to the United States. For such payment, well and truly to be made, we bind ourselves, and each of us, and each of our heirs, executors, administrators, successors and assigns, jointly and severally, by these presents.

The bond coverage extends only to the principal's holdings involving oil and gas deposits in the States named in Schedule A and to any other States or State that may be named in a rider attached hereto by the lessor with the consent of the surety. The coverage is confined to the principal's holdings under the act or acts cited at the head of the column under which the names of the States are now placed, or may be hereafter placed by the aforementioned rider.

The conditions of the foregoing obligations are such that, whereas the said principal in one or more of the following ways has an interest in oil and gas leases issued under the act or acts cited in Schedule A of this bond: (1) as the lessee of such leases; (2) as the approved holder of operating rights in all or part of the lands covered by such leases under operating agreements with the lessees; and (3) as designated operator or agent under such leases pending approval of an assignment or operating agreement; and

Whereas the principal is authorized to drill for, mine, extract, remove, and dispose of oil and gas deposits in or under the lands covered by the leases, operating agreements or designations and is obligated to comply with certain covenants and agreements set forth in such instruments; and

Whereas the principal and surety agree that without notice to the surety the coverage of this bond, in addition to the present holdings of the principal, shall extend to and include:

1. Any oil and gas lease hereafter issued to, or acquired by, the principal affecting oil and gas deposits in the States now named in Schedule A, or later named in a rider, the coverage to be confined to the principal's holdings under the act or acts cited at the head of the column in which the name of the State appears and to become effective immediately upon such issuance or upon departmental approval of a transfer in favor of the principal.

2. Any operating agreement hereafter entered into, with, or acquired by, the principal affecting oil and gas deposits in the States now named in Schedule A, or later named in a rider, relating to oil and gas leases issued under the act or acts cited in Schedule A at the head of the column in which the name of the State is placed. The coverage shall become effective immediately upon departmental approval of the agreement or of a transfer of an operating agreement to the principal.

3. Any designation subsequent hereto of the principal as operator or agent of a lessee under a lease issued pursuant to an act or acts cited in Schedule A and covering lands in a State named in Schedule A, either presently or by rider. This coverage shall become effective immediately upon the filing of such a designation under a lease.

4. Any extension of a lease covered by this bond, such coverage to continue without any interruption due to the expiration of the term set forth in the lease.

Provided, That, the surety may elect to have the additional coverage authorized under this paragraph become inapplicable as to all interests of the principal acquired more than 30 days after the receipt of notice of such election by the Bureau of Land Management.

Whereas, the surety hereby waives any right to notice of, and agrees that this bond shall remain in full force and effect notwithstanding:

1. A transfer or transfers, either in whole or in part, of any or all of the leases, or of the operating agreements, and further agrees to remain bound under this bond as to the interests either in the leases or in the operating agreements, or in both, retained by the principal when the approval of the transfer or transfers becomes effective.

2. Any modification of a lease or operating agreement, or obligations thereunder, whether made or effected by commitment of such lease or operating agreement to unit, cooperative, communitization or storage agreements, or development contracts, suspensions of operations or production, waivers, suspensions or changes in rental, minimum royalty and royalties, compensatory royalty payments, or otherwise; and

Whereas the principal and surety hereby agree that notwithstanding the termination of any lease or leases, operating agreements or designations as operator or agent, covered by this bond, whether the termination is by operation of law or otherwise, the bond shall remain in full force and effect as to any remaining leases, operating agreements, or designations covered by the bond; and

Whereas the principal, as to any lease or part of a lease for lands as to which he has been designated as operator or agent, or approved as operator, in consideration of being permitted to furnish this bond in lieu of the lessees, agrees and by these presents does hereby bind himself to fulfill on behalf of each lessee all the obligations of each such lease for the entire leasehold in the same manner and to the same extent as though he were the lessee; and

Whereas the principal and surety agree that notwithstanding any payments made by the surety by reason of legal obligations arising under this bond, the bond shall remain in full force and effect in the sum above set forth, without any deduction therefrom for such payments and the coverage of this bond shall remain the same, unaffected by the payments or by the defaults giving rise to the obligations; and

Whereas the principal and surety agree that the neglect or forbearance of said lessor in enforcing, as against the lessees of such lessor, the payment of rentals or royalties or the performance of any other covenant, condition or agreement of the leases, shall not, in any way, release the principal and surety, or either of them, from any liability under this bond; and

Whereas the principal and surety agree that in the event of any default under the leases, the lessor may commence and prosecute any claim, suit, action or other proceeding against the principal and surety, or either of them, without the necessity of joining the lessees.

Now, therefore, if said principal shall in all respects faithfully comply with all of the provisions of the leases referred to herembefore, then the above obligations are to be void; otherwise to remain in full force and effect.

(If this bond is executed by a corporation, either as principal or as surety, it must bear the seal of such corporation.)

In order to provide for a single oil and gas lease bond, in lieu of a separate bond for each lease, where more than one lease is involved, and otherwise to simplify the procedure pertaining to lease bonds, §§ 192.100 and 192.101 are amended as follows:

1. Section 192.100 is amended by adding a paragraph (e) to read:

§ 192.100 *Amount of bonds required of lessee.* * * *

(e) In lieu of bonds required under any of the preceding paragraphs, the holder of leases or of operating agreements approved by the Department or holder of operating rights by virtue of being designated operator or agent by the lessees pending Departmental approval of operating agreements, or by being approved by the Department as operator for an approved unit agreement, may furnish a bond the amount of which must be at the rate of $25,000 for each unit of coverage. A unit of coverage shall be all the lands in any one State held by the principal under either the Mineral Leasing Act, or the Acquired Lands Mineral Leasing Act of 1947 (61 Stat. 913; 30 U. S. C. 351–359). To obtain coverage for all the lands in a State held under both of the above acts shall require a bond in an amount for two units of coverage.

(Sec. 32, 41 Stat. 450; 30 U. S. C. 189)

2. Section 192.101 is revised to read:

§ 192.101 *Form of bonds.* Bonds furnished by lessees will be on Form 4–208g; those furnished by operators on Form 4–238; bonds furnished in lieu of other bonds, pursuant to paragraph (e) of § 192.100, will be on Form 4— .

CIVIL AERONAUTICS BOARD

[14 CFR, Parts 41, 61]

MECHANICAL INTERRUPTIONS

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau has under consideration amendments of Parts 41 and 61 in substance as hereinafter set forth.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted, in duplicate, to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. All communications received prior to February 7, 1951, will be considered by the Board before taking further action on the proposed rule. Copies of such communications will be available after February 9, 1951, for examination by interested persons at the Docket Section of the Board, Room 5412, Commerce Building, Washington, D. C.

Section 61.294 of the Civil Air Regulations currently provides that in the event of any mechanical failure or interruption which may involve the safety of the flight a pilot shall proceed to and land at the nearest place where a safe landing can be effected. In practice this section has been strictly construed so that the air carriers and the pilots feel it to be obligatory for the aircraft to make a landing at the nearest suitable airport even in those instances where engines are stopped in flight for precautionary reasons, such as to eliminate roughness or to prevent any possible damage, and where flight beyond such an airport can be accomplished without prejudice to safety.

As a result, we have been informed that certain pilots have failed to feather engines as a precautionary measure because of their desire to continue the flight to its destination. If this information is correct, the practice is undesirable not only from a standpoint of possible engine damage but also because the failure to feather an engine as a precautionary measure might result in a fire or other serious hazard. Part 41 does not contain any specific provision on this subject.

We are advised that the carriers would prefer the pilots to have discretionary authority with respect to (1) making an immediate landing, (2) proceeding to their next scheduled stop, or (3) flying directly to the place where the carrier has a maintenance base or to the ultimate destination of the flight. The carriers support this position primarily on the basis that unnecessary landings at intermediate points increase maintenance and passenger handling costs. We are therefore proposing to add new §§ 41.25a and 61.294a in order to permit the pilot to exercise his discretion as to the course of flight in those cases where an engine has been feathered. The regulation will still require the pilot to make an immediate landing in those instances where the flight might not safely proceed to the point of next intended landing, and will not permit a pilot to land at an intermediate point after feathering an engine in flight and then take off for a further point without repairing the engine.

No change has been effected in provisions relative to procedure where mechanical failure other than power-plant failure is involved. However, it should be noted that this matter has been differently treated in the proposed revision of Part 40 currently under consideration and that some changes in current provisions may be expected when that part is promulgated.

1. It is proposed to amend § 61.294 to read as follows:

§ 61.294 *Mechanical failure in flight.* In the event of any mechanical failure or interruption except a powerplant failure (including a flight instrument, radio, or other essential component of the aircraft) which may involve the safety of the flight, the pilot shall proceed to and land at the nearest suitable airport in point of time where a safe landing can be effected.

2. It is proposed to add new §§ 41.25a and 61.294a, both to read as follows:

Powerplant failure or precautionary stoppage. (a) Except as provided in paragraph (b) of this section, when one engine of an aircraft fails or where the rotation of an engine of an aircraft is stopped in flight as a precautionary measure to prevent possible damage, a landing shall be made at the nearest suitable airport in point of time where a safe landing can be effected.

(b) The pilot in command of an aircraft having 4 or more engines may, if not more than one engine fails or the rotation thereof is stopped, proceed to an airport of his selection, if, upon consideration of the following factors, he determines such action to be as safe a course of action as landing at the nearest suitable airport:

(1) The nature of the malfunctioning and the possible mechanical difficulties which may be encountered if flight is continued,

(2) The altitude, aircraft weight, and useable fuel at the time of engine stoppage,

(3) The weather conditions en route and at possible landing points,

(4) The air traffic congestion,

(5) The type of terrain, and

(6) The familiarity of the pilot with the airport to be used.

(c) When engine rotation is stopped in flight, the pilot in command shall immediately notify the proper control station and shall keep such station fully informed regarding the progress of the flight.

(d) In cases where the pilot in command selects an airport other than the nearest suitable airport in point of time, he shall, upon completion of the trip, submit a written report, in duplicate, to his operations manager setting forth his reasons for determining that the selection of an airport other than the nearest (in point of time) was as safe a course of action. The operations manager shall, within 7 days after completion of the trip, furnish a copy of the report submitted by the pilot, and comments thereon to the Administrator.

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

(Sec. 205 (a), 52 Stat. 984; 49 U. S. C. 425 (a). Interpret or apply secs. 601–610, 52 Stat. 1007–1012; 49 U. S. C. 551–560)

APPOINTMENT OF A SPECIAL INDUSTRY COMMITTEE FOR THE VIRGIN ISLANDS

1. Pursuant to authority under the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), I, Wm. R. McComb, Administrator of the Wage and Hour Division, United States Department of Labor, do hereby appoint and convene a Special Industry Committee for the Virgin Islands, composed of the following representatives:

For the public: John P. Scott, Chairman, Charlotte Amalie, St. Thomas, Virgin Islands. A resident of the Continental U. S. will be appointed as a second public member.)

For the employees: Percival H. Reese, Charlotte Amalie, St. Thomas, Virgin Islands. Ludvig E. Harrigan, Christiansted, St. Croix, Virgin Islands.

For the employers: Robert S. Fleming, Fredricksted, St. Croix, Virgin Islands, Algernon Maduro, Charlotte Amalie, St. Thomas, Virgin Islands.

2. The special industry committee herein created, in accordance with the provisions of the Fair Labor Standards Act, as amended, and the regulations promulgated thereunder (29 CFR Part 511), shall meet beginning on February 20, 1951, at 10:00 a. m., in the Municipal Council Chamber, Charlotte Amalie, St. Thomas, Virgin Islands, and at such later date as shall be designated, in the Federal Court Room, Christiansted, St. Croix, Virgin Islands, and shall proceed to investigate conditions in the industries in the Virgin Islands in such order as the Committee may elect and recommend to the Administrator minimum wage rates for all employees in said islands who within the meaning of said act are "engaged in commerce or in the production of goods for commerce" excepting employees exempt by virtue of the provisions of section 13 (a) and employees coming under the provisions of section 14. Minimum wage rates recommended by the Committee shall be the highest rates (not in excess of 75 cents an hour) which it determines will not substantially curtail employment in the industries in the Virgin Islands and will not give any industry in the Virgin Islands a competitive advantage over any industry in the United States outside of the Virgin Islands.

Signed at Washington, D. C., this 16th day of January 1951.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

ANNUAL SURVEY OF INVENTORIES AND SALES OF SINGLE AND MULTIUNIT RETAIL TRADE ESTABLISHMENTS

NOTICE OF DETERMINATIONS

In conformity with the act of Congress approved June 19, 1948, 62 Stat. 478, and due notice of consideration having been published (15 F. R. 8788, Dec. 12, 1950) pursuant to said act, I have determined that annual data relating to single and multiunit retail trade establishments are needed to aid the efficient performance of essential governmental functions and have significant application to the needs of the public and industry and are not publicly available from nongovernmental or other governmental sources.

Retail trade, as the outlet for the products of industry, mining, and agriculture, is of strategic importance in the economy of this country and information such as retail inventory trends and sales-inventory ratios are basic to an analysis of the functioning of the economy. Such agencies as the Council of Economic Advisers and the Board of Governors of the Federal Reserve Board require inventory data in appraising the business outlook and in connection with the review of credit policies. Because figures are needed on all major elements of business investment for the measurement of the gross national product, data on retail inventories also are needed.

Business and industry also are interested in the inventory measures as indicators of the outlook for business activity and as tools for the promotion of business efficiency and stability. Retailers can make use of the sales-inventory ratios, derived from the survey, as benchmarks to which their own operation can be related.

The annual survey will collect information from a group of firms selected according to the number of retail units operated, sales size, and location of the store. Single and small multiunit firms operating establishments located within 68 Census sampling areas will be required to submit reports for individual establishments. Large multiunit firms will be required to submit reports covering all retail stores operated by each firm. Inasmuch as sales data are already collected on a monthly basis from most of these establishments, duplication will be avoided by requesting only inventory data for those establishments which have reported monthly sales figures regularly to the Bureau. Both inventory and annual sales data will be collected from an additional group of retailers for whom monthly sales figures are not available. Information will be collected annually covering each preceding calendar year. The appropriate report form will be furnished to establishments covered by the survey. Additional copies of the forms are available on request to the Director of the Census, Washington 25, D. C.

I have, therefore, directed that an annual survey be conducted for the purpose of collecting the data hereinabove described.

[SEAL] ROY V. PEEL,
Director.

Approved:

CHARLES SAWYER,
Secretary of Commerce.

DEFENSE TRANSPORT ADMINISTRATION

[Organization Order DTA 2]

INTERAGENCY ADVISORY COMMITTEE

ESTABLISHMENT AND FUNCTIONS

Pursuant to Executive Order 10161, it is hereby ordered:

1. *Establishment and organization of Interagency Advisory Committee.* There is hereby established an Interagency Advisory Committee on Domestic Transport, Storage, and Port Utilization consisting of the Administrator of the Defense Transport Administration as Chairman, and representatives from the following agencies and such other agencies as the Administrator may designate from time to time: (1) Department of Defense; (2) Department of Commerce; (3) Department of the Interior; (4) Department of Agriculture; (5) Department of Labor; (6) Atomic Energy Commission; (7) Federal Civil Defense Administration; (8) Economic Stabilization Administration; (9) General Services Administration; and (10) Economic Cooperation Administration. The Office of Defense Mobilization, the Defense Production Administration, and the National Security Resources Board shall each be invited to designate an observer to attend all meetings of the Interagency Advisory Committee.

2. *Functions.* The Committee shall serve in an advisory capacity to the Administrator with respect to policy and program matters affecting the interests of the represented agencies as they relate to domestic transport, storage, and port facilities or the use thereof.

3. *Procedure.* The Administrator, as Chairman, shall: (1) Preside over all meetings of the Committee; (2) establish such sub-committees and working groups subsidiary to the Committee as he may determine to be necessary; and (3) establish rules and regulations governing the operation of the Committee and its sub-groups.

The Executive Assistant of the Defense Transport Administration shall serve as Executive Secretary of the Committee. The Executive Secretary shall: (1) Prepare an agenda for each meeting of the Committee; (2) prepare minutes for distribution to the membership; and (3) generally coordinate the operations of sub-committees and working groups.

4. *Agenda.* All matters which the agencies described in section 1 above desire to bring before the Committee shall be submitted to the Executive Secretary in advance of meetings.

5. *Calls for meetings.* Meetings of the Committee will be at the call of the Chairman.

Issued at Washington, D. C., this 18th day of January 1951.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2551]

QUINCY ELECTRIC LIGHT AND POWER CO.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 17th day of January A. D. 1951.

Notice is hereby given that Quincy Electric Light and Power Company ("Quincy"), a subsidiary of New England Electric System ("NEES"), a registered holding company, has filed with this Commission a declaration under section 7 of the Public Utility Holding Company Act of 1935.

Notice is further given that any interested person may, not later than January 29, 1951, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after January 29, 1951, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said declaration which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Quincy proposes to issue up to and including March 31, 1951, notes due ninety days after the date of issue, as follows:

Granite Trust Co., Quincy, Mass	$75,000
Norfolk County Trust Co., Quincy, Mass	50,000
Quincy Trust Co., Quincy, Mass	25,000
	150,000

It is proposed that the notes bear interest at the rate of 2¼ percent per annum and that, should the interest rate on any of the notes exceed such amount, Quincy will file an amendment, stating the name of the bank, the amount of the note and the rate of interest, at least five days prior to the execution of said note, and unless the Commission notifies Quincy to the contrary within said five days, the amendment will become effective at the end of such period.

Quincy proposes to use the borrowings to reimburse its treasury for past construction expenditures and to pay for additional estimated construction to March 31, 1951. The declaration states that Quincy contemplates the proposed borrowings as temporary in character pending the issuance of permanent securities to finance such expenditures. It is further stated that Quincy presently has outstanding $45,000 of notes payable maturing April 27, 1951, with interest at the rate of 2¼ percent per annum. In connection with the system program for financing the construction requirements of the subsidiaries of NEES, including, among other things, the maintenance by NEES of a reasonable equity base for the required senior financing, the declaration contains the same statement quoted in the order of this Commission dated October 27, 1950, in Beverly Gas and Electric Company, et al., Holding Company Act Release No. 10182.

Expenses in connection with the proposed transactions, consisting exclusively of payments to be made to New England Power Service Company for services to be performed at cost, are estimated by Quincy not to exceed $600.

The declaration states that no state commission has jurisdiction over the proposed transactions.

Quincy requests that the Commission's order herein become effective upon its issuance.

By the Commission.

NORTHERN BERKSHIRE GAS CO.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C. on the 17th day of January A. D. 1951.

Notice is hereby given that Northern Berkshire Gas Company ("Northern Berkshire"), a subsidiary of New England Electric System ("NEES"), a registered holding company, has filed with this Commission a declaration under section 7 of the Public Utility Holding Company Act of 1935.

Notice is further given that any interested person may, not later than January 29, 1951, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after January 29, 1951, said declaration as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said declaration which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Northern Berkshire proposes to issue up to and including March 31, 1951, notes due six months after the date of issue, as follows:

Greylock National Bank, Adams, Mass.	$50,000
North Adams National Bank, North Adams, Mass.	50,000
North Adams Trust Co., North Adams, Mass.	50,000
The First National Bank of Boston, Boston, Mass.	50,000
	200,000

It is proposed that the notes bear interest at the rate of 2½ percent per annum and that, should the interest rate on any of the notes exceed such amount, Northern Berkshire will file an amendment, stating the name of the bank, the amount of the note and the rate of interest, at least five days prior to the execution of said note, and unless the Commission notifies Northern Berkshire to the contrary within said five days, the amendment will become effective at the end of such period.

Northern Berkshire proposes to use such borrowings to reimburse its treasury for past construction expenditures, to pay for additional estimated construction to March 31, 1951, and to pay $75,000 of 2 percent notes presently outstanding due March 26, 1951. The declaration states that Northern Berkshire contemplates the proposed borrowings as temporary in character pending the issuance of permanent securities to finance such expenditures. It is further stated that the notes to be outstanding upon the completion of the proposed transactions will constitute Northern Berkshire's only indebtedness other than current indebtedness incurred in the ordinary course of business. In connection with the system program for financing the construction requirements of the subsidiaries of NEES, including, among other things, the maintenance by NEES of a reasonable equity base for the required senior financing, the declaration contains the same statement quoted in the order of this Commission dated October 27, 1950, in Beverly Gas and Electric Company, et al., Holding Company Act Release No. 10182.

Expenses in connection with the proposed transactions, consisting exclusively of payments to be made to New England Power Service Company for services to be performed at cost, are estimated by Northern Berkshire not to exceed $600.

The declaration states that no State commission has jurisdiction over the proposed transactions.

Northern Berkshire requests that the Commission's order herein become effective upon its issuance.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C. on the 17th day of January A. D. 1951.

Notice is hereby given that Granite State Electric Company ("Granite State"), a subsidiary of New England Electric System ("NEES"), a registered holding company, has filed with this Commission a declaration under section 7 of the Public Utility Holding Company Act of 1935.

Notice is further given that any interested person may, not later than January 29, 1951, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after January 29, 1951, said declaration as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said declaration which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Granite State proposes to issue up to and including March 31, 1951, notes due ninety days after the date of issue in the principal amount of $100,000 payable to The First National Bank of Boston.

It is proposed that the notes bear interest at the rate of 2¼ percent per annum and that, should the interest rate on any of the notes exceed such amount, Granite State will file an amendment, stating the amount of the note and the rate of interest, at least five days prior to the execution of said note, and unless the Commission notifies Granite State to the contrary within said five days, the amendment will become effective at the end of such period.

Granite State proposes to use such borrowings to reimburse its treasury for past construction expenditures and to pay for additional estimated construction to March 31, 1951. The declaration states that Granite State contemplates the proposed borrowings as temporary in character pending the issuance of permanent securities to finance such expenditures. It is further stated that Granite State presently has outstanding $90,000 of 2¼ percent notes payable to The First National Bank of Boston, due April 30, 1951. In connection with the system program for financing the construction requirements of the subsidiaries of NEES, including, among other things, the maintenance by NEES of a reasonable equity base for the required senior financing, the declaration contains the same statement quoted in the order of this Commission dated October 27, 1950, in Beverly Gas and Electric Company, et al., Holding Company Act Release No. 10182.

Expenses in connection with the proposed transactions, consisting exclusively of payments to be made to New England Power Service Company for services to be performed at cost, are estimated by Granite State not to exceed $600.

The declaration states that no state commission has jurisdiction over the proposed transactions.

Granite State requests that the Commission's order herein become effective upon its issuance.

T. I. S. MANAGEMENT CORP.

NOTICE OF APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 17th day of January A. D. 1951.

Notice is hereby given that T. I. S. Management Corporation of New York City (Applicant) has filed an application under section 6 (c) of the Investment Company Act of 1940 for an order of exemption from the provisions of section 15 (a) of the act which make it unlawful for any person to act as an investment adviser for a registered investment company except pursuant to a written contract which contains certain specified statutory terms and which has been approved by a vote of a majority of the outstanding voting securities of such registered company.

It appears that Applicant is the Depositor under an agreement with the Trust Company of New Jersey pursuant to which Trusteed Industry Shares (T. I. S.), a registered investment company, was created; that such agreement contemplates that Applicant will retain an investment counsel to furnish investment advice in connection with the underlying portfolio of T. I. S.; that John H. Gross & Company, a sole proprietorship, had been acting as such investment counsel pursuant to an agreement approved by the shareholders of T. I. S.; that upon the death of John H. Gross on or about December 31, 1950, the aforementioned agreement was terminated; that on January 12, 1951, Applicant entered into a contract which conforms with the provisions of section 15 (a) of the act with Naess, Thomas & Thielbar, a copartnership, whereby the latter have agreed, contingent upon approval by the shareholders of T. I. S., to serve as investment counsel for a fee equal to the fee previously paid to John H. Gross & Company, to wit, 1/15 of 1 percent of the market value of the assets of T. I. S. until such value exceeds $4,000,000 and 1/10 of 1 percent of the market value thereafter; and that Applicant intends to submit the contract to the shareholders of T. I. S., within 90 days after January 12, 1951, for their approval. Applicant urges that, unless an order of exemption from section 15 (a), for a period of ninety days from January 12, 1951, is issued so as to permit Naess, Thomas & Thielbar to act as investment counsel pending shareholder approval of the contract, Applicant will be unable to continue the performance of its duties as provided by the agreement between it and the Trust Company of New Jersey.

For a more detailed statement of the matters of fact and law asserted all persons are referred to said application which is on file at the office of the Commission in Washington, D. C.

Notice is further given that an order may be issued granting the application in whole or in part and upon such conditions as the Commission may deem necessary and appropriate, at any time on or after February 5, 1951, unless prior thereto a hearing upon the application is ordered by the Commission. Any interested person may not later than February 2, 1951, at 5:30 p. m., e. s. t., submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request and the issues of fact or law raised by the application which he desires to controvert.

Forest Service

CHALLIS NATIONAL FOREST

REMOVAL OF TRESPASSING HORSES

Whereas a number of horses are trespassing and grazing on the Sulphur Creek Allotment on the Pahsimeroi Ranger District of the Challis National Forest, in Custer County, State of Idaho; and

Whereas these horses are consuming forage needed for permitted livestock, are causing extra expense to established permittees, and are injuring national-forest lands;

Now, therefore, by virtue of the authority vested in the Secretary of Agriculture by the act of June 4, 1897 (30 Stat. 35; 16 U. S. C. 551), and the act of February 1, 1905 (33 Stat. 628, 16 U. S. C. 472), the following order for the occupancy, use, protection, and administration of land in the Pahsimeroi Ranger District of the Challis National Forest is issued:

Temporary closure from livestock grazing. (a) The Sulphur Creek Allotment on the Pahsimeroi Ranger District in the Challis National Forest is hereby closed for the period February 1, 1951 to December 31, 1951, to the grazing of horses, excepting those that are lawfully grazing on or crossing land in such allotments pursuant to the regulations of the Secretary of Agriculture, or that are used in connection with operations authorized by such regulations, or that are used as riding, pack, or draft animals by persons traveling over such land.

(b) Officers of the United States Forest Service are hereby authorized to dispose of, in the most humane manner, all horses found trespassing or grazing in violation of this order.

(c) Public notice of intention to dispose of such horses shall be given by posting notices in public places or advertising in a newspaper of general circulation in the locality in which the Challis National Forest is located.

Done at Washington, D. C., this 17th day of January 1951. Witness my hand and the seal of the Department of Agriculture.

[Docket No. G-1544]

NORTHERN NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

JANUARY 16, 1951.

On December 4, 1950, Northern Natural Gas Company (Applicant), a Delaware corporation having its principal place of business at Omaha, Nebraska, filed an application pursuant to section 7 of the Natural Gas Act for permission and approval to abandon and sell certain of its facilities, subject to the jurisdiction of the Commission, as described in the application on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for non-contested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on December 21, 1950 (15 F. R. 9158).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a hearing be held on February 6, 1951, at 9:30 a. m., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: January 17, 1951.

By the Commission.

In re: Rights of Yoneichi Kawate and Konobu Kawate under insurance contract. File No. F-39-3122-H-1.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Yoneichi Kawate and Konobu Kawate, whose last known address is Japan, are residents of Japan and nationals of a designated enemy country (Japan);

2. That the net proceeds due or to become due under a contract of insurance evidenced by Policy No. 1 448 065, issued by the Sun Life Assurance Company of Canada, Montreal, Canada, to Yoneichi Kawate, and any and all other benefits and rights of any kind or character whatsoever under or arising out of said contract of insurance except those of the aforesaid Sun Life Assurance Company of Canada, together with the right to demand, enforce, receive and collect the same (including without limitation the right to proceed for collection against branch offices and legal reserves maintained in the United States), is property within the United States owned or controlled by, payable or deliverable to, held on behalf of, or on account of, or owing to, or which is evidence of ownership or control by Yoneichi Kawate or Konobu Kawate, the aforesaid nationals of a designated enemy country (Japan).

and it is hereby determined:

3. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on January 11, 1951.

For the Attorney General.

[SEAL] HAROLD I. BAYNTON,
Assistant Attorney General,
Director, Office of Alien Property.

[5th Gen. Rev. of Export Regs., Amdt. 39] [1]

PART 372—PROVISIONS FOR INDIVIDUAL AND OTHER VALIDATED LICENSES

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

DATA SUPPLEMENTING THE LICENSE APPLICATION AND EXPORT LICENSING POLICY FOR MATERIALS COVERED BY NPA M (MATERIALS) ORDERS

1. The effective date of paragraph (d) *Data supplementing the license application*, § 372.3 *How to file an application for export license* is changed from January 27, 1951,[2] to March 1, 1951.

2. Part 373 is amended in the following particulars: A new § 373.19 is added to read as follows:

§ 373.19 *Export licensing policy for materials covered by NPA M (Materials) orders.* Under the authority of the Defense Production Act of 1950, the National Production Authority has issued numerous orders limiting production of commodities or restricting the uses to which commodities may be put. The purpose of these orders is to conserve the supply and channel production into essential uses for national defense.

In general, it will be the policy of the Office of International Trade, in considering export license applications covering commodities subject to such orders, to limit approvals to end uses consistent with end uses permitted in the domestic economy.

In order to administer this policy, it may be necessary for the Office of International Trade to return license applications to the applicants for the purpose of obtaining a more detailed and comprehensive statement of end use, which will enable the Office of International Trade to consider the application in the light of the domestic restrictions. Applications covering shipments for resale, further distribution, or fabrication in the foreign country should specify particularly the end use to which the commodities will be put by the ultimate consumer, in order to expedite the consideration of such applications.

(Sec. 3, 63 Stat. 7; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.)

This amendment shall become effective as of January 18, 1951.

LORING K. MACY,
Deputy Director,
Office of International Trade.

SOURCE: AFR 39–43; 39–43A.

ENLISTMENT AND RE-ENLISTMENT

§ 864.1 *Purpose.* Sections 864.1 to 864.14 prescribed the eligibility requirements and procedures for enlistment and re-enlistment in the Air Force Reserve.

§ 864.2 *Scope.* Unless otherwise specified, §§ 864.1 to 864.14 have equal application to women in the Air Force Reserve.

§ 864.3 *Definition.* Commanding General, Continental Air Command, will be interpreted to include commanding generals of major air commands overseas.

§ 864.4 *Authority*—(a) *To accomplish enlistments.* Enlistment and re-enlistment in the Air Force Reserve may be accomplished:

(1) By an authorized officer on active duty at the point of separation.

(2) By any commissioned officer on active duty detailed as a recruiting officer for the purpose of accomplishing enlistment and re-enlistments in the Regular Air Force or Regular Army.

(3) By any commissioned officer on active duty at any Air Force installation detailed as a recruiting officer by any Air Force commander or by any officer to whom authority to make such appointments has been delegated by an Air Force commander.

(4) By any commissioned officer of the Air Force Reserve not on active duty in Federal service detailed as a recruiting officer for the Air Force Reserve by the Commanding General, Continental Air Command, or any subordinate commander to whom authority to make such appointments has been delegated.

(b) *To administer oaths.* Notaries public are authorized to administer the oath of enlistment to airmen re-enlisting in the Air Force Reserve. The use of such officials to perform this function will not entail expense to the Government.

(c) *To grant waivers.* Authority to grant waivers for enlistment, and for final grade determinations made as outlined in § 864.7 (h) rests with the Commanding General, Continental Air Command, and may not be delegated to subordinate commanders.

§ 864.5 *Eligibility.* Any person who meets the following prerequisites may be enlisted or re-enlisted in the Air Force Reserve.

(a) *Citizenship.* Male applicants must be citizens of the United States or must have filed legal declaration of intention to become citizens of the United States. Female applicants must be citizens of the United States.

(b) *Age*—(1) *Applicants without prior service.* Each male applicant without prior service in any branch of the Armed Forces of the United States must have passed his 17th birthday and not have reached his 35th birthday at the time of enlistment. Each female applicant without prior service in any branch of the Armed Forces of the United States must have passed her 18th birthday and not have reached her 35th birthday at time of enlistment. A male applicant who is 17 years of age but has not reached his 18th birthday, and a female applicant who is 18 years of age but has not reached her 21st birthday will be required to furnish written consent of their parents or guardian. Parent's consent will be accomplished by use of Department of Defense Form 373, "Consent, Declaration of Parent or Legal Guardian", which will be signed by both parents, but the consent of one parent may be accepted if the other is absent for an extended period of time. Enlistment is not authorized if either parent objects.

(2) *Applicants with prior service*—(i) *Up to and including age 34.* Applicants with prior service in any branch of the Armed Forces of the United States may be enlisted or re-enlisted up to and including the age of 34, without regard to the length of such prior service.

(ii) *Age 35 through 55.* Enlistments and re-enlistments are authorized for those persons 35 and over but less than 55 years of age; *Provided*, That their age, at the time of enlistment does not exceed 35 plus the length of their prior active Federal and Reserve service in completed years of honorable service. A former member of the Navy, Marine Corps, or Coast Guard without prior Army or Air Force service who is 35 years of age or over cannot be enlisted in the Air Force Reserve.

(3) *Applicants with technical skills.* Exception to the age limitations prescribed in this paragraph may be made for any applicant, with or without prior service, who possesses technical skills needed in the Air Force Reserve. Such applicants may be accepted for enlistment or re-enlistment after reaching their 35th birthday and prior to reaching their 45th birthday when specifically authorized by the Commanding General, Continental Air Command. A person originally enlisted under this provision will be re-enlisted without the special authorization: *Provided*, That such re-enlistment is accomplished the day following date of discharge from a prior enlistment. Such re-enlistments will be made without regard to the age requirements specified in subparagraph (2) (i) and (ii) of this paragraph.

(c) *Members of Reserve components of other Armed Forces.* Applicants who are members of the Reserve component of another branch of the Armed Forces may be enlisted in the Air Force Reserve; *Provided*, That,

(1) Their applications are submitted through, and approved by those officers of their present organization authorized to accept resignations or otherwise effect separations and contain a statement that they are eligible for honorable separation, or

(2) They submit a certificate, signed by an officer of their present organization authorized to accept resignations or otherwise effect separation, stating

that the applicants are eligible for honorable separation and will be released from their current status upon enlistment in the Air Force Reserve.

(d) *Dependents.* Male applicants having dependents are eligible for enlistment if otherwise qualified.

(e) *Mental qualifications.* (1) No mental test is required for persons with prior service providing they have been separated under honorable conditions.

(2) Male applicants without prior service must obtain a score of at least 100 on the R-Test or a converted score of 31 (raw score 57) on the Armed Forces Qualification Test 1 or 2, except that male applicants who possess a certificate of graduation from high school must obtain a score of at least 90 on the R-Test or a converted score of 21 (raw score 47) on the Armed Forces Qualification Test 1 or 2.

(3) Female applicants without prior service must possess a certificate of graduation from high school and obtain a score of at least 100 on the R-Test or a converted score of at least 31 (raw score 57) on the Armed Forces Qualification Test 1 or 2.

(f) *Retired personnel.* Persons who have made application for retirement, or persons who are drawing retirement pay from any of the Armed Forces, whether receiving disability allowance, or disability compensation from the United States Government, may be enlisted in the Air Force Reserve if physically qualified.

(g) *Permanent home address.* Each applicant must report a permanent home address within the continental limits of the United States.

§ 864.6 *Ineligibility.* The following persons are ineligible for enlistment or re-enlistment in the Air Force Reserve, even though they meet the requirements of § 864.5. No waivers will be granted except for male applicants only, as indicated in paragraphs (e), (h), and (i) of this section. Request for waivers will be forwarded only for especially desirable men after a complete investigation of the case. The investigation will include letters of recommendation from at least three reputable citizens who are acquainted with the person, information concerning the applicant's current character, a record of his employment since the offense, a complete description of the offense to include restrictions imposed, all Air Force Specialties in which the applicant is qualified, and any additional evidence concerning the case as well as the recommendation of the investigating officer.

(a) Any member of the Air Force, Army Officers' Reserve Corps, National Guard, Coast Guard, Public Health Service, Coast and Geodetic Survey, Navy, Marine Corps (including Reserve components thereof) or Reserve Officers' Training Corps students, except under conditions stated in § 864.5 (c).

(b) Cadets at the United States Military Academy, United States Naval Academy, and the United States Coast Guard Academy.

(c) Insane or habitually inebriated persons.

(d) Persons with prior service in any of the Armed Forces who were last separated from such service under other than honorable conditions or whose separation was due to unfitness, inaptitude, unsuitability, disloyalty, or other allied causes.

(e) Persons who have been imprisoned under sentence of a civil court for other than a felony. The Commanding General, Continental Air Command, is authorized to waive this disqualification in the case of male applicants only, for enlistment in the Air Force Reserve of persons who have served only short sentences for minor offenses such as those involving juvenile delinquency or minor traffic violations, but only, if in the opinion of the Commanding General, the applicant will be an asset to the service.

(f) Persons who have been convicted of a felony or who have criminal charges filed and pending against them alleging a violation of a State, Federal, or Territorial statute.

(g) Persons under parole or probation from any civil court.

(h) Persons having frequent difficulty with law enforcement agencies, who possess criminal tendencies, who have a long history of anti-social—behavior, questionable moral character, or traits of character which render them unfit to associate with others. The Commanding General, Continental Air Command (after complete investigation through appropriate agencies), may waive this disqualification for male applicants only, in cases in which juvenile delinquency is involved, if in the opinion of the Commanding General the applicant will be an asset to the service.

(i) Male persons discharged from the Air Force, Army, Navy, Marine Corps, or Coast Guard whose total time lost under Article of War 107 (or time lost under similar circumstances in the Navy, Coast Guard, or Marine Corps) was 30 days or more during their last period of enlistment of active service. In meritorious cases, waivers may be granted by the Commanding General, Continental Air Command. Female applicants having time lost under Article of War 107 are ineligible for enlistment.

(j) Married female applicants without prior military service. No waivers will be granted.

(k) Female applicants for enlistment who have dependents or children under 18 years of age. A woman who has any legal or other responsibility for the custody, control, care, maintenance, or support of any child or children under 18 years of age will not be enlisted. Women who have surrendered all rights to custody and control of natural children through formal adoption or final divorce proceedings, may be accepted for enlistment. However, women having stepchildren or foster children under 18 years of age, or who otherwise stand in relationship of a parent to such child or children, will not be accepted for enlistment. No waivers will be granted.

(l) Selective Service registrants without prior active Federal service who have been classified 1A by their local board, unless release is obtained from the local Selective Service Board.

(m) Female applicants with a history of hospitalization in a mental institution. No waivers will be granted.

§ 864.7 *Grade.* Enlistments will be in the grade of private (E–1), except that,

(a) Former officers, warrant officers, and flight officers may be enlisted in a grade determined as outlined in paragraph (h) of this section.

(b) Former enlisted personnel of the Air Force, Army, Marine Corps, Navy, Coast Guard, or civilian components thereof, may be enlisted in the grade or equivalent grade held at the time of discharge or relief from active duty, or discharge from a civilian component thereof, unless eligible for higher grade, as outlined in paragraph (h) of this section.

(c) Date of rank for enlistment and re-enlistment in the Air Force Reserve will be as follows:

(1) Persons who re-enlist within 30 days from date of discharge from the Air Force or Air Force Reserve, will have the same date of rank as that held at time of discharge.

(2) Persons who re-enlist after 30 days has elapsed from date of discharge from the Air Force or Air Force Reserve, and former enlisted personnel of the Army, Navy, Marine Corps, Coast Guard, or civilian components thereof, date of rank will be date of enlistment.

(d) Re-enlistment of former enlisted Reservists who were discharged from the Air Force Reserve for the purpose of enlistment in the Regular Air Force, is authorized in the grade held at time of discharge from the Regular Air Force, or the grade held in the Air Force Reserve immediately prior to enlistment in the Regular Air Force, whichever is higher, provided a lower grade held at time of discharge from the Air Force was not due directly or indirectly to reduction for cause.

(e) Applicants who have successfully completed the following number of years of Reserve Officers' Training Corps or Air Force Reserve Officers' Training Corps instruction and whose termination of such instruction was under honorable conditions and for reasons other than academic failure are authorized the following scale of grade eligibility:

(1) Years of senior Reserve Officers' Training Corps or Air Force Reserve Officers' Training Corps instruction successfully completed:

Years:	Grade
1	E–2
2	E–3
3	E–4

(2) Grade E–2 (private first class) is authorized where the applicant has graduated from junior Reserve Officers' Training Corps unit.

(f) Civil Air Patrol cadets who possess appropriate certificates of proficiency indicating that they have successfully completed the three years Civil Air Patrol program may be enlisted in the Air Force Reserve in grade of private first class (E–2).

(g) Applicants who have had satisfactory active service of at least four months in the Air Force, Army, Navy, Coast Guard, or Marine Corps and who are otherwise qualified and acceptable, if not eligible to enlist in a higher grade, will be enlisted in grade of private first class (E–2).

(h) Applicants without prior active Federal service may, based on their civilian technical skills, be enlisted in the Air Force Reserve in a higher grade upon approval of the Commanding General, Continental Air Command: *Provided*, That, they are enlisted for an authorized vacancy in the Corollary Unit program or the Air Force Reserve Training Center program, and agree in writing to such assignment and training. Applicants with prior service may be similarly enlisted in a grade higher than that held upon discharge if the civilian technical skills acquired since discharge merit such higher grade.

§ 864.8 *Rating.* A person enlisted in the Air Force Reserve who possesses an aeronautical rating or technical rating, such as parachutist, combat infantryman, etc., may wear the badge of that rating. However, the aeronautical ratings will not be valid unless the person is rerated in Air Force Orders subsequent to enlistment in the Air Force Reserve.

§ 864.9 *Length of enlistment.* Enlistment and re-enlistment in the Air Force Reserve will be for a period of three years.

§ 864.10 *Where accomplished.* Enlistments and re-enlistments will be accomplished only in the United States, its possessions and Territories, and in those areas occupied by the United States forces.

§ 864.11 *Notation on certificate of discharge.* Persons applying for enlistment in the Air Force Reserve who have had prior military service will present their last certificate of discharge to the recruiting officer who will enter thereon the date, place, and period of enlistment in the Air Force Reserve.

(a) In those instances in which an applicant for enlistment in the Air Force Reserve has lost or misplaced certificate of prior service, or who cannot otherwise present evidence of such service, verification will be obtained by the recruiting officer from proper officials of the branch in which prior service is claimed.

(b) For personnel re-enlisting in the Air Force Reserve, the identification card WD AGO Form 166 will serve to verify the preceding enlistment. The organization preparing the discharge certificate on the re-enlistee will note thereon the date, place, and period of re-enlistment.

§ 864.12 *Service numbers.* Persons enlisted in the Air Force Reserve will be assigned the service number under which last previous Army or Air Force service was recorded. New service numbers will be assigned to those with no prior Army or Air Force service. The prefix "AF" will precede the service number of male enlisted Reservists and the prefix "AA" will precede the service number of female enlisted Reservists.

§ 864.13 *Physical examinations*—(a) *Standards.* The standards for physical examination will be those as prescribed in current directives.

(b) *Determination of physical fitness.* The physical examination given upon separation from active Federal service will form the basis for determination of physical fitness for those members of the Air Force, Army, Navy, or Marine Corps who are enlisted immediately upon discharge or relief from active duty. An applicant for enlistment with prior active Federal service as an officer, warrant officer, or enlisted person since September 16, 1940, not re-enlisting immediately upon discharge or relief from active duty therefrom, and personnel who were members of the Air Force Reserve may be enlisted without physical examination, if otherwise qualified, provided the applicant signs a certificate to the effect that to the best of his knowledge and belief, he is now sound and well and that he understands that if he is ordered to active duty he will be given a physical examination and may be discharged from the Air Force Reserve if found physically disqualified for military service upon that examination. Each applicant for enlistment in the Air Force Reserve who is drawing a pension, disability allowance, or disability compensation from the Government of the United States, will be given a physical examination regardless of the period of time since latest discharge from active service.

(c) *Results of other examinations.* Results of other Air Force or Army physical examinations, including those given applicants for the Reserve Officers' Training Corps, officer candidate schools, aviation cadets, commissions in the Air Force Reserve, etc., will be acceptable in determining physical fitness for enlistment or re-enlistment in the Air Force Reserve, in lieu of physical examination, provided that the applicant was found to be qualified at time of previous examination and such examination was given during the preceding 12 months, and the applicant signs a statement regarding physical condition as indicated in paragraph (b) of this section.

(d) *Final type examination.* All other applicants for enlistment or re-enlistment will be given final-type physical examinations less serology (except when otherwise indicated), chest X-ray, electrocardiogram, audiogram determination, microscopic urinalysis, and lens correction, and less pelvic examinations for female personnel. This physical examination may be given by any medical officer of any component of the Air Force, Army, Navy, Marine Corps, or National Guard, whether on active duty, or inactive duty status. Any expense incurred in having such physical examination by a medical officer not on active duty will be borne by the applicant.

§ 864.14 *Records.* The following records will be prepared upon enlistment or re-enlistment of a person in the Air Force Reserve:

(a) *Enlistment record.* Department of Defense Form 4 will be prepared in duplicate and both copies of this form will be signed by the Reservist and the enlisting officer.

(1) The oath and certification of enlistment appearing on Department of Defense Form 4 will be accomplished less the last phrase of oath which states, "according to the rules and articles of war."

(2) The following statement will appear above the signature of the recruiting officer:

(i) "Honorably discharged (date)." The date of discharge will be as of day preceding the date of re-enlistment unless previous enlistment has expired earlier. This notation will be accepted as documentary evidence of fact of discharge.

(ii) "Enlisted for specific assignment to (*Reserve Unit of Assignment*)."

(3) The following certificates will be entered in item 39, Department of Defense Form 4, and both copies will be signed by the individual:

(i) I certify that to the best of my knowledge and belief, my physical condition has not changed since my discharge, that I (am) (am not) drawing compensation from the Veterans' Administration for physical disability, and I (do) (do not) have a claim for such compensation pending with that agency; that I understand that if I am ordered to active duty I will be given a final type physical examination and may be discharged from the Air Force Reserve if found physically disqualified for military service under that examination.

(ii) I further understand that if I am ordered to active duty, and am receiving compensation from the Veterans' Administration for physical disability, I must waive such disability compensation prior to reporting for active duty.

(4) All applicants for enlistment will be required to execute Department of Defense Form 98, "Loyalty Certificate for Personnel of the Armed Forces," as prescribed in § 886.1 of this chapter.

(b) *Service record.* Department of Defense Form 220 or WD AGO Form 24A will be initiated for each person without prior service enlisted, or when re-enlisted with a break in service of more than 30 days.

PART 883—ENLISTMENT IN GRADES APPROPRIATE TO TRAINING AND EXPERIENCE

REVISION OF REGULATIONS

Regulations contained in §§ 883.1 to 883.11 inclusive (14 F. R. 4874; 32 CFR, 1949 Supp., 883) are hereby revised.

Pursuant to the authority conferred by sections 207 (f) and 208 (e) of the National Security Act (61 Stat. 503, 504; 5 U. S. C., Sup., 626 (f), 626c (e)), Transfer Order 29, December 10, 1948 (13 F. R. 8162), the following regulation is hereby prescribed:

Sec.
883.1 Purpose.
883.2 Eligibility.
883.3 Method of evaluation.
883.4 Grade determination for former enlisted personnel.
883.5 Grade determination for former officer personnel.
883.6 Enlistment without prior service or those separated more than 24 months.
883.7 Enlistment of Reservists.
883.8 Processing of applicants.
883.9 Date of grade.

Sec.
883.10 Grade adjustments.
883.11 Assignment.

AUTHORITY: §§ 883.1 to 883.11 issued under R. S. 161; sec. 202, 61 Stat. 500, as amended; 5 U. S. C. and Sup., 22, 171a. Interprets or applies sec. 27, 39 Stat. 185, as amended; sec. 1, 53 Stat. 1001, sec. 5, 59 Stat. 539, sec. 305, 62 Stat. 372; 5 U. S. C., Sup., 627d; 10 U. S. C. and Sup., 628, 10 U. S. C. 631a, 10 U. S. C. 636.

DERIVATION: AFR 39-25.

§ 883.1 *Purpose.* Sections 883.1 to 883.11 establish criteria and procedure whereby specialists, who have received prior training and experience in the Air Force, Army, Navy, Coast Guard, or the Marine Corps, or certain skilled civilians without prior service who are not otherwise eligible to enter the Air Force in grades higher than grade E–2, may enlist in the Air Force in grades commensurate with their prior training and experience. In explanation, emphasis is placed on the fact that final grade determination will be guided by the needs and requirements of the Air Force.

§ 883.2 *Eligibility.* In addition to being qualified for enlistment under the provisions of §§ 571.1 to 571.5 of this title (15 F. R. 7260) all applicants must have completed at least six months of prior active service in one of the Armed Services (Air Force, Army, Navy, Coast Guard, or Marine Corps) which was terminated by separation under honorable conditions within the 24-month period immediately preceding date of enlistment, except as provided in § 883.6.

§ 883.3 *Method of evaluation.* To properly evaluate the applicant's expected value to the service, the following factors will be considered: Prior service, training, experience, schooling, and civilian occupation.

§ 883.4 *Grade determination for former enlisted personnel.* (a) Grades for enlistment of persons last discharged from the Regular Air Force will be determined as follows:

(1) One grade lower if enlistment is accomplished within 12 months from date of last discharge.

(2) Two grades lower if enlistment is accomplished after 12 months and within 24 months from date of discharge.

(3) Persons who have acquired additional knowledge, skill, experience, schooling, or on-the-job training since last discharge will be considered for an equivalent or higher grade than that held at time of discharge, in accordance with § 883.8: *Provided*, That such training and experience can be substantiated by documentary evidence.

(b) Grades for enlistment of persons last discharged from the Army, Navy, Marine Corps, or the Coast Guard will be determined as prescribed in § 883.8.

§ 883.5 *Grade determination for former office personnel.* (a) Persons whose last service was in the status of officer, warrant officer, or flight officer in the Air Force or the Army, or in an equivalent grade in the Navy, the Marine Corps, or the Coast Guard, and who have been relieved from active duty may be enlisted under the provisions of §§ 883.1 to 883.11 in a grade to be determined as prescribed in § 883.8.

(b) Reserve officers and warrant officers currently serving on active duty who desire to enlist in the Regular Air Force must apply for grade determination through any Army or Air Force recruiting station or Air Force base after they have received official notification of relief from extended active duty. (A copy of authority for separation will be forwarded with enlistment application.)

(c) Air Force Reserve officers currently serving on active duty and holding permanent enlisted grades may be enlisted in their permanent enlisted grade under the provisions of pertinent regulation upon relief from active duty. Those Reserve Officers who hold permanent enlisted grades from E–3 through E–6 and who feel that they are fully qualified for a higher grade may submit application for higher grade, under the provisions of § 883.8 upon notification of relief from active duty.

§ 883.6 *Enlistment without prior service or those separated more than 24 months.* Persons without prior military or naval service, or those having military or naval service but who have been honorably separated more than 24 months, may be enlisted in the Air Force under the provisions of §§ 883.1 to 883.11 in a grade to be determined as prescribed in § 883.8.

§ 883.7 *Enlistment of Reservists*—(a) *Air Force.* (1) Air Force Reservists who have been recalled to extended active duty and who desire to enlist in the Regular Establishment may be enlisted in the Regular Air Force under the provisions of § 883.1 to 883.11 as prescribed in this section. An applicant for enlistment under this section must apply at an Air Force base for interview by the commanding officer or his designated representative. The interview will be conducted to determine the applicant's degree of skill and the desirability of enlisting him in the Air Force. (The travel performed in connection with the interview will be without expense to the Government.)

(2) Each Air Force base commander will establish an interview board to consist of a minimum of three officers, including a field grade officer, a base classification officer, and a base recruiting officer.

(3) The screening and selection procedures and exact nature of the interview will be left to the discretion of the Air Force base commander. The interview will be complete and detailed enough to satisfy the interviewing officers that the applicant's qualifications are as claimed. The applicant will be given the oral trade tests in his claimed Military Occupational Specialty. In addition to oral tests, the applicant will be given a practical on-the-job examination, by a qualified person, in the Military Occupational Specialty and/or Air Force Specialty in which he claims he is qualified.

(4) Applicants reporting for interview will have in their possession all supporting documents which will establish and verify their claims relating to identity, educational and technical qualifications, and experience in a particular technical specialty or job field. Letters of recommendation or any other documents which indicate the person's potential value to the Air Force may be included.

(5) Applicants for enlistment under the provisions of this section:

(i) Must be fully qualified.

(ii) Must have served at least 90 days on a duty status during present tour of extended active duty.

(iii) Will be limited to one interview annually.

(iv) Will not be enlisted in a grade to exceed the grade in which the Reservist is currently serving and/or may be enlisted in any recommended lower grade.

(6) The interview board of the Air Force base at which interview is accomplished will make recommendation direct to the commanding officer of the Air Force base at which interview is accomplished as to the suitability of the applicant, and the grade, Military Occupational Specialty, and/or Air Force Specialty in which the enlistment should be accomplished.

(7) The commanding officer of the Air Force base is authorized to make final grade determination. He will review each application together with recommendations of interviewing officers and will notify the applicant's commanding officer, by letter, of the grade and Military Occupational Specialty and/or Air Force Specialty in which the applicant is authorized to enlist.

(8) Applicants accepting grades authorized for enlistment under this section will be enlisted for their own vacancy the day following the date of discharge.

(b) *Army, Navy, Marine Corps, and Coast Guard.* Army, Navy, Marine Corps, and Coast Guard Reservists who are serving on extended active duty are not eligible for grade determination under the provisions of §§ 883.1 to 883.11 until they have been relieved from active duty.

§ 883.8 *Processing of applicants.* (a) Applicants for enlistment under §§ 883.4 (a) (3), 883.4 (b), 883.5, 883.6, and 883.7 (b) will apply direct to the Army and Air Force recruiting station or Air Force base for interview by the commanding officer or his designated representative.

(b) The interview will be conducted to determine the applicant's qualifications and the desirability of enlisting him in the Air Force. (The travel performed in connection with the interview will be without expense to the Government.)

(c) Applicants reporting for interview will have in their possession all supporting documents which will establish and verify their claims relating to identity, prior service, qualifications, and experience in a particular technical specialty or job field. Letters of recommendation or any other documents which indicate the person's potential value to the Air Force may be included.

(d) The commanding officer of the recruiting station or Air Force base at which interview is accomplished will complete Air Force Form 207 and forward with the applicant's supporting documents direct to Headquarters United States Air Force, Directorate of Training, Attention: Personnel Procurement Division, Washington 25, D. C.

(e) The Directorate of Training, Headquarters, United States Air Force, will review each application, together with recommendations of interviewing officers, and will notify, by letter, the commanding officer of the Army and Air Force recruiting station or Air Force base at which the interview was accomplished of the grade and Military Occupational Specialty and/or Air Force Specialty in which the applicant is authorized to enlist.

§ 883.9 *Date of grade.* The date of grade for personnel enlisted under the provisions of §§ 883.1 to 883.11 will be the date of enlistment.

§ 883.10 *Grade adjustments.* The provisions of §§ 883.1 to 883.11 are applicable to enlistment grades only and enlistments will not be made or implied with a view toward future adjustments hereunder.

§ 883.11 *Assignment.* Initial assignment choice of men enlisting under the provisions of §§ 883.1 to 883.11 will be limited to Air Force, unassigned.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 204—DANGER ZONE REGULATIONS

ATLANTIC OCEAN OFF DELAWARE COAST

Pursuant to the provisions of Chapter XIX of the Army Appropriation Act of July 9, 1918 (40 Stat. 892; 33 U. S. C. 3), § 204.25 governing the use and navigation of waters of the Atlantic Ocean off the Delaware coast comprising Army antiaircraft artillery firing areas is hereby amended, effective on and after publication of this amendment in the FEDERAL REGISTER due to the urgent necessity for commencing operations at the earliest possible time, as follows:

§ 204.25 *Atlantic Ocean off Delaware coast; antiaircraft artillery firing areas, Second Army*—(a) *The danger zones*—(1) *Automatic weapons area.* An area east and southeast of Rehoboth Beach described as follows: Beginning at a point on the shore at latitude 38°40′45″; thence to latitude 38°45′30″, longitude 75°01′24″; thence to latitude 38°43′00″, longitude 74°57′10″; thence to latitude 38°38′50″, longitude 74°55′33″; thence to latitude 38°36′15″, longitude 74°57′00″; thence to a point on the shore at latitude 38°37′54″; and thence northerly along the shore to the point of beginning.

(2) *90-mm. gun area.* An area east of Bethany Beach described as follows: Beginning at a point on the shore at latitude 38°31′15″; thence to latitude 38°38′27″, longitude 74°52′42″; thence to latitude 38°35′45″, longitude 74°49′12″; thence 180° true to latitude 38°25′00″; thence to latitude 38°22′26″, longitude 74°52′06″; thence to a point on the shore at latitude 38°29′03″; and thence northerly along the shore to the point of beginning.

(3) *120-mm. gun area.* An area which includes the 90-mm. gun area and extends that area about 7,800 yards on its northeast, east, and southeast sides, described as follows: Beginning at a point on the shore at latitude 38°31′15″; thence to latitude 38°40′26″, longitude 74°49′45″; thence to latitude 38°36′30″, longitude 74°44′18″; thence 180° true to latitude 38°24′32″; thence to latitude 38°20′30″, longitude 74°48′45″; thence to a point on the shore at latitude 38°29′03″; and thence northerly along the shore to the point of beginning.

NOTE: The danger zones will be marked by spar buoys.

(b) *The regulations.* (1) All firing during the months January to April, inclusive, November, and December, will be conducted between 8:00 a. m. and 5:30 p. m. All firing during the months May to October, inclusive, will be conducted between 1:00 and 7:00 p. m. Such firing as are conducted prior to 1:00 p. m. during this latter period will be occasional individual rounds fired at fixed points for testing purposes in accordance with established Department of the Army Safety Regulations, and will involve no restrictions on navigation. No firing will be conducted during hours of darkness, or on Saturdays, Sundays, or legal holidays. Firing in the various areas will take place on the following days in 1951 (all dates inclusive):

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 3—VETERANS' CLAIMS

FUNDS AVAILABLE TO BENEFICIARY ON A TRIAL VISIT OR UPON DISCHARGE

In § 3.278, paragraph (a) is amended to read as follows:

§ 3.278 *Funds available to beneficiary on a trial visit or upon discharge.* (a) The amount which shall have been paid the chief officer of an institution to be expended for the benefit of an incompetent or insane beneficiary may be made available by the chief officer for the use of the incompetent or insane patient while on a trial visit from the institution. Any part of the accrued funds, which in the judgment of the chief officer is thought necessary, may be paid to a beneficiary who is without a guardian, when departing upon a trial visit, provided he is regarded as competent to disburse the money with ordinary prudence. If, at the time of his departure upon a trial visit, there is any doubt as to the competency of the beneficiary to disburse properly such funds or for any other good reason the chief officer considers it inadvisable to give the money to the beneficiary himself, a proper amount may be paid to the person into whose custody the beneficiary is released on a trial visit for the benefit of the beneficiary.

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART A—REGISTRATION AND RESEARCH

CHARGES AGAINST ENTITLEMENT

In § 21.52, paragraphs (c) and (g) are amended to read as follows:

§ 21.52 *Charges against entitlement.*

* * *

(c) *Correspondence courses.* A veteran who pursues education or training by correspondence only shall have charged against his period of entitlement one-fourth of the elapsed time from the date of enrollment to the date of interruption or discontinuance. (See § 21.110 (c).)

In accord with existing regulations, which provide that only one course may be pursued at any one time, only one correspondence course may be pursued at any one time, but a correspondence course may consist of more than one subject if multiple subjects are prescribed or recommended by the institution as constituting the course and such is approved by the Veterans' Administration as reasonable. Therefore, the maximum charge against entitlement for the pursuit of education or training by correspondence alone will be one-fourth of the elapsed time in pursuit of the course as defined in this section. *Provided*, That the total amount payable for a correspondence course or courses for any veteran shall not exceed $500. For combinations of either institutional or on-the-job training with related training by correspondence, where the charge against entitlement for the resident phase of training is three-fourths, one-half, or one-fourth, the total charge against entitlement will be

that charge which is proper for the resident phase plus an additional charge of one-quarter of the elapsed time for the pursuit of the related training by correspondence: *Provided*, That where a full-time charge against entitlement is proper for the resident phase (institutional or on-the-job), no additional entitlement charge will be assessed for the correspondence training concurrently pursued as authorized related training.

* * * * *

(g) *Training interrupted or veteran withdraws prior to the completion of a period of instruction.* (1) Where a veteran withdraws from a school, college, or university, or his course of training therein is interrupted or discontinued prior to the completion of any period of instruction considered as a unit for the purpose of paying tuition and related fees and the Veterans' Administration is required to pay tuition, the veteran must arrange to restore to the Veterans' Administration the amounts which have been paid for that portion of the time when he was no longer in attendance, or a charge will be made against his entitlement in terms of years, months, and days equivalent to the period for which payment was made. Unless and until restoration of such amounts is made by or in behalf of the veteran, no further adjustments in his entitlement will be in order as to the period or periods so charged.

(2) If it is shown that the payment made on behalf of the veteran represents a percentage of the total charges for a term or semester, the encumbrance will be a corresponding percentage of the term or semester in point of time.

(3) Where the customary charges for tuition and related fees exceed $500 for an ordinary school year and the veteran has elected to have the Veterans' Administration pay such excess costs, the additional charge against his period of entitlement will be made in accordance with paragraph (d) of this section; otherwise, entitlement charges will be in accordance with subparagraphs (1) and (2) of this paragraph.

PART 506—PROVISIONS OF GENERAL APPLICATION

DEFINITIONS

Section 506.3 (14 F. R. 7844, 15 F. R. 3452) is hereby amended to read as follows:

§ 506.3 *Definitions*—(a) *Widow.* A "widow" is the surviving female spouse of a deceased prisoner of war or a deceased civilian American citizen who was married to the deceased at the time of his death by a marriage valid under the applicable law of the place where entered into.

(b) *Dependent husband.* A "dependent husband" is the surviving male spouse of a deceased prisoner of war or of a deceased civilian American citizen who was married to the deceased at the time of her death by a marriage valid under the applicable law of the place where entered into, and who was then dependent upon the deceased.

(c) *Child.* (1) A "child" is a natural or adopted son or daughter of a deceased prisoner of war or a deceased civilian American citizen, including any posthumous son or daughter of such deceased person.

(2) Any son or daughter of such deceased person born out of wedlock will be deemed to be a child of such deceased for the purposes of this act if, (i) legitimated by a subsequent marriage of the parents, (ii) recognized as a child of the deceased by his or her admission, or (iii) so declared by an order or decree of any court of competent jurisdiction.

(d) *Parent.* A "parent" is the natural or adoptive father or mother of a deceased prisoner of war, or any person standing in loco parentis to the deceased.

(e) *Dependent.* A husband of a deceased prisoner of war or a deceased civilian American citizen will be deemed to have been dependent upon the deceased, if, at the time of determination, the deceased contributed substantially to the support of such husband.

Subchapter D—Report for the Congress Regarding War Claims Arising Out of World War II

PART 520—PREPARATION AND SUBMISSION OF THE REPORT TO THE CONGRESS

MISCELLANEOUS AMENDMENTS

1. Section 520.1 (15 F. R. 241) is hereby amended to read as follows:

§ 520.1 *General provisions.* Pursuant to the provisions of section 8 of the War Claims Act of 1948, as amended, the War Claims Commission initiated an inquiry and prepared and submitted an initial report to the President and the Congress on March 31, 1950, with respect to war claims arising out of World War II other than claims which may be received and adjudicated under the act. The preliminary report of the Commission presented initial estimates of the numbers, types, categories, and amounts of such claims and suggested certain priorities and limitations for consideration in connection with its initial recommendations as to the recognition and payment of such claims. The War Claims Commission is now required to complete its inquiry and to report further under the terms applicable to its preliminary report.

2. Section 520.3 (15 F. R. 241) is hereby amended to read as follows:

§ 520.3 *War claims.* Shall include any loss, injury, or damage suffered or sustained by a person or business entity or organization, who, at the time of such loss, injury, or damage was:

(a) A national of the United States, as hereafter defined, who did not give aid or comfort to, or collaborate with any enemy or ally of enemy of the United States; or a branch or agency of the United States Government; or a regularly appointed, enrolled, enlisted or inducted member of the military or naval forces of the United States; or an alien to whom the United States owes protection, such as an alien seaman signed on a United States vessel. Such loss, injury, or damage must be the result of action by a branch or agency, civil or military, of any sovereign power who, by declaration of war or by military activity of its regular forces, was at war during World War II, such loss, injury, or damage being one which would not have occurred, but for the existence of a state of war; or

(b) Not a national of the United States and not an enemy, or ally of enemy, as defined in section 2 of the Trading With the Enemy Act of 1917 (50 U. S. C. Appendix, sec. 2): *Provided*, That such definition shall not apply to a person who, after September 1, 1939, being resident within enemy or ally of enemy territory, or being a citizen or subject of such enemy or ally of enemy nation, was deprived of liberty, or did not enjoy full rights of citizenship under the laws of such enemy or ally of enemy nation, as a consequence of any law, decree or regulation, of the nation within which he resided, or of which he was a citizen or subject, discriminating against political, racial, or religious groups. Such loss, injury, or damage must be the result of an action by the Government of the United States or one of its civil or military agencies. Such action must arise out of World War II and the loss, injury, or damage must be one which would not have occurred but for the existence of a state of war.

3. Section 520.4 (15 F. R. 242) is hereby amended to read as follows:

§ 520.4 *National of the United States.* (a) In the case of an individual, the provisions of the Nationality Act of 1940 (8 U. S. C. 501 et seq.) shall apply;

(b) In the case of a business entity or organization, incorporated or unincorporated, such entity or business organization must be organized under the applicable laws of the United States or one or more of the States of the United States, its territories or possessions; and its owners, participants, members or shareholders representing at least 50 percent of the ownership or control of such business entity or organization, must be nationals of the United States; or in the case of a business entity or organization, incorporated or unincorporated, not organized under the applicable laws of the United States or one or more of the States of the United States, its territories or possessions, its owners, participants, members or shareholders representing at least that percentage of control necessary under the laws of that State or territory, where such business entity or organization is organized, to effect the liquidation of such business entity or organization, must be nationals of the United States.

4. Section 520.13 (15 F. R. 242) is hereby amended to read as follows:

§ 520.13 *Where to send information.* All questionnaires and statements of loss, injury, or damage must be sent to the War Claims Commission, Attention: Legislation and Opinions Service, Washington 25, D. C.

5. Section 520.14 (15 F. R. 242) is hereby amended to read as follows:

§ 520.14 *Time information must be received.* All questionnaires and statements of loss, injury, or damage must be received by the Commission on or before June 30, 1951. Consideration cannot be given to any questionnaires or statements received after that date.

6. Section 520.15 (15 F. R. 242) is hereby rescinded.

(Sec. 2, 62 Stat. 1240; as amended; 50 U. S. C. App. Sup., 2001)

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

PART 120—ANNUAL, SPECIAL OR PERIODICAL REPORTS

FREE TRANSPORTATION ISSUED AND REQUESTED; RAILROADS AND PULLMAN CO.

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 12th day of December A. D. 1950.

The matter of free transportation issued and requested for use during the year 1951 being under consideration: It is ordered, that:

§ 120.80 *Free transportation issued and requested*—(a) *Carriers affected.* All steam railroads of Class I (except switching and terminal companies), and the Pullman Company, subject to the provisions of section 20, part 1, of the Interstate Commerce Act, are hereby required to file special periodical reports of free transportation issued and requested, for use during 1951, in the form and in accordance with instructions thereon, which is attached hereto and made a part hereof.[1]

(b) *Reporting periods and date of filing.* Such reports shall be filed for the three-month period ending March 31, 1951, and for the calendar year 1951, and shall be filed in duplicate in the Bureau of Transport Economics and Statistics, Interstate Commerce Commission, Washington 25, D. C.: the report for the three-month period ending March 31, 1951 shall be filed on or before June 30, 1951, and the report for the calendar year 1951, shall be filed on or before March 1, 1952.

(Sec. 12, 24 Stat. 383, as amended, sec. 201, 54 Stat. 933; 49 U. S. C. 12, 904. Interprets or applies sec. 20, 24 Stat. 386, as amended, 54 Stat. 944; 49 U. S. C. 20, 913)

It is further ordered, that a copy of this order and the form pertaining thereto, shall be served upon every class I railroad (except switching and terminal companies) and the Pullman Company, subject to section 20, part 1, of the Interstate Commerce Act, and upon every receiver, trustee, executor, administrator, or assignee of any such steam railroad; and notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director of the Division of the Federal Register.

Objections may be filed. Any interested party may on or before 60 days after the date of this order, file with the Commission a written statement of reasons why the said order should not become effective as provided above. Unless otherwise ordered after consideration of such objections, the said order shall become effective as herein ordered.

NOTE: Budget Bureau No. 60–R–294.

By the Commission, Division 1.

OCHOCO NATIONAL FOREST, OREGON

REMOVAL OF TRESPASSING HORSES

Whereas a number of horses are trespassing and grazing on land in the Snow Mountain, Black Butte, Bear Butte, and Little Emigrant Sheep Allotments in the Snow Mountain Ranger District of the Ochoco National Forest, in the County of Harney, State of Oregon; and

Whereas these horses are consuming forage needed for permitted livestock, are causing extra expense to established permittees, and are injuring national-forest lands;

Now, therefore, by virtue of the authority vested in the Secretary of Agriculture by the act of June 4, 1897 (30 Stat., 35; 16 U. S. C. 551), and the act of February 1, 1905 (33 Stat. 628, 16 U. S. C. 472), the following order for the occupancy, use, protection, and administration of land in the Snow Mountain District, Ochoco National Forest, is issued:

Temporary closure from livestock grazing. (a) The Snow Mountain, Black Butte, Bear Butte, and Little Emigrant Sheep Allotments, in the Snow Mountain Ranger District of the Ochoco National Forest, in the County of Harney, State of Oregon, are hereby closed from March 1, 1951, to June 30, 1952, to the grazing of horses, excepting those that are lawfully grazing on or crossing land in such area pursuant to the regulations of the Secretary of Agriculture, or which are used in connection with operations authorized by such regulations, or used as riding, pack, or draft animals by persons traveling over such land.

(b) Officers of the United States Forest Service are hereby authorized to dispose of, in the most humane manner, all horses found trespassing or grazing in violation of this order.

(c) Public notice of intention to dispose of such horses shall be given by posting notices in public places or advertising in a newspaper of general circulation in the locality in which the Ochoco National Forest is located.

Done at Washington, D. C., this 18th day of January 1951. Witness my hand and the seal of the Department of Agriculture.

RAPID CITY LIVESTOCK SALES CO.

REMOVAL FROM LISTING AS STOCKYARD

It has been ascertained that the Rapid City Livestock Sales Company, Rapid City, South Dakota, originally posted on October 19, 1940, as being subject to the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), no longer comes within the definition of a stockyard under said act for the reason that it is no longer used as a public livestock market. Therefore, notice is given to the owner of such stockyard and to the public that such stockyard is no longer subject to the provisions of said act.

Notice of public rule making has not preceded promulgation of the foregoing rule since it is found that the giving of such notice would prevent the due and timely administration of the Packers and Stockyards Act and would, therefore, be impractical. There is no legal warrant or justification for not deposting promptly a stockyard which is no longer being used as a public livestock market and is, therefore, no longer a stockyard within the definition contained in said act.

The foregoing rule is in the nature of a rule granting an exemption or relieving a restriction and, therefore, may be made effective in less than 30 days after publication thereof in the FEDERAL REGISTER. This notice shall become effective upon publication in the FEDERAL REGISTER.

Office of Defense Mobilization

[Defense Mobilization Order 1]

CREATION OF COMMITTEE ON FOREIGN SUPPLIES AND REQUIREMENTS

By virtue of the authority vested in me by Executive Order No. 10193 and in order to assist the Director of Defense Mobilization to improve the coordination and effectiveness of Federal policies and programs relating to foreign supplies and requirements, it is hereby ordered:

1. There is established in the Office of Defense Mobilization the Committee on Foreign Supplies and Requirements, which shall consist of the representatives of the following: Department of State, Department of the Treasury, Department of Defense, Department of the Interior, Department of Agriculture, Department of Commerce, Department of Labor, Economic Cooperation Administration, Defense Production Administration, General Services Administration, and the Special Assistant to the President, Mr. Harriman.

The Chairman of the Committee shall be designated by the Director of Defense Mobilization.

2. The Committee shall: (a) Advise the Director of Defense Mobilization on problems relating to economic aspects of foreign requirements, including policies which should govern the allocation of materials and end items (other than military) required to meet approved or proposed foreign programs.

(b) Formulate for the Director of Defense Mobilization appropriate guidance for United States representatives abroad regarding the policies, plans, and programs of the Director of the Office of Defense Mobilization as they may affect the position of the United States Government in making commitments regarding end items and materials available for meeting foreign requirements.

(c) Review for the Director of Defense Mobilization such proposed legislation, Executive Orders, and administrative orders and regulations relating to economic aspects of foreign requirements as he may direct.

(d) Formulate for the Director of Defense Mobilization policies and programs which will employ the economic resources of the United States for the purpose of obtaining strategic needs from foreign sources.

3. This order shall take effect on January 19, 1951.

[Docket Nos. 9831, 9876]

HEART OF THE BLACK HILLS STATION (KDSJ) AND MINNESOTA VALLEY BROADCASTING CO. (KTOE)

ORDER CONTINUING HEARING

In re application of John Daniels, Eli Daniels and Harry Daniels, d/b as Heart of the Black Hills Station (KDSJ) Deadwood, South Dakota, Docket No. 9831, File No. BP-7597; Minnesota Valley Broadcasting Company (KTOE), Mankato, Minnesota, Docket No. 9876, File No. BP-7941; for construction permit.

The Commission having before it a petition for a thirty-day continuance of the hearing in this proceeding, filed January 10, 1951 on behalf of John Daniels, Eli Daniels and Harry Daniels, d/b as Heart of the Black Hills Station (KDSJ), which petition was considered at the time and place designated for hearing upon the above applications in the Commission's orders dated November 14, 1950 and January 8, 1951; and

It appearing, that counsel for each applicant and for the Commission were present at the appointed time and place for hearing in this proceeding, and that KUJ, Inc., which was heretofore named as a party respondent herein, has not heretofore entered its appearance in this proceeding and was not present or represented at the scheduled hearing time and place; and

It further appearing, that all counsel present agreed that the petition for continuance should be considered forthwith and granted to the extent hereinafter ordered; and

It further appearing, that the applications herein were consolidated for comparative hearing upon enlarged issues by Commission order of January 8, 1951, and that the intervening period of time was inadequate to permit either applicant to prepare for the hearing on this date upon the changed issues and alignment of parties; and

It further appearing, that the granting of the petition as hereinafter ordered will conduce to the orderly dispatch of the Commission's business and serve the ends of justice; now therefore,

It is ordered, This 11th day of January 1951, that the petition for continuance is granted, and the hearing which was scheduled to commence on this date is continued to 10:00 a. m. Monday, February 19, 1951, at Washington, D. C.

ORDER CONTINUING HEARING

In re: application of KWHK Broadcasting Company, Inc. (KWHK), Hutchinson, Kansas, Docket No. 9393, No. BP-6831; for construction permit.

The Commission having under consideration a petition filed on January 10, 1951, by the above-named applicant requesting continuance of the hearing upon its application scheduled for January 19, 1951, by order of the Commission dated November 14, 1950; and

It appearing, that there is now pending before the Commission a petition to reconsider and grant the above-entitled application without hearing; and

It further appearing, that counsel for the only respondent in this proceeding and Commission counsel have informally agreed to an immediate consideration and grant of the petition for continuance;

It is ordered, This 12th day of January 1951, that the petition be, and the same is hereby, granted, and the hearing on the above-entitled application, be, and the same is hereby, continued, until further order.

WEST COAST TELEPHONE CO.

ORDER CONTINUING HEARING

In the matter of charges, classifications, regulations and practices for and in connection with channels for program transmission of West Coast Telephone Company and its connecting and concurring carriers; Docket No. 9858.

The Commission having under consideration a petition filed on January 8, 1951, by West Coast Telephone Company requesting continuance of the hearing in the above-entitled matter, now scheduled for January 22, 1951, until ten days after the Commission acts on the application for special tariff permission relative to the subject matter of this proceeding, now pending before the Commission; and

It appearing, that a grant of the pending application will doubtless render the hearing unnecessary;

It is ordered, This 15th day of January 1951, that the petition be, and the same is, hereby granted, and the hearing in this proceeding is hereby continued until further order.

CROSLEY BROADCASTING CORP. (WINS)

ORDER CONTINUING HEARING

In re application of Crosley Broadcasting Corporation (WINS), New York, New York; Docket No. 9514, File No. BMP-4758; for extension of completion date.

The Commission having under consideration a petition filed December 28, 1950 by the Crosley Broadcasting Corporation (WINS), New York, New York, requesting that the hearing herein, presently scheduled for January 18, 1951 be continued to April 16, 1951 or, in the alternative, to a date approximately six weeks after the antenna system of Station WMGM has been reconstructed and a new proof of performance report filed with the Commission on the ground that it cannot complete certain phases of the engineering work necessary to meet the issues in this hearing until after Stations WOV and WMGM have reconstructed their antenna systems, which were seriously damaged or practically demolished by the storm of November 25, 1950; and

It appearing that on January 4, 1951, the General Counsel filed an opposition to the petition of the Crosley Broadcasting Corporation, stating that the hearing herein has been continued since January 5, 1950 at the request of the petitioner, that applicant has filed numerous measurements relating to its directional antenna system, and that petitioner has not satisfactorily shown why measurements must be taken or that they will be of any greater assistance to the Commission than those previously filed, and, further, requesting oral argument; and

It further appearing that on January 5, 1951, Oral Argument was held on said petition for a continuance and it was determined that action on the petition would be withheld until Crosley Broadcasting Corporation filed a memorandum in support of its motion for a continuance, explaining why measurements taken before the storm of November 25, 1950 were not adequate to meet the issues; and

It further appearing that on January 10, 1951, the Crosley Broadcasting Corporation filed a memorandum in support of motion for continuance, accompanied by an affidavit of the applicant's consulting engineer, showing good reason for a continuance of the hearing herein;

It is therefore ordered, This 15th day of January 1951, that the petition of the Crosley Broadcasting Corporation (WINS), requesting a continuance of the hearing herein, presently scheduled for January 18, 1951, be and it is hereby granted and the hearing herein is hereby continued to April 16, 1951, at 10:00 a. m., in Washington, D. C.

INTERLAKE BROADCASTING CORP. (KXRN)

ORDER CONTINUING HEARING

In re application of Interlake Broadcasting Corporation (KXRN), Renton, Washington, Docket No. 9746, File No. BP-7560; for construction permit.

The Commission having under consideration a motion filed January 12, 1951 by the applicant requesting that the hearing upon its application be continued to permit Commission action upon a pending petition for reconsideration and grant; and

If appearing, that the hearing in this proceeding is scheduled to be commenced on January 17, 1951 and that the application is pending before the Commission upon a petition for reconsideration and grant heretofore filed by the applicant; and

It further appearing, that the Commission's disposition of the pending petition may eliminate or alter the hearing proceeding upon this application and that the orderly dispatch of business and the ends of justice will be served by postponing the hearing until after the Commission has considered the pending petition; and

It further appearing, that the imminence of the scheduled hearing date requires that the instant motion receive immediate consideration and that such action will serve the public interest and will be consistent with the requirements of § 1.745; now therefore,

It is ordered, This 16th day of January 1951, that the motion for continu-

ance be granted and the hearing in this proceeding is continued from January 17, 1951 to such date as may be fixed by further order herein.

R. W. TOWERY AND PULASKI BROADCASTING CO. (WKSR)

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of R. W. Towery, Iuka, Mississippi, Docket No. 9877, File No. BP-7893; John R. Crowder and James Porter Clark d/b as Pulaski Broadcasting Company (WKSR) Pulaski, Tennessee, Docket No. 9878, File No. BP-7922; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 10th day of January 1951;

The Commission having under consideration the above-entitled applications of R. W. Towery for a new standard broadcast station to operate on the frequency 580 kc, with 1 kilowatt of power, daytime only, at Iuka, Mississippi, and of the Pulaski Broadcasting Company for a permit to change the facilities of Station WKSR from 730 kc, 250 w daytime only to 580 kc, with 500 watts night, and 1,000 watts day, utilizing different directional patterns day and night, at Pulaski, Tennessee;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding commencing at 10:00 a. m. on February 26, 1951, at Washington, D. C., upon the following issues:

1. To determine the legal, technical, financial and other qualifications of R. W. Towery and the technical, financial and other qualifications of John R. Crowder and James Porter Clark d/b as Pulaski Broadcasting Company to construct and operate the proposed stations.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed stations, and the character of other broadcast service available to such areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed stations would involve objectionable interference with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed stations would involve objectionable interference, each with the other, or with the services proposed in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed stations would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations; and with particular reference as regards the Pulaski proposal to (1) the ratio of the population within the normally protected and actual nighttime interference-free contour to the population which would receive satisfactory service, and (2) the excessive blanket population within the 250 mv/m contour.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Greenville Broadcasting Company (WESC), Greenville, South Carolina, Docket No. 9879, File No. BP-7804; The Spartan Radiocasting Company (WORD), Spartanburg, South Carolina, Docket No. 9880, File No. BP-7810; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 10th day of January 1951;

The Commission having under consideration the above-entitled applications each requesting the frequency 910 kilocycles, with 1 kilowatt of power, unlimited time, using different directional antennas for day and night use;

It is ordered, That pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding commencing at 10:00 a. m. on February 28, 1951, at Washington, D. C., upon the following issues:

1. To determine the technical, financial and other qualifications of the corporate applicants, their officers, directors and stockholders to operate Stations WESC and WORD as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Stations WESC and WORD as proposed, and the character of other broadcast service available to such areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of Station WORD as proposed would involve objectionable interference with Station WJHL, Johnson City, Tennessee, or whether the operations of Stations WESC and WORD as proposed would involve objectionable interference with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of Stations WESC and WORD as proposed would involve objectionable interference, each with the other, or with the services proposed in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of Stations WESC and WORD as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations, with particular reference to the ratio of the population within the normally protected and actual nighttime interference-free contours to the population which would receive satisfactory service.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

It is further ordered, That WJHL, Incorporated, licensee of Station WJHL, Johnson City, Tennessee is made a party to this proceeding.

CIVIL DEFENSE COMMUNICATION

FREQUENCIES AVAILABLE FOR AMATEUR PARTICIPATION

JANUARY 17, 1951.

The Civil Defense Administration has brought to the attention of the Commission the fact that licensed radio amateurs may be requested by the appropriate local Civil Defense authorities to provide civil defense communications or to supplement other existing communications systems for civil defense purposes.

The matter of permanent availability of specific frequency bands within the regularly allocated amateur bands for eventual use by amateurs in providing civil defense communications, after any suspension of normal amateur activity which may later be found to be necessary because of war or other national emergency, has been the subject of particular study by the Commission, the Civil Defense Administration and the Armed Forces of the United States.

After consideration of all factors known to be involved at this time, including frequency requirements of other radio services in time of war or other national emergency, certain frequency bands already allocated to amateurs have been selected for their retention and use for the purposes described in the preceding paragraph. The extent to which these bands meet the actual requirements for amateur participation in civil defense communications may be reviewed after a sufficient number of local communities have established appropriate civil defense plans, conducted communications drills or otherwise accumulated data which will permit such a review.

The frequency bands which will remain available for civil defense use by amateurs are tabulated herewith:

1800–2000 kc	50.35–50.75 Mc
3500–3510 kc	53.35–53.75 Mc
3990–4000 kc	145.17–145.71 Mc
28.55–28.75 Mc	146.79–147.33 Mc
29.45–29.65 Mc	220–225 Mc

In addition to the above bands, the band of frequencies 1750–1800 kc will continue to be available for use by properly qualified amateurs and others to provide a Disaster Communications Service, but it should be noted that such a service is intended as a permanent one for use in a disaster occurring at any time, to assist in handling communications within or with a disaster area, whereas the frequencies listed above are designated for amateur use for the handling of such communications as may be required in the interest of civil defense.

This notice is primarily intended to make clear which portions of the regularly allocated amateur bands will continue to be available for amateur use to provide civil defense communications after any suspension of normal amateur activity. It is not intended to deal with the various other phases of the problem, such as eligibility for continuing operation in these bands, operating regulations and procedures, and other related matters. However, to the extent that knowledge of frequency availability is required for planning purposes, such planning may proceed on the basis of this announcement for the organization of civil defense communication networks.

Nothing herein should be construed to alter in any way the present availability of amateur frequency bands or the normal operation of amateurs in these bands as presently being practiced in accordance with existing Commission rules.

Secretary.

[Docket No. E-6264]

NIAGARA FALLS POWER CO.

ORDER POSTPONING HEARING

JANUARY 18, 1951.

In the matter of The Niagara Falls Power Company (Niagara Mohawk Power Corporation, successor licensee), Docket No. E-6264.

By order dated November 2, 1950, the Commission postponed to January 20, 1951, the hearing in the above-entitled matter.

The staff assigned to this proceeding has requested a further postponement of the hearing because the necessity for preparation of other Commission cases now pending on review in the courts has deprived the staff of an adequate opportunity to prepare for the hearing on January 29.

Counsel for the company has been advised of the staff's request for further postponement and has no objection thereto.

The Commission finds: Good cause exists for further postponing the date of hearing as hereinafter provided:

The Commission orders: The public hearing in the above-entitled matter is hereby further postponed to March 14, 1951, commencing at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, Hurley-Wright Building, 1800 Pennsylvania Avenue NW., Washington, D. C.

INTERSTATE COMMERCE COMMISSION

[Ex Parte No. 175]

INCREASED FREIGHT RATES, 1951

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 19th day of January A. D. 1951.

A petition was filed with the Interstate Commerce Commission on January 16, 1951, by the railroads listed in Appendix I thereof, being substantially all the class I railroads in the United States and many railroads of other classes, which requests the Commission to institute an investigation into the adequacy of railway freight rates and charges of the petitioners, with the object of effecting general increases in freight rates and charges as set forth in Appendix II thereof; and also seeks permission to make such increased rates and charges effective at the earliest possible date, upon less than statutory notice; and prays for the entry of a general order modifying all outstanding orders of the Commission to the extent necessary to enable the railroads to make the proposed increased rates and charges effective, and also for the entry of appropriate orders under sections 4 and 6 of the Interstate Commerce Act.

Upon consideration thereof:

It is ordered, That an investigation under the caption hereof is hereby instituted into and concerning the reasonableness and lawfulness of the increases in freight rates and charges requested by petitioning carriers, and that the investigation and the petition described shall be assigned for hearing as may be ordered hereafter by the Commission.

Notice to the general public will be given by depositing a copy of this order in the office of the Secretary of the Commission, for public inspection, and by filing a copy of this order with the Director, Division of the Federal Register.

INCREASED EXPRESS RATES AND CHARGES, 1951

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 15th day of January A. D. 1951.

The Commission, having before it petition filed January 12, 1951, by the Railway Express Agency, Incorporated, for authority to increase its rates and charges and to make other modifications of the express rate structure, in the manner and to the extent set forth in such petition; and it appearing that petitioner prays that it be permitted to make such increases and changes, and that the Commission institute an investigation to determine whether the increases and changes proposed will be just and reasonable and not in excess of maximum reasonable rates and charges, and that the Commission enter a general order modifying its outstanding orders to the extent necessary to enable petitioner promptly to make effective the rates and charges proposed on less than statutory notice, and that where the application of the rates and charges herein proposed to the existing rates and charges would result in departures from section 4 of the Interstate Commerce Act, the Commission authorize such departures, which petition so filed is referred to for greater certainty:

It is ordered, That the Commission enter upon an investigation of the proposals made in such petition as above summarized; and that a copy of this order be served upon petitioner and upon the Governors and regulatory bodies of the several States;

It is further ordered, That the proceeding be assigned for hearing at such times and places as hereafter may be designated;

And it is further ordered, That notice of this order be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director of the Division of the Federal Register.

NOTICE OF APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C. on the 18th day of January A. D. 1951.

Notice is hereby given that Analytical Securities Corporation, located at No. 31 Nassau Street, New York, New York, has filed an application pursuant to section 8 (f) of the Investment Company Act of 1940 for an order of the Commission declaring that it has ceased to be an investment company within the meaning of the act.

The following facts appear from the application:

Analytical Securities Corporation, incorporated under the laws of the State of Delaware, is a closed-end, non-diversified management investment company registered under the act.

A special meeting of the common and preferred stockholders was held on October 27, 1949, at which liquidation and dissolution of the corporation was approved.

Pursuant to the Delaware law, the corporation was dissolved on November 1, 1949.

Final liquidating dividends were mailed to stockholders on October 19, 1950.

At the time of the distribution there were outstanding 17,918 shares of common stock owned by 114 stockholders of record and 3,399 shares of preferred stock owned by 68 stockholders of record. Liquidating dividends have been paid on all of the stock and there are no further shares of stock now outstanding.

Actual assets distributed after payment of all liabilities amounted to $139,867.98. Of this amount, 97 percent totaling $135,671.95 was paid to preferred stockholders and 3 percent totaling $4,196.03 was paid to common stockholders

at the rate of $39.91527 per share of preferred stock and $.23418 per share of common stock.

All liabilities have been paid including expenses of distribution.

All interested persons are referred to said application which is on file at the Washington, D. C. office of this Commission for a more detailed statement of the matters of fact and law therein asserted.

Notice is further given that an order granting the application may be issued by the Commission at any time after February 9, 1951, unless prior thereto a hearing on the application is ordered by the Commission as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than February 7, 1951, at 5:30 p. m., e. s. t., submit in writing to the Commission his views or any additional fact bearing upon the application or the desirability of a hearing thereon or request the Commission, in writing, that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, No. 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

EQUITY CORP. ET AL.

NOTICE OF APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 18th day of January A. D. 1951.

In the matter of the Equity Corporation, the Morris Plan Corporation of America and the Bank of Ohio Company, File No. 812-700.

Notice is hereby given that The Morris Plan Corporation of America (Morris Plan), 103 Park Avenue, New York, New York, has filed an application pursuant to section 17 (b) of the Investment Company Act of 1940 requesting an order exempting from the provisions of section 17 (a) of the act, the proposed purchase by Morris Plan of shares of the capital stock of The Bank of Ohio Company (Bank), 921 Huron Road, Cleveland, Ohio, from persons affiliated with the Bank and holding stock in said Bank.

Morris Plan is the owner and holder of 24.88 percent of the Bank's authorized issued and outstanding capital stock. The Equity Corporation, a registered investment company of the closed end, nondiversified, management type, owns more than 25 percent of the voting stock of Morris Plan. Certain persons holding stock of said Bank are directors, officers, employees, or holders of more than 5 percent of the capital stock of the Bank and, therefore, "affiliated" with the Bank within the definition of the act. Accordingly, any sale of such stock to Morris Plan by any affiliated person of the Bank would constitute a sale of a security by an affiliated person of an affiliated person of a registered investment company to a company controlled by such registered company and would be barred under the provision of section 17 (a) (1) of the act, unless exempted therefrom by the Commission pursuant to the authority vested in it by section 17 (b) of the act. Morris Plan, accordingly, requests such an exemption.

The Bank was organized under the laws of Ohio on or about March 18, 1916. Morris Plan (or a predecessor in interest) became the owner of 25 percent of the capital stock by original subscription and has subsequently maintained ownership of between 20 percent and 25 percent of the Bank's outstanding stock. At the present time Morris Plan is the owner of 24,880 shares of capital stock of the Bank, representing 24.88 percent of the capital stock outstanding.

Morris Plan proposes to purchase up to 26,000 shares of the Bank's capital stock at a price of $30.00 per share from present shareholders who accept the offer. The application states that the stock of the Bank is not listed on any recognized stock exchange but that the stock is quoted in an active over-the-counter market in Cleveland, Ohio. On or about October 31, 1950, the Bank stock was quoted at approximately $25.00 per share. On December 1, 1950, after possible public knowledge of the pending offer, the stock was quoted at approximately $29.00 per share. The book value of the Bank's capital stock as of October 31, 1950, was slightly in excess of $25.95 per share. The applicant asserts that the growth of the Bank, its demonstrated earning capacity over a long period of time, and the benefits resulting from control of a majority of the shares warrant a valuation of the stock above book value. It is asserted, therefore, that the proposed purchase price of $30.00 is fair and reasonable.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to said application which is on file in the offices of the Commission in Washington, D. C.

Notice is further given that an order granting the application, in whole or in part and upon such conditions as the Commission may deem necessary or appropriate, may be issued by the Commission at any time after February 8, 1951, unless prior thereto a hearing upon the application is ordered by the Commission, as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than February 6, 1951, at 5:30 p. m., e. s. t., submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

NATIONAL AVIATION CORP.

NOTICE OF APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 18th day of January A. D. 1951.

Notice is hereby given that National Aviation Corporation (the Company), 111 Broadway, New York 6, New York, a management investment company registered under the Investment Company Act of 1940, has filed an application under Rule N-17D-1 promulgated under the act with respect to a proposed pension plan for all persons employed by the Company on a full time basis.

Pursuant to the proposed pension plan, all contributions will be made by the Company and none by employees. Contributed funds are to be held and administered by Bankers Trust Company as trustee. If the plan were in effect at the present time, it would be applicable to six employees, three of whom are officers. The normal retirement age under the plan is 65. The retirement pension, payable annually, is to consist of an amount equal to 1 percent of the first $300 and 2 percent of the excess over $300 of the employee's compensation paid to him for each month of his credited service, plus a similar allowance computed on an annual basis with respect to service rendered prior to the effective date of the plan. The maximum pension payable to any employee is limited to $7,500 per annum. It is estimated that the cost of prior service contributions will be $39,510 and that the contribution for current service credits for 1951 will be $4,631. It is intended to submit the plan to stockholders for approval and to qualify the plan under section 165 (a) of the Internal Revenue Code.

Rule N-17D-1 provides, in part, that:

> No affiliated person of any registered investment company, or of any company controlled by any such registered company, shall participate in, or effect any transaction in connection with, any bonus, profit-sharing or pension plan or arrangement in which any such registered or controlled company is a participant unless an application regarding such plan or arrangement has been filed with the Commission and has been granted by an order entered prior to the submission of such plan or arrangement to security holders for approval, or prior to the adoption thereof, if not so submitted.

All interested persons are referred to said application which is on file at the Washington, D. C. office of the Commission, for a more detailed statement of the matters of fact and law therein asserted.

Notice is further given that an order granting the application may be issued by the Commission at any time after February 8, 1951, unless prior thereto a hearing upon the application is ordered by the Commission, as provided by Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than February 6, 1951, at 5:30 p. m., eastern standard time, submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

PART 94—RINDERPEST, FOOT-AND-MOUTH DISEASE, FOWL PEST (FOWL PLAGUE), AND NEWCASTLE DISEASE (AVIAN PNEUMOENCEPHALITIS): PROHIBITED AND RESTRICTED IMPORTATIONS

IMPORTATION OF CERTAIN ANIMALS AND PRODUCTS FROM COLOMBIA

Pursuant to the authority conferred by section 306 of the Tariff Act of 1930 (46 Stat. 689, 19 U. S. C. 1306) and section 2 of the act of February 2, 1903, as amended (32 Stat. 792, as amended, 21 U. S. C. 111), § 94.1 of the regulations relating to prohibitions and restrictions upon importations of certain animals and products because of rinderpest, foot-and-mouth disease, fowl pest (fowl plague), and Newcastle disease (avian pneumoencephalitis) (15 F. R. 6907), is hereby amended by removing the words "except Colombia" after "all the countries of South America" as I have determined that foot-and-mouth disease now exists in Colombia and have so notified the Secretary of the Treasury.

The primary effect of the amendment is to prohibit the importation of cattle, sheep, other domestic ruminants and swine, and fresh, chilled or frozen beef, veal, mutton, lamb, and pork, and meat and meat products of wild ruminants and swine from Colombia, and to prohibit or restrict the importation of certain other meats and products and dressed poultry from Colombia. The protection of the livestock interests of the United States demands that this amendment be made effective at the earliest possible moment. Accordingly, pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and public procedure on this amendment are impracticable and contrary to the public interest, and good cause is found for making the amendment effective less than 30 days after its publication in the FEDERAL REGISTER. Such notice and hearing are not required by any other statute.

This amendment shall become effective immediately.

PART 4a—AIRPLANE AIRWORTHINESS

AIRCRAFT COMPONENTS

The following rules add and eliminate cross-references to technical standard orders on aircraft components. All such technical standard orders are being transferred to and published in Part 514 of this title. The technical standard orders have been coordinated with interested persons. The rules are made effective without delay in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

1. Section 4a.31–1 is adopted to read:

§ 4a.31–1 *Approval of aircraft components (CAA rules which apply to § 4a.31).* Aircraft components made the subject of Technical Standard Orders shall be approved upon the basis and in the manner provided in Part 514 of this title.

2. Section 4a.252–1, published in 13 F. R. 7725, is revoked.

3. Section 4a.301–1, published in 14 F. R. 3305, and § 4a.301–2, published in 15 F. R. 762, are revoked.

4. Section 4a.338–1, published in 13 F. R. 7725, is revoked.

5. Section 4a.524–1 is adopted to read:

§ 4a.524–1 *Approval of aircraft components (CAA rules which apply to § 4a.524).* Aircraft components made the subject of technical standard orders shall be approved upon the basis and in the manner provided in Part 514 of this title.

6. Section 4a.525–1, published in 13 F. R. 7725, is revoked.

7. Section 4a532–1, published in 14 F. R. 3196, is revoked.

8. Section 4a.535–1, published in 13 F R. 7725, is revoked.

9. Section 4a.537–1, published in 13 F R. 7725, is revoked.

10. Section 4a.550–1, published in 13 F. R. 7725, is revoked.

11. Section 4a.578–1, published in 14 F. R. 3196, is revoked.

(Sec. 205, 54 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

These rules shall become effective upon publication in the FEDERAL REGISTER.

PART 60—AIR TRAFFIC RULES

MINIMUM EN ROUTE INSTRUMENT ALTITUDES

The minimum en route instrument altitude alterations appearing hereinafter are adopted when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required. Part 60 is amended as follows:

1. Section 60.17–1 is amended by adding paragraphs (g) and (h), as follows:

§ 60.17–1 *Definitions.* • • •

(g) "LFR" means low frequency radio range.

(h) "VOR" means VHF omni range.

2. Section 60.17–3 is amended by adding paragraph (a) (3), as follows:

§ 60.17–3 *Minimum en route instrument altitudes along particular routes.* • • •

(a) • • •

(3) *VOR reception altitudes.* At certain locations VOR reception may not be assured under normal operating conditions at the minimum en route instrument altitudes prescribed along a segment of the route. It may be necessary to fly at higher altitudes at certain points in order to be assured of adequate VOR reception. Points where VOR reception is not assured at the minimum en route altitude under normal operating conditions will be denoted by an asterisk preceding the minimum altitude followed by the minimum VOR reception altitude.

Example:

Roswell, N. Mex.-- Hobbs, N. Mex.-- *5,500'

3. In § 60.17–3 *Minimum en route instrument altitudes along particular routes*, paragraph (b) is amended to read:

(b) *Routes.* Except when necessary for taking off and landing, no person shall operate an aircraft in accordance with IFR along the routes and below the altitudes set forth in § 60.17–11 through § 60.17–1004, unless otherwise authorized by the Administrator.

7. The table in § 60.17–102 *Amber Civil Airway No. 2* is amended to read in part:

Chapter II—Civil Aeronautics Administration, Department of Commerce

PART 514—TECHNICAL STANDARD ORDERS—C SERIES—AIRCRAFT COMPONENTS

The following part is adopted to include all Technical Standard Orders relating to aircraft components. They have been coordinated with interested persons, and they are made effective without delay in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Sec.
514.1 Technical Standard Order C1a: "Smoke Detectors".
514.2 Technical Standard Order C2a: "Airspeed Indicator (Pitot Static)".
514.3 Technical Standard Order C3a: "Turn-and-Bank Indicator".
514.4 Technical Standard Order C4b: "Bank-and-Pitch Indicator (Stabilized Type) (Gyro Horizon, Attitude Gyro)".
514.5 Technical Standard Order C5b: "Direction Indicator, Non-Magnetic, Stabilized Type (Directional Gyro)".
514.6 Technical Standard Order C6b: "Direction Indicator, Magnetic (Stabilized Type) (Stabilized Magnetic Compass)".
514.7 Technical Standard Order C7b: "Direction Indicator, Magnetic, Non-Stabilized Type (Magnetic Compass)".
514.8 Technical Standard Order C8a: "Climb Indicator, Pressure Actuated (Vertical Speed Indicator)".
514.9 Technical Standard Order C9a: "Automatic Pilot".
514.10 Technical Standard Order C10a: "Altimeter, Pressure Actuated, Sensitive Type".
514.11 Technical Standard Order C11a: "Fire Detectors".
514.12 Technical Standard Order C12: "Life Rafts".
514.13 Technical Standard Order C13: "Life Preservers".
514.14 Technical Standard Order C14: "Aircraft Fabric, 'Intermediate' Grade; External Covering Material".
514.15 Technical Standard Order C15: "Aircraft Fabric, Grade 'A'; External Covering Material".
514.16 Technical Standard Order C16: "Airspeed Tubes (Electrically Heated)".
514.17 Technical Standard Order C17: "Fire-Resistant Aircraft Material".
514.18 Technical Standard Order C18: "Position Light Flashers".
514.19 Technical Standard Order C19: "Portable Water-Solution Type Fire Extinguishers".
514.20 Technical Standard Order C20: "Combustion Heaters".
514.21 Technical Standard Order C21: "Special Aircraft Turnbuckle Assemblies and/or Turnbuckle Safetying Devices".
514.22 Technical Standard Order C22a: "Safety Belts".
514.23 Technical Standard Order C23: "Parachutes".
514.24 Technical Standard Order C24: "Landing Flares".
514.25 Technical Standard Order C25: "Aircraft Seats and Berths".

AUTHORITY: §§ 514.1 to 514.25 issued under sec. 205, 54 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551.

1. Section 514.1 shall consist of Technical Standard Order C1a, published in 13 F. R. 3843, 7728, with "Parts 4a and 4b" substituted for "§§ 04a.062, 04a.07, 04a.500, 04b.00, 04b.05, and 04b.38251".

2. Section 514.2 shall consist of Technical Standard Order C2a, published in 14 F. R. 3365, with "Parts 3, 4a, 4b, and

6" substituted for "§§ 3.06, 3.51, 4a.07, 4a.513, 4b.05, 4b.51, 6.05, and 6.51".

3. Section 514.3 shall consist of Technical Standard Order C3a, published in 13 F. R. 3845, 7731, with "Parts 3, 4a, 4b, and 6" substituted for "§§ 03.06, 03.5, 04a.07, 04a.5, 04b.05, 04b.5, 06.05, and 06.5".

4. Section 514.4 shall consist of Technical Standard Order C4b, published in 14 F. R. 3461, with "Parts 4a and 4b" substituted for "§§ 4a.07, 4a.532, 4b.05, and 4b.51".

5. Section 514.5 shall consist of Technical Standard Order C5b, published in 14 F. R. 3463, with "Parts 4a and 4b" substituted for "§§ 4a.07, 4a.532, 4b.05, and 4b.51".

6. Section 514.6 shall consist of Technical Standard Order C6b, published in 14 F. R. 3464, with "Parts 4a and 4b" substituted for "§§ 4a.07, 4a.532, 4b.05, and 4b.51".

7. Section 514.7 shall read as follows:

§ 514.7 *Technical Standard Order C7b: "Direction Indicator, Magnetic, Non-Stabilized Type (Magnetic Compass)"*—(a) *Introduction.* (1) Under section 601 of the Civil Aeronautics Act of 1938, as amended, and Parts 3, 4a, 4b, and 6 of the Civil Air Regulations issued pursuant thereto, the Administrator of Civil Aeronautics is authorized to adopt standards for non-stabilized magnetic direction indicators intended for use in civil aircraft. In adopting these standards, consideration has been given to existing Government and industry standards for non-stabilized magnetic direction indicators.

(b) *Directive* — (1) *Provision.* (i) The requirements for non-stabilized magnetic direction indicators, as set forth in SAE Specification AS–398 Direction Indicator Magnetic, Non-Stabilized Type dated July 1, 1947 [1] (13 F. R. 3852, 7731) with the exceptions hereinafter noted, are hereby established as minimum safety standards for non-stabilized magnetic direction indicators intended for use in civil aircraft.

(ii) *Exceptions.* Section 4.5, "Means shall be provided for compensating for semi-circular deviation. Compensating effect shall be between 15 and 40 degrees in each direction for each axis when adjusted for maximum effect."

(iii) Section 6.7, second sentence, line 4—"The maximum adjustable compensation effect shall be between 15 and 40 degrees in each direction for each axis."

(2) *Application.* (i) Non-stabilized magnetic direction indicators complying with the specifications appearing in this section are hereby approved for all aircraft. Non-stabilized magnetic direction indicators already approved by the Administrator may continue to be installed in aircraft:

(*a*) For which an application for original type certificate is made prior to the effective date of this section,

(*b*) The prototype of which is flown within one year after the effective date of this section, and

(*c*) The prototype of which is not flown within one year after the effective date of this section if due to causes beyond the applicant's control.

If an alteration or replacement involving a change in type or model of non-stabilized magnetic direction indicators, is made within nine months after the effective date of this section, previously approved types of non-stabilized magnetic direction indicators may be installed. However, in any such change made after the nine month period, new types of non-stabilized magnetic direction indicators installed in aircraft used in instrument flight shall meet the specifications contained herein.

(c) *Specific instructions*—(1) *Marking.* (i) In addition to the identification information required in the referenced specification, each non-stabilized magnetic direction indicator shall be permanently marked with the Technical Standard Order designation, CAA–TSO–C7b, to identify the non-stabilized magnetic direction indicators as meeting the requirements of this section in accordance with the manufacturers' statement of conformance outlined below. This identification will be accepted by the Civil Aeronautics Administration as evidence that the established minimum safety requirements for non-stabilized magnetic direction indicators have been met.

(2) *Data requirements.* (i) None.

(3) *Effective date.* (i) After July 1, 1948, specifications contained in this section will constitute the basis for Civil Aeronautics Administration approval of non-stabilized magnetic direction indicators for use in certificated aircraft used in instrument flight.

(4) *Deviations.* (i) Requests for deviation from, or waiver of, the requirements of this section, which affect the basic airworthiness of the component, should be submitted for approval by the Chief, Aircraft Division, Office of Aviation Safety, Civil Aeronautics Administration. These requests should be addressed to the nearest Regional Office of the Civil Aeronautics Administration, Attention: Superintendent, Aircraft Branch.

(5) *Conformance.* (i) The manufacturer shall furnish to the Civil Aeronautics Administration, Aircraft Division, Attention: W–298, Washington 25, D. C., a written statement of conformance signed by a responsible official of his company, setting forth that the non-stabilized magnetic direction indicators to be produced by him meet the minimum safety requirements established in this section. Immediately thereafter distribution of the non-stabilized magnetic direction indicators conforming with the terms of this section may be started and continued.

(ii) The prescribed identification on the non-stabilized magnetic direction indicators does not relieve the aircraft manufacturer or owner of responsibility for the proper application of the non-stabilized magnetic direction indicators in his aircraft, nor waive any of the requirements concerning type certification of the aircraft in accordance with existing Civil Air Regulations.

(iii) If complaints of nonconformance with the requirements of this section are brought to the attention of the Civil Aeronautics Administration, and investigation indicates that such complaints are justified, the Administrator will take appropriate action to restrict the use of the product involved.

(iv) Copies of this Technical Standard Order and other Technical Standard Orders may be obtained from the Civil Aeronautics Administration, Aviation Information Office, Washington 25, D. C.

8. Section 514.8 shall consist of Technical Standard Order C8a, published in 13 F. R. 3853, 7731, with "Parts 3, 4a, 4b, and 6" substituted for "§§ 03.06, 03.5, 04a.07, 04a.5, 0.4b.05, 04b.5, 06.05, and 06.5".

9. Section 514.9 shall consist of Technical Standard Order C9a, published in 13 F. R. 3855, 7734, with "Parts 3, 4a, 4b, 6, and 15" substituted for §§ 03.06, 03.5, 04a.07, 04a.5, 04b.05, 04b.5, 06.05, and 06.5".

10. Section 514.10 shall consist of Technical Standard Order C10a, published in 14 F. R. 3368, with "Parts 3, 4a, 4b, and 6" substituted for "§§ 3.06, 3.51, 4a.07, 4a.513, 4a.532, 4b.05, 4b.51, 6.05, and 6.51".

11. Section 514.11 shall read as follows:

§ 514.11 *Technical Standard Order C11a: "Fire Detectors"*—(a) *Introduction.* (1) Under section 601 of the Civil Aeronautics Act of 1938, as amended, and Parts 4a and 4b of the Civil Air Regulations issued pursuant thereto, the Administrator of Civil Aeronautics is authorized to adopt standards for fire detectors intended for use in civil aircraft. In adopting these standards, consideration has been given to existing Government and industry standards for fire detectors.

(b) *Directive*—(1) *Provision.* (i) The requirements for fire detectors, as set forth in SAE Specification AS 401a, Fire and Heat Detectors, revised October 1, 1949,[1] stated below, with the exceptions hereinafter noted, are hereby established as minimum safety standards for fire detectors intended for use in civil aircraft.

1. *Purpose.* To specify minimum requirements for fire and heat detection instruments for use in aircraft, the operation of which may subject the instrument to environmental conditions specified in section 3.4.

2. *Scope.* This specification covers the following basic types of instruments, or combinations thereof, intended for use in protecting aircraft power plant installations, auxiliary power plants, combustion heaters and other installation where fuel, oil or similar fires may occur.

Type I. Rate of temperature rise.
Type II. Flame.
Type III, Fixed temperature.

3. *General requirements.*

3.1 *Materials and workmanship.*

3.1.1 *Materials.* Materials shall be of a quality which experience and/or tests have demonstrated to be suitable and dependable for use in aircraft instruments.

3.1.2 *Workmanship.* Workmanship shall be consistent with high-grade aircraft instrument manufacturing practice.

3.2 *Radio interference.* The instrument shall not be the source of objectionable interference, under operating conditions at any frequencies used on aircraft, either by radiation of feed-back, in radio sets installed in the same aircraft as the instrument.

[1] Copies may be obtained from the Society of Automotive Engineers, 29 West 39th St., New York, N. Y.

3.3 *Identification.* The following information shall be legibly and permanently marked on the instrument or attached thereto:

(a) Name of instrument.
(b) SAE Spec. AS–401.
(c) Rating (electrical, vacuum, etc.).
(d) Alarm temperature (sensing element, where applicable).
(e) Manufacturer's part number.
(f) Manufacturer's serial number or date of manufacture.
(g) Manufacturer's name and/or trademark.

3.4 *Environmental conditions.* The following conditions have been established as design criteria only. Tests shall be conducted as specified in sections 5, 6 and 7.

3.4.1 *Temperature.* When mounted in accordance with the manufacturer's recommendations, the unit shall function over the range of ambient temperatures shown in column A below and shall not be adversely affected by exposure to the temperatures shown in column B below:

Instrument location	A	B
Power plant compartments.	−20 to 130 C.	−65 to 130 C.
Other areas	−20 to 70 C.	−65 to 70 C.

3.4.2 *Humidity.* The instrument shall function and not be adversely affected by exposure to a relative humidity of up to and including 95% at a temperature of approximately 32° C.

3.4.3 *Altitude.* The instrument shall function and shall not be adversely affected when subjected to a pressure and temperature range equivalent to −1,000 feet to +40,000 feet standard altitude.

3.4.4 *Vibration.* When mounted in accordance with the instrument manufacturer's instructions, the units shall function and shall not be adversely affected when subjected to the following vibrations at a frequency of 500 to 3,000 cycles per minute. When specified by the purchaser for use in rotary wing aircraft, the frequency range shall be 150 to 3,000 cycles per minute.

Type of instrument mounting	Amplitude (inch)	Acceleration
Structurally mounted instruments	0.030	3.8 g.
Engine compartment mounted instruments.	.20	25 g.

It is understood that the instrument shall withstand vibration at higher frequencies, but the acceleration values need not exceed those shown above.

4. *Detail requirements.*

4.1 *Indicating method.* The instrument shall be capable of actuating both visual and aural alarm indicators.

4.2 *Reliability.* False signals in the instrument shall not result from variations in voltage between 0 and 125% of the rated, flight attitude, dust and accelerations encountered in flight or landing.

4.3 *Integrity test provisions.* The instrument shall permit testing of the continuity of the associated electrical circuit in flight.

4.4 *Calibration adjustment.* All calibration adjustments in the instrument shall be provided with tamper-proof seals.

5. *Test conditions.*

5.1 *Atmospheric conditions.* Unless otherwise specified, all tests required by this specification shall be conducted at an atmospheric pressure of approximately 29.92 inches of mercury and at an ambient temperature of approximately 22° C. When tests are conducted with the atmospheric pressure or the temperature substantially different from these values, allowance shall be made for the variations from the specified conditions.

5.2 *Vibration (To minimize friction).* Unless otherwise specified, all tests for performance may be made with the instrument subjected to a vibration of 0.002 to 0.005 inch amplitude at a frequency of 1500 to 2000 cycles per minute. The term amplitude as used herein indicates the total displacement from positive maximum to negative maximum.

5.3 *Vibration stand.* A vibration stand shall be used which will vibrate at any desired frequency between 500 and 3000 cycles per minute and shall subject the instrument to vibration such that a point on the instrument will describe, in a plane inclined 45 degrees to the horizontal plane, a circle, the diameter of which is equal to the amplitude specified herein.

5.4 *Test position.* Unless otherwise specified, the instrument shall be mounted and tested in its normal operation position.

5.5 *Power conditions.* Unless otherwise specified, all tests shall be conducted at the power rating recommended by the manufacturer and the instrument shall be in an operating condition.

5.6 *Flame temperature measurement and flame size.* All flame temperatures shall be measured by using an 18 gauge wire thermocouple and the two strands of wire shall be twisted together for a distance of ½ inch from the thermocouple bead. The thermocouple bead shall be at the center of the flame and the two wires leading to the bead shall be parallel and extend radially into the flame. The nature and size of the flame and the method of test shall be specified in Figure 2.

5.7 *Test sample.* Unless otherwise specified, when qualification tests are being conducted on continuous type detectors, at least eight inches of the continuous detecting element shall be subjected to the test conditions as well as at least two typical insulators, supports, or connectors of each basic type used.

6. *Individual performance tests.* All instruments or components of such shall be subjected to whatever tests the manufacturer deems necessary to demonstrate specific compliance with this specification.

6.1 *Response time.* The sensing element shall be tested as specified in section 7.1, or in some equivalent manner which will adequately check the sensitivity and calibration.

6.2 *Dielectric.* The instrument shall be subjected to whichever one of the following dielectric tests is most applicable:

6.2.1 Ungrounded instruments, or grounded instruments prior to connection of in-

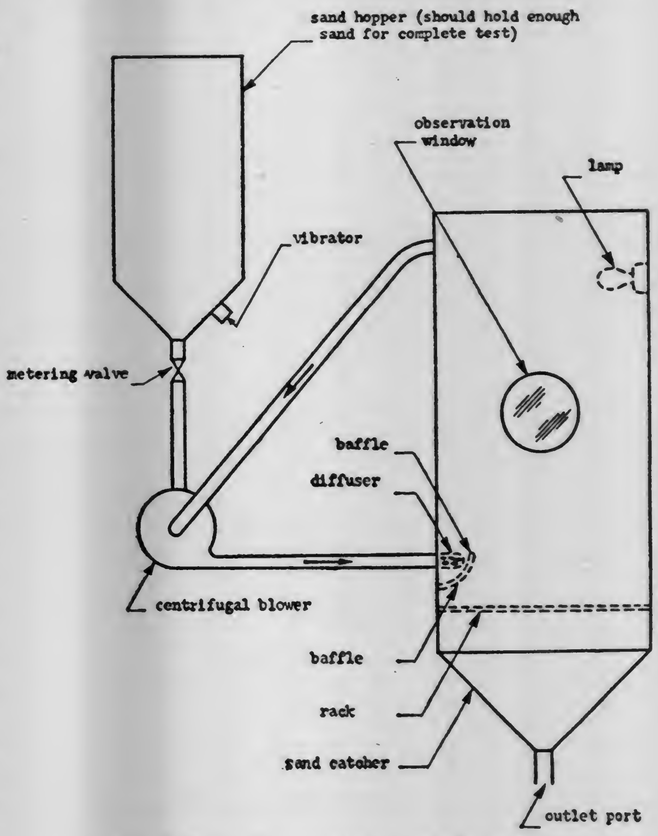

FIGURE 1. Schematic Sand Test Arrangement (Ref. sec. 7.9).

ternal ground wire, shall be tested by either the method of section 6.2.1.1 or 6.2.1.2.

6.2.1.1 *Insulation resistance.* The insulation resistance measured at 500 volts d-c between all electrical circuits connected together and the metallic case shall not be less than 20 megohms.

6.2.1.2 *Dielectric strength.* The insulation shall withstand without evidence of damage the application of a sinusoidal voltage at a commercial frequency between all electrical circuits connected together and the metallic case, for a period of 5 seconds. The RMS value of the sinusoidal voltage applied shall be either five (5) times the maximum instrument operating voltage, or 500 volts, whichever is the greater.

6.2.2 Instruments operated with a permanent internal ground connection shall be tested as follows:

The insulation shall withstand without evidence of damage the application of a sinusoidal voltage at a commercial frequency between each electric circuit and the metallic case, for a period of 5 seconds. The RMS value of the sinusoidal voltage applied shall be 1.25 times the maximum circuit operating voltage obtainable between two test points.

7. *Qualification tests.* As many instruments as appear necessary to demonstrate that all instruments will comply with the requirements of this section shall be subjected to the following tests where applicable. The tests on each instrument shall be conducted consecutively and after the tests have been initiated, no further adjustments of the instrument shall be permitted. There shall be no false alarms signalled during any of the tests. A response time test per section 7.1 shall be conducted after each qualification test, except sections 7.1.1, 7.2, 7.3, 7.3.1, 7.3.2, 7.3.3 and 7.14. However, except in the case of the response time test following the qualification test of section 7.14, the instrument subjected to the response time test need not be the same instrument or instruments being subjected to the entire series of qualification tests.

7.1 *Response time.* The sensing element shall be tested in an 815° C maximum temperature flame as specified in Figure 2. The ambient temperature from which the test is started shall be normal room temperature. However, a higher starting ambient temperature may be used if the sensing element is specified for use only in locations where the ambient temperature will not, under any normal continuous operating conditions, fall below this value. For types of detectors and detector systems whose sensitivity is affected by the number of sensing elements, by the length of the sensing element exposed to flame (for continuous types), or by other factors which may be varied from one system design to another, all response time tests shall be conducted with the least sensitive system configuration to be used. The time of response shall not exceed 5 seconds when the instrument is tested in accordance with this section.

7.1.1 *Repeat response time.* The sensing element(s) of the fire detector system shall be subjected to an 815° C flame for a period of one minute. It shall then be removed from the flame. Within 5 seconds after the alarm has cleared the sensing element shall again be subjected to the flame. An alarm shall be signalled in five seconds. The units subjected to this test need not be subjected to any other tests.

7.2 *Fixed temperature operation.* (For Type III instruments only). The detecting element shall be placed in a suitable heating chamber and the temperature shall be raised at the rate of not less than 7 C per minute, to not less than 80% of the rated temperature setting. The temperature shall be maintained at this value for not less than one hour. The temperature shall then be raised, at a rate of not more than 7 C per minute, to 10% above the rated temperature setting. An alarm shall be signalled within a tolerance of 10% of the rated temperature setting. The temperature shall then be lowered, at a rate of not more than 7 C per minute. The alarm indication shall cease before the temperature falls below 90% of the rated setting.

7.3 *False alarm due to rate of temperature rise.* No alarm shall be signalled during these tests except in the case of Type III instruments which may signal an alarm when the temperature reaches a value not less than 90% of the rated setting. For types of detectors and detector systems whose sensitivity is affected by the number of sensing elements, the length of the sensing element exposed to the test temperature (for continuous types), or by other factors which may be varied from one system design to another, the tests of 7.3.1 and 7.3.2 shall be conducted with the most sensitive system configuration to be used.

7.3.1 *False alarm due to local temperature rise.* The sensing element shall be subjected to various combinations of rates of temperature rise and durations of these rates of rise. Except as indicated in section 7.3, no alarm shall be signalled when the element is exposed to any combination of the rates of rise and durations within the shaded area in Figure 3 (a). This test shall be conducted in a manner simulating conditions due to local overheating.

7.3.2 *False alarm due to general temperature rise.* The test of 7.3.1 shall be repeated except that Figure 3 (b) shall be employed and the test shall be conducted in a manner simulating conditions existing due to a general temperature rise throughout an engine compartment where the sensing element(s) may be located.

7.3.3 *False clearing of alarm due to partial extinguishing of fire.* The system configuration specified in 7.3 shall be subjected to an 815° C flame for 30 seconds. The flame shall then be removed from all except the portion of the system as specified in 7.1. The alarm shall not clear. After an additional 30 seconds the flame shall be removed entirely and the alarm shall then clear. The units subjected to this test need not be subjected to any other test.

7.4 *Vibration.* The instrument shall be mounted on a vibration stand, in its own shock mounted base, if provided with one, in its normal operating plane. The instrument shall be subjected to vibration with an amplitude between .003 and .005 inch at frequencies for 500 to 3000 cycles per minute, in order to determine whether the natural frequency of the instrument occurs in this frequency range.

7.5 *Vibration endurance.* With the instrument mounted on a vibration stand, per section 7.4, it shall be vibrated continuously at a total amplitude as specified in section

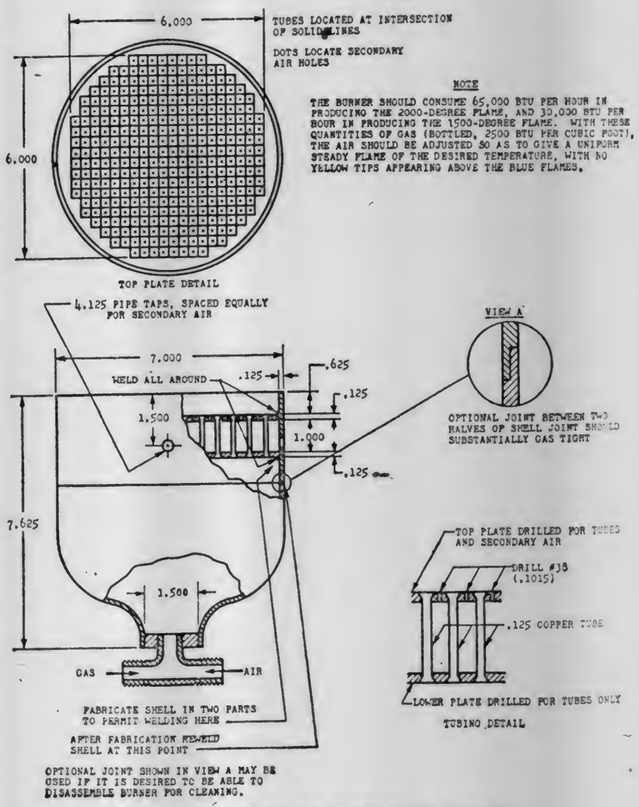

FIGURE 2—Flame Test Burner (Ref. sec. 5.6, 7.1 and 7.14).

8.4.4 for a period of 24 hours at the natural frequency, if applicable, as determined in section 7.4, or if not applicable, at a frequency of 2000 cycles per minute. No damage shall be evident after this test. In the case of this test, the response time test of 7.1.1 shall be conducted while the instrument is being vibrated. However, the sensing and indicating elements need not be vibrated simultaneously unless it is apparent that simultaneous vibration will be critical.

7.6 *Water spray.* All parts of the instrument which may be installed in exposed portions of the airplane shall be subjected to the following tests.

7.6.1 *Simulated rain.* The components being tested shall be subjected to a spray of water, to simulate rain, for a period of three hours. The detector shall not be dried prior to testing per section 7.1.

7.6.2 *Salt spray.* The components being tested shall be subjected to spray with a 20% sodium chloride solution for a period of fifteen minutes. The components shall then be dried in air at room temperature before they are tested per section 7.1. The components shall not be cleaned before the test of section 7.1 is conducted.

7.7 *Corrosion.* All parts of the instrument which may be installed in exposed portions of the airplane shall be subjected to a finely atomized spray of 20% sodium chloride solution for 200 hours. At the end of this period the parts shall be allowed to dry and may then be cleaned prior to conducting the test per section 7.1.

7.8 *Fuel and oil immersion.* All parts of the instrument which may be located in engine compartments, or other locations where they may be contaminated by fuel or oil, shall be subjected to the following tests.

7.8.1 *Fuel immersion.* The components being tested shall be thoroughly immersed in normally leaded 100 octane fuel at approximately room temperature and then allowed to drain for one minute before being tested per section 7.1. No cleaning other than the drainage specified above shall be accomplished prior to conducting subsequent tests.

7.8.2 *Oil immersion.* The same test shall be conducted with used SAE #60 oil.

7.9 *Sand.* All parts of the instrument which may be installed in exposed portions of the airplane (such as in nacelles, wheel wells, etc.) shall be subjected to a sand or dust laden air stream, flowing at a constant rate of 2½ pounds per hour, for four hours. The stream shall be formed of sand or dust that has been sifted through a 150 mesh screen and shall pass over all parts of the units under test. The test chamber shall be equivalent to that shown in Figure 1.

7.10 *High temperature.* All components of the instrument which may be located in engine compartments shall be exposed to a temperature of 130° C for 48 hours prior to being tested per section 7.1 except a 130 C. All other components shall be subjected to a similar test at 70° C.

7.11 *Low temperature.* The instrument shall be exposed to a temperature of −65° C for a period of 24 hours, after which it shall be raised to a temperature of −55° C for a period of six hours prior to being tested per Section 6.1 except at −55° C. However, compliance with section 7.1 shall be considered to have been accomplished in this case if the time of response does not exceed 10 seconds.

7.12 *Altitude effects.*

7.12.1 *High altitude and rate of climb.* The instrument shall be subjected to a pressure that is varied from normal atmospheric pressure to an altitude pressure equivalent to 40,000 feet at a rate of not less than 3000 feet per minute. The instrument shall be maintained at the altitude pressure equivalent to 40,000 feet for a period of 48 hours. The instrument shall then be returned to sea level conditions and then tested per section 7.1. Sealed units shall not leak as a result of exposure to this pressure. Where applicable, this shall be demonstrated by immersion in water after the test.

7.12.2 *Low altitude.* The instrument shall be subjected to the same test as outlined in section 7.12.1, except that the rate of pressure variation need not be as specified therein and the pressure shall be maintained at an altitude pressure equivalent to −1000 feet.

7.12.3 *Pressurization test.* All components of the instrument which may be located in pressurized area shall be subjected to an external pressure of 8 p. s. i. for a period of fifteen minutes. The response time test of 7.1.1 shall be conducted while the components involved are under the 8 p. s. i. pressure.

7.13 *Voltage variation.* The instrument shall be operated with the voltage varying from 110% to 75% of the rated. The instrument shall then be tested per section 6.1 under these conditions. Compliance with the provisions of section 4.2 shall also be demonstrated.

7.14 *Flame.* The detecting element of the instrument shall be subjected to a completely enveloping flame at a temperature of 1100° C minimum for two periods of one minute each. The flame shall be as specified in Figure 2. The instrument shall be cooled to approximately room temperature or to the ambient temperature permitted in section 7.2 after each exposure to flame. The instrument shall then be exposed to the same flame a third time. An alarm shall be signalled in not more than five seconds after each exposure to flame. During cooling of the instrument after the first two exposures to flame the alarm shall clear in not more than 45 seconds after the flame has been removed in the first two cases. Artificial means of cooling the instrument shall not be used until after the alarm has cleared. A manual resetting device may be used to clear the alarm provided it is demonstrated that the resetting device will clear the alarm only if the flame has been removed; i. e., if flame is still present and the manual resetting device is operated, the instrument must continue to indicate the presence of a fire. The instrument need not clear the alarm and need not be capable of further operation after the third exposure to flame. During this test the sensing element shall be subjected to vibration as specified in section 7.5.

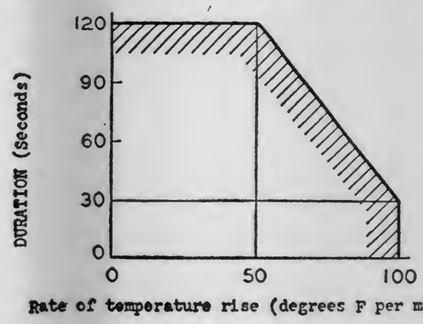

FIGURE 3 (b)—General temperature rise condition (Ref. sec. 7.3.2).

(ii) *Exceptions.* Item (b) of section 3.3 "Identification" need not be complied with for conformance with the terms of this section.

(2) *Application.* (i) Fire detectors complying with the specifications appearing in this section are hereby approved for all aircraft. Fire detectors already approved by the Administrator may continue to be installed in aircraft:

(*a*) For which an application for original type certificate is made prior to the effective date of this section,

(*b*) The prototype of which is flown within one year after the effective date of this section, and

(*c*) The prototype of which is not flown within one year after the effective date of this section if due to causes beyond the applicant's control.

If an alteration or replacement involving a change in type or model of fire detector is made within nine months after the effective date of this section, previously approved types of fire detectors may be installed. However, in any such change made after the nine-month period, new types of fire detectors installed shall meet the specifications contained herein.

(c) *Specific instructions*—(1) *Marking.* (i) In addition to the identification information required in the referenced specification (see "Exceptions" above), each fire detector shall be permanently marked with the Technical Standard Order designation, CAA-TSO-C11a, to identify the fire detector as meeting the requirements of this section in accordance with the manufacturers' statement of conformance outlined below. This identification will be accepted by the Civil Aeronautics Administration as evidence that the established minimum safety requirements for fire detectors have been met.

(2) *Data requirements.* (i) Ten copies of the following technical information shall be submitted by the manufacturer of the fire detector with his statement of conformance to the Civil Aeronautics Administration, Aircraft Division, Attention: W-298, Washington 25, D. C. These data shall consist of all information such as descriptive data, drawings, diagrams, etc., which are necessary to define the limitations of use for which the fire detectors are satisfactory, and which are essential to outline the conditions for their proper installation and operation. They shall include at least the following, wherever applicable, in addition to other limitations which may apply:

(*a*) Maximum allowable normal ambient temperature at the point of detector location.

(*b*) Maximum allowable rate of temperature rise at point of detector location as a result of normal operation.

(*c*) Electrical circuit arrangement.

(*d*) Operating voltage.

(*e*) Mounting or support method.

(*f*) Maximum or minimum number of units or detector length which can be used in one circuit or one fire zone without adversely affecting sensitivity or causing false indications due to temperature variations associated with normal operation.

(3) *Effective date.* (i) After August 1, 1948, specifications contained in this section will constitute the basis for Civil Aeronautics Administration approval of fire detectors for use in certificated aircraft.

(4) *Deviations.* (i) Requests for deviation from, or waiver of, the requirements of this section, which affect the basic airworthiness of the component, should be submitted for approval by the Chief, Aircraft Division, Office of Aviation Safety, Civil Aeronautics Administration. These requests should be addressed to the nearest Regional Office of the Civil Aeronautics Administration, Attention: Chief, Aircraft Division.

(5) *Conformance.* (i) The manufacturer shall furnish to the Civil Aeronautics Administration, Aircraft Division, Attention: W-298, Washington 25, D. C., a written statement of conformance signed by a responsible official of his company, setting forth that the fire detector to be produced by him meets the minimum safety requirements established in this section. Immediately thereafter, distribution of the fire detector conforming with the terms of this section may be started and continued.

(ii) The prescribed identification on the fire detector does not relieve the aircraft manufacturer or owner of responsibility for the proper application of the fire detector in his aircraft, nor waive any of the requirements concerning type certification of the aircraft in accordance with existing Civil Air Regulations.

(iii) If complaints of nonconformance with the requirements of this section are brought to the attention of the Civil Aeronautics Administration, and investigation indicates that such complaints are justified, the Administrator will take appropriate action to restrict the use of the product involved.

(iv) Copies of this Technical Standard Order and other Technical Standard Orders may be obtained from the Civil Aeronautics Administration, Aviation Information Office, Washington 25, D. C.

12. Section 514.12 shall consist of Technical Standard Order C12, published in 13 F. R. 7734, with "Parts 3, 4a, 4b, and 6" substituted for "§§ 03.06, 03.500, 03.5440, 03.5441, 04a.07, 04a.500, 04a.501, 04a.515, 04a.534, 04b.05, 04b.5460, 04b.5461, 06.05, and 06.500".

13. Section 514.13 shall consist of Technical Standard Order C13, published in 13 F. R. 7736, with "Parts 3, 4a, 4b, and 6" substituted for "§§ 03.06, 03.500, 03.5440, 03.5441, 04a.07, 04a.500, 04a.501, 04a.515, 04a.534, 04b.05, 04b.5460, 04b.5461, 06.05, and 06.500".

14. Section 514.14 shall consist of Technical Standard Order C14, published in 14 F. R. 7726, with "Parts 3, 4a, 4b, and 6" substituted for "§§ 03.06, 03.301, 03.332, 04a.07, 04a.400, 04a.415, 04b.05, 04b.301, 04b.331, and 06.05".

15. Section 514.15 shall consist of Technical Standard Order C15, published in 13 F. R. 7727, with "Parts 3, 4a, 4b, and 6" substituted for "§§ 03.06, 03.301, 03.332, 04a.07, 04a.400, 04a.415, 04b.05, 04b.301, 04b.331, and 06.05".

16. Section 514.16 shall consist of Technical Standard Order C16, published in 13 F. R. 7733, with "Parts 4a and 4b" substituted for "§§ 04a.07, 04a.530, 04b.05, and 04b.51".

17. Section 514.17 shall consist of Technical Standard Order C17, published in 13 F. R. 7728, with "Parts 3, 4a, 4b, and 6" substituted for "§§ 03.06, 03.075 (b), 04a.07, 04a.062, 04b.05, and 04b.075 (b)".

18. Section 514.18 shall consist of Technical Standard Order C18, published in 14 F. R. 3197, with "Parts 4a and 4b" substituted for "§§ 4a.07, 4a.5827, 4b.05, and 4b.5383".

19. Section 514.19 shall consist of Technical Standard Order C19a, published in 14 F. R. 3196, 15 F. R. 765, with "Parts 4a and 4b" substituted for "§§ 4a.31, 4a.532, 4b.41, 4b.448, and 4b.691".

20. Section 514.20 shall consist of Technical Standard Order C20, published in 14 F. R. 3308, with "Parts 3, 4a, and 4b" substituted for "§§ 3.06, 3.38132, 4a.07, 4a.40, 4b.05, and 4b.38231".

21. Section 514.21 shall consist of Technical Standard Order C21, published in 15 F. R. 762, with "Parts 3, 4a, 4b, and 6" substituted for "§§ 3.31, 3.345, 4a.31, 4a.301, 4b.41, 4b.367, 6.6, and 6.30".

22. Section 514.22 shall read as follows:

§ 514.22 *Technical Standard Order C22a: "Safety Belts"*— (a) *Introduction.* (1) Under section 601 of the Civil Aeronautics Act of 1938, as amended, and Parts 3, 4a, 4b, 6 and 15 of the Civil Air Regulations issued pursuant thereto, the Administrator of Civil Aeronautics is authorized to adopt standards for safety belts intended for use in civil aircraft. In adopting these standards, consideration has been given to existing Government and industry standards for the minimum strength and performance requirements for safety belts intended for use in civil aircraft. This Technical Standard Order is intended to serve as a criterion by which the product manufacturer may obtain Civil Aeronautics Administration approval of his safety belts. Aircraft manufacturers may also obtain approval of safety belts as part of their aircraft design. Such belts shall comply with the strength and performance requirements for safety belts stated herein, and the approval thereof will be recognized by all Civil Aeronautics Administration representatives.

(b) *Directive*—(1) *Provision.* (i) The strength and performance requirements for safety belts as set forth in sections 3.1, 4.1 and 4.3 of National Aircraft Standards Specification NAS 802, Revision 1, dated May 15, 1950,[1] stated below, are hereby, established as minimum safety standards for safety belts intended for use in civil aircraft, except that, for the purpose of this Technical Standard Order, the strengths specified in 4.1.1. are hereby amended to read 1500 pounds and 3000 pounds, respectively, instead of 3000 pounds and 6000 pounds.

1. *Applicable specifications.*

1.1 The latest issue and amendment of the following documents are made a part of this specification by reference to the applicable sections hereinafter noted.

[1] Copies may be obtained from the American Aeronautical Forum, 527 Washington Loan and Trust Building, Washington 4, D. C.

1.1.1 *Aeronautical Materials Specifications (SAE).* AMS 3852, Flame-Resistant Properties for Aircraft Materials.

2. *Types.*

2.1 This specification covers all types of safety belts for civil aircraft use.

3. *Material and workmanship.*

3.1 Materials shall be of a quality which experience and/or tests have conclusively demonstrated to be suitable for use in aircraft safety belts. Workmanship shall be consistent with high-grade aircraft manufacturing practice.

3.1.1 *Strength of webbing materials.* The rated minimum breaking strength of the webbing to be used in belts shall be at least 50% greater than the rated strength of the complete belt assembly as specified in section 4.1.1 when tested under standard test conditions (see 4.3.1.2).

3.1.2 *Age of webbing.* No webbing which is more than six (6) months old from date of weaving shall be used in the manufacture or fabrication of a safety belt assembly unless the webbing has been retested in accordance with section 4.3.1.2.

3.1.3 *Protection.* All portions of the belt assembly shall be protected against deterioration or loss of strength in service due to weathering, corrosion, abrasion from sharp corners, or other causes where the type of material requires such protection. Belt webbing which is subject to effects of mildew shall be treated against mildew.

3.1.4 *Fire precaution.* The webbing and all other materials used in the belt assembly shall have flame-resistant properties as specified by Aeronautical Material Specification AMS 3852.

4. *Detail requirements.*

4.1 *Design.*

4.1.1 *Rated strength of belt assembly.* The safety belt assembly, intended for use with a seat designed for single occupancy, including webbing, release mechanism, and all parts integral with the belt which are necessary for installing the belt, shall be designed to withstand at least a 3000 pound load applied in alignment with the anchored belt according to the test requirements specified in section 4.3.2.1. If designed for double occupancy, the rated strength shall be increased to at least 6000 pounds. The rated strength of the safety belt assembly shall be suitably marked upon each half of the safety belt assembly.

4.1.2 *Safety belt release mechanism.* The safety belt assembly shall be adjustable and shall include an easily operable quick-release mechanism which will enable the wearer to release himself easily under a load simulating the wearer hanging in the belt after an application of a load that will impose a tensile loading on the belt webbing at least equal to the rated strength of the belt assembly as defined in section 4.1.1.

4.1.3 *Width of webbing.* The width of the safety belt webbing shall not be less than 2 inches.

4.2 *Marking.* Each half of the belt assembly shall have legibly and permanently marked on or attached to it a nameplate or identification label bearing the following information:

Manufacturer's name.
Model number or model name.
Date of manufacture of the safety belt assembly (note section 3.1.2).
Rated strength of safety belt assembly.
National Aircraft Standard Number (NAS 802).

4.3 *Qualification tests.*

4.3.1 *Webbing tests.*

4.3.1.1 *Flame resistance test.* Specimens of the belt webbing shall pass the tests outlined in AMS 3852, Flame-Resistant Properties of Aircraft Material.

4.3.1.2 *Tensile test; rated minimum breaking strength.* After all special finishing processes which may be required have been accomplished to provide for mildew and flame resistance, three samples of webbing shall be prepared for testing. It is desirable that the three samples be taken at random from different rolls or lots of the type of webbing intended to be used in the manufacture of the safety belt being tested. The tests shall be conducted when each sample is in moisture equilibrium with an atmosphere having a relative humidity of 65% and a temperature of 70° F. A tolerance of plus or minus 2% is permitted in relative humidity and plus 10° F. in temperature. The samples shall be tested in a suitable textile testing machine acceptable to the manufacturer. The samples shall be mounted in the machine when the heads are 10 inches apart. The heads shall separate at the rate of 4 inches per minute maximum under no load. Each test sample of the webbing shall withstand a load at least equal to its rated minimum breaking strength without failure for at least three seconds.

4.3.2 *Complete belt assembly tests.*

4.3.2.1 *Tensile test; rated strength.* Three identical samples of a safety belt assembly shall be tested to determine the rated strength. If the design incorporates adjustment adapters, the adapters shall be positioned approximately halfway between the buckle and the end fittings. If a cam-type buckle is used, about 10 inches of the free end of the webbing shall extend beyond the cam when the latch is in the locked position. The tests may be conducted under prevailing atmospheric conditions. The ends of the assembly shall be attached to the stationary and movable heads of the testing machine by means of adequate fittings. The heads shall separate at the rate of 4 inches per minute maximum under no load. The buckle shall be in a locked position and the entire assembly should be in axial alignment with the heads of the testing machine. All precautions shall be taken to prevent eccentric loading. Each sample shall be pulled at least to the load designated in 4.1.1 as the rated strength. After removal of the load, the webbing and stitching shall show no signs of failure or weakening and the metal components shall show no permanent deformation which will result in malfunctioning of the belt assembly. The total slippage in the adjusting arrangement or the quick-release mechanism shall not exceed 1 inch.

4.3.2.2 *Functional test; release mechanism.* At least three identical samples of a safety belt assembly shall be tested to determine the functional characteristics of the quick-release mechanism. (NOTE.—It is desirable that the sample safety belts used in performing the tensile tests for rated strength be used in this test. However, the samples may be new, untested assemblies if desired by the test witnesses.) The safety belt assemblies shall be adjusted to approximately 36 inches in length, this distance being measured from the bolt hole in one end fitting to the bolt hole in the other.

Each safety belt sample in turn shall then be tested in a test jig, the end fittings being attached to jig anchorage fittings located 20 inches apart horizontally and so positioned as to suspend the belt in a vertical plane. It shall be possible to apply the required loading vertically downward through a 6-inch thick semicircular wooden form having a radius of not more than 8 inches. The curved portion of this test form may provide a cut-out to accommodate the belt buckle and may have installed on it padding to simulate the wearer's clothes. The tests may be conducted under prevailing atmospheric conditions.

A static load of 1.9 times the rated strength of the belt assembly shall be applied to the belt assembly through the wooden form for a one- or two-person belt and then relieved to 250 pounds for a one-person belt or 500 pounds for a two-person belt.

The quick-release mechanism shall then be operable at no more than a 45-pound pull applied in the direction which would normally actuate the release. The latter measurement may be taken by using a small precision hand scale. After removal of the loads, the quick-release mechanism shall show no signs of failure or sufficient permanent deformation to prevent the operation of the release. The total slippage in the adjusting arrangement or the quick-release mechanism shall not exceed 1 inch.

(2) *Application.* (i) Safety belts complying with the specifications appearing in this section are hereby approved for all civil aircraft. Safety belts already approved by the Administrator may continue to be installed in aircraft except that (a) all safety belts installed in aircraft manufactured on or after January 1, 1951, and (b) all safety belts installed as original or replacement equipment in aircraft on or after July 1, 1951, shall be safety belts which comply with the strength and performance requirements of this Technical Standard Order.

(c) *Specific instructions*—(1) *Marking.* (i) In addition to the identification required in the referenced specification, except that the NAS specification number NAS 802 is not required, each half of each safety belt shall be permanently marked with the Technical Standard Order designation, CAA-TSO-C22, to identify the safety belt as meeting the requirements of this section in accordance with the manufacturer's statement of conformance outlined below. This identification will be accepted by the Civil Aeronautics Administration as evidence that the established minimum safety requirements for safety belts have been met.

(2) *Data requirements.* (i) None.

(3) *Effective date.* (i) After July 1, 1950, specifications contained in this section will constitute the basis for Civil Aeronautics Administration approval of safety belts for use in certificated aircraft.

(4) *Deviations.* (i) Requests for deviation from, or waiver of, the requirements of this section, which affect the basic airworthiness of the component, should be submitted for approval by the Chief, Aircraft Division, Office of Aviation Safety, Civil Aeronautics Administration. These requests should be addressed to the nearest Regional Office of the Civil Aeronautics Administration, Attention: Chief, Aircraft Division.

(5) *Conformance.* (i) The manufacturer shall furnish to the Civil Aeronautics Administration, Aircraft Division, Attention: W-298, Washington 25, D. C., a written statement of conformance signed by a responsible official of his company, setting forth that the safety belts to be produced by him meet the minimum safety standards established in this section. Immediately thereafter, distribution of the safety belts conforming with the terms of this section may be started and continued.

(ii) The prescribed identification on the safety belts does not relieve the aircraft manufacturer or owner of responsibility for the proper installation of the safety belts in his aircraft, nor waive any of the requirements concerning type certification of the aircraft in accordance with existing Civil Air Regulations.

(iii) If complaints of nonconformance with the requirements of this section are brought to the attention of the Civil Aeronautics Administration, and investigation indicates that such complaints are justified, the Administrator will take appropriate action to restrict the use of the product involved.

(iv) Copies of this Technical Standard Order and other Technical Standard Orders may be obtained from the Civil Aeronautics Administration, Aviation Information Office, Washington 25, D. C.

23. Section 514.23 shall read as follows:

§ 514.23 *Technical Standard Order C23: "Parachutes"*—(a) *Introduction.* (1) Under section 601 of the Civil Aeronautics Act of 1938, as amended, and Parts 3, 4a, 4b, and 15 of the Civil Air Regulations issued pursuant thereto, the Administrator of Civil Aeronautics is authorized to adopt standards for parachutes intended for use in civil aircraft. In adopting these standards, consideration has been given to existing Government and industry standards for the minimum performance and safety requirements for parachutes intended for use in civil aircraft. This Technical Standard Order is intended to serve as a criterion by which the product manufacturer may obtain Civil Aeronautics Administration approval of his parachute.

(b) *Directive*—(1) *Provision.* (i) The performance requirements for parachutes, as set forth in section 4.3 through section 4.38 of the National Aircraft Standards Specification NAS 804 dated August 24, 1949,[1] stated below, are hereby established as minimum performance standards for parachutes intended for use in civil aircraft.

1. *Applicable specifications.*
1.1 None.
2. *Types.*
2.1 This specification covers two types of man-carrying parachutes for use in certificated civil aircraft:
Standard type parachute.
Low speed type parachute (up to 150 miles per hour).
3. *Material and workmanship.*
3.1 Materials shall be of a quality which experience and/or tests have conclusively demonstrated to be suitable for use in parachutes. Workmanship shall be consistent with high-grade parachute manufacturing practice.
3.1.1 *Canopy material.* The fabric used in the canopy construction shall be free from harmful gums, starches and other foreign material. It shall also be free from avoidable imperfections in manufacture and from defects or blemishes affecting its strength or durability and shall have been finished without application of excessive heat. The canopy material shall have sufficient resilience to insure proper opening of the canopy under conditions outlined in 4.3.5.
3.1.2 *Fitting materials.* Fittings shall be fabricated from carbon steel, alloy steel, or corrosion-resisting material. Fittings made from metals that are not corrosion-resisting shall be plated or otherwise protected, to resist corrosion during the normal life of the parachute. The use of dissimilar metals, especially brass, copper, or steel in intimate metal-to-metal contact with aluminum or aluminum alloy, shall be avoided, wherever possible.
4. *Detail requirements.*
4.1 *Design and construction.*
4.1.1 *Fittings.* All fittings shall be designed to carry their full rated load without yielding.
4.1.2 *Suspension lines.* All suspension lines of a given model parachute shall be marked under equal tension to show points of attachment.
4.1.3 *Stitching.* Stitching shall be of a type that will not ravel when broken.
4.1.4 *Rip cord.* The rip cord, including joints between the handle and the release, shall be designed to withstand the tension test load of 4.3.1.
4.1.5 *Pack opening device.* No more than 22 pounds pull shall be required to cause the positive and quick functioning of the pack opening device.
4.1.6 *Harness release.* The harness shall be so constructed that the rider can release himself and drop clear in case of a water landing, but a quick-attachable or quick-releasing device between the harness and the parachute is not mandatory.
4.2 *Marking.*
4.2.1 *Pack.* The following information shall be legibly and permanently marked on or attached to the outside of the parachute pack by use of a name plate, identification label or stenciled letters:
Manufacturer's name.
Model number or model name.[1]
Parachute serial number.
Date of manufacture.
National Aircraft Standard Number (NAS804).
4.2.2 *Canopy.* Each parachute canopy shall be legibly and permanently marked, preferably adjacent to the skirt, with the same information as in 4.2.1.
4.2.3 *Harness.* The parachute model number or model name and date of manufacture shall be stenciled on all harnesses. This marking shall be placed inside the back strap of the harness or other suitable location where it will be subject to minimum of obliteration.
4.2.4 *Inspection data pocket.* Each parachute outfit shall be provided with an inner and an outer pocket for keeping a record card containing space for recording the date of repacking or repair and the rigger's name and serial number. The inner pocket shall be located in the center of the packed container, tray or frame and the outer pocket placed externally in an easily accessible position. If the inner record card can be read from the outside of the pack because of the use of transparent materials, only the inner pocket need be provided.
4.3 *Qualification tests.* 100% performance in qualification tests 4.3.1 through 4.3.8 is required.
4.3.1 *Rip cord tension test.* The rip cord, including joints between the handle and the release, shall not fail under a straight tension test load of 300 pounds applied for not less than three seconds.
4.3.2 *Pull test; pack opening device.* The pack opening device shall be tested by use of an accurate spring balance to indicate its positive and quick-functioning with no more than 22 pounds pull.
4.3.3 *Functional test (normal pack).* Twelve drops at least six of which shall be from an airplane with a 170-pound dummy man, from an altitude of not more than 500 feet. The indicated air speed at the time of release shall be 70 miles per hour. No twists shall purposely be packed in the suspension lines. The parachute must be fully open within three seconds from time of release.
4.3.4 *Functional test (twisted lines).* Five drops with a 170-pound dummy man, from an altitude of not more than 500 feet. The indicated air speed at the time of release shall be 70 miles per hour. Three twists shall purposely be packed in the suspension lines near the skirt. The parachute must be fully open within four seconds from time of release.
4.3.5 *Compressed pack test.* This test is required only when canopy materials other than pongee, silk or nylon are used (Ref. 3.1.1). Three drops with the conditions stated in 4.3.3 except that prior to the tests the parachutes completely packed shall be subjected continuously to a 200-pound weight for 400 hours and then dropped without being repacked.
4.3.6 *Strength test.*
4.3.6.1 *Standard type parachute.* Three drops with a parachute of the same type at an altitude of not more than 500 feet shall be made with a dummy weight and indicated air speed to give the equivalent of 5,000 lbs. shock load. (See Table I.) No twists shall purposely be packed in the suspension lines. The weight shall be attached to the harness. No external shock absorbers or material which may act as such shall be permitted. The parachute shall show no failure of any material.

4.3.6.2. *Low speed type parachute.* Three drops with a parachute of the same type at an altitude of not more than 500 feet shall be made with a dummy weight and indicated air speed to give the equivalent of 3,000 lbs. shock load. No twists shall purposely be packed in the suspension lines. The weight shall be attached to the harness. No external shock absorbers or material which may act as such shall be permitted. The parachute shall show no failure of any material.

4.3.7 *Live drop tests.* Two live drop tests from an airplane with a man weighing approximately 170 pounds, including the weight of an additional certificated auxiliary parachute, from an altitude of 2000 feet on a comparatively still day. The rider must suffer no discomfort from the opening shock and must be able to disengage himself, unaided from the harness after landing. For this test the standard harness may be altered to permit attachment of an auxiliary parachute provided that such alteration does not interfere with the normal operation of the parachute and harness equipment being tested.
4.3.8 *Rate of descent test.* At least six drops from an airplane with a 170-pound dummy man. The average rate of descent shall not exceed 21 feet per second for the last 100 feet under standard sea level altitude conditions. A method shall be employed for direct and accurate measurement of rate of descent for the last 100 feet, such as the use of a weighted cord or cable by which the descent may be timed from the time of ground impact of the weight to ground impact of the parachute.

(ii) Moreover, a parachute to be used as an auxiliary parachute in combination with a standard parachute shall comply with all the provisions of this section and the following:
(*a*) The auxiliary parachute shall be designed for use in combination with a specific main parachute and not for the auxiliary parachute alone.
(*b*) The rate of descent of the auxiliary parachute shall not exceed 25 feet per second and, therefore, the provisions of NAS 804 paragraph 4.3.8 do not apply.
(*c*) The auxiliary parachute and its pack shall be marked "Auxiliary Parachute".
(2) *Application.* (i) Parachutes complying with the specifications appearing in this section are hereby approved for use in civil aircraft. Parachutes approved by the Administrator prior to the effective date of this section may continue to be used.
(ii) If, within nine months after the effective date of this section, a major change is made in the type or model which requires drop testing to demonstrate that the performance characteristics of the parachute type or model are not adversely affected, the revised parachute shall meet the specifications contained herein.
(c) *Specific instructions*—(1) *Marking.* (i) In addition to the identification information required in the referenced specification, (except that the NAS 804 number is not required) each parachute shall be permanently marked with the Technical Standard Order designation, CAA–TSO–C23, to identify the parachute as meeting the requirements of this section in accordance with the manufacturers' statement of conformance outlined below. This identification will be accepted by the Civil Aeronautics Administration as evidence that the established minimum safety requirements for parachutes have been met.
(2) *Data requirements.* (i) None.
(3) *Effective date.* (i) After October 10, 1950, specifications contained in this Order will constitute the basis for Civil Aeronautics Administration approval of parachutes for use in civil aircraft.
(4) *Deviations.* (i) Requests for deviation from, or waiver of, the requirements of this section, which affect the basic airworthiness of the component, should be submitted for approval by Chief, Aircraft Division, Office of Aviation Safety, Civil Aeronautics Administration. These requests should be addressed to the nearest Regional Office of the Civil Aeronautics Administration, Attention: Chief, Aircraft Division.
(5) *Conformance.* (i) The manufacturer shall furnish to the Civil Aeronautics Administration, Aircraft Division, Attention: W–298, Washington 25, D. C., a written statement of conformance signed by a responsible official of his company, setting forth that the parachutes to be produced by him meet the minimum safety requirements established in this section. Immediately thereafter distribution of the parachutes conforming with the terms of this section may be started and continued.
(ii) If complaints of nonconformance with the requirements of this section are brought to the attention of the Civil Aeronautics Administration, and investigation indicates that such complaints are justified, the Administrator will take appropriate action to restrict the use of the product involved.
(iii) Copies of this Technical Standard Order and other Technical Standard Orders may be obtained from the Civil Aeronautics Administration, Aviation Information Office, Washington 25, D. C.

24. Section 514.24 shall read as follows:

§ 514.24 *Technical Standard Order C24: "Landing Flares"*—(a) *Introduction.* (1) Under section 601 of the Civil Aeronautics Act of 1938, as amended, and Parts 3, 4a, 4b, 6 and 15 of the Civil Air Regulations issued pursuant thereto, the Administrator of Civil Aeronautics is authorized to adopt standards for landing flares intended for use in civil aircraft. In adopting these standards, consideration has been given to existing Government and industry standards for the minimum performance requirements for landing flares intended for use in civil aircraft. This Technical Standard Order is intended to serve as a criterion by which the product manufacturer may obtain Civil Aeronautics Administration approval of his landing flares.
(b) *Directive*—(1) *Provision.* (i) The performance requirements for landing flares as set forth in sections 4.1 and 4.3 of National Aircraft Standards Specification NAS 805 dated February 15, 1950,[1] stated below, are hereby established as minimum performance requirements for landing flares intended for use in civil aircraft.

1. *Applicable specifications.*
1.1 None.
2. *Types.*
2.1 This specification covers four types of landing flares suitable for use in certificated civil aircraft.
Class 1.
Class 1A.
Class 2.
Class 3.
3. *Material and workmanship.*
3.1 Materials shall be of a quality which experience and/or tests have conclusively demonstrated to be suitable for use in landing flares. Workmanship shall be consistent with high-grade landing flare manufacturing practice.
3.2 The flare body should be so sealed as to reduce to a minimum deterioration of the ignition element and to increase, insofar as possible the service life of the unit. All metal parts should be suitably protected against corrosion. All fabric except nylon material should be mildew-proofed.
4. *Detail requirements.*
4.1 *Design and construction.*
4.1.1 *Light duration.* Flares shall have a minimum light duration as follows:
Classes 1 and 1A—3 minutes.
Class 2—1½ minutes.
Class 3—1 minute.
4.1.2 *Light intensity.* Flares shall have a minimum light intensity as follows:
Classes 1 and 1A—300,000 candlepower.
Class 2—110,000 candlepower.
Class 3—70,000 candlepower.
4.1.3 *Rate of descent.* Flares shall have an average rate of descent not greater than 550 feet per minute.
4.1.4 *Delaying fuse.* Class 1A flares shall incorporate a 90 second plus or minus 10 seconds delaying fuse.
4.1.5 *Firing cord.* Flares incorporating a manual firing cord actuating cable shall have cord length not less than 20 feet.
4.2 *Marking and instructions.*
4.2.1 Each flare shall carry the following information legibly marked on or attached to the flare and the flare container:
Manufacturer's name.
Model number or model name.
Instructions for installation procedures and safety precautions.
Date of manufacture (month and year).
National Aircraft Standard Number NAS 805.
4.3 *Qualification tests.* The following qualification tests shall be conducted.
4.3.1 *Functional tests.* Five flares of each model shall be installed in an airplane according to the manufacturer's instructions and shall be dropped from an altitude adequate to insure complete burning of the flare prior to ground contact.
4.3.1.1 In the event that there is one failure out of the five flares subjected to the functional tests, five additional flares shall be subjected to the functional tests.
4.3.1.2 Failure of two or more flares out of the ten dropped shall be sufficient grounds for rejection. The flare model will be considered to be satisfactory only if all five original flares function satisfactorily or in the event of one failure in the original five, if the second five function satisfactorily.

(2) *Application.* (i) Landing flares complying with the specifications appearing in this Technical Standard Order are hereby approved for use in all aircraft. Landing flares already approved by the Administrator may continue to be installed in aircraft.
(ii) If an installation change involving a new type or model landing flare is made within nine months after the effective date of this section, previously approved types of landing flares may be installed. However, in any such change made after the nine-month period, new types of landing flares installed in aircraft shall meet the specifications contained herein.
(c) *Specific instructions*—(1) *Marking.* (i) In addition to the identification information required in the referenced specification, except that the NAS 805 number is not required) each flare shall be permanently marked with the Technical Standard Order designation, CAA–TSO–C24, to identify the landing flare as meeting the requirements of this section in accordance with the manufacturers' statement of conformance outlined below. This identification will be accepted by the Civil Aeronautics Administration as evidence that the established minimum safety requirements for landing flares have been met.

[1] Special designation or identification of low speed type parachutes must be indicated on the outside pack by stenciling in red letters one inch high the following: "Low Speed Parachute" and in red letters one-half inch high, "Limited to Use in Airplane Under 150 MPH."

[1] Copies may be obtained from the American Aeronautical Forum, 527 Washington Loan and Trust Building, Washington 4, D. C.

(2) *Data requirements.* (i) None.

(3) *Effective date.* (i) After October 10, 1950, specifications contained in this section will constitute the basis for Civil Aeronautics Administration approval of landing flares for use in civil aircraft.

(4) *Deviations.* (i) Requests for deviation from, or waiver of, the requirements of this section, which affect the basic airworthiness of the component, should be submitted for approval by the Chief, Aircraft Division, Office of Aviation Safety, Civil Aeronautics Administration. These requests should be addressed to the nearest Regional Office of the Civil Aeronautics Administration, Attention: Chief, Aircraft Division.

(5) *Conformance.* (i) The manufacturer shall furnish to the Civil Aeronautics Administration, Aircraft Division, Attention: W–298, Washington 25, D. C., a written statement of conformance signed by a responsible official of his company, setting forth that the landing flares to be produced by him meet the minimum safety standards established in this section. Immediately thereafter distribution of the landing flares conforming with the terms of this section may be started and continued.

(ii) The prescribed identification on the landing flares does not relieve the aircraft manufacturer or owner of responsibility for the proper installation of the landing flares in his aircraft, nor waive any of the requirements concerning type certification of the aircraft in accordance with existing Civil Air Regulations.

(iii) If complaints of nonconformance with the requirements of this section are brought to the attention of the Civil Aeronautics Administration, and investigation indicates that such complaints are justified, the Administrator will take appropriate action to restrict the use of the product involved.

(iv) Copies of this Technical Standard Order and other Technical Standard Orders may be obtained from the Civil Aeronautics Administration, Aviation Information Office, Washington 25, D. C.

25. Section 514.25 shall read as follows:

§ 514.25 *Technical Standard Order C25: "Aircraft Seats and Berths"*—(a) *Introduction.* (1) Under section 601 of the Civil Aeronautics Act of 1938, as amended, and Parts 3, 4a and 4b of the Civil Air Regulations issued pursuant thereto, the Administrator of Civil Aeronautics is authorized to adopt standards for seats and berths intended for installation in civil aircraft. In adopting these standards, consideration has been given to existing Government and industry standards for the minimum strength and performance requirements for seats and berths intended for use in civil aircraft. This Technical Standard Order is intended to serve as a criterion by which the product manufacturer may obtain Civil Aeronautics Administration approval of seats and berths. Aircraft manufacturers may also obtain approval of seats and berths as part of their aircraft design and should include them on the aircraft drawings. Such seats and berths shall comply with the strength and performance requirements for seats and berths stated herein, and approval thereof will be recognized by all Civil Aeronautics Administration representatives.

(b) *Directive*—(1) *Provision.* (i) The performance requirements as set forth in section 3, subsections 4.1.1, 4.1.2, 4.1.3 and 4.1.5 and section 4.3 of National Aircraft Standards Specification 806 dated April 1, 1950,[1] stated below, together with provisions and exceptions noted below are hereby established as minimum safety standards for seats and berths intended for use in all civil aircraft except rotorcraft.

1. *Applicable specifications.*

1.1 The latest issue and amendment of the following documents are made a part of this specification by reference to the applicable sections hereinafter noted.

1.1.1 *CAA Safety Regulation Release No. 259,* "Compliance of Equipment and Materials Used in Air Carrier Aircraft with Fire Prevention Requirements".

2. *Types.*

2.1 This specification covers all types of crew and passenger seats and berths for civil aircraft use in the following categories:

Type I. Transport.

Type II. Normal—Utility.

Type III. Acrobatic.

3. *Material and workmanship.*

3.1 Materials shall be of a quality which experience and/or tests have conclusively demonstrated to be suitable for use in aircraft seats and berths. Workmanship shall be consistent with high-grade aircraft manufacturing practice.

3.1.1 *Protection.* All members of the structure shall be suitably protected against deterioration or loss of strength in service due to weathering, corrosion, abrasion or other causes where the type of material requires such protection.

3.1.2 *Fire precaution.* The covering and upholstery and all other exposed material used in the seat or berth shall have flame-resistant properties as specified by CAA Safety Regulation Release No. 259. If ashtrays are installed in, or attached to, the seat or berth, they shall be of a self-contained, completely removable type.

4. *Detail requirements.*

4.1 *Design.*

4.1.1 *General.* The seat shall be designed so that in any of its adjustable positions and when installed facing in a specified direction or directions, it will provide protection for the occupant in a manner compatible with the function for which the seat is designed, i. e., pilot, cabin attendant, check pilot, passenger, and the like.

4.1.2 *Strength.* All seats and berths intended for single occupancy shall be designed for the ultimate loads specified in Table I to which occupants are subjected. The loads shall be considered as acting separately and shall be based on a passenger weight of 170 pounds for Type I and 190 pounds (includes parachute) for Types II and III. The sideward, upward and downward loads, as specified in Table I, are the minimums corresponding to flight and ground load conditions prescribed in the applicable Civil Air Regulations. The forward loads correspond to the emergency conditions prescribed in the applicable Civil Air Regulations. For seats intended for multiple occupancy the loads must be increased accordingly. Ultimate loads are 1.5 times the limit loads.

TABLE I

Force direction	Type I	Type II [1]	Type III
Forward	1,020 pounds (6.0 g)	1,710 pounds (9.0 g)	1,710 pounds (9.0 g).
Sideward	255 pounds (1.5 g)	285 pounds (1.5 g)	285 pounds (1.5 g).
Upward	340 pounds (2.0 g)	570 pounds (3.0 g)	855 pounds (4.5 g).
Downward	765 pounds (4.5 g)	1,254 pounds (6.6 g)	1,710 pounds (9.0 g).

[1] Civil Air Regulations require use of parachute in utility category aircraft operated in acrobatic flight when carrying passengers.

4.1.2.1 *Ultimate load strength.* The seat or berth in any of its adjustable positions while installed, facing in a specified direction or directions, when occupied by maximum number of occupants, shall be capable of withstanding ultimate loads without failure for at least three (3) seconds.

4.1.2.2 *Limit load strength.* The seat or berth in any of its adjustable positions shall be capable of withstanding the limit loads without suffering detrimental permanent deformation. At all loads up to these limit loads the deformation shall be such as not to interfere with safe operation of the airplane. (Note: this limit load requirement is not applicable to the forward loading since it is an emergency condition).

4.1.3 *Safety belt anchorages.* When anchorages for safety belts are provided they shall be of a type which will permit self-aligning of the belt and fitting.

4.1.4 *Shoulder harness anchorages.* When anchorages for shoulder harneses are provided, they shall be so located as to ensure they will be above the shoulder level of the occupant.

4.1.5 *Projections.* The surfaces of the seat shall be free fom sharp edges or any projections which may chafe the safety belt or harness webbing. Projections, sharp corners, and other hazardous features, against which occupants may be thrown during a crash, shall be avoided insofar as possible. Any unavoidable features of this nature shall be adequately padded.

4.2 *Marking.* Each seat or berth shall be legibly and permanently marked with the following information:

Manufacturer's name.
Model number or model name.
Seat type.
Serial number or date of manufacture.
National Aircraft Standard Number (NAS ----).

4.3 *Qualification tests.* Tests shall be conducted as necessary to demonstrate the following: (a) that seats or berths manufactured in accordance with this specification are capable of supporting the limit loads without detrimental permanent deformation; (b) that, at all loads up to limit loads, the deformation shall be such as not to interfere with the safe operation of the aircraft; and (c) that the structure is capable of supporting the ultimate loads specified herein without failure for at least 3 seconds.

4.3.1 *Detail qualification test requirements.* The seat or berth shall be loaded in tests such that the loads imposed on the seat or berth by the occupant(s) in conjunction with the safety belt or belts and their attachments are accurately simulated by means of a block or frame or dummy, said block or frame or dummy being restrained in the seat or berth by the belt or belts attached to their fittings. The tests may be conducted in a jig simulating installation conditions.

4.3.1.1 When a seat or berth is to be installed or adjusts to face in other than the forward direction, sufficient tests shall be made to substantiate the seat strength for all intended positions.

4.3.1.2 When testing for a particular load condition of a vertically or horizontally adjustable seat, the most critical seat position associated with that load shall be used for the test.

4.3.1.3 Where the safety belt or belts or harness are not attached to the seat or berth structure, the seat or berth shall be tested for the loads which would be imposed on such installation.

4.3.2 *Flame-resistance test of seat covers.* Specimens of the seat covering and upholstery shall meet the tests outlined in CAA Safety Regulation Release No. 259.

(a) In complying with sub-section 4.1.1, Type II and Type III seats shall be designed to accommodate passengers wearing parachutes, except that Type II seats designed specifically for Normal Category Aircraft need not comply with this requirement but shall be identified in the marking required by the section on "Marking" of this section as "For Normal Category Aircraft Only."

(b) The ultimate loads corresponding to the aircraft reduced weight gust load factor or the airplane designer's special requirements may exceed the ultimate down loads for Type I and Type II seats specified in sub-section 4.1.2 of NAS 806. For the purpose of this section, in order to provide for such loading conditions, the ultimate down loads specified in table I of 4.1.2 for Type I and Type II seats shall be 1,000 pounds (6g) and 1,330 (7 g) pounds, respectively, instead of 765 pounds and 1,254 pounds.

(c) To insure that pilot and co-pilot seats will provide for the rearward loads resulting from the application of pilot forces to the flight controls, such seats shall withstand the following rearward loads:

Type I seats— 450 pounds.
Type II and Type III seats—300 pounds for aircraft weighing 5,000 pounds or under, and 450 pounds for aircraft weighing over 5,000 pounds.

The loads shall be applied 8 inches above the intersection of the seat back with the seat bottom.

(d) The weight of the seat or berth times the appropriate "g" value shall be added to the design ultimate loads specified in 2 above and in sub-section 4.1.2 of NAS 806.

(e) For the purpose of this section, 4.3. (c) of NAS 806 should read: "that the structure is capable of supporting without failure for at least 3 seconds the ultimate loads specified in this section when applied separately."

(2) *Application* (i) Seats and berths complying with the specifications appearing in this section are hereby approved for all civil aircraft, except rotorcraft. Seats and berths already approved by the Administrator prior to the effective date of this Order may continue to be installed in aircraft for which they were approved, and installed in aircraft:

(a) For which an application for original type certificate is made prior to the effective date of this section;

(b) The prototype of which is flown within one year after the effective date of this section, and

(c) The prototype of which is not flown within one year after the effective date of this section if due to causes beyond the applicant's control.

(ii) If a major alteration, involving a change in type or model of seat or berth, is made in the installation within nine months after the effective date of this section previously approved seats and berths may be installed. However, in any such change made after the nine-month period, new seats or berths installed in aircraft shall meet the specifications contained herein.

(c) *Specific instructions*—(1) *Marking.* (i) In addition to the identification required in section 1 of the directive of this section and in section 4.2 of Specification NAS 806, except that the number NAS 806 is not required, each seat and berth shall be permanently marked with the Technical Standard Order designation CAA–TSO–C25, to identify the seat and berth as meeting the requirements of this section in accordance with the manufacturer's statement of conformance outlined below. This identification will be accepted by the Civil Aeronautics Administration as evidence that the established minimum safety requirements for seats and berths have been met.

(2) *Data requirements.* (i) None.

(3) *Effective date.* (i) After January 1, 1951, specifications contained in this section will constitute the basis for Civil Aeronautics Administration approval of seats and berths for use in certificated aircraft.

(4) *Deviations.* (i) Requests for deviation from, or waiver of, the requirements of this section, which affect the basic airworthiness of the component, should be submitted for approval by the Chief, Aircraft Division, Office of Aviation Safety, Civil Aeronautics Administration. These requests should be addressed to the nearest Regional Office of the Civil Aeronautics Administration, Attention: Chief, Aircraft Division.

(5) *Conformance.* (i) The manufacturer shall furnish to the Civil Aeronautics Administration, Aircraft Division, Attention: W–298, Washington 25, D. C., a written statement of conformance signed by a responsible official of his company, setting forth that the seats and berths to be produced by him meet the minimum safety standards established in this section. Immediately thereafter, distribution of the seats and berths conforming with the terms of this section may be started and continued.

(ii) The prescribed identification on the seats and berths does not relieve the aircraft manufacturer or owner of responsibility for the proper installation of the seats and berths in his aircraft, nor waive any of the requirements concerning type certification of the aircraft in accordance with existing Civil Air Regulations.

(iii) If complaints of nonconformance with the requirements of this section are brought to the attention of the Civil Aeronautics Administration, and investigation indicates that such complaints are justified, the Administrator will take appropriate action to restrict the use of the product involved.

(iv) Copies of this Technical Standard Order and other Technical Standard Orders may be obtained from the Civil Aeronautics Administration, Aviation Information Office, Washington 25, D. C.

This part shall become effective upon publication in the FEDERAL REGISTER.

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 526—INDUSTRIES OF A SEASONAL NATURE

DETERMINATION OF GRADING, STAPLING, AND CLASSIFICATION OF COTTON FOR ORIGINAL PRODUCER IN MEMPHIS, TENN., AS INDUSTRY OF SEASONAL NATURE

An application was filed by the Lytle McKee Cotton Company and other cotton factors in Memphis, Tennessee, for a determination that the branch of the cotton industry engaged in the grading, stapling, and classification of cotton for the original producer is an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938 (52 Stat. 1063; 29 U. S. C. 207 (b) (3)) and the regulations contained in this part.

It appeared from such application that:

(1) There is a branch of the cotton industry in Memphis, Tennessee, which is engaged in the grading, stapling, and classification of cotton for the original producer.

(2) Cotton is harvested from September through November each year and ginned during the approximate period from September through January.

(3) Cotton factors, who are located in Memphis, Tennessee, receive cotton, constituting samples of gin bales of cotton, for grading, stapling, and classification for the original producer during the period of approximately five months when ginning operations are performed.

(4) This branch of the cotton industry engages in the handling of cotton during a season occurring in a regularly, annually recurring part of the year. During the remainder of the year cotton factors cease operations, apart from work such as maintenance, repair, clerical and sales work because, owing to climatic or other natural conditions, cotton, in the form in which it is handled by this branch of the cotton industry, is not available.

On December 22, 1950, upon consideration of the facts stated in the application, the Administrator determined, pursuant to § 526.5 (b) (2) of this part, that a prima facie case had been shown for finding that the cotton factor branch of the cotton industry in Memphis, Tennessee, constitutes an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938 and § 526.3 (a) of this part. This preliminary determination was published in the FEDERAL REGISTER on December 28, 1950 (15 F. R. 9357) and interested persons were given

15 days from such date to file objections or a request for a hearing.

No objection or request for hearing has been received within the said 15 days.

Accordingly, pursuant to § 526.5 (b) (2) of the regulations contained in this part, the Administrator hereby finds that the cotton factor branch of the cotton industry in Memphis, Tennessee, constitutes an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938 and the regulations contained in this part.

As used herein, the term "cotton factor branch of the cotton industry in Memphis, Tennessee," includes that branch of the cotton industry in Memphis, Tennessee, which is engaged in the following activities for the account and on behalf of the original producer: The receiving of samples of gin bales of cotton, the grading, stapling, and classification of the cotton, the subsequent marketing of the baled cotton represented by the samples, and any operations or services necessary or incident to the foregoing, during the period or periods when the cotton is being received.

This determination shall become effective upon publication in the FEDERAL REGISTER.

Signed at Washington, D. C., this 22d day of January 1951.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

Chapter IV—Secret Service, Department of the Treasury

PART 404—FILM RECORDATION OF UNITED STATES AND FOREIGN OBLIGATIONS OR OTHER SECURITIES

FILM RECORDS OF U. S. SECURITIES, CHECKS, WARRANTS AND PAPER MONEY

1. The headnote of Part 404 is amended to read as set forth above.

2. Section 404.1 is amended to read as follows:

§ 404.1 (a) *Film records of United States securities, checks, warrants and paper money.* Authority is hereby given to all banks and banking institutions, to members of established stock exchanges, and to investment bankers and dealers in Government securities having membership in the Investment Bankers Association or the National Security Dealers Association, who in the ordinary course of business handle securities, checks, warrants, or paper money of the United States, to make film records thereof and to project such film records on a screen: *Provided,* That the film records are maintained as confidential.

(b) *Film records of foreign obligations.* Authority is hereby given to the corporations, associations, partnerships, and individuals in the classes set forth in paragraph (a) of this section, who in the ordinary course of business handle notes, bonds, obligations, or other securities of any foreign government, bank, or corporation, to make film records thereof and to project such film records on a screen: *Provided,* That the film records are maintained as confidential.

(c) *Other reproductions.* No prints, enlargements, or other reproductions of any film records authorized by this section shall be made except with the permission of the Secretary of the Treasury, the Treasurer of the United States, the Commissioner of the Public Debt, or the Chief of the Secret Service Division, or such officers as may be designated by them.

(d) *Film record as evidence of ownership.* A film record made pursuant to this section establishes only that at the time the film record was made the obligation or other security was in the possession of the person making the record. A film record does not prove continued ownership, which ownership as well as proof of destruction must be established to the satisfaction of the Secretary of the Treasury before a duplicate security will be issued pursuant to section 8 of the act of July 8, 1937, as amended (31 U. S. C. 738a).

(Sec. 1, 62 Stat. 706, 708; 18 U. S. C. Sup., 474, 481. Interprets or applies sec. 8, 50 Stat. 481, as amended; 31 U. S. C. 738a)

SUBPART C—DISTRIBUTION OF ALUMINUM SCRAP

Correction

In Federal Register Document 51-846, appearing at page 392 of the issue for Tuesday, January 16, 1951, the following corrections are made in List A:

1. The address for Northwestern Iron and Metal Co. should read "900 'I', Lincoln (1), Nebr."

2. The name "Temke Aluminum Co., Inc." should read "Tomke Aluminum Co., Inc."

[NPA Order M-30]

PART 34—TUNGSTEN

This order is found necessary and appropriate to promote the national defense and is issued pursuant to the authority of section 101 of the Defense Production Act of 1950.

In the formulation of this order, there has been consultation with industry representatives, and consideration has been given to their recommendations. However, consultation with representatives of all trades and industries affected in advance of the issuance of this order has been rendered impracticable by the fact that the order affects a large number of different trades and industries.

AUTHORITY: §§ 34.1 to 34.15 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong.; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105.

§ 34.1 *What this part does.* The purpose of this part is to conserve and provide for an equitable distribution of tungsten, so as best to serve the interests of the national defense program and the highly essential non-defense requirements. It prohibits the use of tungsten in the manufacture of certain specified products and also those in which substitute materials may be used. It establishes limitations on additions to inventory, and makes tungsten subject to allocation. It prohibits, subject to limited exceptions, deliveries of tungsten not specifically allocated by authorizations to be issued monthly by the NPA, and provides for authorization for use under certain conditions.

§ 34.2 *Relation to other regulations.* The provisions of this part supersede all other NPA regulations and orders to the extent that they are in conflict herewith, but in all other respects, such regulations and orders remain applicable to tungsten. In particular Part 11 of this chapter (NPA Regulation 2) continues to apply to tungsten, but deliveries on DO rated orders, as well as on any other orders, may be made only in accordance with allocation authorizations issued by NPA, except as otherwise provided in this part. The NPA may, from time to time, issue directives as to deliveries or use of tungsten and, unless otherwise provided therein, such directives will prevail over the provisions of this part.

§ 34.3 *Definitions.* As used in this part:

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons and includes any agency of the United States or any other government.

(b) "Manufacture" means to melt, alloy, mix, fabricate or process in any other way or to consume or otherwise employ any tungsten in the course of manufacture.

(c) "Processor" means any person who produces from ores and concentrates or from scrap or residues any chemical or metallurgical forms of tungsten for any industrial use.

(d) "Dealer" means any person who procures tungsten either by importing or from domestic sources for sale or resale without change in form, whether or not any such person receives title to or physical delivery of the material, and includes warehousemen, brokers and jobbers.

(e) "Tungsten" means and includes:

(1) The element "tungsten" in pure form as metal powder or in any shape into which the same may be fabricated;

(2) Ferro-tungsten, and other combinations of tungsten with other elements in semi-manufactured or manufactured form, prepared for consumption in the manufacture of steel, or for other purposes;

(3) All primary chemical compounds having tungsten as an essential and recognizable component;

(4) All scrap or secondary material containing commercially recoverable tungsten as defined above.

§ 34.4 *High speed steels.* (a) Effective March 1, 1951, no producer of high speed steels which contain tungsten shall schedule orders for production, nor shall he produce or ship such steel in any one month except in the following percentages of the aggregate by weight of his total production of such steel: not less than 80 percent of Class A high speed steel (6.75 percent or less tungsten content); and not more than 20 percent of Class B high speed steel (12 percent or more tungsten content).

(b) Effective as of the date of this part, no person shall place orders for delivery from individual and from all sources, in any one month of more than 20 percent of his total requirements of high speed steels containing tungsten in the form of Class B high speed steel (12 percent or more tungsten content).

(c) Effective March 1, 1951, no person shall receive, from individual and from all sources, in any one month, more than 20 percent of his total requirements of high speed steel containing tungsten in the form of Class B high speed steel (12 percent or more tungsten content).

(d) Effective March 1, 1951, no person shall place orders for or shall accept delivery of high speed steels containing tungsten except for actual use: *Provided, however,* That this prohibition shall not extend to steel distributors, but only if they place their orders for such steel pursuant to paragraph (b) of this section and receive such steel pursuant to paragraph (c) of this section.

(e) The restrictions contained in this section shall not apply to persons who use not in excess of 500 pounds of Class B high speed steel (12 percent or more tungsten content) during any quarter.

§ 34.5 *Substitution required.* Effective as of the date of the issuance of this part, no Class B high speed steel (12 percent or more tungsten content) shall be used where Class A high speed steel (6.75 percent or less tungsten content) can be substituted therefor, and in other products substitution for tungsten must be made if any substitute therefor will meet the requirements for the use to be made of such product or material. The substitution requirement hereof applies to all uses of tungsten-bearing materials, whether they are to be used to fill rated or unrated orders.

§ 34.6 *Uses prohibited.* (a) Effective March 1, 1951, no person shall use tungsten in the manufacture of pigments of any type, whether used for printing or lithographing inks, as coloring material for rubber, linoleum or other similar materials or as coloring or coating materials for paper of any kind, including wallpaper; or grinding wheels: *Provided, however,* That these prohibitions do not apply to:

(1) The use of tungsten in the manufacture of pigments for coloring employed by the United States Government in the production of currency or bonds.

(2) The use of tungsten required by any person to fill an order that is rated under the priorities system established by Part 11 of this chapter (NPA Reg. 2) or to comply with any order or directive of the NPA.

(3) The use by any person of a quantity of tungsten not in excess of fifty pounds (tungsten content) during any three months' period beginning March 1, 1951, for all purposes otherwise prohibited under this section.

(b) During February 1951, no person may use more tungsten for the purposes prohibited in paragraph (a) of this section than the average monthly amount he used for such purposes during the third calendar quarter of 1950.

§ 34.7 *Allocation authorizations required.* (a) After March 1, 1951, no person shall deliver or accept delivery of tungsten in any form as listed below in any month except in accordance with the terms of an allocation authorization issued for such month by NPA in accordance with this section. The forms of tungsten so to be the subject of allocation are as follows:

Tungsten, including the metal powders.
Ferro-tungsten and other ferrous alloys of tungsten.
Non-ferrous alloys (such as nickel tungsten, chrome tungsten, etc.)
Tungsten carbides.
Primary chemicals in which tungsten is a valuable and essential component.

(b) The NPA will, from time to time, allocate the supply of tungsten and specifically direct the manner and quantities in which deliveries to particular persons or for particular uses shall be made or withheld. Any person seeking to place a purchase order for tungsten may be required to place the same with one or more particular suppliers.

(c) An application for an allocation must be filed with the NPA by the purchaser on Form NPAF-15 and Form NPAF-22, not later than the 15th day of the month preceding the month in which delivery is sought. Such application must furnish all information required by the form.

(d) The authorization allocation (Form NPAF-22) issued will be sent by the NPA to the appropriate supplier(s) and a copy furnished to the purchaser. The authorization will require the supplier to make delivery to the extent of the purchaser's orders within the limits of the authorization. In placing his order, the purchaser shall specify the date and serial number of the applicable allocation authorization.

§ 34.8 *Exceptions from allocation requirements.* The provisions of § 34.7 shall not apply to:

(a) Deliveries to the General Services Administration for the purpose of stockpiling.

(b) Deliveries to any person whose total receipts from all sources during the current calendar month are not thereby made to exceed 25 lbs. of contained tungsten, and who delivers a signed certification to his supplier as follows:

Certified under M-30

Such certification constitutes a representation to the supplier and to the NPA that the purchaser is authorized under the provisions of this part to accept delivery of tungsten as permitted in NPA Order M-30, and that his receipt of the shipment in the amount requested during the month of specified delivery will not bring his total receipts of tungsten during that month above 25 pounds (tungsten content).

(c) Deliveries of tungsten bearing scrap, tungsten ores and concentrates by any producer, dealer, or processor.

§ 34.9 *Use authorizations required for ores and concentrates.* After March 1, 1951, no steel producer may use in any one month any tungsten ores or concentrates including beneficiated or treated forms containing commercially recognized tungsten in his electric furnace production of tungsten-bearing steels except in accordance with the terms of a use authorization issued for such month by NPA on Form NPAF 22.

If form NPAF 15 has been filed in accordance with § 34.7, only NPAF 22 need be filed with the NPA under this section by the 15th day of the month preceding the month in which such use will occur. In using the form for this purpose, Block 1 should show the month in which the tungsten ores and concentrates will be used, and Block 2 should indicate as coming from suppliers or "from own inventory."

§ 34.10 *Limitation on inventory.* No person (notwithstanding any allocation made to him) shall place an order for tungsten calling for delivery, and no person shall accept delivery of tungsten at a time when his inventory exceeds, or by acceptance of such delivery, would be made to exceed, 60 days' requirements at his then scheduled rate and method of operation, or a minimum practicable working inventory within the meaning of Part 10 of this chapter (NPA Regulation 1), whichever is less. Any person who, on the effective date of this part or at any other time, has outstanding orders for tungsten calling for delivery earlier or in quantities greater than he would be permitted to receive under this section, shall forthwith notify his supplier of the extent to which delivery cannot be accepted as scheduled, and such orders shall be adjusted accordingly. Imported as well as domestic tungsten, except when such imported tungsten has been purchased for resale, is subject to this section and so is to be included in computing inventory. Tungsten which

has been subjected to minor processing, but has not yet been actually incorporated into a finished or partially finished product, is likewise to be included in computing inventory.

§ 34.11 *Monthly reports required.* Every person who, on the first day of any calendar month, has in his possession or under his control more than 50 pounds of tungsten (as defined herein), shall report to the NPA on Form NPAF 15, on or before the 15th day of each such month. However, if he applies on such form for an allocation of tungsten for delivery during the succeeding month, his application serves also as the required report.

§ 34.12 *Records, audit, inspection and reports.* (a) Each person participating in any transaction covered by this part shall retain in his possession for at least two years records of receipts, deliveries, inventories and use, in sufficient detail to permit an audit that determines for each transaction whether the provisions of this part have been met. This does not specify any particular accounting method and does not require alteration of the system of records customarily maintained, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

(b) All records required by this part shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of NPA.

(c) Persons subject to this part shall make such records and submit such other reports to NPA as it shall require, subject to the terms of the Federal Reports Act (Pub. Law 831, 77th Cong., 5 U. S. C. 139–139F).

§ 34.13 *Adjustments and exceptions.* Any person affected by any provision of this part may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him, not suffered generally by others in the same trade or industry, or its enforcement against him would not be in the interest of the national defense or in the public interest. In considering requests for adjustment claiming that the public interest is prejudiced by the application of any provision of this part, consideration will be given to the requirements of the public health and safety, civilian defense and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing and shall set forth all pertinent facts and the nature of the relief sought and shall state the justification therefor.

§ 34.14 *Communications.* All communications concerning this part shall be addressed to the National Production Authority, Washington 25, D. C., Ref. M–30.

§ 34.15 *Violations.* Any person who wilfully violates any provision of this part or furnishes false information or conceals any material fact in the course of operation under it, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this part have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This part shall take effect on January 22, 1951.

NATIONAL PRODUCTION AUTHORITY,
[SEAL] W. H. HARRISON,
Administrator.

d. In § 127.216 *Belgium* (39 CFR 127.216) make the following changes:

1. Amend the tabulated information below the table of rates in paragraph (b) (1) to read as follows:

Weight limit: 22 pounds.
Customs declarations: 1 Form 2966.
Dispatch note: No.
Parcel-post sticker: 1 Form 2922.
Sealing: Insured parcels must, and ordinary parcels may, be sealed.
Group shipments: Limited to ordinary parcels. (See § 127.76.)
Registration: Yes. Fee, 25 cents.
Insurance: Yes (surface parcels only).
C. o. d.: No.

2. Amend paragraph (b) (2) to read as follows:

(2) *Indemnity.* See subcaption "Insurance".

3. Insert a new paragraph (b) (4a) to read as follows:

(4a) *Insurance.* (i) Surface parcels only may be insured subject to the following limits of indemnity when prepaid at the appropriate postage rates in addition to the insurance fees mentioned hereunder:

Limit of indemnity:	Fee (cents)
Not over $10	20
From $10.01 to $25	25
From $25.01 to $50	35
From $50.01 to $100	55
From $100.01 to $165	60

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

CANADA

In § 127.227 *Canada* (39 CFR 127.227; 15 F. R. 4499, 9520) make the following changes:

1. Amend paragraph (a) (15) to read as follows:

(15) *Prohibitions.* (i) Reprints of works registered in Canada. Counterfeit coins. Imitation postage stamps. Unused Canadian postage stamps. Reproductions of Canadian postage stamps unless printed in publications and, if in color, considerably magnified or reduced in size and with a defacing line drawn across each reproduction.

(ii) The articles prohibited or restricted by parcel post are likewise prohibited or restricted in the regular mails.

2. Amend paragraph (b) (6) to read as follows:

(6) *Prohibitions.* (i) Except packages of day-old chicks during the period allowed, and packages of bees, parcel-post packages will not be accepted by the Canadian authorities outside of mail sacks. Bees are prohibited to those offices in Canada which are not served by railway post offices. Therefore, mailers should ascertain from addresses in Canada in advance of mailing the manner in which the office of intended destination is served. Special-handling charges are applicable to honey bees in cages, but not to queen bees in small cages, alone or accompanied by a few workers, unless a considerable number of such cages are tied together for transportation outside of mail sacks. Shipments of bees are accepted only at the risk of senders.

(ii) Automatic, semi-automatic, or auto-loading pistols are prohibited. Military rifles require a permit from the Canadian customs for importation.

(iii) Commercial tags of metal. Prison-made goods. Plumage and skins of wild birds.

(iv) Articles so marked as to create the false impression that they were made in the United Kingdom.

(v) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

From $100.01 to $165	60

(ii) Insurance return receipt: Requested at time of mailing, 5 cents; after mailing, 10 cents. (See § 127.102 (d).)

(iii) Parcels containing coin, bank notes, currency notes, or any kind of securities payable to bearer; platinum, gold, or silver, whether manufactured or not; precious stones, jewelry, or other precious articles must be insured. If a parcel containing such articles is mailed uninsured, it shall be placed under insurance by the office which first observes the fact of its having been mailed uninsured, and treated accordingly.

(iv) Each insured parcel must have shown thereon (both in arabic figures and in roman letters spelled out in full), in United States currency and in gold francs, the amount for which the parcel is insured. (See § 127.102 (b) (5).)

(v) For further information concerning insurance service, see §§ 127.102 and 127.108.

TITLE 44—PUBLIC PROPERTY AND WORKS

Chapter V—Library of Congress

PART 501—PROCEDURES

LOANS OF LIBRARY MATERIALS FOR THE BLIND

Section 501.6, Title 44, Code of Federal Regulations, is revised to read as follows:

§ 501.6 *Loans of Library materials for the blind*—(a) *Definition of blind.* In connection with the Library's program of service under the act of March 3, 1931, as amended, entitled "An Act to Provide Books for the Adult Blind," the blind readers entitled to service under this act shall be defined as "Residents of the United States, including the several States, Territories, Insular Possessions, and the District of Columbia, sixteen years of age or older, whose visual acuity is 20/200 or less in the better eye with correcting glasses, or whose widest diameter of visual field subtends an angular distance no greater than twenty degrees." The degree of such blindness shall be certified by a duly licensed physician or ophthalmologist. The reading materials for the blind provided under the authority of the act cited above, including sound reproducers, may be loaned not only to readers who qualify under the above definition but also to institutions and schools for the use of such readers.

(b) *Loans to residents.* The Division for the Blind lends books in embossed characters and talking-book records to the adult blind under regulations and conditions of use established by the Librarian. The area to which this service is extended is limited generally to the District of Columbia, Maryland, Virginia, North Carolina and South Carolina. Inquiries by mail concerning this service should be addressed to: Chief, Division for the Blind, Washington 25, D. C.

(c) *Loans to residents temporarily domiciled abroad.* In accordance with the definition given in paragraph (a) of this section, and the intent and purpose of the Act to Provide Books for the Adult Blind Residents of the United States, its Territories, Insular Possessions, and the District of Columbia (2 U. S. C. 135a), the distributing libraries which have been designated by the Librarian of Congress to serve as local or regional centers for the circulation of such books (2 U. S. C. 135b) shall lend such book to adult blind residents of the United States, its Territories, etc., who may be temporarily domiciled outside the jurisdictions enumerated by the act. The following regulations shall govern loans of this kind.

(1) Prior to the approval of such loan to a borrower, the local or regional library shall require him to submit in writing the following:

(i) A statement of his intention to absent himself from the jurisdiction of the United States or its Territories, etc., for a temporary period;

(ii) The passport number of borrower, together with the date of issuance;

(iii) An agreement by the borrower to take necessary safeguards for protection of the loaned materials, to assume responsibility for any damage to them resulting from his negligence, and to pay all transportation charges.

(2) Embossed or talking books for the blind may be transmitted, under current International Postal Regulations, to all foreign countries at the rate of 1 cent for each 2 pounds, 3 ounces, or fraction thereof. In the event shipment is made in such manner, such articles should be endorsed "Printed Matter for the Blind (P. G. Pt. 2)" and any shipment shall not exceed 15 pounds, 6 ounces in weight.

(3) Since the authorized distributing libraries and the Library of Congress have no funds to prepay charges on loans of the character authorized by this section, transportation charges must be paid by the borrower. Accordingly, each borrower shall make an advance payment to the lending library (U. S. postage stamps are acceptable) in an amount sufficient to pay the cost of postage from the United States for materials to be loaned; and shall be responsible for paying the local postage for the return of material to the lending library.

(4) When requests for loans of the character authorized in this section are made of the Library of Congress, they shall be addressed to the Loan Division, Library of Congress, Washington 25, D. C., U. S. A.

(5) Talking book machine lending agencies are authorized to permit blind readers, residents of the United States, temporarily domiciled abroad, to take the talking book machines loaned to them when they go abroad under the same three conditions stated in subparagraph (1) of this paragraph for embossed books and talking book records.

Subchapter B—Regulations Affecting Maritime Carriers

[Rev. Gen. Order 59]

PART 221—DOCUMENTATION, TRANSFER OR CHARTER OF VESSELS

APPROVAL OF CHARTERS OF CERTAIN VESSELS TO ALIENS

General Order 59 (§ 221.7 *Approval of charters of certain vessels to aliens*) is hereby revised as set forth below. General Order 59 (10 F. R. 14969) and General Order 59, Amendment 2 (15 F. R. 6964), heretofore in effect, are superseded by this revision. Other amendments to General Order 59 were heretofore revoked (14 F. R. 829).

Section 221.7 shall read as follows:

§ 221.7 *Approval of charters of certain vessels to aliens.* (a) The Department of Commerce, Maritime Administration, hereby approves under sections 9 and 37 of the Shipping Act, 1916, as amended (52 Stat. 964; 40 Stat. 901; 46 U. S. C. 808 and 835) the charter to a person not a citizen of the United States of any vessel (including space in such vessel) documented under the laws of the United States, or the last documentation of which was under the laws of the United States, or owned in whole or in part by any person a citizen of the United States, or by a corporation organized under the laws of the United States or of any State, Territory, District or possession thereof, for a period not more than six (6) months, or for a voyage or voyages the duration of which will probably not exceed six (6) months, except:

(1) Demise or bareboat charters;

(2) A tank vessel for an ocean voyage or voyages between foreign ports, or from United States to foreign ports, excluding, however, voyages from United States or Caribbean ports to Canadian ports;

(3) For the carriage of cargoes of any kind to or from the Soviet Union, Latvia, Lithuania, Estonia, Poland, Czechoslovakia, Hungary, Rumania, Bulgaria, Albania, North Korea, the Soviet Zone of Germany, Manchuria, or Communist China;

(4) Extension or renewals of a charter approved by this section. The Maritime Administration will consider each request for such an extension or renewal on its merits.

(5) For use in the fisheries.

(b) A copy of any such charter, as executed, which is approved by this section shall be filed with the Secretary of the Maritime Administration as soon as may be practicable but in any event not later than twenty (20) days after the beginning of the charter period or within such further time as may be permitted by the Maritime Administration.

This General Order 59, Revised (§ 221.7) shall be effective as to all charters entered into on and after January 24, 1951.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 974]

[Docket No. AO 176-A8

HANDLING OF MILK IN THE COLUMBUS, OHIO, MARKETING AREA

DECISION WITH RESPECT TO A PROPOSED AMENDMENT TO THE TENTATIVE MARKETING AGREEMENT AND A PROPOSED ORDER AMENDING THE ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Columbus, Ohio, on October 10 and 11, 1950, pursuant to a notice thereof which was issued on September 29, 1950 (15 F. R. 6672).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Assistant Administrator, Production and Marketing Administration, on December 14, 1950, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in this proceeding. The notice of filing such recommended decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on December 19, 1950 (15 F. R. 9075; F. R. Doc. 50-11919).

The material issues and the findings and conclusions of the recommended decision (15 F. R. 9075; F. R. Doc. 50-11919) are hereby approved and adopted as the material issues and the findings and conclusions of this decision as if set forth in full herein.

Ruling on exceptions. In arriving at the findings and conclusions included in this decision each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions herein are at variance with the exceptions, such exceptions are overruled.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the

[1] The new chapter head note is an interim designation designed to reflect Reorganization Plan No. 21 of 1950 (15 F. R. 3178).

act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed marketing agreement and the order, as amended and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in the said marketing agreement upon which a hearing has been held.

Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Columbus, Ohio, Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Columbus, Ohio, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 19th day of January 1951.

[SEAL] C. J. McCORMICK,
Acting Secretary of Agriculture.

Order[1] *Amending the Order, as Amended, Regulating the Handling of Milk in the Columbus, Ohio, Marketing Area*

§ 974.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Columbus, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the said marketing area and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Columbus, Ohio, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. Delete § 974.51 (a) and substitute therefor the following:

(a) Add to the basic formula price the following amount for the month indicated: April, May, June, and July, $0.75; and all others, $1.10: *Provided*, That there shall be added to the price of Class I milk so computed 10 cents for any month if the percentage of the total receipts of milk from producers by all handlers during the most recent 4 months for which such information is available which was classified in Classes I and II was greater than the percentage of the total receipts of milk from producers by all handlers during the same 4 months of the period May 1949 through April 1950 which was classified in Classes I and II (Classes I, II, and III in months prior to January 1950): *And provided further*, That the price of Class I milk for any of the months of October through December, inclusive, shall not be lower than the arithmetical average of the prices computed for such class pursuant to this paragraph (prior to this proviso) for the 2 months immediately preceding and the price of Class I milk for any of the months of April through June, inclusive, shall not be higher than the arithmetical average of the prices computed for such class pursuant to this paragraph (prior to this proviso) for the 2 months immediately preceding.

2. Delete § 974.52 (a) and substitute therefor the following:

(a) Add to the basic formula price the following amount for the month indicated: April, May, June, and July, $0.35; and all others, $0.70: *Provided*, That there shall be added to the price of Class II milk so computed 10 cents for any month if the percentage of the total receipts of milk from producers by all handlers during the most recent 4 months for which such information is available which was classified in Classes I and II was greater than the percentage of the total receipts of milk from producers by all handlers during the same 4 months of the period May 1949 through April 1950 which was classified in Classes I and II (Classes I, II, and III in months prior to January 1950).

[F. R. Doc. 51-1223; Filed, Jan. 24, 1951, 8:47 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR, Part 526]

CITRUS PULP AND WASTE IN FLORIDA AND TEXAS

PRELIMINARY DETERMINATION REGARDING PROCESSING

On March 25, 1943, the Administrator of the Wage and Hour Division issued a determination (8 F. R. 3811) that the dehydration of citrus pulp and waste in the States of Florida and Texas is an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938 (sec. 7 (b) (3), 52 Stat. 1063; 29 U. S. C. 207 (b) (3)) and the regulations contained in this part.

Applications have been filed by the Citrus Processors Association, Inc., and the Luban Company, Inc., of Florida, for amendment of the aforesaid determination to include the manufacture of citrus molasses and the chemical processing of citrus peel.

It appears from the foregoing applications that:

(1) At the time the original determination was issued cattle feed was produced from citrus pulp and citrus waste by dehydration. Operations in this industry now also include the operations of (a) the manufacture of citrus molasses and (b) the chemical processing of citrus peel to preserve it for subsequent processing.

(2) The production of citrus molasses is a continuation of the processing of citrus pulp and waste into cattle feed, the perishable liquid residue of which is processed into molasses. The portion of the industry engaged in the chemical processing of citrus peel performs this processing on sectionized peel received from establishments which sectionize citrus fruit.

(3) Establishments which engage in the processing of citrus pulp and citrus waste, including the chemical processing of citrus peel to preserve it, receive the citrus pulp and waste from citrus canneries and must process it within a few hours after the juice or sections have been removed. These establishments operate during the period or periods in which the citrus canning and citrus juicing plants operate and are entirely dependent upon them for their principal raw materials. The manufacture of citrus molasses and the chemical processing of citrus peel do not lengthen the operating season of the portion of the citrus dehydrating industry heretofore determined to be of a seasonal nature.

(4) The industry in Florida and Texas engaged in the dehydrating of citrus pulp and waste, the manufacture of citrus molasses, and the chemical processing of citrus peel operates during a season occurring in a regularly, annually recurring part of the year and ceases production apart from work such as maintenance, repair, clerical and sales work during the remainder of the year because of the fact that owing to climatic or other natural conditions, the materials processed are not available in the remainder of the year in the form in which they are processed.

Accordingly, upon consideration of the facts stated in said application, the Administrator hereby determines, pursuant to §§ 526.3 (a) and 526.5 (b) (2) of the regulations contained in this part, that a prima facie case has been shown for amending the aforesaid determination of March 25, 1943 (8 F. R. 3811) to include the manufacture of citrus molasses and the chemical processing of citrus peel and changing the name of the industry from the "dehydration of citrus pulp and waste industry in Florida and Texas" to the "processing of citrus pulp and waste industry in Florida and Texas."

For purposes of this determination, "the processing of citrus pulp and waste industry in Florida and Texas" includes the following operations when performed in the States of Florida and Texas during the period or periods when citrus pulp and waste (including sectionized peel) are being received for processing: The receipt of citrus pulp and waste (including sectionized peel) for processing, the dehydration of pulp and waste and the manufacture of cattle feed and citrus molasses therefrom, the chemical processing of citrus peel to preserve it (but excluding such chemical processing when performed at an establishment which further processes preserved peel into other products), including any operations or services necessary or incident to the foregoing.

If no objection and request for hearing is received within 15 days following the publication of this preliminary determination, the Administrator, pursuant to § 526.5 (b) (2) of the regulations will make a finding upon the prima facie case. Objections and requests for hearing from any interested person should be submitted in writing to the Wage and Hour Division, Department of Labor Building, Fourteenth Street and Constitution Avenue NW., Washington 25, D. C. The application for a seasonal determination may be examined in Room 5422 at this address.

Signed at Washington, D. C., this 22d day of January 1951.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

CIVIL AERONAUTICS BOARD

[14 CFR, Part 20]

KNOWLEDGE, EXPERIENCE, AND SKILL REQUIREMENTS FOR PRIVATE PILOT RATING

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board an amendment of Part 20 of the Civil Air Regulations in substance as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. All communications received by February 28, 1951 will be considered by the Board before taking further action on the proposed rules. Copies of such communications will be available after March 2, 1951 for examination by interested persons at the Docket Section of the Board, Room 5412, Commerce Building, Washington, D. C.

Sections 20.24 through 20.26 of the Civil Air Regulations prescribe certain standards of aeronautical knowledge, experience, and skill for applicants seeking private pilot ratings. An analysis of the accidents involving private pilots for the years 1948 and 1949 which was recently conducted by the Civil Aeronautics Administration indicates an urgent need for revision of these standards. Pilot error, owing in the main to insufficient information, instruction, or experience, was shown to be the principal or contributing cause of most of the accidents. Seventy-six percent of the accidents studied involved pilots with 51 to 300 hours of flying experience. Their errors arose frequently in the course of cross-country flying while mishandling flight controls, or landing on or taking off from unsuitable terrain, or they were the result of faulty flight planning especially in reckoning with weather, faulty navigation, or violations of Civil Air Regulations.

The proposed amendments are intended to require applicants for private pilot ratings (1) to pass a more comprehensive written examination, including questions on regulations affecting the airworthiness and operation of aircraft and the reporting of accidents, and (2) to obtain special instruction and experience in dealing with the problems attendant upon cross-country flight. It is believed that, consistent with the best interests of safety, the proposed changes will serve to reduce the number of accidents caused in whole or in part by pilot error by raising the required level of competence among private pilots.

It is proposed to amend Part 20 as follows:

1. By amending § 20.24 to read as follows:

§ 20.24 *Aeronautical knowledge*—(a) *Powered aircraft.* Applicant for a powered aircraft rating shall have passed within the preceding 24 months a written examination based on Parts 1, 43, 60, and 62 of this subchapter and on practical aspects of cross-country flight planning, weather recognition and forecasting, pilotage, dead reckoning, and general safety practices in the operation of aircraft.

(b) *Glider.* Applicant for a glider rating shall have passed within the preceding 24 months a written examination based on pertinent provisions of Parts 43 and 60 of this subchapter.

2. By amending § 20.25 (a) to read as follows:

§ 20.25 *Aeronautical experience*—(a) *Powered aircraft.* Each applicant for a powered aircraft rating, whether he has obtained his flight experience in spinnable, nonspinnable, two-control, or three-control aircraft, shall have not less than 25 hours of solo flight time and 15 hours of dual instruction time given by a rated flight instructor: *Provided*, That if the applicant holds a private or commercial pilot certificate with a glider rating, he may receive credit for not more than 10 hours of the required solo flight time for equal flight time obtained in gliders. Each applicant shall in addition meet the requirements of subparagraphs (1) through (3) of this paragraph.

(1) At least 10 hours of the required solo flight time shall be cross-country flight time. Each solo cross-country flight shall include a landing at a point more than 25 miles from the point of departure, and at least one flight shall include a landing at a point more than 100 miles from the point of departure.

(2) After the applicant's first solo flight, at least 5 hours of dual instruction time shall be given in cross-country flying, of which not less than 3 hours shall be given before his first solo cross-country flight.

(3) Dual instruction time shall include instruction in the prevention of and recovery from power-on and power-off stalls entered from all normally anticipated flight attitudes.

3. By amending § 20.26 to read as follows:

§ 20.26 *Aeronautical skill.* Applicant shall meet the following requirements:

(a) *Powered aircraft.* (1) Preflight inspection, starting, taxying, and run-up check of aircraft before take-off;

(2) Planning of a cross-country flight to a specified destination, reckoning with weather conditions, fuel requirements, check points, estimated time of arrival, and available alternate airports, and accomplishing such portion of the planned flight, including change of course to an alternate airport, as is necessary to

demonstrate proficiency in cross-country flying;

(3) Straight and level flight, left and right medium banked turns, left and right climbing and gliding turns at normal and at minimum controllable speeds, and recovery from power-on and power-off stalls entered from all normally anticipated flight attitudes;

(4) Turns while maintaining a constant radius, or track, around a point, or area, including a 720° turn in each direction in a banked attitude of more than 45°;

(5) Normal and cross-wind take-offs and landings following appropriate traffic control procedures of the airport involved, using power, flaps, and slips at the applicant's discretion for assistance in landing;

(6) Simulated emergency take-offs and landings, including one short or soft-field take-off, and one landing, if in single-engine aircraft, with engine throttled and using flaps, slips, or both, for assistance; or, if in multiengine aircraft, in accordance with proper one-engine-out procedure.

(b) *Glider.* (1) At least 2 flights, one of which shall include a 360° approach to the right and one to the left, landing each time within 200 feet beyond a designated line or point;

(2) Recovery from stalls entered from all normally anticipated flight attitudes. (Stall maneuvers may be demonstrated in airplanes.)

(c) *Standards.* (1) Applicant shall exercise reasonable judgment, coordination, and smoothness in the execution of all flight maneuvers, any of which, however, may be modified or eliminated if not consistent with the characteristics of the aircraft used in the flight test and appropriate operation limitations are entered on the rating record.

(2) When the applicant's medical certificate shows a structural defect or limitation, such additional maneuvers and tests as may be necessary to demonstrate the competency of the applicant to pilot aircraft safely shall be required, and appropriate operation limitations shall be entered on the rating record.

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposed amendments may be changed in view of comments received in response to this notice of proposed rule making.

(Sec. 205 (a), 52 Stat. 984; 49 U. S. C. 425 (a). Interpret or apply secs. 601–610, 52 Stat. 1007–1012, 62 Stat. 1216; 49 U. S. C. 551–560, Act of July 1, 1948)

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

CALIFORNIA

CLASSIFICATION ORDER

JANUARY 12, 1951.

1. Pursuant to the authority delegated to me by the Director, Bureau of Land Management, by Order No. 427 dated August 16, 1950, I hereby classify under the Small Tract Act of June 1, 1938 (52 Stat. 609), as amended July 14, 1945 (59 Stat. 467, 43 U. S. C. section 682a), as hereinafter indicated, the following described land in the Sacramento, California, land district, embracing approximately 160 acres.

CALIFORNIA SMALL TRACT CLASSIFICATION No. 249

For lease and sale for homesites only:

T. 11 N., R. 8 W., M. D. M.,
Sec. 14, N½SW¼,
Sec. 22, N½NE¼.

This land is in Lake County, California, about 19 miles from Lakeport, the County Seat. It is in an area used extensively by the public for recreational and summer resort purposes. The land is rather inaccessible but can be reached over State Highway No. 29 to Whispering Pines Resort, and thence over dirt roads. No public utilities are available, but there are numerous small business establishments in the vicinity where necessary supplies may be purchased.

2. As to applications regularly filed prior to 8:30 a. m., March 22, 1946, and are for the type of site for which the land is classified, this order shall become effective upon the date it is signed.

3. As to the land not covered by applications referred to in paragraph 2, this order shall not become effective to permit leasing under the Small Tract Act until 10:00 a. m., March 16, 1951. At that time such land shall, subject to valid existing rights, become subject to application as follows:

(a) Ninety-day preference period for qualified veterans of World War II from 10:00 a. m., March 16, 1951, to close of business on June 14, 1951.

(b) Advance period for veterans' simultaneous filings from 8:30 a. m., March 22, 1946, to 10:00 a. m., March 16, 1951.

4. Any of the land remaining unappropriated shall become subject to application under the Small Tract Act by the public generally, commencing at 10:00 a. m., June 15, 1951.

(a) Advance period for simultaneous non-preference filings from 8:30 a. m., March 22, 1946, to 10:00 a. m., June 15, 1951.

5. Applications filed within the periods mentioned in paragraphs 3 (b) and 4 (a) will be treated as simultaneously filed.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their application by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

6. All of the land will be leased in tracts of approximately 5 acres, each being approximately 330 by 660 feet, the longer dimension to extend north and south.

7. Preference right leases referred to in paragraph 2 will be issued for the land described in the application irrespective of the direction of the tract, provided the tract conforms to or is made to conform to the area and the dimension specified in paragraph 6.

8. Where only one five-acre tract in a ten-acre subdivision is embraced in a preference right application, an application for the remaining five-acre tract extending in the same direction will be accepted in order to fill out the subdivision notwithstanding the direction specified in paragraph 6.

9. Leases will be for a period of three years at an annual rental of $5.00 payable for the entire lease period in advance of the issuance of the lease. Leases will contain an option to purchase clause at the appraised value of $10.00 per acre, application for which may be filed at or after the expiration of one year from date the lease is issued.

10. Tracts will be subject to rights-of-way not exceeding 33 feet in width along or near the edges thereof for road purposes and public utilities. Such rights-of-way may be utilized by the Federal Government, or the state, county or municipality in which the tract is situated, or by any agency thereof. The rights-of-way may, in the discretion of the authorized officer of the Bureau of Land Management, be definitely located prior to the issuance of the patent. If not so located, they may be subject to location after patent is issued.

11. All inquiries relating to these lands should be addressed to the Manager, Land Office, Sacramento, California.

FOUNDERS' INSURANCE CO.

CORPORATION ACCEPTABLE AS SURETY ON FEDERAL BONDS

JANUARY 19, 1951.

Under date of January 2, 1951, "Founders' Fire & Marine Insurance Co.", Los Angeles, California, a California Corporation, formally changed its name to that of "Founders' Insurance Company". A copy of the Certificate of Amendment of the Articles of Incorporation, duly certified by the Secretary of State of the State of California has been received and filed in the Treasury.

The change in the name of the company does not affect its status or liability with respect to any obligation in favor of the United States or in which the United States has an interest, which the Founders' Fire & Marine Insurance Co., may have undertaken pursuant to its authority under the act of Congress approved July 30, 1947 (6 U. S. C. 6–13), to qualify as sole surety on such obligations.

Hereafter the name of the company will appear as "Founders' Insurance Company" on Treasury Form No. 356, which shows a list of the companies authorized to act as acceptable sureties on bonds in favor of the United States.

NAVIGATION LIGHTS

CERTIFICATE OF SECRETARY OF NAVY REGARDING AUXILIARY, MISCELLANEOUS (AG146 CLASS) VESSELS

Whereas, section 360, Title 33, United States Code, provides that any requirement as to the number, position, range of visibility or arc of visibility of navigation lights, required to be displayed by naval vessels under Acts of Congress, as enumerated in said section 360, Title 33, United States Code, shall not apply to any vessel of the Navy where the Secretary of the Navy shall find or certify that, by reason of special construction, it is not possible with respect to such vessel or class of vessels to comply with statutory requirements as to the number, position, range of visibility or arc of visibility of navigation lights; and

Whereas a study of the arrangement and position of the navigation lights of that type of naval vessels known as Auxiliary, Miscellaneous, AG146 Class, has been made in the Navy Department and, as a result of such study, it has been determined that because of their construction it is not possible for Auxiliary, Miscellaneous, AG146 Class, to comply with the requirements of the statutes enumerated in said section 360, Title 33, United States Code;

Now, therefore, I, Francis P. Matthews, Secretary of the Navy, as a result of the aforesaid study do hereby find and certify that the type of naval vessels known as Auxiliary, Miscellaneous, AG146 Class, are naval vessels of special construction and that on such vessels, with respect to the position of the masthead light and the additional white light (commonly termed the range light), it is not possible to comply with the requirements of the statutes enumerated in section 360, Title 33, United States Code. Further, I do find and certify as follows:

(a) That it is feasible to locate the aforesaid masthead light in the after part of said vessels approximately two hundred seventy feet abaft the stem.

(b) That it is feasible to locate the additional white light (commonly termed the range light), if such light is installed in any of the aforesaid type of vessels, in the forward part of the vessel and in front of the light referred to in the preceding paragraph.

I direct that the aforesaid lights, that is the masthead light and the additional white light (commonly termed the range light), if such light is installed, shall be located in this type of vessel in the manner above described. I further direct that the two aforesaid lights, referred to in subparagraphs (a) and (b), if both lights are installed, shall be placed in line with the keel and that the after light shall be at least fifteen feet higher than the forward light and that the vertical distance between the two lights shall be less than the horizontal distance. I further certify that such location constitutes compliance as closely with the applicable statutes as I hereby find to be feasible.

Dated at Washington, D. C., this 16th day of January A. D. 1951.

FEDERAL POWER COMMISSION

[Docket Nos. G-1335, G-1407, G-1411, G-1413]

CAROLINA NATURAL GAS CORP. ET AL.

ORDER MODIFYING AND AFFIRMING AS MODIFIED INITIAL DECISION OF PRESIDING EXAMINER, REOPENING PROCEEDING AND FIXING DATE OF HEARING

JANUARY 19, 1951.

In the matters of Carolina Natural Gas Corporation, Docket No. G-1335; Public Service Company of North Carolina, Inc., Docket No. G-1407; Transcontinental Gas Pipe Line Corporation, Docket No. G-1411; Piedmont Natural Gas Company, Inc., Docket No. G-1413.

Carolina Natural Gas Corporation, Public Service Company of North Carolina, Inc., and South Carolina Public Service Commission filed exceptions on December 6, 7 and 8, 1950, respectively, pursuant to § 1.31 of the Commission's general rules and regulations (18 CFR 1.31) to the Examiner's initial decision. The Presiding Examiner's decision had been served upon all parties in accordance with the rules.

The Commission affirms the Presiding Examiner's decision subject to modifications herein set forth and adopts said decision, as so modified, as its final decision as hereinafter ordered.

The decision of the Examiner states that the City of Blacksburg, South Carolina, through its representative, failed to make the minimum showing which should be made in a case of this kind to warrant an allocation of natural gas from Transcontinental Gas Pipe Line Corporation's expansion proposed in this proceeding.

The decision also recites that there is no evidence that the municipality of Blacksburg considers its representative's local distribution project feasible or that the municipality is able to finance such a project, or that it proposes to do what must be done in order to install a municipal gas system. The Examiner concludes that on the basis of the present record, Blacksburg's request for an allocation of gas through its duly authorized representative should be denied.

Similarly, the Examiner would deny natural gas to Piedmont Gas Company, Inc.,[1] South Carolina Electric & Gas Company,[2] and to Laurens, Clinton and Newberry, South Carolina.

We agree with the Examiner that capacity in Transcontinental's proposed pipe-line project should not be reserved

[1] Piedmont Gas Company, Inc., serves the cities of Hickory, Lenoir, Newton, Conover, and Granite Falls, North Carolina.

[2] South Carolina Electric & Gas Company supplies gas in Columbia, S. C.

for the communities to be served by Piedmont Gas Company, Inc., South Carolina Electric & Gas Company, or for Blacksburg, Laurens, Clinton and Newberry on the basis of the present record. Nevertheless, there has been some showing as to the need for natural gas in the several communities in North and South Carolina and we feel that these communities should be afforded further opportunity to submit additional evidence in support of the need for, and feasibility of, the introduction of natural gas in the respective cities. We will so provide in our order herein.

The Examiner in paragraph (G) relating to Docket No. G–1413, provided:

(G) This certificate if further conditioned upon the maintenance by Piedmont Natural, for a period of 45 days from the date hereof,[1] of the offer to transport from Transcontinental's pipeline through Piedmont Natural's proposed Greensboro-Burlington lateral, natural gas for the use and benefit of distributors beyond the City of Burlington, North Carolina, and for such other period thereafter as may be required by the Commission for the purpose of determining the public convenience and necessity for the use of the Greensboro-Burlington lateral for such purpose. If the offer of Piedmont Natural is accepted within the period here specified, Piedmont Natural shall submit a plan or plans for the installation of facilities adequate to permit the use thereof for such purposes. The proceeding in Docket No. G–1413 shall remain open pending the disposition of this portion of Piedmont Natural's application herein (p. 118).

Since the period of time within which Piedmont Natural's offer was to be maintained has expired, we will extend such period for a reasonable time.

The Examiner reopened the proceedings, In the matters of Carolina Natural Gas Corporation, Docket No. G–1335, and Public Service Company of North Carolina, Inc., Docket No. G–1407, to afford the companies an opportunity to file amendments to their applications eliminating therefrom proposals to supply natural gas to Charlotte, Winston-Salem, Greensboro, Salisbury, High Point, and Burlington, North Carolina; and Greenville and Spartanburg, South Carolina. We shall provide herein a date for such further hearing.

One of the questions raised by the exceptions to the Examiner's decision deserves special comment. It is contended that the economic development of the Piedmont Region of the Carolinas requires that service be rendered to the entire area by a single company at uniform city gate rates.

It is true that we have in the past required uniform rates to be charged throughout relatively large areas. Justification for such arrangements lies in the fact that service to each customer is made feasible because of service to the others, and in the principle that utility customers of the same class, receiving the same kind of service under substantially similar circumstances, are entitled to the same rates. Usually individual customers cannot bear the entire cost of a pipeline or any substantial part of it and each, therefore, benefits because the others are served.

Such is not the situation before us. None of the Carolina applicants proposes to construct an integrated pipeline system. Instead there are to be a number of laterals, of varying lengths, from Transcontinental's main transmission line, each serving a single community or a single group of communities. Certainly, it cannot be said that the communities in which Piedmont Natural proposes to distribute natural gas and which are relatively near to Transcontinental's line will receive any benefit because of service to the Carolina communities farther away. Nor are the circumstances under which service is to be rendered substantially similar. Therefore, for us to require the Piedmont Natural communities to bear part of the cost of gas attributable to service to other communities would not be just.

Based upon Piedmont Natural's estimated requirements, the cost of gas to it in the third year would be higher by approximately $589,000, or 8¢ per Mcf, if it is required to purchase gas from Carolina Natural than if it purchased gas directly from Transcontinental. Under the same circumstances, if gas were purchased by Piedmont Natural from Public Service, its cost in the third year would be higher by about $457,000, or 6½¢ per Mcf.

Of course, the cost of gas to some parts of remaining area may be increased somewhat, but this is only because we will not require the cities which Piedmont Natural proposes to serve and which comprise more than half of the population of the entire area proposed to be served to pay what would be, in effect, a subsidy to their less advantageously located neighbors.

Granting a certificate to Piedmont Natural to supply gas to those communities in which it already owns and operates gas distribution systems does not preclude service to the remainder of the area. Both Carolina Natural and Public Service, in their exceptions to the Examiner's decision indicated that, in the event Piedmont Natural is certificated, they will still seek authorization to supply natural gas in the area. We hereinafter provide opportunity for them to make the requisite showing therefor.

The Commission has considered all of the exceptions to the Examiner's decision. To the extent that they are inconsistent with our action herein they should be denied.

The Commission orders:

(A) The decision of the Presiding Examiner filed November 16, 1950, as hereinafter modified, shall become effective as the decision of the Commission as of the date of the issuance of this order, and the consolidated proceeding herein be and the same is hereby reopened for the specific purposes hereinafter set forth:

(i) Carolina Natural Gas Corporation (Docket No. G–1335), and Public Service Company of North Carolina, Inc. (Docket No. G–1407), shall be afforded an opportunity to file amendments to their applications to exclude from their proposals the service of natural gas to Charlotte, Winston-Salem, Greensboro, Salisbury, High Point and Burlington, North Carolina, to Greenville and Spartanburg, South Carolina, and to the several communities which will obtain their natural gas either directly from Transcontinental Gas Pipe Line Corporation or indirectly through local distribution companies by reason of the decision herein. The parties shall be afforded an opportunity to present evidence relevant to such amended applications.

(ii) The record in Docket No. G–1413 shall remain open for a period of 90 days from the issuance of this order, unless otherwise ordered by the Commission, and for said period Piedmont Natural shall maintain its offer to transport from Transcontinental's pipe line through Piedmont Natural's proposed Greensboro-Burlington lateral natural gas for the use and benefit of distributors beyond the City of Burlington, North Carolina. If the offer of Piedmont Natural is accepted within the period here specified, Piedmont Natural shall submit a plan or plans for the installation of facilities adequate to permit use of the lateral for such purposes.

(iii) Piedmont Gas Company, Inc., South Carolina Electric & Gas Company and the Cities of Blacksburg, Laurens, Clinton and Newberry, South Carolina, shall be afforded an opportunity to submit further evidence with respect to the need, desirability and economic feasibility of introduction of natural gas to their respective communities.

(B) Nothing in this order shall be construed to affect in any manner the authorization herein granted, as conditioned, to Transcontinental Gas Pipe Line Corporation, and Piedmont Natural Gas Company, Inc., in the proceedings in Docket Nos. G–1411 and G–1413, respectively.

(C) To the extent that the exceptions filed by the various parties are inconsistent with our action herein they are denied.

(D) The record in this consolidated proceeding be and it hereby is remanded to the Presiding Examiner, heretofore designated, for the limited and sole purpose of hearing and taking of additional evidence on the matters described in paragraph (A), above, and for the rendering of an appropriate decision thereon unless the Commission should otherwise provide by subsequent order.

(E) Pursuant to authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a public hearing concerning the matters referred to in paragraph (A), in the above-entitled consolidated proceedings be held commencing on February 20, 1951, at 10:00 a. m. (e. s. t.), in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, NW., Washington, D. C.

WARWICK GAS CORP. ET AL.

ORDER POSTPONING HEARING

JANUARY 19, 1951.

In the matters of Warwick Gas Corporation, Docket No. G–1476; Bangor Gas Company, Docket No. G–1479; Citizens Gas Company, Docket No. G–1480; Pen Argyl Gas Company, Docket No. G–1481; Crystal City Gas Company, Docket No. G–1501.

By order issued December 21, 1950, and published in the FEDERAL REGISTER on December 28, 1950 (15 F. R. 9358–9359) these proceedings were consolidated and set for hearing to commence on January 30, 1951, at 10:00 a. m., e. s. t.

On January 4, 1951, the Manufacturers Light and Heat Company and Home Gas Company, respondents in these proceedings, filed a joint motion with the Commission requesting a postponement of the hearing herein to a date at least sixty days subsequent to January 30, 1951. In support of the joint motion, respondents state that they are not now, and do not expect to be by January 30, 1951, in a position to determine their gas supply and requirements situation with any degree of certainty and would prefer to have the 1950–1951 winter experience behind them before being placed in the situation of taking any position with reference to having new loads added to their system.

Separate answers to the joint motion were filed on January 10, 1951, by Bangor Gas Company, applicant in Docket No. G–1479; Citizens Gas Company, applicant in Docket No. G–1480; and Pen Argyl Gas Company, applicant in Docket No. G–1480.

The Commission finds: Good cause exists and it would be in the public interest to postpone such hearing to April 2, 1951.

Date of issuance: January 19, 1951.

[Docket No. G–1586]

PITTSBURGH AND WEST VIRGINIA GAS CO. AND EQUITABLE GAS CO.

NOTICE OF APPLICATION

JANUARY 19, 1951.

Take notice that Pittsburgh and West Virginia Gas Company (Pittsburgh), a West Virginia corporation, and Equitable Gas Company (Equitable), a Pennsylvania corporation, each having its principal place of business in Pittsburgh, Pennsylvania, filed on January 11, 1951, a joint application pursuant to section 7 of the Natural Gas Act. Equitable seeks a certificate of public convenience and necessity authorizing the acquisition and operation of all of the natural gas facilities of Pittsburgh, subject to the jurisdiction of the Commission. Pittsburgh seeks authorization under section 7 (b) of the act to abandon, by conveyance and transfer to Equitable, all of its facilities subject to the jurisdiction of the Commission and to terminate service presently rendered by Pittsburgh by means of such facilities. Pittsburgh also seeks authority to terminate and vacate Rate Schedule T–1 of its FPC Gas Tariff, Original Volume No. 1, as of the date Equitable shall acquire the Fittsburgh properties. Equitable requests authority to adopt as its own the Rate Schedules contained in Original Volumes Nos. 1 and 2 of the FPC Gas Tariff of Pittsburgh, other than Rate Schedule T–1, as of the date Equitable shall acquire the property and facilities of Pittsburgh.

The application states that the facilities of Pittsburgh and Equitable are physically interconnected and integrated and are operated as a unified part of the Equitable Gas System. It is stated that the transfer of ownership of the Pittsburgh facilities to Equitable will permit a reduction in operating expenses and the simplification of accounting procedures and reduce the number of reports required to be made to regulatory commissions.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 9th day of February 1951. The application is on file with the Commission for public inspection.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 52-28, 54-183]

PITTSBURGH RAILWAYS CO. AND PHILADELPHIA CO.

SUPPLEMENTAL ORDER GRANTING AND PERMITTING APPLICATIONS-DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 19th day of January 1951.

In the matter of Elmer E. Bauer, Trustee of Pittsburgh Railways Company, Debtor, and Philadelphia Company, File No. 52-28, Philadelphia Company, File No. 54-183.

The Commission, by orders dated March 27, 1950, August 23, 1950, and December 27, 1950 (Holding Company Act Release Nos. 9759, 10058 and 10318), and the United States District Court for the Western District of Pennsylvania, by orders dated May 1, 1950, September 15, 1950, and December 29, 1950, having approved a plan ("Combined Plan") which was filed jointly by Elmer E. Bauer ("Bauer"), Trustee of Pittsburgh Railways Company ("Railways"), Debtor, and by Philadelphia Company, a registered holding company, for the reorganization of the Railways system under Chapter X of the Bankruptcy Act and section 11 (f) of the Public Utility Holding Company Act of 1935 ("Holding Company Act") and for the discharge, pursuant to section 11 (e) of the Holding Company Act of Philadelphia Company's guarantees affecting certain securities of companies included in the Railways system; and

Said orders of the Commission having also granted and permitted to become effective applications and declarations with respect to the transactions involved in consummation of said Combined Plan, including the issuance of bonds in the aggregate principal amount of $5,853,750 by the reorganized company ("New Company"), subject, among others, to the conditions specified in Rule U-24 of the rules and regulations promulgated under the Holding Company Act; and

Applicant-declarant, Bauer, having filed, pursuant to said Rule U-24, a post effective amendment to said applications-declarations in connection with said Combined Plan, wherein it is proposed to eliminate the issuance by New Company of any bonds in the denomination of $250 and instead to pay cash to those persons who would otherwise be entitled to new bonds in the face amount of $250, thus reducing by $4,250 the aggregate amount of new bonds to be issued; and

The Commission having examined the proposed modifications and finding with respect to said applications-declarations, as further amended, that the requirements of the Combined Plan, the applicable provisions of the Holding Company Act, and the rules thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said applications-declarations, as further amended, be granted and permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-24 and the applicable provisions of the Holding Company Act, that the said applications-declarations, as further amended, be, and the same hereby are, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 19th day of January A. D. 1951.

In the matters of Consolidated Natural Gas Company, The Peoples Natural Gas Company, New York State Natural Gas Corporation, and Hope Natural Gas Company, File No. 70-2325; Consolidated Natural Gas Company, Hope Natural Gas Company. File No. 70-2499.

Notice is hereby given that amendments to previous joint applications-declarations have been filed pursuant to the Public Utility Holding Company Act of 1935 by Consolidated Natural Gas Company ("Consolidated"), a registered holding company, and its subsidiaries, The Peoples Natural Gas Company ("Peoples"), New York State Natural Gas Corporation ("New York State") and Hope Natural Gas Company ("Hope").

Notice is further given that any interested person may, not later than January 30, 1951, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said amendments to the joint applications-declarations proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. At any time after January 30, 1951, such amendments to the joint applications-declarations may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C.

All interested persons are referred to the amendments to said joint applications-declarations which are on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized below:

Consolidated has heretofore issued to certain banks an aggregate of $20,000,000 of its 2 percent promissory notes pursuant to the Loan Agreement dated February 1, 1950, and the Supplemental Agreement dated July 14, 1950; and, in turn, 2 percent promissory notes of subsidiaries have been issued to Consolidated as follows:

Peoples	$8,000,000
New York State	10,000,000
Hope	2,000,000
	20,000,000

The said Loan Agreement and Supplemental Agreement and the said notes issued by subsidiaries provide an ultimate maturity at March 15, 1955, but, as set forth in the Commission's order of March 10, 1950, and supplemental order of September 6, 1950, in the above file, further approval must be secured in order to continue such notes in effect beyond March 15, 1951.

The General Financial Plan set forth in the joint applications-declarations contemplates that the said notes will be continued in effect and permanently refinanced along with other notes which may be issued by Consolidated in connection with its present construction program. In accordance with present estimates, it is contemplated that refinancing of said notes will not take place until after March 15, 1952, at the earliest.

The above subsidiary companies have each given notice to Consolidated of intention to continue this interim financing in effect to March 15, 1952; and Consolidated likewise intends to give notice to the banks pursuant to the said Loan Agreements that it will continue its said outstanding notes in effect to March 15, 1952. All companies are reserving the right to continue the notes in effect beyond March 15, 1952, if at that time this course becomes advisable and is approved by the Commission.

In addition, Hope has heretofore issued to Consolidated its 2% promissory note in the face amount of $2,500,000 with an ultimate maturity of March 15, 1955, but, as set forth in the Commission's order of November 29, 1950, further approval must be secured in order to continue such note in effect beyond March 15, 1951.

The note is related to the General Financial Plan indicated above and will be continued in effect until the refinancing of the notes issued by Consolidated pursuant to File No. 70-2325.

Hope has given notice to Consolidated of intention to continue this interim financing in effect to March 14, 1952, but is reserving the right to continue the note in effect beyond March 15, 1952, if at that time this course becomes advisable and is approved by the Commission.

Consolidated and its above subsidiaries have requested the Commission to enter its order permitting all of the above outstanding promissory notes to be continued in effect to March 15, 1952.

By the Commission.

[File No. 70-2492]

AMERICAN NATURAL GAS CO. AND MICHIGAN CONSOLIDATED GAS CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION WITH RESPECT TO FEES AND EXPENSES

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 19th day of January, A. D. 1951.

American Natural Gas Company ("American Natural"), a registered holding company, and its public utility subsidiary, Michigan Consolidated Gas Company ("Michigan Consolidated"), having filed a joint application-declaration and amendments thereto with respect to the issue and sale, pursuant to competitive bidding requirements of Rule U-50, by Michigan Consolidated of $20,000,000 principal amount of First Mortgage Bonds, the issue and sale by Michigan Consolidated to American Natural of 428,574 shares of additional common stock, the retirement by Michigan Consolidated of its outstanding bank loan notes issued under the credit agreement dated August 23, 1950, and the cancellation of such credit agreement; and

The Commission having by orders issued November 6 and November 14, 1950, respectively, granted and permitted to become effective said application-declaration as amended; and

The Commission, because of the incompleteness of the record at the date of said orders with respect to the fees and expenses to be incurred and paid in connection with the proposed transactions, having reserved jurisdiction with respect to such fees and expenses; and

The record having been subsequently completed with respect to such fees and expenses, and it appearing that the fees and expenses to be paid are estimated at an aggregate of $166,500 as follows:

SEC registration fee	$2,100
Federal revenue stamps	28,600
Michigan Public Service Commission fee	26,000
Michigan Corporation and Securities Commission	2,900
Printing and engraving:	
S-1, U-1, indentures, etc	38,000
Bonds	6,000
Trustee: Authentication and delivery fees and expenses (temporary and definitive pieces)	15,000
Accounting Fee of Arthur Andersen & Co	4,500
Fee of Ralph E. Davis, petroleum and natural gas engineer	2,500
Counsel fees:	
Dyer, Angell, Meek & Batten	10,000
Clare J. Hall	1,500
Clifford B. Longley	500
James W. Williams	500
Sidley, Austin, Burgess & Smith	16,000
Mortgage recording and title expense	5,000
Miscellaneous	7,400
	166,500

It also appearing that the fees of Chadbourne, Hunt, Jaeckel & Brown, independent counsel, to be paid by the purchaser of the bonds are estimated at $12,500; and

The Commission having examined the record as so made with respect to the fees and expenses to be incurred and paid, and it appearing that such fees and expenses are not unreasonable if they do not exceed the estimates, and the Commission deeming it appropriate to release jurisdiction with respect to the payment of such fees and expenses:

It is ordered, That the jurisdiction reserved in the orders issued November 6 and November 14, 1950, respectively, with respect to the fees and expenses to be incurred and paid in connection with the proposed issue and sale of securities, the retirement of debt and cancellation of credit agreement be, and it hereby is, released.

By the Commission.

[Vesting Order 16462]

J. M. VOITH ET AL.

In re: Patent applications and interests in patents and patent applications owned by J. M. Voith and others, including United States Letters Patent No. 2,289,440.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That J. M. Voith, whose last known address is Heidenheim an der Brenz, Germany, is a partnership organized under the laws of Germany, with its principal place of business in Germany and is a national of a foreign country (Germany);

2. That each of the persons whose names are set forth in the column headed "Inventors" in Exhibit A, attached hereto and by reference made a part hereof, each of whose last known address is Germany, is a resident of Germany and a national of a foreign country (Germany);

3. That the property described as follows:

(a) All right, title and interest, including all accrued royalties and all damages and profits recoverable at law or in equity from any person, firm, corporation or government for past infringement thereof, in and to the United States Letters Patent the numbers of which are listed in Exhibit A attached hereto and by reference made a part hereof, and the titles of which stand of record in the United States Patent Office in the names of the persons appearing opposite the respective numbers listed therein;

(b) The applications for United States Letters Patent listed in Exhibit A, attached hereto and by reference made a part hereof, together with the entire right, title and interest throughout the United States and its territories in and to, including the right to file applications in the United States Patent Office for Letters Patent for, the inventions shown or described in such applications, which applications stand of record in the United States Patent Office in the names of the persons appearing opposite the respective numbers of such applications for United States Letters Patent,

is property of the persons referred to in subparagraphs 1 and 2 hereof, the aforesaid nationals of a foreign country (Germany);

4. That the property described as follows: All right, title and interest and claim of whatsoever kind or nature of J. M. Voith, Germany, and also of all other persons (including individuals, partnerships, associations, corporations or other business organizations) who are residents of, or which are organized under the laws of, or have their principal place in, Germany, and are nationals of such foreign country, in, to and under the following:

(a) The United States Letters Patent listed in Exhibit B, attached hereto and by reference made a part hereof, including all accrued royalties and all damages and profits recoverable at law or in equity from any person, firm, corporation or government for past infringement thereof,

(b) The applications for United States Letters Patent listed in Exhibit C, attached hereto and by reference made a part hereof, together with the entire right, title and interest throughout the United States and its territories in and to, including the right to file applications in the United States Patent Office for Letters Patent for, the inventions shown or described in such applications,

is property of the persons referred to in paragraphs 1 and 4 hereof, the aforesaid nationals of a foreign country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The term "national" as used herein shall have the meaning prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 15, 1950.

For the Attorney General.

ADOLPH RENSCH ET AL.

In re: Real property and property insurance policies owned by Adolph Rensch and others. D-28-12941.

Under the authority of the Trading With the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Adolph Rensch, Martha Rensch, Anna Noriki, Bertha Ludicke, and Helen Heider, each of whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the personal representatives, heirs, next-of-kin, legatees and distributees, names unknown, of Ottilie Mickel, deceased, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That the property described as follows:

a. Real property situated in the City and County of Philadelphia, and State of Pennsylvania, particularly described in Exhibit A, attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property, and

b. All right, title, interest and claim of the persons named in subparagraph 1 hereof and the persons referred to in subparagraph 2 hereof in and to any and all insurance policies which insure the improvements on the real property described in subparagraph 3-a hereof,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

4. That to the extent that the persons named in subparagraph 1 hereof and the persons referred to in subparagraph 2 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 3-a hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, and

There is hereby vested in the Attorney General of the United States the property described in subparagraph 3-b hereof,

All such property so vested to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

VOLUME 16 NUMBER 18

Washington, Friday, January 26, 1951

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10207

ESTABLISHING THE PRESIDENT'S COMMISSION ON INTERNAL SECURITY AND INDIVIDUAL RIGHTS

By virtue of the authority vested in me as President of the United States, it is ordered as follows:

1. There is hereby established in the Executive Office of the President a commission to be known as the President's Commission on Internal Security and Individual Rights, which shall be composed of a Chairman, a Vice Chairman, and seven other members, all of whom shall be designated by the President.

2. (a) The Commission shall make a thorough study of the problem of providing for the internal security of the United States and at the same time protecting the rights and freedoms of individuals. The Commission shall consider how this problem should be met by Government action and by private action. Among other things, the Commission shall examine the laws, practices, and procedures concerning protection against treason, sabotage, espionage, and other matters affecting the internal security of the Nation; and the Commission shall consider the operation of and any need for changes in such laws, practices, and procedures. The subjects considered by the Commission shall include the Government employee loyalty program and the Government employee security program. The Commission shall also consider the need for protecting individuals from unwarranted attacks and from unwarranted infringement of their rights and liberties in the name of security.

(b) The Commission shall make a report to the President of its findings and conclusions (to be preceded by such interim reports as it may find desirable), and shall make such recommendations for legislative, administrative, or other action as it deems appropriate.

3. In carrying out its functions under this order, the Commission shall prescribe its own rules of procedure. The Commission may hold such public hearings and hear such witnesses as it may determine, and it may, in connection with matters relating to Federal employees, examine any and all records and files relating to individual cases in possession of any executive department or agency. All executive departments and agencies of the Federal Government are authorized and directed to cooperate with the Commission in its work and to furnish the Commission such information and assistance, not inconsistent with law, as it may require in the performance of its functions. The Commission shall take appropriate measures to protect the security or confidential character of any security-classified information or information of a confidential nature submitted to it or examined by it.

4. The expenditures of the Commission shall be paid out of an allotment made by the President from the appropriation "Executive Office of the President—Emergencies (National Defense)". Such payments shall be made without regard to the provisions of (a) section 3681 of the Revised Statutes of the United States (31 U. S. C. 672), (b) section 9 of the act of March 4, 1909, 35 Stat. 1027 (31 U. S. C. 673), and (c) such other laws as the President may hereafter specify.

5. Thirty days after the presentation of its final report to the President, the Commission shall cease to exist unless the President shall otherwise direct.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

PART 6—ROTORCRAFT AIRWORTHINESS

Correction

Paragraph 1 of the correction (16 F. R. 545) to Federal Register Document 50-11710 (15 F. R. 8905), should read:

1. In § 6.1 (b) (3) the last sentence should read: "The propulsion is independent of the rotor system and usually consists of conventional propellers."

[Supp. 7, Amdt. 64]

PART 60—AIR TRAFFIC RULES

DANGER AREA ALTERATIONS

The danger area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required. Title 14, § 60.13-1 is amended as follows:

1. A Milford, Delaware, area is added to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
MILFORD (Washington Chart).	A circular area with a 3 mile radius, centered at lat. 38°54'00" N, long. 75°30'00" W.	Surface to 20,000 feet.	Daylight hours only (when ceiling is at least 3,000 feet and visibility is 3 miles or better).	ComNab, 4th Naval District, Atlantic City NAS, N. J.

2. The Camp Atterbury, Indiana, area, published on April 21, 1949, in 14 F. R. 1913, and amended on May 26, 1950, in 15 F. R. 3180, and on June 27, 1950, in 15 F. R. 4112, is revised to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
CAMP ATTERBURY (Cincinnati Chart).	N boundary: lat. 39°31'30" N; long. 86°12'00" W; E boundary: lat. 39°30'00" N; S boundary: lat. 39°13'00" N; W boundary: long. 86°06'00" W.	Surface to unlimited.	Continuous...	24 Army, Camp Atterbury, Ind.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. and Sup., 357), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR 141.1 et seq., and 1949 Supp.; 15 F. R. 9446) and certification of batches of antibiotic and antibiotic-containing drugs (21 CFR 146.1 et seq., and 1949 Supp.; 15 F. R. 9464) are amended as indicated below:

1. Part 141 is amended by adding the following new section:

§ 141.407 *Bacitracin-tyrothricin ointment.* Proceed as directed in § 141.402. Its content of bacitracin is satisfactory if it contains not less than 85 percent of the number of units per gram it is represented to contain.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

2. a. The headnote of § 146.30 and the first and third sentences of paragraph (a) are amended to read:

§ 146.30 *Penicillin troches*—(a) *Standards of identity, strength, quality, and purity.* Penicillin troches are troches composed of sodium penicillin, calcium penicillin, potassium penicillin, procaine penicillin, or crystalline penicillin O and one or more suitable or harmless diluents, binders, and lubricants, with or without one or more suitable and harmless local anesthetics, chemical antimicrobial agents, masticatory substances, colorings, and flavorings. • • • The sodium penicillin, calcium penicillin, crystalline penicillin O, or potassium penicillin used conforms to the requirements of § 146.24 (a) except the limitation on penicillin K content and except subparagraphs (1), (2), and (4) of § 146.24 (a), but the potency is not less than 300 units per milligram. • • •

b. Section 146.30 (c) (1) (ii) and (iii) are amended to read:

(c) *Labeling.*
(1) • • •
(i) • • •

(ii) The number of units of penicillin, and if it contains a local anesthetic or a chemical antimocrobial agent the quantity of each in each troche of the batch; and

(iii) The statement "Expiration date ----------," the blank being filled in, if crystalline penicillin, procaine penicillin, or crystalline penicillin O is used, with the date which is 12 months after the month during which the batch was certified, except if the person who requests certification has submitted to the Commissioner results of tests and assays showing that after having been stored for 18 months at room temperature such drug as being prepared by him complies with the standards prescribed by paragraph (a) of this section, the blank shall be filled in with the date which is 18 months, or if crystalline penicillin, procaine penicillin, or crystalline penicillin O is not used, with the date which is 9 months after the month during which the batch was certified.

c. Section 146.30 (c) (2) (i) is amended to read:

(i) If crystalline penicillin, procaine penicillin, or crystalline penicillin O is not used, the statement "Store in refrigerator not above 15° C. (59° F.)," or "Store below 15° C. (59° F.)";

d. Section 146.30 (c) (3) is amended to read:

(3) On the label and labeling, wherever the name penicillin troches appears:
(i) Immediately preceding such name, if a masticatory substance is present, the word "chewing" or "masticatory"; and
(ii) Immediately following such name, if a local anesthetic and/or a chemical antimicrobial agent are present, the words "with ----------," the blank being filled in with the common or usual name of each such other ingredient present.

e. Section 146.30 (d) (2) (ii) is amended to read:

(d) *Request for certification; samples.*
• • •
(2) • • •
(ii) The penicillin used in making the batch; potency, toxicity, moisture, pH, crystallinity if it is crystalline penicillin, heat stability if it is crystalline sodium penicillin, potassium penicillin, or crystalline penicillin O; the penicillin G content if it is crystalline sodium penicillin G, potassium penicillin G, or crystalline penicillin O; the procaine penicillin G content if it is crystalline procaine penicillin G, and the penicillin O content if it is crystalline penicillin O.

3. Section 146.40 (a), third sentence, is amended to read:

§ 146.40 *Penicillin bougies* • • •.—(a) *Standards of identity, strength, quality, and purity.* • • • Its moisture content is not more than 1.0 percent, except if it contains procaine penicillin, its moisture content is not more than 2.0 percent. • • •

4. Section 146.47 (c) (2) is amended to read:

§ 146.47 *Procaine penicillin for aqueous injection.* • • •
(c) *Labeling.* • • •
(2) On the outside wrapper or container, if it is the aqueous suspension of the drug, the statement "Store in refrigerator not above 15° C. (59° F.)," or "Store below 15° C. (59° F.)."

5. a. In § 146.57 *Procaine penicillin and streptomycin in oil* • • • paragraph (a) *Standards of identity, etc.* is amended by renumbering subparagraphs (2) and (3) as (3) and (4), respectively, and by inserting the following new subparagraph between subparagraph (1) and renumbered subparagraph (3):

(2) It may contain one or more suitable sulfonamides, each of which, if its name is recognized in the U. S. P. or N. F., conforms to the standards prescribed therefor by such official compendium.

b. In § 146.57 (a) renumbered subparagraph (3) is amended to read:

(3) In lieu of the directions prescribed for procaine penicillin in oil by § 146.45 (c) (1) (ii) and (iv) each package shall bear on the outside wrapper or container and on the immediate container the number of units of penicillin per milliliter, the number of milligrams of streptomycin or dihydrostreptomycin per milliliter, if it contains one or more sulfonamides the quantity of each, the statement "For udder instillations of cattle only," and if it is a multiple-dose container, "Shake well." Each package shall also bear on its label and labeling, if sulfonamides are present, after the name "Procaine penicillin and streptomycin in oil," or "Procaine penicillin and dihydrostreptomycin in oil," wherever it appears, the words "with sulfonamides," in juxtaposition with such name.

6. Section 146.101 (a) (1) is amended by changing the figure "300" to read "650".

7. Section 146.103 (a) (1) is amended by changing the figure "600" to read "650".

8. In § 146.402 (a), the first three sentences are amended to read:

§ 146.402 *Bacitracin ointment*—(a) *Standards of identity, strength, quality, and purity.* Bacitracin ointment is bacitracin in a suitable and harmless ointment base or it is powder composed of bacitracin and one or more suitable and harmless diluents, dispersing agents, and preservatives, which, upon the addition of the quantity of water recommended in its labeling, produces an ointment. Its potency is not less than 500 units per gram. Its moisture content is not more than 1 percent, except if it is a powder its moisture content is not more than 5 percent. • • •

b. In § 146.402 (b), the first two sentences are amended to read:

(b) *Packaging.* If it is bacitracin in an ointment base it shall be packaged in collapsible tubes, which shall be well-closed containers as defined by the U. S. P., and which shall not be larger than the 2-ounce size, except if it is labeled solely for hospital use; but in no case shall such ointment be packaged in containers other than collapsible tubes if it is labeled for ophthalmic use, and such tubes shall not be larger than the ⅛-ounce size. If it is a powder, it shall be packaged in immediate containers of glass which meet the tests for tight containers as defined by the U. S. P. • • •

c. Section 146.402 (c) (1) (ii) is amended to read:

(c) *Labeling.* (1) • • •
(ii) The number of units per gram of the batch, or if it is a powder, the number of units per gram after the addition of the quantity of water recommended in its labeling;

d. Section 146.402 (c) (1) is amended by changing the period at the end of subdivision (iii) to "; and", and by adding the following new subdivision:

(iv) If it is a powder, the statement "After the addition of water the ointment may be stored in refrigerator for 1 week without significant loss of potency."

9. Part 146 is amended by adding the following new section:

§ 146.407 *Bacitracin-tyrothricin ointment.* (a) Bacitracin-tyrothricin ointment conforms to all requirements prescribed by § 146.402 for bacitracin ointment, and is subject to all procedures prescribed by § 146.402 for bacitracin ointment, except:

(1) It contains not less than 0.5 milligram of tyrothricin per gram of ointment.

(2) In lieu of the directions prescribed for bacitracin ointment by § 146.402 (c) (1) (ii), each package shall bear on the outside wrapper or container and on the immediate container the number of units of bacitracin and the number of milligrams of tyrothricin in each gram of the batch.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

Those parts of this order which provide for the addition of one or more suitable and harmless chemical antimicrobial agents to penicillin troches, for the certification of crystalline penicillin O troches, for a change in the moisture limitation for procaine penicillin bougies from 1 percent to 2 percent, for the optional use of one or more suitable sulfonamides as an ingredient in procaine penicillin and streptomycin in oil and procaine penicillin and dihydrostreptomycin in oil, for a change in the minimum potency for streptomycin from 300 micrograms per milligram to 650 micrograms per milligram, for a change in the minimum potency for dihydrostreptomycin from 600 micrograms per milligram to 650 micrograms per milligram, for certification of a new form of bacitracin ointment, and for certification of bacitracin-tyrothricin ointment, shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industries will benefit by the earliest effective date, and I so find.

That part of this order which provides for a modification of the storage statement required to appear on the containers of aqueous suspensions of procaine penicillin shall become effective 120 days after publication in the FEDERAL REGISTER.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with the interested members of the affected industries and since it would be against public interest to delay providing for the addition of one or more suitable and harmless chemical antimicrobial agents to penicillin troches, for the certification of crystalline penicillin O troches, for a change in the moisture limitation for procaine penicillin bougies from 1 percent to 2 percent, for the optional use of one or more suitable sulfonamides as an ingredient in procaine penicillin and streptomycin in oil and procaine penicillin and dihydrostreptomycin in oil, for a change in the minimum potency for streptomycin from 300 micrograms per milligram to 650 micrograms per milligram, for a change in the minimum potency for dihydrostreptomycin from 600 micrograms per milligram to 650 micrograms per milligram, for certification of a new form of bacitracin ointment, and for certification of bacitracin-tyrothricin ointment.

Dated: January 19, 1951.

Administrator.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 1—PRACTICE AND PROCEDURE

MISCELLANEOUS AMENDMENTS

In the matter of revision of FCC Form 404–A. Application for Non-Scheduled Aircraft Radio Station License, and the amendment of Part 1 of the Commission's rules.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of January 1951;

The Commission having under consideration the revision of F. C. C. Form 404–A, Application for Non-Scheduled Aircraft Radio Station License, and the amendment of "Table showing Forms Currently in Effect and Where They Are Referred to in Part 1 of the Rules and Regulations" and §§ 1.318 (b) (4), 1.319 (b) (5), and 1.320 (c) (7) of the Commission's Rules; and

It appearing, that certain editorial changes have been made for the purpose of clarification and the deletion of certain other questions the answers to which are no longer required by the Commission; and

It further appearing, that processing of applications will be expedited by combining the application (FCC Form 404–A) and authorization (FCC Form 453–A) both of which will be completed by the applicant and upon approval by the Commission the authorization portion will be authenticated and returned to the applicant as his official station license; and

It further appearing, that the nature of the revision of the form is such as to render unnecessary the notice and procedure provided for in section 4 of the Administrative Procedure Act; and

It further appearing, that authority to make the changes in the form is contained in sections 303 (r) and 308 (b) of the Communications Act of 1934, as amended:

It is ordered, That, effective immediately, FCC Form 404–A, Application for Non-Scheduled Aircraft Radio Station License, is revised as set forth in the attachment hereto[1]; and

It is further ordered, That, effective immediately, Part 1 of the Commission's rules is amended as set forth below:

1. Amend "Table showing forms currently in effect and where they are referred to in Part 1 of the rules and regulations" as follows:

Change "404–A -------- 1.320 (c) (8)" to read "404–A -------- 1.320 (c) (7)."

2. Delete present language of § 1.318 (b) (4) and substitute:

(4) FCC Form 404–A, "Application For Private Aircraft Radio Station License".

3. Delete present language of § 1.319 (b) (5) and substitute:

(5) FCC Form 404–A, "Application For Private Aircraft Radio Station License".

[1] Filed as part of the original document.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter C—Management of Wildlife Conservation Areas

PART 34—SOUTHEASTERN REGION

SUBPART—PIEDMONT NATIONAL WILDLIFE REFUGE, GEORGIA

QUAIL HUNTING

Basis and purpose. It has been determined from observation and reports that there are seasonal surpluses of quail on the Piedmont National Wildlife Refuge that can best be utilized through public hunting and that the regulations heretofore in effect have been unnecessarily restrictive for the conducting of such public hunts.

Inasmuch as the following regulations are relaxations of the present restrictions governing hunting on the Piedmont National Wildlife Refuge, publication prior to the effective date thereof is not required. (60 Stat. 237, 5 U. S. C. 1001 et seq.)

1. Effective immediately upon publication in the FEDERAL REGISTER, §§ 34.131 and 34.132 are hereby revised to read as follows:

§ 34.131 *Quail hunting permitted.* Until further notice the controlled public hunting of quail is permitted in accordance with State laws and regulation at such time and under such restrictions as are determined annually by the officer in charge of the Piedmont National Wildlife Refuge to be in accord with the proper management of wildlife on the Refuge, subject to the provisions of Parts 18 and 21 of this chapter and §§ 34.132 to 34.139, inclusive.

§ 34.132 *Areas open to hunting.* Such areas of the Piedmont National Wildlife Refuge as are determined by annual inventory by the officer in charge of the Refuge to have a surplus population of quail may be opened by such officer in charge by suitably posting such areas.

2. Effective immediately upon publication in the FEDERAL REGISTER, §§ 34.134 to 34.136, inclusive, are deleted and in lieu thereof the following sections are added:

§ 34.134 *Hunting licenses.* Any person who hunts within the Refuge shall be in possession of a valid State hunting license, if such license is required, and when requested to do so shall exhibit it to any State or Federal officer authorized to enforce the game laws of Georgia or of the United States. Upon request of any such officer, the licensee must also exhibit for inspection all game killed by him or in his possession.

§ 34.135 *Special hunting permits.* Each person hunting on the Refuge shall first have received a permit from the officer in charge of the Refuge specifying the area and period in which the hunting may be conducted, and such other conditions as such officer may require for properly regulating the hunt.

§ 34.136 *Dogs.* Each person hunting for quail on the public shooting grounds will be permitted to take his dogs, not to exceed two in number, upon the Refuge, but such dogs will not be permitted to roam uncontrolled on the public shooting grounds or elsewhere on the Refuge.

(Sec. 10, 45 Stat. 1224; 16 U. S. C. 715i)

Dated: January 19, 1951.

O. H. JOHNSON,
Acting Director.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—National Production Authority, Department of Commerce

[NPA Order M-1, as Amended January 22, 1951]

PART 20—IRON AND STEEL

This amendment to Order M-1 is found necessary and appropriate to promote the national defense and is issued pursuant to authority granted by section 101 of the Defense Production Act of 1950. In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

This amendment affects NPA Order M-1 as amended December 1, 1950, as follows:

(a) It amends §§ 20.1, 20.2, 20.3, 20.4, 20.5, 20.6, 20.7, 20.8, 20.10, 20.11, 20.16; it adds §§ 20.12, 20.13. It renumbers the sections where necessary. As amended, this part (M-1) is revised to read as follows:

Sec.

20.1 What this part does.
20.2 Forms of iron and steel products to which this part applies.
20.3 Required shipment dates.
20.4 Rejection of rated orders (lead time).
20.5 Product limitation for acceptance of rated orders.
20.6 Conditions for acceptance of rated orders.
20.7 Changes in lead time.
20.8 Allotments for further conversion.
20.9 Extension of ratings for further conversion of steel products.
20.10 NPA assistance in placing rated orders.
20.11 Scheduled programs.
20.12 Minimum orders.
20.13 Inventories.
20.14 Application for adjustment or exception.
20.15 Communications.
20.16 Reports.
20.17 Records.
20.18 Audits and inspection.
20.19 Violations.

AUTHORITY: §§ 20.1 to 20.19 issued under sec. 704, Public Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong., sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105.

§ 20.1 *What this part does.* This part applies particularly to producers of iron and steel and provides rules for placing, accepting, and scheduling rated orders for iron and steel. Its purpose is to provide equitable distribution of rated orders among all iron and steel producers of the particular products in order to make possible maximum production and to reduce to a minimum disruption of normal distribution. It makes provision for required acceptance of rated orders based on a percentage of previous shipments, and provides for allotment, and maximum inventories. It supplements NPA Regulations 1 and 2 (Parts 10 and 11 of this chapter), but only those provisions of Regulations 1 and 2 which are inconsistent with this part are superseded, and all other provisions of those regulations continue to apply to the iron and steel industry.

§ 20.2 *Forms of iron and steel products to which this part applies.* The iron and steel products to which this part applies are set out in Table I at the end of this part. Table I also sets out the lead time (days) and product limitation for acceptance of rated orders. This part also applies to all second quality materials and shearings and material sorted or salvaged from steel scrap and sold for other than remelting purposes.

§ 20.3 *Required shipment dates.* A rated order for iron or steel in any of the forms listed in Column A of Table I must specify shipment on a particular date or in a particular month, which, in no case, may be earlier than required by the person placing the order. The producer of iron or steel must schedule the order for shipment within the requested month as close to the requested shipment date as is practicable considering the need for maximum production.

§ 20.4 *Rejection of rated orders (lead time).* A producer of iron or steel in a form listed in Column A of Table I need not accept a rated order which is received by him less than the number of days (lead time) set forth in Column B of Table I prior to the first day of the month in which shipment is requested, unless specifically directed to accept such order by the National Production Authority.

§ 20.5 *Product limitation for acceptance of rated orders.* Unless specifically directed by NPA, no iron or steel producer shall be required to accept rated orders for shipment from any one producing unit regardless of location in any one month in excess of the percentages set forth in Column C of Table I, of his average monthly shipments of the products listed in said column, as made by him during the period from January 1, 1950, through August 31, 1950. Where no percentage limitation is set forth as to any product, it is expected that the amount of such product to be called for by rated orders will be relatively small.

§ 20.6 *Conditions for acceptance of rated orders.* Unless otherwise specifically directed by the National Production Authority, and subject to the provisions of Part 11 of this chapter (NPA Regulation 2), each iron or steel producer shall be required to accept rated orders calling for shipment in any one month from any one of his producing units regardless of location, of products listed in Column A of Table I up to the amount of the percentages listed in Column C of Table I of his average monthly shipments of such products from that producing unit during the period from January 1, 1950, to August 31, 1950. Where no percentage is listed in Column C, in regard to any iron or steel product, each iron or steel producer shall be required to accept all rated orders served upon him, subject to the provisions of Part 11 of this chapter (NPA Regulation 2), unless otherwise specifically directed by the National Production Authority.

§ 20.7 *Changes in lead time* (a) If an iron or steel producer would have an open space on his production schedule created by the difference between the lead time of forty-five days as established by this part as originally issued or as subsequently amended, and a longer lead time as established by § 20.4, he shall continue to accept rated orders to fill such open space on his production schedule, on the basis of a lead time of forty-five days, before he applies the newly established longer lead time. In filling such open space on his production schedule, as above referred to, an iron or steel producer shall be governed by the product limitation percentage appearing in Column C of Table I.

Example: Under the previously established lead time of 45 days, a steel producer would, up to December 17, 1950, accept DO rated orders for shipment in February 1951. Where a lead time has been increased to 120 days, he would, up to January 31, 1951, accept DO rated orders for shipment in June 1951. In the application of this example, the steel producer would continue to accept DO rated orders for shipment in March and April 1951, on a 45-day lead time until he had arrived in any one month at the product limitation percentage of that product as set forth in Column C, of Table I. Thereafter, he would conform to the new lead time of 120 days for shipment in the succeeding months.

(b) In the example in paragraph (a) of this section, if the product limitation percentage under Column C of Table I as to that particular iron or steel product has been increased from 5 percent to 10 percent, the iron or steel producer should accept DO rated orders up to the amount of the new product limitation percentage figure, commencing with shipments for the month of March, 1951, and should continue at that new figure thereafter.

§ 20.8 *Allotments for further conversion.* A steel producer who buys from another steel producer a steel product listed under the heading "Steel Mill Products" in Column A of Table I (herein called "steel mill products"), and by further processing converts, for resale, the purchased steel into another steel mill product is engaged in further conversion. For the purpose of this section, the steel producer who sells a steel mill product for further conversion shall be called a producer supplier and the steel producer engaged in further conversion shall be called a converter. Each producer supplier shall make a monthly allotment of his production of each steel mill product that remains after shipments on DO ratings and NPA Directives to each of his converter customers. Such monthly allotment shall be at least equal to that percentage of his available production so remaining, as the producer supplier's shipments to each converter customer bore to his total shipments, during the base period, from January 1, 1950, through September 30, 1950. A producer supplier must accept orders placed by his converter customer up to the limit of his allotment: *Provided, however,* That such orders are placed in accordance with the lead times in Column B of Table I. Shipments under such allotments shall be made in addition to shipments to the same converter customer pursuant to authorized extension of DO ratings. Orders placed under the provisions hereof must be for substantially the same product as was supplied to each such converter during such period, except for minor variations in size and design. In determining the amount of the monthly allotments, adjustments may be made by a producer supplier, with the consent of the converter involved, to provide for any abnormal situations which affect any steel products.

§ 20.9 *Extension of ratings for further conversion of steel products.* All DO ratings extended for the purpose of further conversion of steel products shall have the symbol FC added to the two-digit designation following the prefix DO on the order.

§ 20.10 *NPA assistance in placing rated orders.* Any person who is unable to place a rated order for iron or steel due to the limitations imposed by §§ 20.5 and 20.6 should apply to the NPA, Iron and Steel Division, Reference Order M-1, specifying the producers who refused to accept the order. The NPA will arrange to assist him in locating other sources of supply.

§ 20.11 *Scheduled programs.* NPA will from time to time approve scheduled programs calling for the production and delivery of iron and steel products for stated purposes, over specified periods of time. Upon approval of major programs of this type, supplements to this part will be issued describing such programs and specifying the manner in which they are to be carried out by the iron and steel industry. Thereafter, directives will be issued to individual concerns establishing schedules for their participation in such programs. Such directives shall be complied with by the recipients in accordance with the terms thereof, unless otherwise directed by NPA.

§ 20.12 *Minimum orders.* The minimum orders that may be placed with DO ratings or under NPA directives are set out in Table II at the end of this part. The minimum quantity for each size and grade of any item for shipment at any time to any one destination is listed opposite the appropriate item. If all other requirements of this part have been met, orders for such minimum quantities shall be accepted.

§ 20.13 *Inventories.* In addition to the provisions of Part 10 of this chapter (NPA Reg. 1), relating to Inventory Control, it is considered that a more exact requirement applying to users of iron or steel products is necessary. No person obtaining iron or steel products for use in manufacture, processing or construction, may receive or accept delivery of a quantity of iron or steel products if his inventory is, or by such receipt would become, in excess of that necessary to meet his deliveries or supply his services on the basis of his scheduled method and rate of operation pursuant to this part during the succeeding 45-day period, for steel products, gray and malleable iron castings, and 30-day period for pig iron, or in excess of a practicable minimum working inventory (as defined in NPA Reg. 1), whichever is less. For the purpose of this section, iron and steel products listed in Table I in which only minor changes or alterations have been effected shall be included in inventory. NPA Reg. 1 will apply to iron and steel products except as modified by this section. Said 45-day limitation does not apply to persons who order structural steel for use in construction (including buildings, bridges and other structures of a like type) and who order it delivered cut to the specifications required for a specific project and who normally keep such steel segregated for the specific project. Instead, no such person may accept delivery of such steel more than 45 days before it is scheduled to be fabricated or, if it is not to be further fabricated, before it is scheduled to be assembled.

§ 20.14 *Application for adjustment or exception.* Any person affected by any provision of this part may file a request for adjustment or exception upon the ground that his business operation was commenced during or after the base period, or because any provision otherwise works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or its enforcement against him would not be in the interest of the national defense or in the public interest. In considering requests for adjustment claiming that the public interest is prejudiced by the application of any provision of this part, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

§ 20.15 *Communications.* All communications concerning this part shall be addressed to National Production Authority, Washington 25, D. C., Ref: M-1.

§ 20.16 *Reports.* Persons subject to this part shall make such records and submit such reports to the NPA as it shall require, subject to the terms of the Federal Reports Act (P. L. 831, 77 Cong., 5 U. S. C. 139–139F). All reporting and record-keeping requirements of this part have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942. In accordance with this section all steel producers are required to report on "NPAF–13—Steel Producers Report of Orders Accepted for DO ratings and programs" the orders accepted bearing DO ratings and orders resulting from programs made effective by NPA directives; and on "NPAF–17—Steel Producers' Monthly Report of Shipments and Past Due Orders" the record of the shipments and past due orders by DO ratings and programs made effective by NPA directives.

§ 20.17 *Records.* Each person participating in any transaction covered by this part shall retain in his possession for at least two years records of receipts, deliveries, inventories, and use, in sufficient detail to permit an audit that determines for each transaction that the provisions of this part have been met. This does not specify any particular accounting method and does not require alteration of the system of records customarily maintained, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

§ 20.18 *Audit and inspection.* All records required by this part shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of the NPA.

§ 20.19 *Violations.* Any person who wilfully violates any provisions of this part or any other order or regulation of NPA or wilfully conceals a material fact or furnishes false information in the course of operation under this part is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

This part as amended shall take effect on January 22, 1951.

NATIONAL PRODUCTION AUTHORITY,
[SEAL] W. H. HARRISON,
Administrator.

TABLE II—MINIMUM ORDERS THAT MAY BE PLACED ON STEEL MILLS, STEEL AND IRON FOUNDRIES, STEEL FORGE SHOPS AND MERCHANT PIG IRON PRODUCERS FOR THE PRODUCTS SPECIFIED

(Special grades, shapes, specifications, processes, and similar factors must be handled by negotiation)

Name of product	Minimum quantity for each size and grade of any item for shipment at any one time to any one destination
STEEL MILL PRODUCTS	
Carbon and low-alloy steel:	
Ingots, blooms, billets, slabs, and tube rounds, sheet bars, skelp, etc., rerolling quality	25 net tons.
Blooms, billets, and slabs, forging quality	Product of 1 ingot.
Wire rods, hot-rolled	5 net tons.
Structural shapes	5 net tons.
Plates:	
Rolled armor	By negotiation.[1]
Continuous strip mill production	10 net tons.
Sheared, universal, or bar mill production	3 net tons.
Rails	5 net tons.
Track accessories (joint bars, tie plates, track spikes)	5 net tons.
Bars, hot-rolled:	
Projectile and shell quality	Product of 1 heat.[2]
Round bars up to and including 3" and squares, hexagons, half rounds, ovals, etc., of approximately equivalent sectional area	5 net tons.
Round and square bars over 3" to but not including 8"	15 net tons.
Bar size shapes (angles, tees, channels and zees under 3")	5 net tons.
Bars, cold finished	3 net tons.
Bars, tool steel	500 pounds.
Pipe, published carload minimum (mixed sizes and grades)	
Tubing:	
Seamless cold-drawn (O. D. in inches):	
Up to ¾" inclusive	1,000 feet.
Over ¾" to 1½" inclusive	800 feet.
Over 1½" to 2" inclusive	600 feet.
Over 2" to 6" inclusive	400 feet.
Over 6"	250 feet.
Seamless hot-rolled	By negotiation.[1]
Welded	By negotiation.[1]
Wire rods. (See above.)	
Wire, drawn, for further fabrication and manufacturing:	
Low-carbon	1 net ton.
High-carbon (0.40 carbon and higher):	
0.0475" and heavier	1 net ton.
Under 0.0475" to 0.021" inclusive	1,000 pounds.
Under 0.021"	500 pounds.
Wire merchant trade products, assorted	5 net tons.
Tin mill products—any 1 gauge	5,000 pounds.
Sheet, hot- and cold-rolled	5 net tons.
Strip, hot- and cold-rolled	3 net tons.
Stainless steel: No minimum on standard grades and sizes. For unusual grades or sizes the minimum order is to be worked out by negotiation.[1]	
Full alloy steel:	
Ingots	Product of 1 heat.[2]
Billet, projectile and shell quality	By negotiation.[1]

Name of product	Minimum quantity for each size and grade of any item for shipment at any one time to any one destination
STEEL MILL PRODUCTS—continued	
Full alloy steel—Continued	
Blooms, slabs, billets (except projectile and shell quality) tube rounds, sheet bars, etc.:	
7" square (or equivalent cross sectional area) and under	5 net tons.
Larger than 7" square (or equivalent cross sectional area)	10 net tons.
Both of the above may be modified because of a mill's ingot size and/or rolling schedules.	
Wire rods	5 net tons.
Structural shapes	By negotiation.[1]
Plates:	
Rolled armor	By negotiation.[1]
Other, whether rolled on continuous strip, sheared, universal or bar mill.	10 net tons.
(A steel producer need not accept an order unless the total quantity ordered is sufficient to make a heat of steel or unless ingots or slabs are available in stock or unless similar material is regularly being produced.)	
Rails	By negotiation.[1]
Wheels	By negotiation.[1]
Axles	By negotiation.[1]
Bars, hot-rolled, projectile and shell quality	By negotiation.[1]
Bars, hot-rolled, other:	
Rounds and squares 3½" and smaller	5 net tons.
Rounds and squares larger than 3½"	By negotiation.[1]
Hexagons and flats	5 net tons.
Bars, cold-finished	3 net tons.
Bars, tool steel	500 pounds.
Oil-country goods	By negotiation.[1]
Mechanical tubing	5 net tons.
Pressure tubing	By negotiation.[1]
Sheet and strip	By negotiation.[1]
STEEL CASTINGS (UNMACHINED)	
High alloy and stainless (heat and corrosion resisting)	(3).
Carbon and low-alloy	(3).
STEEL PRODUCTS, FABRICATED	
Forgings (rough as forged)	By negotiation.[1]
Wire rope and strand	1,000-foot lengths.
Welded wire mesh	Full rolls of manufacturers' standard stock sizes.
Netting	Full rolls of manufacturers' standard stock sizes.
IRON PRODUCTS	
Pig iron	Car load.
Gray iron castings, excluding soil and pressure pipe and fittings (unmachined)	(3).
Malleable castings (unmachined)	(3).

[1] "By negotiation" means negotiation between the mill and its customer. If no acceptable arrangements are worked out, the NPA should be notified.
[2] "1 heat" means one batch of metal made in 1 furnace.
[3] 2,000 pounds or less from any 1 pattern or mold, or a minimum production run by the producing foundry even though the delivery from such minimum run may cause the consumers' inventory to exceed the 45-day minimum stated in § 20.13.

[NPA Order M–22, as Amended Jan. 23, 1951]

PART 26—ALUMINUM

SUBPART C—DISTRIBUTION OF ALUMINUM SCRAP

This amendment to NPA Order M–22 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950. In the formulation of this order, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. However, consultation with representatives of all trades and industries affected in advance of the issuance of this order has been rendered impracticable due to the necessity for immediate action and because the order affects a large number of different trades and industries.

This amendment affects NPA Order M–22 as follows:

It amends §§ 26.52 (d), 26.52 (e), and 26.56 (a); a new section, 26.58 is added; §§ 26.58, 26.59, 26.60, and 26.61 are redesignated to be §§ 26.59, 26.60, 26.61, 26.62; a new effective date is added, Lists A and B are designated §§ 26.63 and 26.64 respectively.

As amended this part reads as follows:

Sec.
26.51 What this subpart does.
26.52 Definitions.
26.53 Restrictions on use of aluminum scrap.
26.54 Restrictions on distribution of aluminum scrap.
26.55 Segregation of aluminum scrap.
26.56 Restrictions on toll agreements.
26.57 No acquisition or delivery in violation of order.
26.58 Request for designation as approved user of aluminum scrap.
26.59 Applications for adjustment.
26.60 Records and reports.
26.61 Communications.
26.62 Violations.
26.63 List A—Aluminum smelters.
26.64 List B—Aluminum fabricators.

AUTHORITY: §§ 26.51 to 26.64 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong.; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105.

§ 26.51 *What this subpart does.* The primary purpose of this subpart is to regulate the segregation, acceptance, delivery and distribution (whether on purchase, toll agreement or otherwise) of aluminum scrap. The subpart also prohibits undue accumulations of such scrap.

§ 26.52 *Definitions.* As used in this subpart:

(a) "Person" means any individual, corporation, partnership, association or any other organized group of persons and

includes any agency of the United States or any other government.

(b) "Aluminum scrap" means all materials or objects which are the waste or by-product of industrial fabrication, or which have been discarded on account of obsolescence, failure or other reason, the principal ingredient of which by either weight or volume is metallic aluminum either of domestic generation or imported in either loose or pig form, and shall include all types and grades of aluminum residues, such as drosses, skimmings, fines, grindings, sawings and buffings: *Provided, however,* That the recoverable metallic aluminum content, as determined by fire assay, hydrogen evolution or other method of comparable efficiency, constitutes 50 percent or more by weight of such residues.

(c) "Producer" means the following prime producers: Aluminum Company of America, Reynolds Metals Company, and Kaiser Aluminum and Chemical Corporation; and such other producers of metallic aluminum who may be designated by the National Production Authority from time to time.

(d) "Approved smelter" means any person whose name appears in § 26.63 *List A* and also any person whose name is added to said List following a determination by the National Production Authority that he is qualified as an "Approved smelter" on the basis of the facilities and technical resources available to him which are mentioned in § 26.58.

(e) "Approved fabricator" means any independent fabricator whose name appears in § 26.64 *List B* and also any person whose name is added to said List following a determination by the National Production Authority that he is qualified as an "Approved fabricator" on the basis of the facilities and technical resources available to him which are mentioned in § 26.58.

(f) "Dealer" means any person regularly engaged in the business of buying and selling aluminum scrap.

(g) "Generator of aluminum scrap" means any person who in manufacture or fabrication produces aluminum scrap.

§ 26.53 *Restrictions on use of aluminum scrap.* (a) Unless specifically authorized in writing by the National Production Authority, no person, other than a producer, approved smelter or approved fabricator shall melt, reprocess, smelt or otherwise use aluminum scrap: *Provided, however,* That a foundry may remelt the gates, sprues, risers and defective castings resulting from its own operations if in so doing it does not debase or contaminate the material, and if, in acquiring aluminum, it reduces the requirements contained in its orders to its suppliers by an amount equal to the anticipated recoverable metal; a foundry may also accept on a return a new casting of its own production which was found to be defective, or use a casting that was spoiled in machining, and recast such castings to replace castings of the same alloy.

(b) The National Production Authority may, from time to time, issue directives: (1) To producers, smelters, fabricators and others who are permitted to melt or use aluminum scrap, which directives may specify the exact alloy or alloys which must be produced therewith and the amount of such alloy or alloys, and may prohibit the production of certain alloys; (2) prescribing the amount of secondary ingot that all fabricators (both independent and integrated) will be required to blend with primary ingot in the production of fabricated shapes; and (3) designating certain smelters who will be the only smelters permitted to receive and melt scrap of specified alloys or who will be the only smelters permitted to produce specified alloys. Directives with respect to the foregoing may contain directions as to the production schedule of the persons to whom they are issued.

§ 26.54 *Restrictions on distribution of aluminum scrap*—(a) *Delivery by scrap owners and originators.* Except as provided in § 26.53 (a) or as specifically authorized in writing by the National Production Authority, any person (other than a producer, approved smelter, approved fabricator or dealer) who owns or originates any aluminum scrap shall deliver such scrap to any producer, approved smelter, approved fabricator or dealer and shall not dispose of such scrap in any other way.

(b) *Time of delivery.* Except as provided in § 26.53 (a) or as specifically authorized in writing by the National Production Authority, any person who generates or holds any aluminum scrap shall deliver such scrap to any producer, approved smelter, approved fabricator or dealer at intervals not longer than required to accumulate a minimum carload or at intervals not exceeding 60 days, whichever shall first occur.

(c) *Time of delivery by dealers.* Except as specifically authorized in writing by the National Production Authority, every dealer shall deliver any aluminum scrap (whether or not deemed to be usable in its "as is" form) to any producer, approved smelter or approved fabricator at intervals not longer than required to accumulate a minimum carload or at intervals not exceeding 60 days, whichever shall first occur: *Provided, however,* That any dealer may sell any such scrap to another dealer, if, in the regular course of business, he does not collect sufficient scrap to make it practicable for him to sell directly to a producer, approved smelter or approved fabricator.

§ 26.55 *Segregation of aluminum scrap.* (a) Any generator of aluminum scrap must segregate such scrap by alloy and shall not mix scrap of one alloy with any other alloy or material: *Provided, however,* That this segregation requirement does not apply to skimmings, drosses, grindings, buffings and sawings.

(b) Any dealer receiving aluminum scrap in segregated form must maintain such segregation.

§ 26.56 *Restrictions on toll agreements.* (a) No aluminum scrap shall be delivered or received pursuant to any existing or future toll, conversion or repurchase agreement or any similar arrangement unless the person delivering or owning the scrap or the person for whose benefit the processing of the scrap will be effected has received approval in writing from National Production Authority for such transaction: *Provided, however,* That genuine aluminum billet butts and other mill scrap generated by an extruded shape manufacturer may be returned to an extrusion ingot supplier for conversion into extrusion ingots.

(b) Persons requesting such approval shall file with the National Production Authority a letter setting forth: the names and addresses of the parties to any existing or proposed toll, conversion or repurchase agreement; the kind, grade and form of the scrap involved; the tonnage of the scrap and the estimated tonnage of the aluminum resulting; the estimated rate and dates of delivery of such aluminum; the length of time such agreement or other similar agreement between the same parties has been in force; the duration of the agreement; the purpose for which such aluminum is to be used; and such other information as the applicant may wish to submit.

§ 26.57 *No acquisition or delivery in violation of order.* No person shall acquire or deliver aluminum scrap or products made therefrom if he knows or has reason to believe that such material has been or will be used in violation of this or of any other order of the National Production Authority: *Provided, however,* That any producer, approved smelter or approved fabricator may acquire aluminum scrap for any use permitted by this subpart whether or not the person from whom it is acquired has complied with this subpart.

§ 26.58 *Request for designation as approved user of aluminum scrap.* (a) Any smelter or fabricator who in the course of his regular operations melts, reprocesses, smelts or otherwise uses aluminum scrap may request the National Production Authority to add his name to § 26.63 *List A* or § 26.64 *List B*, as the case may be. The names of applicants found to be qualified will be added to the appropriate list.

(b) Any person other than a smelter or a fabricator who uses aluminum scrap in his regular operations (such as an aluminum foundry, chemical plant, steel mill, etc.) may request the National Production Authority for an authorization to use aluminum scrap in connection with such operations. Any person determined by the National Production Authority to be qualified will be specifically authorized to use certain types of aluminum scrap for stated purposes.

(c) Any request under paragraph (a) or (b) of this section should be made by letter addressed to the National Production Authority stating: (1) The length of time the applicant has used aluminum scrap in his operations; (2) the nature of applicant's operations involving the use of such scrap and a description of the product that will result therefrom; (3) a description of the plant facilities and equipment available to applicant for preparing, maintaining segregation of, melting, smelting, fabricating or otherwise processing such scrap; (4) a description of the facilities available to applicant for metallurgical or chemical controls over such scrap, such as laboratory and physical testing equipment, and spectrographic controls; (5) general information regarding the experience and qualifications of personnel engaged in the preparation, and metallurgical or chemical controls over the use of such scrap; and (6) such other information as the applicant may wish to submit.

§ 26.59 *Applications for adjustment.* Any person affected by any provision of this subpart may file a request for adjustment or exception upon the ground that any provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. All such requests shall be addressed to the National Production Authority, Washington 25, D. C., Ref: M–22. In considering requests for adjustment claiming that the public interest is prejudiced by the application of any provision of this subpart, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

§ 26.60 *Records and reports.* (a) Each person participating in any transaction covered by this subpart shall retain in his possession for at least two years records of receipts, deliveries, inventories, and use, in sufficient detail to permit an audit that determines for each transaction that the provisions of this subpart have been met. This does not specify any particular accounting method and does not require alteration of the system of records customarily maintained, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals.

(b) All records required by this subpart shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of the National Production Authority.

(c) All persons, including producers, smelters, and others authorized by the National Production Authority, who melt or smelt any aluminum scrap, shall file with the Department of the Interior, Bureau of Mines, Washington 25, D. C., in duplicate, report Form 6–1114–M. Such report shall be filed on or before January 15, 1951, and on or before the 15th day of each month thereafter with respect to the preceding month.

(d) Persons subject to this subpart shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act (Pub. Law 831, 77th Cong., 5 U. S. C. 139–139F).

§ 26.61 *Communications.* Except as provided in § 26.59 (c), all communications concerning this subpart shall be addressed to the National Production Authority, Washington 25, D. C., Ref: M–22.

§ 26.62 *Violations.* Any person who wilfully violates any provision of this subpart or any other order or regulation of the National Production Authority in the course of operation under this subpart is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NATIONAL PRODUCTION AUTHORITY,
[SEAL] W. H. HARRISON,
Administrator.

[F. R. Doc. 51–1454; Filed, Jan. 25, 1951; 12:18 p. m.]

[NPA Order M–14 as Amended Jan. 23, 1951]

PART 32—NICKEL

This amendment to NPA Order M–14 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950. In the formulation of this order, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. However, consultation with representatives of all trades and industries affected in advance of the issuance of this order has been rendered impracticable due to the necessity for immediate action and because the order affects a large number of different trades and industries.

This amendment affects NPA Order M–14 as follows:

A new paragraph (f) is added to § 32.2; § 32.3 is amended, new §§ 32.6 and 32.14 are added; §§ 32.6, 32.7, 32.8, 32.9, 32.10, 32.11, and 32.12 are redesignated to be §§ 32.7, 32.8, 32.9, 32.10, 32.11, 32.12, and 32.13, respectively, and all references are changed accordingly.

As amended, this part reads as follows:

Sec.
32.1 What this part does.
32.2 Definitions.
32.3 Nickel forms and products to which this part applies.
32.4 Application of part.
32.5 Use of nickel.
32.6 Prohibited uses of nickel.
32.7 Maintenance, repair and operating supplies.
32.8 Exemptions.
32.9 Inventories.
32.10 Application for adjustments.
32.11 Records and reports.
32.12 Communications.
32.13 Violations.
32.14 List A.

AUTHORITY: §§ 32.1 to 32.14 issued under sec. 704, Pub. Law 774, 81st Cong. Interpret or apply sec. 101, Pub. Law 774, 81st Cong., sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105.

§ 32.1 *What this part does.* The purpose of this part is to describe how the primary nickel remaining after allowing for the requirements of national defense may be distributed to the civilian economy. It is the policy of the National Production Authority that primary nickel, not required to fill rated orders, shall be distributed equitably through normal channels of distribution, and that due regard shall be given by sup-

pliers to the needs of new and small business. It is the intent of this part that other materials which are not in short supply will be substituted for nickel wherever possible.

§ 32.2 *Definitions.* As used in this part:

(a) "Person" means any individual, corporation, partnership, association or any other organized group of persons and includes any agency of the United States or any other government.

(b) "Base period" means the six months period ending June 30, 1950.

(c) "Consume" means to melt, alloy, mix, electrodeposit, process or otherwise alter nickel as defined by this order by physical or chemical means.

(d) "Maintenance" means the minimum upkeep necessary to continue a building, machine, piece of equipment or facility in sound working condition, and "repair" means the restoration of a building, machine, piece of equipment or facility to sound working condition when the same has been rendered unsafe or unfit for service by wear and tear, damage, failure of parts or the like: *Provided, however,* Neither maintenance nor repair includes the improvement of any such item with material of a better kind, quality or design.

(e) "Operating supplies" means any forms of nickel listed in § 32.3 which are normally carried by a person as operating supplies according to established accounting practice and are not included in his finished product, except that materials included in such product which are normally chargeable to operating expense may be treated as operating supplies.

(f) "Manufacture" means to put into process, machine, fabricate, electroplate, clad, or otherwise alter materials by physical or chemical means.

§ 32.3 *Nickel forms and products to which this part applies.* (a) The word "nickel" as used in this part means only the following forms of primary nickel: electrolytic nickel, ingots, pig, rolled and cast anodes, shot, oxides, salts, chemicals and residues derived directly from new nickel including residues containing nickel derived as a by-product from copper refinery operations.

(b) "Stainless Steel", as used in this part, means chromium-nickel iron base alloys, wrought or cast, containing 6 percent to 22 percent inclusive of nickel, commonly referred to as "austenitic chromium-nickel stainless steel".

(c) "High Nickel Alloy", as used in this part, means ferrous and non-ferrous alloys, wrought or cast, containing more than 22 percent nickel.

(d) "Nickel Silver", as used in this part, means non-ferrous alloys, wrought or cast, containing 8 percent or more nickel.

(e) "Nickel Plating", as used in this part, means all plating regardless of plating procedure.

§ 32.4 *Application of part.* Subject to the exemptions stated in § 32.8, this part applies to all persons who consume nickel in manufacture, processing or construction, or who use nickel for maintenance, repair or operating supplies. This part does not apply to suppliers of nickel in the forms listed in § 32.3.

§ 32.5 *Use of nickel.* Subject to the exemptions stated in § 32.8, or unless specifically directed by the National Production Authority, no person shall consume in manufacture, processing or construction during the first calendar quarter of 1951 a quantity of nickel by weight in excess of 65 percent of his average quarterly consumption of nickel for such purposes during the base period: *Provided, however,* That his consumption of nickel in any one month shall not exceed 40 percent of the permitted use during said quarter.

§ 32.6 *Prohibited uses of nickel.* (a) Commencing on March 1, 1951, no person shall: (i) Consume nickel as defined in § 32.3, secondary nickel, or nickel bearing scrap containing 6 percent or more nickel in the production of any Nickel Silver or Nickel Plating items included in § 32.14 *List A* except as indicated therein; or (ii) use any such forms of nickel or any alloys containing nickel in the manufacture of any of said items included in § 32.14 *List A* except as indicated therein. Notwithstanding the foregoing, any such items may be completed if they were in the process of production or manufacture on or before February 28, 1951 and such completion is effected not later than April 30, 1951. Commencing on April 1, 1951, no person shall: (i) Consume nickel as defined in § 32.3, secondary nickel, or nickel bearing scrap containing 6 percent or more nickel in the production of any Stainless Steel or High Nickel Alloy items included in § 32.14 *List A* except as indicated therein; or (ii) use any such forms of nickel or any alloys containing nickel in the manufacture of any of said items included in § 32.14 *List A* except as indicated therein. Notwithstanding the foregoing, any such items may be completed if they were in the process of manufacture or production on or before March 31, 1951 and such completion is effected not later than May 31, 1951. Any items included in § 32.14 *List A* which are completed, in the case of Nickel Silver and Nickel Plating items not later than April 30, 1951, and in the case of Stainless Steel and High Nickel Alloy items not later than May 31, 1951, may be sold after said dates, respectively.

(b) No person may use in construction any Stainless Steel, High Nickel Alloy, Nickel Silver or Nickel Plating for any item included in § 32.14 *List A* after May 31, 1951: *Provided, however,* That this prohibition will not apply to the use of said forms of nickel in any such item if its manufacture or processing was completed within the time limits specified by this section.

(c) Commencing on March 1, 1951, no person may consume or use; (i) in the manufacture of any item, including components and parts therefor, a greater quantity of nickel or an alloy containing a greater percentage of nickel than is necessary for the functional operation of such item; or (ii) any nickel or nickel bearing materials in the manufacture of any item for decorative or ornamental purposes.

(d) The prohibitions of this section apply notwithstanding the provisions of Part 11 of this chapter (NPA Reg. 2) with respect to the filling of rated orders, and are not affected by any of the exemptions stated in § 32.8.

§ 32.7 *Maintenance, repair and operating supplies.* Unless specifically directed by the National Production Authority, no person shall consume for maintenance, repair or operating supplies during the calendar quarter commencing on January 1, 1951, and each calendar quarter thereafter, a quantity by weight in excess of his average quarterly consumption of nickel for such purposes during the base period.

§ 32.8 *Exemptions.* (a) The consumption of nickel to fill an order that is rated under the priorities system established by NPA Reg. 2, or to meet any mandatory order of the National Production Authority, is permitted in addition to the consumption of nickel authorized by the provisions of §§ 32.5 and 32.7.

(b) Nickel acquired by a rated order, or to meet a scheduled program of the National Production Authority, may be used in addition to the quantities permitted by the provisions of §§ 32.5 and 32.7

(c) The provisions of §§ 32.5 and 32.7 do not apply to persons who use less than 250 lbs. of nickel during any calendar quarter: *Provided, however,* That persons who by reason of the provisions of § 32.5 would be permitted to use less than 250 lbs. during any calendar quarter may use during such period a quantity up to 250 lbs.

§ 32.9 *Inventories.* In addition to the provisions of Part 10 of this chapter (NPA Reg. 1), relating to Inventory Control, it is considered that a more exact requirement applying to consumers of nickel is necessary. No person obtaining nickel for use in manufacture, processing or construction, or for maintenance, repair, or operating supplies, may receive or accept delivery of a quantity of nickel if his inventory is, or by such receipt would become, in excess of that necessary to meet his deliveries or supply his services on the basis of his scheduled method and rate of operation pursuant to this part during the succeeding 30 day period, or in excess of a "practicable minimum working inventory" (as defined in Part 10 of this chapter (NPA Reg. 1)), whichever is less. For the purpose of this section, the forms of nickel listed in § 32.3 in which only minor changes or alterations have been effected shall be included in inventory. Part 10 of this chapter (NPA Reg. 1) will apply to nickel except as modified by this section.

§ 32.10 *Application for adjustments.* Any person affected by any provision of this part may file a request for adjustment or exception upon the ground that his business operation was commenced during or after the base period, or because any provision otherwise works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment claiming that the public interest is prejudiced by the application of any provision of this part, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing and shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.
